Chapter 1

My phone rang. Not the sound like a bell, which is weird to put on a cell phone anyway, since there is no bell in your phone, but the little electronic ping I preferred. With a fare in the backseat, I had to ignore the call for now.

The next light turned red so I had a chance to check the screen.

Tabitha, my wife.

I let it go to voicemail but she did not leave a message. Instead, I received a dashed text, quickly sent. I took a chance the light would stay red long enough and tapped the screen.

I'm drunk and horny, Todd, she'd written. Come pick me up and take me home and fuck my brains out.

I'm with a fare, I sent.

Ask them if you can pick me up. I need a ride.

I sighed. Tabitha likes her parties. Tonight was a retirement party for a coworker. My wife is a part-time copy editor for a romance novel company. She hopes they'll offer full-time soon as is trying hard to fit in. Their little gang had started at a restaurant but after dinner several women suggested they move to a male strip club. Most of the gang had gone home at that point but not my Tabitha. She'd kept me posted with text messages as her night progressed. This was the first text she'd sent in a while.

"Excuse me, sir?" I asked the man in the back seat. "Do you mind if I pick up another fare? They are on your way home and will cause you no delay."

"I don't mind at all," the distinguished gentleman said. "We're all trying to make enough money to survive."

"Thank you."

I texted Taby I'd be there soon.

I knew which club the girls had visited. By now I knew the whole city. I've been driving Uber for a few years, one of my three jobs, and I've learned every address, street, and alley in this town.

The light turned green and I stepped on the gas.

Tabitha waited for me at the curb. She's cute but her body is phenomenal. Not that one could tell in the long dress she wore tonight. I

knew she had a nice alcohol buzz going by the way she swayed on her feet. I pulled up and rolled the passenger window down.

"You called for a driver?" I asked, pretending I did not know her.

Let's not give my fare a reason to rank me poorly. If he knew I was picking up my drunk wife on his time he might get annoyed.

"Yup," Taby said, playing along. "I did."

The man opened the back door and scooted across the seat. Tabitha got into the car and closed the door. She stuck her hand out and the man shook it.

"I'm Tabitha," she said.

"Brice," he answered.

"Nice to meet you, Brice," she said.

"Likewise."

He craned his neck to see the business marque over the sidewalk.

"This place has male entertainment?" he asked.

Tabitha laughed.

"You can call it that," she said, slurring slightly. "Just hot naked male bodies everywhere. '*Dicks to stir your drinks*,' as my girlfriend said."

Those last comments were spoken for my benefit. I'd told her I wasn't comfortable when she first informed me of the group's entertainment choice but she assured me there was no cause for jealousy.

"Did you have fun?" Brice asked.

"I had a blast. We all did. I work with women editing other women's fantasies. We're a horny bunch. This is exactly the kind of place we need to vent some pressure."

He laughed.

"I'm glad to hear it."

"Thank you. Driver, take us home."

"Happy to, Ma'am," I said.

I pulled away from the curb.

They began conversing in the backseat but they kept their voices low. I caught little of what they said. I casually tilted the rear view mirror to see them better and was surprised to see Taby had scooted closer to the man. I was doubly surprised to notice the front of her shapeless dress had opened a little and now displayed generous cleavage. I cleared my throat, trying to send a message, but she was enthralled by Mister Distinguished. I don't know what they were talking about but she was clearly into the man.

I drove, glancing back occasionally, but soon lost interest since I couldn't hear them and traffic demanded my attention. As the only paying passenger, he was obviously my first drop-off. I'd take Taby home after and then continue my shift.

After a while I checked the mirror again and discovered her dress had fallen open a little more, exposing a lacy black demi cup. Tabitha isn't drop-dead gorgeous but she is cute. She is attractive. The man kept his eyes on hers, somehow ignoring the cleavage in his face. Traffic got busy and I was forced to look away.

