****EXCERPT****

“That was not terribly good,” he said. “We'll need so much more practice. But right now I think you need a sort of overview.” He stood back.

“Stand up,” he said.

I stood up, and reached again to my face to wipe away some of the mess, and he slapped my hand away again. “Do only what I say, nothing more, nothing less.”

His voice was still perfectly calm, as though he were talking about the weather, or giving an order at a restaurant. It was chillingly sexy.

I stood in front of him, as he turned around me, looking at my ass, my breasts, my thighs.

“Are you a virgin?” he asked.

I looked at him incredulously. “What?”

“I meant your ass,” he said.

“Oh god,” I said. I remembered the girth of his cock. “No, I can't do that.”

I felt his hand on my back, along my spine, not brutal, but calmly forceful like his voice. He pushed me onto the table, face down. “I think you'd be surprised what you can do, Joanna. Put your hands flat on the desk.”

I obeyed, but I was starting to think I really needed to find some way out of here. I had never done this before.

Out of nowhere he produced a tube of lubricant. "I'm a thoughtful guy," he commented. "Is James thoughtful? Does James remember to use lube when he fucks you in the ass?"

I turned and looked behind me.

He slapped me on the ass, as hard as anyone has ever spanked me before. "I like it when you say thank you, for that," he told me.

A wave of satisfaction rippled through me.

I liked being told what to do, I was discovering.

I liked being subservient.

If James did something like that it would make me laugh.

"Thank you," I said. My own submissive voice was turning me on.

But I was still worried about the next part. "I don't – I don't think I can - "

He hit me on the ass again, and I gasped in pleasure and pain.

"You can shut your mouth now," he said. "You can open it for my cock, or you can open it because you need to tell me how much you like it when I fuck you."

He pushed my skirt up, and pulled my panties down. I knew he would be pleased to see that, again, my underwear was wet with my lust. Because let's face it: Luca Pacione was hot.

I felt the cool touch of the lubricant on my anus.

But he didn't wait long before he pushed his finger inside of me.

I was so surprised I did nothing but let my mouth hang open. He fingered me for a bit, moving in and out, and I bit my lip. I tried to give myself over to the sensation. It was so foreign to me, I couldn't decide if I liked it or not. But a different kind of pleasure was starting to burn between my legs.

He moved his finger in and out. "That's nice and tight, honey. I like that. It's so hot, and soft. I can't believe he's never gone here. It's because he's such a pussy, isn't it?"

I started to squirm, both because I was hot now, and craving him inside of me, but also because the pain made me twist in agonizing pleasure.

He slid tip of his cock from my pussy to my anus. "You're ready for me now?"

I started making whimpering noises as he began to push forward, but he didn't stop. He wasn't going to stop until he had what he wanted, and

what he wanted was to fuck me and make me scream.

He pushed in slowly at first, his hand on my back, pushing me into the desk. I wriggled and squirmed and tried to push myself up from the desk, but he grabbed my hands easily with one arm and pinned them behind me, his cock still an inch into me.

“I want you to feel this. I want you to remember every inch of my cock sliding into you. Every inch,” he said. “I own your ass for a while, Joanna.”

This made a ripple of pleasure slice through me. It wasn't so much that *he* owned me, it was that he was humiliating the hell out of my husband by owning me. I started to think about how I would tell James all about this in bed, and how his face would crumble when I told him how much I liked getting fucked in the ass by his boss.

He was slowly, slowly – so painfully and excruciatingly - pushing into me. It seems as though it took forever, with my legs dangling over the side of the desk. But my fantasies were keeping me distracted from the pain. Fantasies of making James watch us. Making him pay for being such a loser. Making him see what it was like to really fuck a woman.

Finally his the base of his cock hit my ass, and it was thicker and spread me open even further. I gasped and began to sob over the desk. But truthfully now the pain was a little less agonizing, it was even starting to feel strangely pleasurable.

He held me there like that until I calmed down, and just lay on the desk, panting.

Surrendering.

“That's it,” he said. “That's it, that's the way to do it at first. Just take it like a good girl.”

He started to move, slowly at first, but then faster and faster, ramming himself deep inside of me. The pain had begun to subside, and I learned to relax, giving over to his will. I could hear his thighs slapping against my ass.

But just as I was getting comfortable, starting to enjoy his long, hard cock moving roughly inside my ass, he pulled out all the way. I felt his hands cupping my ass-cheeks, and he inserted his thumbs into my anus, pulling it open. I could feel it throbbing and pulsing. “Arch your back a little, Joanna. Get that ass up in the air a little more.”

I complied, and before I knew what was happening he thrust into me again. My ass had tightened up again and so the same pain returned and I screamed. He pulled out again, and then I understood that he meant to keep doing this to maximize the punishment.

But thinking about that, and thinking about his enjoyment as he watched me squirm, made me want him to do it even more.

I don't know how long he was at this, pulling himself out, watching my asshole contract and tighten, then ripping me apart as he plunged in again and again, listening to me scream and moan. I was sweating all over and lying as limply as I could on the desk when he thrust deep inside of me, so deep this time that I felt as though I were being impaled. He let me squirm beneath him, and I whimpered a little, but because he stayed inside me I had time to push against his cock, open up, and the searing pain turned to a dull ache. It almost started feeling good again, and his cock was rubbing me to a near-orgasm through my flesh.

He pushed my hair up over my head, and leaned down to my ear. "Now you're going to work for me, sweetheart. Move that ass, move it until I come."

He was pushing against me, into the desk, so that his cock was as deep inside of me as it could go. I squirmed, trying to figure out how I could move. Finally I managed, with great effort, to slide back and forth a little on his cock. "That's it," he said. "Keep that up."

I started moving, but it was hard work, and the pain of his thick cock in my ass started making me hotter. I couldn't position myself to get enough pressure on my clit, to make myself come, even though I wanted it desperately now.

"Faster," he said, slapping my ass.

I moved as fast as I could, pushing myself harder and harder against his cock in spite of the pain, as I could feel it swelling and hardening more and more, pulsing and close to orgasm.

He very suddenly pushed me down onto the desk, and held me so that I could not move.

It took me a second to realize what had happened.

"Oh look who it is," Pacione said. He was taunting someone.

It was almost too good to be true.

I looked up, just in time to see James walking through the door.

Legally Hotwife

I realize a lot of people will read this story and think I'm a terrible person. They'll read about all the humiliating things I did to my husband, with his boss, and they'll think I'm a mean, mean wife.

But in my defense (because I'm a defense attorney): he's a pretty pathetic husband. I'd been putting up with his inadequacies for ten long years before any of this happened, and this was pretty much the last straw in a big pile of hay, if you know what I mean.

He was bad in bed. It's hard to explain why. His cock was pretty small, but it wasn't just that. It was like his personality for fucking was as small as his dick. A girl wants to be *taken* once in a while, you know? But even if he tried to do that, it was sort of a disaster.

Also, how hard is it, after years with the same piece of equipment, to find a woman's clitoris and figure out, even sort of, what to do with it?

But I put up with all the bad in the bedroom, because, well...he wasn't all that bad compared to so many other guys. I could fake an orgasm. I could get myself off after he fell asleep snoring like a big dumb oaf. It just

wasn't worth discussing, either, because he would just break down and start crying like a girl if I told him.