When I finally returned my gaze to them, my wife had her fingers resting on his crotch. He was smiling, which was better than angry and freaking out, but what the fuck, Tabitha? She gets like this when she's a little drunk. She's horny all the time, more than I can keep up with, but add alcohol and she becomes a tigress. I was hoping the stranger in the back seat would make her behave but nope. I needed to get her home. Now. Some idiot ahead forced his way into our lane and I maneuvered to give him room. I couldn't check the mirror for several minutes. When I did, I saw that Distinguished Gentleman stared at his lap. I bent the mirror to see what he saw and there was his hard cock, poking upright through his fly. Well, I saw half his cock. The other half was hidden inside my wife's mouth. She slowly bobbed. My protest died on my lips because everything I was about to say would reveal she was my wife.

I clenched my jaw and grit my teeth. She far drunker than I'd assumed. All those naked men had lit a fire and she'd put a move on the first cock that got close to her. I doubted she'd even remember this in the morning. The man lifted his eyes to mine and gave me a thumbs-up, seeming to say: *Hey! Check it out! I got lucky tonight!*

I was too embarrassed to explain who she was. Also, if he complained to the company, I'd be fired instantly. The company frowns on adding a passenger when you already have one, and then that passenger blowing the original fare. Happy Brice rested a gentle hand on her head and she moaned with satisfied delight at the pulsating cock in her mouth.

I racked my brain for a shortcut. Was there a way to drop him off sooner? I watched my drunk wife for a moment and then looked away in anger. We'd have strong words later. I drove, harassed by the occasional slurp or soft moan. I tried to ignore them but I was strangely drawn back to the spectacle. The man maneuvered his pants out of the way and let her go

to town. Tabitha worked her lips lower, crawling down his shaft as she tried to take all she could. She gagged but continued, forcing him deeper.

"Holy Christ!" he grunted. "That feels so good. Too bad you can't get some of this. That strip club got her so horny."

Tabitha bobbed slowly, sucking hard enough to pull her cheeks in against his shaft. Her movements were slight because she had little room and laid in an awkward position.

The next light turned red and I stopped, bending the mirror to see everything. He was iron hard. Raised veins showed his excitement. Taby used her mouth like a pussy, barely rising and falling, milking his appendage for cream.

"All those hot guys made you crave dick," the man said.

My wife simply moaned her response. He rested his free hand on her head too and began pumping his hips. His expression was pure ecstasy.

"Fuck it," he laughed. "I'm going to cum. Why not? This was her idea."

My heart crashed to a halt.

"Maybe you shouldn't," I said. "She seems drunk."

"She's not. We were just having a conversation. It's cool." He looked down at her. "Is it cool, Sweetheart? Can I cum in your mouth?"

Tabitha merely moaned louder. He looked at me and grinned and then closed his eyes, tilting his head back. His lips parted. I was scrambling for what to say next.

"Unngh!" he suddenly grunted. "Unh! Yeah! Ungh! Fuck yeah!"

My eyes grew wide. He was ejaculating! He was blasting sperm into my wife's mouth! Her lips were sealed around his shaft so nothing leaked and her bobbing head continued to coax more. Her cheeks swelled and then her throat muscles moved, telling me at that moment she swallowed again and again. She was draining every drop from his balls.

I was stunned. It all happened so fast! The light turned green. A horn sounded behind me and I stepped on the gas, shaking my head in disbelief. He was deflating and Tabitha sucked hard as he shrank, eventually allowing his softening penis to slip out. She licked her lips and sat up. He adjusted his pants and tucked his dick away, amazed at the turn his ride home had taken.

"That was incredible," he chuckled.

My wife did not answer. He turned to check on her.

"She's asleep!" he rasped. "Passed out! Sucked me off and faded."
I changed lanes like a robot.

"What a night," he said. "I only got back in town a few hours ago. I've never received road head before. That was awesome. I'll tip you a hundred to keep your mouth shut. My wife can never know. Cool?"

I gave him one hard nod.

"Thanks," he chuckled. "My lucky night."

His eyes went to her exposed tits.

"Would it be wrong to take a better look?" he asked.

"Yes. She's passed out. No consent."

He leaned back.

"Fair enough," he said.

Fate was kind. To him anyway. As I drove the natural movements of her body caused her dress to open farther. Soon both tits were lusciously displayed in twin demi cups. Her nipples were hidden but the arch of her small areolas were obvious on both breasts.