After a few years it was too late, anyway.

There were other things, of course. When I married him he showed some promise as an attorney. Wow, did that go downhill. He was an ambulance chaser for a few years, but even in a state with Personal Injury Protection coverage out the ying-yang (which is a gold mine for crappy ambulance chasing attorneys), he still couldn't make a decent living. Too spineless. Too *nice*.

Luckily for us all, I am an attorney, too. And I was making great money. (I'll get to the "was" of that sentence in a bit.)

So really: I *was* a nice person. I was married to a guy who was getting flabby in his late thirties, and hadn't gone anywhere with his career, and who didn't have a clue how to fuck me properly. I sometimes wondered what the point of being married to him was at all. He mowed the lawn, I suppose – but he sort of did a bad job at even that.

I probably would have kept on putting up with all of this, if it hadn't been for my husband's own stupidity.

So you might say that everything that happened after that – it's his own fault.

As usual.

This began on a sunny, pleasant day. I had the windows down, and I was driving home from work early. Thinking, in fact, about James and how I could be nicer to him. Making an effort, you might say, to be a better wife to my pathetic excuse of a husband.

As I pulled up to the driveway, I saw him sort of hunched on a car, looking scared. For a second I thought maybe he ran over the cat or some equally stupid thing that only he could manage, because on top of all his other problems, he was a bad driver.

Then I saw *them*.

I pulled into the driveway slowly, and they moved with hostility. They stared me down until one of them recognized me.

"Mrs. Collins?"

Arnie, the guy who was talking to my husband, was truly surprised. So was I.

This was an extremely...incongruous meeting.

Arnie and his buddy, whose name I'd forgotten, standing in my driveway.

I had met these guys at a strange barbecue I went to at the request of Alissa Gadolfo, a former student of mine. She had been eternally grateful for my help getting her through the fly-by-night law school I taught at (to make up for James' pathetic salary). Alissa hadn't really deserved to pass my class, but I knew she was related to a variety of frightening people, and I figured she'd be breaking the law all the time and didn't need to know it that well anyway.

I hadn't wanted to go to her "barbecue," but she had invited me in a pretty aggressive way.

Plus, her family was *in the mob*.

I figured it couldn't have been a bad for business. I'm a defense attorney.

But now Arnie, a thick, nervous man who looked more like a video game addict who had just emerged from his bedroom in his mom's house for some clean underwear, and whatshisface, a thin guy with early gray hair, were standing in my driveway.

Why were they standing on my driveway?

"Hey...Arnie..." I said through the window. I put the car in park.

"Hi honey," James said. His arms were folded across his chest now. He was looking from me to Arnie, and the other guy.

I squinted into the sun. "What's...going on?"

"You know these guys?" James said.

"You this guy's old lady?" Arnie said. He was sort of wound up now, and half-laughing.

We were all talking at once.

Arnie punched James in the arm. I could see he was trying to act tough but it probably hurt him. "Hey, it's your lucky fucking day, buddy."

I looked quickly to James. "What the hell is that supposed to mean?"

I already had some idea, though. James was inadequate, but his brother was even bigger, dumber loser than he was. It was 100% likely he had his hands in this mess.

I wouldn't want to bore anyone with the details, because they bore the hell out of me, but suffice it to say that James' idiot brother had decided

to open a bookie's, take money from people who happened to be in the mob, and had not paid all of it back.

And now he had skipped town.

"How much?" I asked Arnie, in a snippy tone.

I was thinking about how I was never, ever, going to get the car I wanted. Why? Because I was just *this close*.

These guys were in the mafia, but we lived in Denver. To be honest, they didn't seem all that terrifying. And how much could Brian have gotten himself in for?

"Two hundred."

This was a hard number to understand. It was hard because it left me with two possibilities:

\$200, which my Brian knew that two mobsters wouldn't be standing on my driveway in the suburbs to collect.

Or the only other kind of two-hundred there is.

I looked at James.

It was obviously that.

"We can sell the property," he squeaked.

"Already thought of that, James, and it's part of why we're here," the other guy spoke up.

Was I on an episode of the fucking Sopranos?

"Jimmy'll give you \$100K for that," the guy said, without clarifying who Jimmy was.

"The rest, we got a problem," Arnie said. "But...I didn't know Mrs. C was your wife. That changes a lot of things."

He *winked* at me.

I had no idea what was going on, and my brain was still looking for a number that started with two-hundred that was less than \$200K, so I just smiled.

James looked at me. "Wait..what is -"

"Shut up. Guys," I said, "Can you come back tomorrow? Or we can go to you? Of course we can work this out."

"Yeah, Mrs. C, of course we can. Nobody forgetting how much you helped out Alissa."

He gave me an arm punch and the other guy nodded at me.

I turned to James as they were pulling out of the driveway. I didn't wait, you see, because I wanted them to *see me* laying into him.

“What in the hell is going on?” I screamed.

In the end, I met Arnie for coffee at a Starbuck's, as improbable as that may sound. It was another cheerful spring day, and he looked like an overweight college kid who had stayed too long in classes. He was wearing a t-shirt that said: *My life is a true story*.

It's just so hard to take the mafia seriously in a place like Denver. They don't have track suits, or accents, or look like anything from any movie ever made.

But the mafia *was* real, even if they were poorly dressed, and I heard enough rumors to know it was true.

“Look,” Arnie said. “We got a guy, Pacione, who's doing a whole bunch of legal...stuff for us. He needs some help. He has some trouble hiring people.”

Arnie looked at me. He had ordered a “Big Coffee,” and for the first time ever at a Starbuck's, the barista had just gotten it, with no further questions, and no insistence on him saying *Venti*.

I didn't say anything.

“He wouldn't mind...he wouldn't mind getting another coupla lawyers in there. The kind he feels like he could trust. For a low price.”

I looked out the window.

I surprised myself by saying:

“So what's the deal, then, Arnie?”

“Well...Pacione can pay your debt for now, and the two of you go work for him. He says one year should do it. For the debt. After that maybe you'll want to stay. Your husband any good?”

I looked back at him. “He's not. He's not really good at anything.”

Arnie laughed and took a sip of his coffee.

“Well, that's the offer.”

I looked down at my croissant.

“It's a pretty good deal,” Arnie added, and his voice was menacing.

“I can't *actually* believe this is happening,” I said out loud.

Arnie was staring at his coffee.

“You know, this coffee really doesn't taste that good?”

The next day I quit my very legitimate job at a nice law firm.

I headed to a disreputable part of town, which are hard to find in Denver, to speak to Luca Pacione, Esquire about my new job defending mobsters on the great plains.

I entered the address they had given me, and followed the GPS instructions with increasing uncertainty. The buildings around me got crappier and crappier, and the smell of factory foods filled the air. One street after another, the scents changed and the buildings looked less inviting.

I almost turned around. If I got lost out here, I would never get out. God. There probably wasn't even cell phone service.

I stopped in front of what appeared to be an abandoned warehouse, as the GPS instructed.

Hell no, I was thinking.

I put the car in reverse.