"I'd love a picture," he said. "But the risk is too much. If my wife ever found that photo on my phone, I'd be a dead man."

"True."

I drove. He stared at a passed-out Taby and enjoyed the road jiggling her tits. Soon her wrap-around dress was open down the front. Her face is cute and her tits are amazing but it's her ass and legs that draw the most attention.

"We're almost home," I announced.

"What a night."

I pulled up to his house and charged his account. He gave me a five-star rating. He snagged a hundred from his wallet for me and placed more bills inside a demi cup. I left Tabitha like that and drove away, pulling over after I'd left his neighborhood. I jogged around and adjusted her clothes. The man had given her three hundred dollars. She woke a little.

"Are we home?"

"No, Baby," I said.

"Thanks for picking me up, Honey. You're such a great husband."

I got her squared away and buckled her seatbelt. I took her home and got her to bed before heading out again. My shift would end in two hours.

The sight of her blowing the man stung but my anger was diluted by her inebriation. Four hundred dollars helped too. A lot. We were behind on bills and desperate for money. She'd cheated, technically, but probably thought she was blowing me. I was in the car after all. Tomorrow I'd pummel her with questions but for now I had to get back to work.

Chapter 2

"My head is killing me," Taby said.

I handed her a glass of water and two Advil.

"Your head almost killed me last night."

She looked at me, confused.

"You gave a stranger head in the backseat," I said.

Her face fell. She'd remembered nothing until this moment.

"No," she said. "I sucked *your* dick. You were driving and I went down on you."

"Wrong dick," I said.

"What?"

I explained everything.

"No," she insisted, once I'd finished. "I don't believe it. You're fucking with me. I gave *you* a blowjob, not some stranger."

"Sorry to be the bearer of bad news," I countered.

She studied my face. Tears began to fill her eyes.

"Are you serious?" she asked.

I nodded.

"Oh, Baby," she said, sobbing. "I'm so sorry! I'm a terrible wife. I'm never drinking like that again. Wait. Did I swallow? Did he cum in my mouth?"

"You went all the way, Honey. I almost crashed."

She licked her lips and made a face.

"So it's him I've been tasting."

I gasped but covered it.

"Why didn't you stop me?"

"His cock was in your mouth by the time I realized what you did. I'd get fired for picking up a second fare and why would I care if a random woman blew a random dude? I'd need to reveal you're my wife and then shit would really hit the fan. We could get sued. The man was married. He enjoyed it because he believed none of us knew each other."

"I'm so sorry, Todd."

"What happened inside that club?" I asked.

"Bedlam. Chaos. Women cannot be trusted around dick. Brenda went nuts. She withdrew a hundred in ones and we tipped like crazy. Lanny did the same. We had guys all over our group. Hot guys. Handsome guys. Hung guys. I think Lanny went home with one. Branda was making out with another."

"Isn't Lanny engaged?"

"She was last night but I don't know if she still is today."

"The lusty women of Romance Novels Incorporated."

She wiped tears off her cheeks.

"Do you hate me?" she asked.

"I'm upset you got that drunk. It was remarkably unpleasant to see a hard cock in your mouth that wasn't mine, but that was the alcohol, not you. I won't hold the sex against you, but if you can't hold your liquor, you need to drink less."

"You're right. I'm so sorry. Thank you for understanding."

I kissed the top of her head.

"Job number one calls," I said. "I'm going to shower and dress. I have job number three tomorrow, delivering pizzas for Northside."

"I'm so sorry, Todd."

"I know you are. Take the day off. Stay home. Rest. Hydrate. Sleep. I'll pick up dinner after work."

"You're a great husband."

"It's been said."

I pulled the four hundred dollar bills from my shirt pocket and dropped them on the table.

"What's that for?" she asked.

"Services rendered."

She looked confused.

"He gave one hundred to me for a promise to keep my mouth shut because he's married, and three hundred to you for the excellent road head. His first, by the way. He enjoyed it very much."

She stared at the cash.

"Four hundred dollars?"

"Yes."