But then I thought about a few things:

The amount of money that we “owed” these people was \$100K, and Brian (the little shit) had obviously taken them seriously enough to blow town.

Working for Pacione didn't seem like the absolute *worst* idea.

His office, I told myself, as I crunched on some broken glass getting out of the car, is probably just in a bad place because he deals with bad people.

I will do that for a year, and then I will get out of here.

There was a buzzer on the door, which was unmarked. I looked up at the front of the building.

God, I really hoped I was in the right place.

The door buzzed open, with no explanation.

I opened the door and went in.

“You Joanna?” a man in a suit yelled at me quietly when I knocked on the only door that could have been an “office.” He was in his mid-thirties, with a shock of very dark, thick hair, and dark-brown eyes that moved quickly like a hawk's. He was loud but also calm and collected. He was aggressive and reserved.

He moved the way men who are very, very used to getting their way move. He got up and crossed the room, letting his eyes fall all over me – especially on my cleavage – unapologetically.

“You a lawyer?” he asked, without waiting for my answer. “Great. Can you start today?”

I stood blinking at him.

“Cat got your tongue? I need someone today.”

“I just came in to-” I started.

“Alissa says you're good, you're good.” He handed me a stack of papers and began barking out instructions.

“Wait. Wait, wait a minute,” I said.

“Hey, I need an assistant today.” He swung his jacket over his shoulders. “Aren't you up shit creek with the Gadolfos? Get moving.”

The door swung shut behind him, and not knowing what else to do, I picked up the files and followed him.

I texted James. *At my new job u little shit. It's great. See u tomorrow. Sleep on the couch.*

That made me feel a little better.

Now the weird part is, the job wasn't all that terrible.

For now, it was mostly work that a paralegal should have been doing, but I had to admit it was more interesting than what I had been doing before.

And Luca Pacione was *hot*. He was a real man. Every part of him was hard, from his muscled arms to his chest to his personality.

People backed down before he even opened his mouth. They did what he said. He was a calm guy, with a low voice, but there was something dangerous and hard behind it.

Not like James, who was soft, and fluttered around nervously all the time.

I had a hard time taking my eyes off of him. I had a hard time concentrating on my work instead of fantasizing about him fucking me over his desk. The very first day I got so wet by lunchtime that I had to touch myself in the bathroom just to make it through the day.

When James arrived, Pacione looked him up and down, and turned to me with an expressionless face. “This is your husband?”

“Uh...yeah,” I said. I felt a desire to explain myself, and why I was with such a doughboy, but Pacione was already walking back to his desk. He didn't really care.

His office was a big, open space, barely renovated for its purposes, and out desks were arranged around it so that we were all facing each other.

Pacione stood at his own desk and motioned to the empty, remaining desk – the smallest one.

“What I really need right now,” he said, without looking up, “Is a dependable legal secretary.”

For a second I thought he was talking about me, and fury started to build up in my chest. I opened my mouth to object, but Pacione gave me a sharp look and it sent a stab of fear through me.

James just stood there looking like a fucking idiot.

Then it made its way through his thick skull, and he looked at the smaller desk.

“So you want...me...”

Pacione sat down and said nothing.

I'll admit that I kid of wanted to laugh. After all, he deserved this. This whole thing was his fault.

James went over to the desk and set his briefcase down.

“You'll need to answer the phones,” Pacione said. “And handles basic paralegal work. Can you do that?”

James looked at him. “I...*can*...” He looked to me for help, and I shrugged. After all, he was way more at fault for us working at this dump than me. And, we both knew, I was the better attorney.

“Good,” Pacione said. “Because that's about the only thing you're good for right now. Sit down, and get to work.”

I don't know why, but something about Pacione berating my husband in front of me like this, turning him into a secretary, really got me hotted up.

I watched him sit down.

This was going to be a shitty year, but it was going to be interesting.

James looked up at me, and I smirked at him.

The phone rang.

“You going to answer that?” Pacione barked.

I smiled, and turned my eyes to my computer.

This was such a sweet revenge.

It wasn't long before Mr. Pacione asked me to stay late.

He returned from court, walking briskly through the office as he usually did. “James,” he said curtly. “Go get us some dinner from Rossa's.”

He had been ordering James around, getting coffee and picking up lunches, all week. He had been really humiliating him: pointing out his typos, asking for more cream. He had once sent a cup of coffee back for being too bitter.

James hated it, but what could he do? He was too much of a pussy to stand up for himself for a parking space, let alone against a mob lawyer. And especially someone like Pacione. Also, we really didn't have a choice.

Back to the night Pacione asked me to stay late.

James stood up. "Are we...do we need to stay late?"

Pacione set his briefcase down.

"Dinner for the two of us," he said, without looking up. "Joanna will be staying late. You are going home."

The unapologetic way he *said* this, and didn't *ask* it, knocked right against my pubic bone. I smiled and didn't look at James.

It would be too embarrassing for him.

Pacione closed the door after James left and turned to face me.

"You like the job so far, Joanna?"

His voice was neutral. It was hard, if not impossible, to decide what he was feeling. He could be threatening someone, or he could be giving me a lunch order – he would have used exactly the same voice as he was using now.

His face also revealed nothing. If I had to call his expression anything, it would be serious, as he always was. Everything he said seemed to cut through the bullshit.

I don't have a lot of time, his voice said.

"I guess so," I said, a little uncertain of where the conversation was going. I mean, he knew why I was here, didn't he?

"You want to keep it?"

A chill went through me. But a good one. No, a bad one.

I don't know which. He was hot and he was terrifying.

He was staring at me. His intense eyes were not blinking. I didn't say anything so he continued.

"I find myself in the position, Joanna, occasionally, that I need a little work done. Let's call it extra-legal work."

Oh god. I would not bury a body, I decided. No way.

“Which is to say that, in negotiating, I sometimes need a little bit more than note-taking. You follow me?”

I didn't, I thought. I didn't have any fucking idea what he might be getting at. I just stood there with my mouth open.

He moved closer to me, coming around the desk.

I was frozen from my toes to my forehead. I just stayed there, my mouth hanging open and my heart stuck to the wall of my chest, where it might have given its final beat.

He stood in front of me for a moment, with his hands in the pockets of his well-tailored suit.

Then he surprised me, by reaching out and touching my neck.

He placed his fingertips on my skin, and sort of drummed his fingers.

It was incredibly fucking hot.

Okay, now I understood what he was actually talking about.

Now for the admission: ever since he opened the door for me on my first day, I'd been sucked in by Pacione.

Don't get me wrong: I loved James, at the end of the day. I fucking loved him – that's why I was here, working as shitty lawyer, and it's why I forgave him, even if I liked seeing him humiliated a little bit, and even if he was a pathetic guy. It wasn't his fault his brother was an idiot.

James just wasn't *hot* like Pacione.

Pacione was a closed book, and he was terrifying. He was muscled and mysterious and dark and good-looking.

And now he was touching my neck.

His fingers moved along the low line of my dress.

“You seem like you might be thinking, no way, I don't do that kind of thing. Is that what you're thinking?”

His eyes were devouring me.

When he moved his fingers under the dress, I know I should have done something to stop him. But he was just so captivating. I was hypnotized. I didn't do anything except inhale.

“You seem like a good wife to me, the kind who doesn't mess around,” he said.

I was frozen in place. I blinked, trying to snap myself out of his trance. Why was I sitting here letting my mafia boss put his hand up my skirt?

His hand was sending a shiver up my thigh, straight into my pussy, which was getting wet even though I didn't want to admit it. Pacione shifted his jaw. He looked like an animal now.

My mind began to wander to how it might feel to have a man like that take me. How much more interesting it might be.

I was feeling the fluttering of passion in my stomach.

What the fuck was I doing?

It was hard, like waking up from a deep sleep, but I started to move away. "I don't think..." I said awkwardly. It was awkward because I didn't really have any hand to play here. Also, between my thighs, a very large part of me was not really eager to stop him. A large part of me was thinking ahead to the feel of his cock...

Stop it.

He applied a light pressure on my waist as I moved away, and like a magnet, easily and smoothly, he pulled me back closer.

"The problem is, Joanna, I heard about *your* problem."

He let this sink in, and a smile crept up at the corners of his mouth.

"You'll have a very difficult time handling that kind of debt, won't you? And nowhere to get a loan. And now you've done all of these questionable things that might make you look very unappealing to the bar if I were to share them."

He let this sink in.

"It's too bad. That's a lot of law school just wasted."

I was speechless, and I just stood there, my mouth open.

"On the other hand, I could be your advocate," he said. What a nice little little joke.

He had moved a few centimeters closer to me with every sentence. Now his face was very close to mine, and his eyes were so intense that I had to look down at the table and away from them. I felt like someone had banged my pubic bone, like a tuning fork, and it was vibrating away in my pelvis.

It had been a long time since, but James had once mentioned his fantasy of watching me with another man.

I kind of thought he was full of shit, and that he just wanted me to talk about it. Sometimes he asked me to tell me about men who had flirted with me, or boyfriends from the past and how they fucked, while we were having sex. And I did it.

But that was different than what was happening now, wasn't it?

Still, the fact that James had something like that in the past was working like a cool liquid on my guilt. Dampening it. And at the same time, Pacione was stirring up so much heat inside of me that I could actually feel my underwear getting soaked.

The final touch, of course, was that *I didn't have a choice*.

Still, I needed to get my head on straight. I very suddenly snapped back in the room.

"I...I need to go...home...I need to think about this."

He started to move his fingers along the edge of the collar of my dress again.

"Okay," he said. But he didn't move away. Now it felt like there was a magnetic field between us, and he was drawing me closer without touching me anywhere but on the hem of my dress.

He moved his hand underneath it. When he met my leg, he pushed it aside with his very strong hand, almost impatiently. Up. Along my inner thigh.

Joanna! My conscience called to me. But it came from far away, like a sea had swallowed it. It was so muffled I couldn't even hear it. *You are married, Joanna. Push that hand away from your -*

Pacione's hand was already there. His fingertips were right along the elastic edge of my underwear. Between my thigh and my outer labia. I sucked in my breath.

His face registered nothing, but I knew that his fingers felt that I had soaked my own panties.

He knew he was going to get his way.

"It seems like you don't really want to go home, Joanna."

I gave things an effort, just because. I set the files that were still affixed to my sweaty hands on the desk, and tried to squirm away from his touch. "Jo," I said, as though his using my full name was more inappropriate than him putting his fingers up my dress.

Or my creaming my underwear.

"And I..I do, I have to go."

When I pulled away from him, he brought his fingers up to his face. He didn't sniff them, or do much of anything – he just rubbed them together near his nose.

He returned his hands to his pockets.

Luca Pacione was not the kind of man to say something like, *You'll be back*.

He didn't need to.

He knew I would.

I moved backward to my desk, nearly falling over the wastebasket. I scooped things into my purse, and then I hurried out to the car.

The whole inside of me was gripped by a hot fist of desire. I actually ached from my ass to my heart, and I could feel my clit pulsing with each beat of my heart, which was knocking against my chest so hard I could barely breathe.

So I'm not sure why I did this, but I did it.

Maybe it was James' fault. He started the conversation.

I came through the door, late, and he was there, waiting.

"What did Pacione want you to stay late for?" His voice was whiny, pathetic,. I couldn't stand it.

I dropped my briefcase on the floor.

Usually, I would have started a fight. I mean, who was he kidding, when this whole thing was his fault?

"He wanted to fuck me," I said casually. "He wanted to stick his bog, huge cock inside of my pussy and fuck me properly like a real man."

I wasn't really sure where this had come from, and as soon as the words were out of my mouth, I felt a little bad about them.

But then I saw that James' cock was hard.

I don't really know what pushed me forward for more. I mean, really, I should have tortured him by *not* giving him what was turning him on.

I stepped closer to him, and put my hand on his head, with my fingers in his hair. I placed my mouth close to his ear. "He has," I said seductively, "the biggest cock I've ever seen. And I'm going to have to service his cock every day because of you. But you know what, James?" I moved my hand down to his cock, amused to find it so hard. "I'm going to like it."

I felt it thud against his underwear.

I let go of him and walked up the stairs.

He turned around with a hopeful expression on his face.

I really went for it.

"Don't be pathetic. I'm tired," I said.

I could almost feel my words reverberate in his cock.

We started driving to work together, James and I. Why not? Why not save on gas when we owed so much fucking to the mob?

I let James drive the next morning.

After five minutes or so, I turned to him.

"I think I'm going to have to fuck Pacione," I said.

I saw his cock twitching in his pants.

"I think," I said, reaching over and placing my hand in his lap, "He's going to make you watch."

I felt another thump in his cock. He was getting so hard, so fast. It had been a long, long time since James had shown any real interest like this.

He wanted me to do it.

It suddenly all fit: James' personality, and mine. His references to these fantasies, which I had never paid much attention to.

He *wanted* me to fuck Pacione, and he wanted to watch it, and he *wanted* to be humiliated.

I sat back in the seat.

I could get into that.

For the first time ever, I felt like I could really do something like that.

And yo know what? If James really wanted to stop me, he could grow a pair and stop me.

So I got the ball rolling.

Work proceeded like usual, and Pacione was out most of the day.

When he returned at four o'clock, he made no mention of his demands from the night before. He simply sat down at his desk.

In the afternoon, he sent James out on an errand. A regular run to the post office to send certified letters.

It was now or never. I stood up, and walked seductively to his desk.

"Mr. Pacione," I said, and I sat down on his desk. "I've been thinking about our conversation from yesterday."

I thought I saw him smile. Maybe. But his face was pretty rigid.

His eyes looked interested, though.

"What would...what would I have to do, exactly?" I said, smiling.

Pacione beckoned me closer to him, and I leaned forward. He placed his hand around my neck, so that his thumb could stroke my under my chin, almost as if he thought of me as pet.

“You'll do, sweetheart,” he said, moving his finger across my lips, “Whatever it is that I tell you to. For now. And then when I tell you to, you'll do whatever someone else tells you to do.

I was already thinking about what “that” would be. In vivid detail. His hand on my thigh was sending a poker of heat right into my abdomen.

And I couldn't really get out of it, could I?

The truth was that Pacione, and his cool stare, and his calm power over everyone in the room, had seduced me right from the start. I wanted him to look at me, wanted him to touch me. And even the idea of doing these “other things” for him was appealing to me.

I couldn't wait to see how he was going to make James watch him take me right under his nose.

Please don't go feeling bad for James, First of all, he's the little shit who got us into this mess, and if you had felt how hard his cock was the night before, you'd know what I knew: he wanted it. He was begging for it.

I imagined Pacione's cock in my mouth from James' perspective.

Why did that only turn me on so much?

I knew that I liked that I didn't really have a good way out of what Pacione wanted, anyway. I could feel the pull inside of me to do something just...*wrong*. The fact that there was an excuse for it only made it more delicious.

“I think you can,” Pacione said, and now his voice was different.

I had to think for a moment to remember what he was talking about. My mind had gone a million directions.

Then, he squeezed gently on my throat.

Holy fuck that was hot.

“I think you can do what *I* tell you, for starters.” His voice was calm. Completely in control.

“Why don't you just do that, and we'll see what you can and can't do.”

A shiver of pleasure went through me.

I couldn't speak. Not just because he was choking me lightly, but because I was completely entranced. Was I really going to do this?

He released my throat, and lowered his hands to the straps of my dress. He pulled them down, so that the fabric peeled away from me, until my breasts were exposed.

I didn't move – in my mind my thoughts were racing, but I was rooted to the ground, immobile.

His hands were on my dress now, hiking it up and over my panties. I was breathing harder, maybe a little with panic, and perhaps a *tiny bit* with excitement.

He placed his hands back up on my shoulders. For a moment I thought he was going to try and kiss me, but instead he pushed me down, down to the floor and onto my knees.

“I do extensive training for this part of the job,” he said.

I liked being on my knees in front of Pacione. My pussy was throbbing.

He smiled, and bent down, placing his lips over my mouth and sucking on them like he was eating an oyster.

“I just wanted to get that mouth while it was still pristine,” he said. Then he stood up, and unbuckled his pants.

I turned away, out of instinct, I think, more than anything. He grabbed my hair and twisted my head back. “Open your eyes, sweetheart. That's really key. Take a nice look at it before you open your mouth. I like that.”

I looked at his cock – it was huge and already hard as a rock.

It was much bigger than James' cock. I could already feel how sore I was going to be after he fucked me.

He tightened his grip on my hair and I winced.

Was this really happening? Why did I like this so much? Why was it so much better than doughy James, asking permission to kiss me on the neck?

“Put your hand on it,” he said.

I did as he told me. His cock was so big my fingers barely came together when I gripped him. I stared at the hard piece of meat in my hand. It was so...huge. And hard.

So different from James.

God, James was a really great guy. But now that we were on year ten of marriage, he had lost a lot of his initial interest in sex. Usually his cock, which was nothing to write home about, took a good ten minutes of very boring rubbing to get up. It was pretty annoying.

Pacione's cock was hard before I touched it.

It felt so fucking hot, holding it in my hand, already hard, already pulsing.

Another jerk on my hair. “Really hold onto that thing. And keep looking at it. Look like you're going to enjoy me putting it in your mouth.”

I looked at his cock, and I tried to look like I was going to enjoy it in my mouth. The strange thing was, I was thinking I might actually enjoy it.

“I want you to take your tongue, and just lick it. Just lick it for a while.”

I did as he asked, tasting the salty precum at the tip of his cock. I started to get wetter than I already was, licking at his cock like a cat. I like the way he was holding my head at he level of his cock by my hair, and I liked being on my knees for a real man...

“That's it,” he said, and now his breath was ragged and uneven. “Now open up for me.”

I hesitated. His cock was pretty fucking big.

“Open up that mouth,” he snarled, and now he seemed angry. “Do it, or you're going to pay the consequences.”

I opened my mouth and closed my eyes.

He tilted my head back. “Now look up at me.”

I opened my eyes and looked up at him, right in the eyes. His face had changed, and he was no longer calm. He was hungry.

He lifted his thick cock and put it in my mouth. Then he gathered my hair in his hand, and pushed my throat onto him.

I gagged immediately and tried to wiggle away. I'd never had anyone put their cock that far down my throat before.

He thrust himself against my face and pushed on the back of my head. “Relax,” he said. “Open up and relax, and it will be better. You'll stop gagging after a while.”

He was right, and now I had his enormous cock stretching my mouth open, and filling my throat. Little by little, the spasms in the back of my throat stopped. But I still could barely breathe, and I wanted to lift my head off of him.

I couldn't though. He kept me in place, with nothing to do but relax. I began to feel the pleasure of pleasing him, as I watched a look of satisfaction wash over his face.

He pulled me off himself, and a long stream of spit and mucous trailed from my mouth to his cock. My jaw was sore already, and I moved to reach up and wipe the spit from my face. He slapped my hand away. “Open again,” he said.

I opened my mouth and again he plunged into my throat. In and out, in and out he went. Now it was getting easier for me to take it all, and I felt a new kind of pleasure from doing it. I hadn't ever felt that way before – maybe because no one had ever made me take the plunge.

I found myself wanting to do a good job, to open for him. My throat was making all kinds of sticky, wet sounds – but I was getting turned on by them. I knew my mascara was streaming down my face, and I liked the image it made for me. I could see my lipstick all over his cock.

He pushed me onto him for one last, very long thrust. “Suck on it,” he said. “Suck it good and hard.”

Then he pulled me away from his dick by the hair, and let me gasp for air.

“That was not terribly good,” he said. “We'll need so much more practice. But right now I think you need a sort of overview.” He stood back.

“Stand up,” he said.

I stood up, and reached again to my face to wipe away some of the mess, and he slapped my hand away again. “Do only what I say, nothing more, nothing less.”

His voice was still perfectly calm, as though he were talking about the weather, or giving an order at a restaurant. It was chillingly sexy.

I stood in front of him, as he turned around me, looking at my ass, my breasts, my thighs.

“Are you a virgin?” he asked.

I looked at him incredulously. “What?”

“I meant your ass,” he said.

“Oh god,” I said. I remembered the girth of his cock. “No, I can't do that.”

I felt his hand on my back, along my spine, not brutal, but calmly forceful like his voice. He pushed me onto the table, face down. “I think you'd be surprised what you can do, Joanna. Put your hands flat on the desk.”

I obeyed, but I was starting to think I really needed to find some way out of here. I had never done this before.

Out of nowhere he produced a tube of lubricant. “I'm a thoughtful guy,” he commented. “Is James thoughtful? Does James remember to use lube when he fucks you in the ass?”

I turned and looked behind me.

He slapped me on the ass, as hard as anyone has ever spanked me before. "I like it when you say thank you, for that" he told me.

A wave of satisfaction rippled through me.

I liked being told what to do, I was discovering.

I liked being subservient.

If James did something like that it would make me laugh.

"Thank you," I said. My own submissive voice was turning me on.

But I was still worried about the next part. "I don't – I don't think I can - "

He hit me on the ass again, and I gasped in pleasure and pain.

"You can shut your mouth now," he said. "You can open it for my cock, or you can open it because you need to tell me how much you like it when I fuck you."

He pushed my skirt up, and pulled my panties down. I knew he would be pleased to see that again, my underwear was wet with my lust. Because let's face it: Luca Pacione was hot.

I felt the cool touch of the lubricant on my anus.

But he didn't wait long before he pushed his finger inside of me.

I was so surprised I did nothing but let my mouth hang open. He fingered me for a bit, moving in and out, and I bit my lip. I tried to give myself over to the sensation. It was so foreign to me, I couldn't decide if I liked it or not. But a different kind of pleasure was starting to burn between my legs.

He moved his finger in and out. "That's nice and tight, honey. I like that. It's is so hot, and soft. I can't believe he's never gone here. It's because he's such a pussy, isn't it?"

I started to squirm, both because I was hot now, and craving him inside of me, but also because the pain made me twist in agonizing pleasure.

He slid tip of his cock from my pussy to my anus. "You're ready for me now?"

I started making whimpering noises as he began to push forward, but he didn't stop. He wasn't going to stop until he had what he wanted, and what he wanted was to fuck me and make me scream.

He pushed in slowly at first, his hand on my back, pushing me into the desk. I wriggled and squirmed and tried to push myself up from the

desk, but he grabbed my hands easily with one arm and pinned them behind me, his cock still an inch into me.

“I want you to feel this. I want you to remember every inch of my cock sliding into you. Every inch,” he said. “I own your ass for a while, Joanna.”

This made a ripple of pleasure slice through me. It wasn't so much that *he* owned me, it was that he was humiliating the hell out my husband by owning me. I started to think about how I would tell James all about this in bed, and how his face would crumble when I told him how much I liked getting fucked in the ass by his boss.

He was slowly, slowly – so painfully and excruciatingly - pushing into me. It seems as though it took forever, with my legs dangling over the side of the desk. But my fantasies were keeping me distracted from the pain. Fantasies of making James watch us. Making him pay for being such a loser. Making him see what it was like to really fuck a woman.

Finally his the base of his cock hit my ass, and it was thicker and spread me open even further. I gasped and began to sob over the desk. But truthfully now the pain was a little less agonizing, it was even starting to feel strangely pleasurable.

He held me there like that until I calmed down, and just lay on the desk, panting.

Surrendering.

“That's it,” he said. “That's it, that's the way to do it at first. Just take it like a good girl.”

He started to move, slowly at first, but then faster and faster, ramming himself deep inside of me. The pain had begun to subside, and I learned to relax, giving over to his will. I could hear his thighs slapping against my ass.

But just as I was getting comfortable, starting to enjoy his long, hard cock moving roughly inside my ass, he pulled out all the way. I felt his hands cupping my ass-cheeks, and he inserted his thumbs into my anus, pulling it open. I could feel it throbbing and pulsing. “Arch your back a little, Joanna. Get that ass up in the air a little more.”

I complied, and before I knew what was happening he thrust into me again. My ass had tightened up again and so the same pain returned and I screamed. He pulled out again, and then I understood that he meant to keep doing this to maximize the punishment.

But thinking about that, and thinking about his enjoyment as he watched me squirm, made me want him to do it even more.

I don't know how long he was at this, pulling himself out, watching my asshole contract and tighten, then ripping me apart as he plunged in again and again, listening to me scream and moan. I was sweating all over and lying as limply as I could on the desk when he thrust deep inside of me, so deep this time that I felt as though I were being impaled. He let me squirm beneath him, and I whimpered a little, but because he stayed inside me I had time to push against his cock, open up, and the searing pain turned to a dull ache. It almost started feeling good again, and his cock was rubbing me to a near-orgasm through my flesh.

He pushed my hair up over my head, and leaned down to my ear. "Now you're going to work for me, sweetheart. Move that ass, move it until I come."

He was pushing against me, into the desk, so that his cock was as deep inside of me as it could go. I squirmed, trying to figure out how I could move. Finally I managed, with great effort, to slide back and forth a little on his cock. "That's it," he said. "Keep that up."

I started moving, but it was hard work, and the pain of his thick cock in my ass started making me hotter. I couldn't position myself to get enough pressure on my clit, to make myself come, even though I wanted it desperately now.

"Faster," he said, slapping my ass.

I moved as fast as I could, pushing myself harder and harder against his cock in spite of the pain, as I could feel it swelling and hardening more and more, pulsing and close to orgasm.

He very suddenly pushed me down onto the desk, and held me so that I could not move.

It took me a second to realize what had happened.

"Oh look who it is," Pacione said. He was taunting someone.

It was almost too good to be true.

I looked up, just in time to see James walking through the door. His arms were full of papers, which he dropped all over the floor as soon as his eyes took in the scene.

Pacione moved slowly inside of my ass now. I knew he had planned things this way, and he had wanted James to come in, and catch us in the act.

Because he knew he wouldn't do anything about it.

I smiled at James.

“You want to come, don't you Joanna?” he growled behind me.

I nodded. I looked at James and I hoped he knew that I was taking it in the ass, that Pacione was man enough to fuck me however he wanted.

He just stood there, of course. Looking pathetic. What else could he do?

I was so hot now I felt like I could come if Pacione just gave me a little more cock, just a little further down...

“Let me hear you beg for it. Beg with your mouth, but keep begging me with that ass, and if you are good you'll get what you ask for. Sort of like a star for good performance.”

Then, to James. “Hi James. I'm fucking your wife in the ass right now. It feels great. You're going to stay and watch it.”

I thrust myself up into him as I panted. “Please,” I said. “Please make me come.”

I watched James' face as I did it. The pain was exquisite.

Pacione's muscles tightened, and I heard him groan. “I'm going to fill your wife's ass with cum now, James. And there's nothing you can do about it,” he said.

He pushed himself into me even harder, and my hair was shaking past me as he pounded me hard from behind. I felt the warm burst of his cum inside of me.

He pulled himself out and I heard him zip up his pants.

He slid his fingers down to my clit, which was full and swollen. I shivered in pleasure with the lightest touch from his fingers.

“Please,” I begged him.

He slid his finger down and up, in neat strokes that quickly brought me to the edge.

“Please,” I begged.

“Keep begging. Tell me exactly what you want me to do.”

“Please stroke me until I come. Please,” my voice was a hoarse whisper now.

He expertly moved his fingers, and the intense pain that precedes a final release burned through me.

“Please,” I begged. I had almost forgotten that James was there.

He pushed his fingers into me and brought me over the edge. I yelled, my face at the table, as the orgasm racked through me. I could feel my cum dripping down my legs. I was shaking through my entire body.

“Say thank you, Mr. Pacione.”

“Thank you, Mr. Pacione,” I croaked.

He leaned down and spoke into my ear, whispering and looking at James, who was standing, shell-shocked, in the doorway still. The papers were scattered around him.

“Tell your husband to come over here, and clean all this cum out of your ass.”

Even though I had just come, I could feel a surge of ecstasy building up again.

I looked at James. God, it was so dirty, so humiliating. But it was so hot.

“Darling,” I said. “Come over here, and clean this cum out of my ass.” I said with a mean edge to my voice. Not because I really cared about being mean to James, but because I knew it was what Pacione wanted to hear.

I heard the sound of Pacione's weight falling into the leather chair, and the roll of the wheels as he pushed it away to get a nice view.

“You don't really have a choice, James,” Pacione said. “Remember...”

James was already walking toward the desk, his head hanging.

“...you owe me.”

I couldn't see the scene, but I had fun imagining it – at the time, and later that night, while I masturbated next to James in bed, not caring if he was awake or not. I could feel how gaped my ass was, and I imagined it: a red, stretched hole, black in the center, with a nice pot of creamy cum waiting for James to lap up like a dog.

He had James make us coffee afterward, which he took a long time doing. I knew he was thinking of how I was sitting at my desk with Pacione's cum still somewhere rammed up my ass. He had licked it out as much as he could, his tongue really getting in there. He had placed his lips against my anus and sucked it out, while Pacione told him to keep going, and suck it all up. He had swallowed it and licked around the rim of my ass and swallowed some more.

But we both knew that Pacione's big load of white cum was deep inside me, and he couldn't get it all.

I wasn't sure how James was going to take it. We drove home together and he was silent all the way home.

I decided to break the ice. I wasn't sure if I was feeling sorry for him, or like he was pathetic at this point.

"Make me a martini," I said curtly.

To my surprise, he said nothing, and started to make me a lovely drink. When he stood in front of the bar, I saw that his cock was hard.

I was intrigued.

"That was the first time anyone ever fucked me in the ass," I said, sensually. I could tell it rippled through him like a thousand little pin pricks.

"I really liked it."

He poured the drink into my martini glass and pushed it across the table.

"I really liked watching you watch me," I said. "Because I could see just how much it was crushing your little cock."

I could see that I was turning him on. I could see that he hated it, but he loved it.

"So actually," I said, "I'm pretty glad you fucked things up and now I have to work off your debt to Luca Pacione."

I leaned over the counter. I was getting myself wet torturing him like this. I didn't know why I liked it so much – it was fun, maybe, after all these years of him being so inadequate and pathetic, to finally tell him so. And he seemed to like it, so who cared?

"I'm going to really, *really* enjoy it," I said.

And then I swallowed my martini, and told him to follow me up to bed. "Come and lick my pussy," I said, "even though you're terrible at it. And while you do, I'll tell you how much I enjoyed Mr. Pacione's big cock in my mouth before you came in the room."

A few days later, Pacione approached my desk. He set a piece of paper in front of me.

It was a letter.

"What do most people do when their employees fuck up and cost them money, Joanna? What's a fair way to resolve that?"

He was staring at me.

"The question is not rhetorical."

“You could - “

“*Sir.*”

“Sir, you could dock my pay, I guess.”

I was smiling.

“I could, couldn't I? Except one of the problem we have, Joanna, is that I'm not paying James – this is his mistake - any money, really. I'm making sure that he stays out of trouble with the mafia. How could I dock that, I wonder?”

“I suppose he could find a way to make it up to you?”

I had, all night and all morning, been thinking about the next time he would take me. How he would do it, when he would do it. How he would make sure that James saw it.

Again: don't go feeling sorry for James. He got us into this mess. Is it my fault? I don't think so. But it was my ass that had to be stretched open by hot cock and filled up to pay for it.

I licked my lips.

I enjoyed the idea of owing Pacione, of *having* to submit to his will. But what I really liked was making James suffer and watch the whole thing.

My mind began to wander to how I would be made to pay him back for this supposedly poor work James had done.

“James is not able to give me anything I want,” he said. “I think a better punishment for James would be watching me fuck you in the mouth.”

I shivered.

“So come over here, then. Show me how sorry you are that your husband failed at his easy, pathetic job of typing a fucking letter.”

I could feel the excitement spreading through me. I moved over to him, and he gestured that I should get down on my knees.

In my peripheral vision I saw James, frozen with a file in his hand mid-air. He didn't know what to do, but he couldn't look away.

He liked it too, the little pussy. He liked seeing a real man finally pleasure his wife.

“I hope you can do better than him, or we may need to find some other way for you to get your pay docked. Keep that in mind while you suck on my cock.”

And then he just stood there. So I unzipped his pants. His already-hard cock sprang out from his underwear as I slid them down. For some

reason this felt more submissive to me than sucking on his cock. It turned me on. I could feel my panties getting wet.

I opened my mouth and began to suck. I kept my eyes closed and tried to take as much of him as I could into my mouth. This time he just stood there, without touching my hair or my head, and looked down at me.

I worked at this for what seemed like a very long time. My jaw was aching with the pain of it. His cock seemed to be getting harder, and a large vein began to harden on the outside of it. How much longer? Was I doing a good job? I had no idea.

Suddenly he pulled my hair back and tilted my head up to him. "Look at me and open your mouth," he said, grabbing his dick and stroking it furiously. I obeyed, opening my mouth and looking up at his eyes. He stared down at me cruelly, I could tell he was about to come. "Tongue out," he said. "Get your fucking tongue out and ready for my cum."

He exploded messily all over my face – a lot of it dribbled into my mouth, but a lot of it went on my cheeks and my forehead. He pointed his dick and my mouth as he finished off and dribbled it across my lips. "Lick your lips," he ordered. "Lick it all off of your face. And smile for me while you do that, like you're eating an ice cream."

I did as he asked and he watched me, grinning. "That's it. You're going to need to learn to like the taste of cum, Joanna, if your husband is going to be such a lousy paralegal."

He zipped up his pants and turned to James.

"Are you going to let your wife walk around all day with cum all over her face?"

I guess after last night, James knew his place. He got up meekly, and walked over to me, and started to lick the cum off my face, while Pacione stood over us both, watching.

I began to crave these "punishments." I found that I loved to please Pacione, to make his face screw up in pleasure, to think that I was improving. I began to enjoy the feel of his cock in my throat, filling me up. I savored the taste of him in my mouth.

But more than anything I enjoyed James sitting there, unsatisfied. Forced to watch and then forced to clean up Pacione's cum.

Mostly, he made me get on my knees and suck his cock, while he stared down at me and told me to show me how sorry I was.

Occasionally, however, he subjected us both to a special treat.

One day, for example, James really *had* made a big mistake.

I realized it as soon as Pacione's voice changed and he started really looking all over his desk for something.

I froze. It occurred to me that this was probably going to involve more than just a simple suck-off to fix. I was ready for it. I was looking forward to it.

Pacione approached my desk and stood over me. "James forgot to send a thirty-day notice of continuation for the White file. Now it's late."

He took off his belt.

"I'm going to really have to be strict about this one," he said.

I smiled. I looked over at James. He was just going to have to take it. To watch it, and to clean up afterward. I knew it pained him to see me smile. He knew I liked what Pacione did to me, and he knew I would have just laughed at him if he tried the same thing. No, Pacione could dominate me, but he could not.

"Get down on the floor and get that ass in the air," Pacione told me. "Pull that skirt up."

I did as he ordered, on the floor in the middle of the room. He rolled up his office chair behind me and snapped the belt.

"I want you to beg me for more every time I whip your ass," he seethed. "Because you are a bad, bad, girl. And you deserve to be punished. Pull your panties down."

I'm sure he was very satisfied to see that, although I was being coerced into this relationship, it still made me wet when he talked to me like this. "Yes, sir," I said.

The first slap of his belt was light, and I gasped, but it was more of a sensual gasp than a real scream. I was so shocked by it, still – the sharp pain radiating through my ass-cheeks, spreading down, pooling into a hot, wet desire between my legs – and so I forgot to ask for another.

The second slap was furious, and I screamed out in pain. "What do you say?" he said to me.

"Please, give me more," I said, trying to make my voice as sexy as possible.

He cracked the belt across my ass again, and the pain was incredible. "Why, you little slut? Always tell me why."

“Please give me another because I'm a very bad girl and I deserve to be punished!” I screamed, quickly.

The next one was lighter – still sharp, but not as punishing. It sent a wave of pleasure through me.

“Please give me another, because I'm such a bad girl, I need to be punished,” I said. I looked at James, who was watching, his jaw slack, his cock hard.

But instead of giving me another whipping, Pacione looped the belt around my neck and jerked me up to a sitting position. Now I was facing James, who was burning red and humiliated enough already. I didn't know how he was going to take any more.

“But we're not done yet, are we?” he said.

“No sir,” I choked, because he had tightened the belt around my neck and I was having a little trouble breathing.

“Why not?”

“Because I was so bad,” I purred. I really hammed it up for James' benefit. “I really need to show you how sorry I am.” He hadn't told me to say this, but I was figuring it was driving a knife of pleasurable pain through James.

I felt his cock as he slid it out of his pants and directed it toward my ass. He tightened the belt ever so slightly. “You are going to ride this cock, inside that tight little ass of yours, until I say stop. You really ride it. The faster you ride it the more sorry I'll know you are. Maybe you can even be forgiven for this.”

I pushed up with my arms and lined his cock up with my asshole, smiling at James as I did.

But when I let the weight drop, my ass was too tight for him to go in. I tried again and again but the same thing.

“Oh, Joanna, it seems like you're making even more mistakes, even more things to be sorry about,” he said in my ear.

“I'm sorry,” I said.

He pushed me forward and traced his cock over the lips of my pussy, picking up some of the wetness. I was glad that he could see how ready I was, how much I was pleased by pleasing him. Finally he eased his cock into me. “There we go. Now sit back.”

I had to move slowly. The pain of his cock going into me was excruciating, but also exquisite. Getting to face James and watch all the

pain on his face as the big cock went into my ass was a bonus.

“Keep going, Joanna. Show me how very sorry you are. It should hurt. You've been very bad and you need to feel how bad you've been.”

I was screaming and sweating by the time I reached the base of his cock. I stopped for a moment to catch my breath, but he grabbed my hair and began to lift me up.

“No break for you,” he insisted. “Get to work on that apology.”

I began to lift myself up and down on his shaft, his hard flesh tearing at my ass. I began to move faster and faster at his bidding, and it felt as though it would go on forever: me pumping up and down on him while he urged me to go faster and show him how sorry I was. My thighs began to burn.

He reached around me with his hand and began to open the folds of my pussy. He left his hand positioned so that as I worked myself up and down on him, I was stroking myself. I could feel my muscles clenching around his cock as I worked closer and closer to a high. I moved frantically, trying to make myself come before he tired of this, or decided not to let me. I was sweating and moaning, and with his other hand he pushed my hair over my shoulders and breathed into my neck. “That's it,” he said. “Good girl.”

Finally, as I slid up his cock, he pushed me off and onto the floor. I cried out, so excruciatingly close to coming. He ordered me:

“Get up and get on your knees,” he told me. Then he moved onto the couch and pulled off his pants and underwear. “Get over here, and get that dirty tongue of yours in my ass. I want you to give me a nice rim job, you know what that is?”

I didn't really, but I could guess, so I walked on my knees over to the couch and found his anus with my tongue.

“Do it sweetly,” he said. “Do it like a nice sweet apology.”

I licked around the rim of his ass, sweetly as he had asked. My thighs were sore and my pussy was throbbing. I was so close to coming that I was dizzy with the sweet pain of it.

“Good. That's very good. Now get that little tongue in there. Lick it nicely, like a little cat,” he said.

I obeyed, and he pushed his balls down onto my face as I did. “If you're good I'll let you touch yourself.”

He was really enjoying himself, I could tell, but quite suddenly he grasped my hair and pulled me back so he could jam his cock in my mouth. Then he grasped my head with both hands and began to move my head over his cock.

“Taste that ass, you little bitch,” he told me. “Open up that throat and show me you're so very sorry.”

He was really moving me so fast over him that I couldn't breathe, and I began to whimper and squirm – but his hands were firmly over my head and I couldn't get up far enough to get his cock out of my mouth. Down my throat, again and again, he went. My mouth was soaking wet with spit and mucous, and he said: “Yeah that's it, get that hole nice and wet for me.”

I could feel that he was close to coming, and I wasn't sure if I could take any more and swallow his cum without passing out, because I was starving for air. He pulled out and left me gasping for air, his hand still on the back of my head. I couldn't see through all the spit and tears, but he didn't move me again for a moment.

I wanted to beg him to touch me, to make me come, but I was afraid that one wrong step would get me the real punishment of not being allowed any relief.

Seemingly from nowhere he had produced a small dish - like the kind you would feed a cat out of. He pulled his cock from my mouth and rubbed it on my forehead as he spoke:

“Now,” he said, and he finally lifted his gaze to James. “I want you to get James to come into that dish for me.” He smiled.

I knew he had a plan, and so did James.

“Get over here,” he said to James.

He pushed him down on his knees, so that we were both submissive in front of him, and I took James' cock in my hand. I knew that Pacione's belonged in my mouth, right where James could see it.

It didn't take long for James to groan (it never did), and I felt his wet cum splashing on my fingers.

Pacione held my head to him and ordered James to get it all into the dish.

And then he pushed me deep onto his cock, thrust into my face a few times, and I felt him building up to an orgasm. He surprised me by pulling out.

“Bring that dish over here,” he ordered James. “Hold it for me while I fill it up.

I sat back on my heels and enjoyed the view, sneaking my hand between my legs, as James held the dish like a servant for Pacione, and he filled it up with his cum.

Then he set it down in front of him.

“Lick that up like a little kitty,” he said. “Lick it all up. And while you do,” he turned to me, “*You* can reach your hand down there, between your legs, and make yourself come.”

James got down on his hands and knees. He hesitated for a moment, but he knew his place. He bent over and began to lick up the cum in the dish.

I moved my hand between my thighs and began to stroke myself. I liked watching my husband licking up a dish of his own white, hot fluid, mixed with Pacione's.

He watched us until I came, and then got and began to get dressed. James knew better than to stop, even though I had gotten what I wanted, so he kept licking. The dish seemed to refill itself, he was licking so long.

Finally he sat up.

Pacione stood over James and picked up the dish.

“Oh, just a little bit here,” he said, and he held it out to me.

I swirled my tongue around it and he smiled down at me.

“Good girl. Get dressed now. But leave your face like it is.”

I dressed myself and then stood in the middle of the room, awaiting his command.

He sat in his office chair and swung it side to side, a cruel smile on his lips.

I couldn't believe he had another idea.