"That's a lot of cash. We are so far behind on bills. I'm worried we'll get evicted. This money will help a lot this week."

"The night's only silver lining. He looked wealthy."

"I have no memory of what he looked like. Was he handsome at least? Was he gross? I remember sucking cock but I thought it was yours. Now I know it must have been his."

"I'd call him handsome but I'm a terrible judge of that. He was fit. Not gross. Can we stop talking about the man you sucked off last night?"

She looked properly abashed.

"Sorry, Baby."

"I've got to get ready. Eat something and go back to bed."

She nodded slightly and scooped the cash. All of it.

"Does this make me a whore?" she asked. "I got paid for sex."

"Not at all, Honey. You got paid to keep a secret, not for the blowjob. That you did for free. There was no agreement with the man. There was no exchange of sex for money. He simply dropped cash while you were passed out, probably to make you feel better once you were sober and learned what you'd done."

I left to get ready for my office job. I checked on her again before I went out the front door and she was preparing to sleep again. We kissed and I walked away with salty lips. At work, I mostly filed invoices and made cold calls. Boring, as usual, but my mind was elsewhere. I'd see that stranger's cock slipping and sliding in Taby's mouth and my heart would stop cold. I was hurt and angry but felt like I couldn't aim those feelings at her. I've been stupid drunk too. She's cleaned up my messes too.

By the end of the day I was just trying to put the whole thing behind me. Her actions did not constitute cheating, I told myself. It was merely a sex act and I should limit myself to that understanding. There was no lying, no deception, and she did nothing behind my back. There were no emotions involved. She felt nothing for that stranger. In fact, she thought she was blowing me. Any emotional attachment she had in that moment was connected to me.

The cash we made helped me accept what happened. Tabitha and I were struggling and four hundred dollars was a huge boost to our budget. After one brief encounter we suddenly had enough to make rent and buy a few groceries. The impact was huge.

My mind wandered again to the sight of that cock in her mouth and maybe because I had just been thinking about money, the image did not hit me as hard.

"That gig paid well," I chuckled. "Too bad Taby can't do it again tonight." I returned my attention to the keyboard. "Not that I want her to suck another dick." I reached for the phone, prepared to make a last few desperate sales calls. Anything to make more money. "Maybe I should suck off my passengers?" I scoffed. "Blackmail them. Tell them to pay me or I go to their wives."

I froze. I set the phone in the cradle.

Not me.

Tabitha.

"Dude," I muttered. "What the fuck are you thinking?"

I stared at my hands as my mind raced.

What if, I thought. What if Taby did it again?

The idea took root and began to sprout.

Taby could pretend to be drunk, I thought, mind racing ahead before I could stop it. I'd text her when my fare is a wealthy married guy. I'll pick her up and she can try to make the same thing happen. If she succeeds, I'll ask the man for money to buy my silence and a promise to take his side in any dispute.

I leaned back in my chair.

You'd transform your wife into a whore.

I felt shame. How could I even consider such an idea? I wondered if Taby would get angry and realized with her sex drive, she'd most likely laugh at me and agree to do it. If I said it was okay, she'd think it was fun and exciting.

Not a whore. An actress. Tabitha would merely be playing a role.

"Jesus Christ," I said. "Are you nuts, Todd?"

I glanced around the office. Thankfully, everyone had already gone home.

We try it again. Just one time. See what happens.

I gave up trying to control my thoughts. Clearly, some part of me was running with the idea. It sure checked a lot of boxes for us. Taby craved more sex than I can deliver. It's just a blowjob and I'd be there with her, keeping her safe. In a way, we'd be doing it as a couple. The event would be something we shared. We'd never see the man again. I'd keep track of his name and decline ever picking him up again.

Four hundred dollars.

I couldn't decide this for us. I had to tell her my idea. How? My gut said she'd agree to try it, because holy shit did we ever need the money, but how do I introduce the scheme? How do I tell her my idea?

I pondered elaborate stratagems for a while but in the end returned to simplicity.

I tell her the truth.

Chapter 3

Tabitha paced our small kitchen. She wrung her fingers in knots.

"We repeat everything from that night?" she asked.

"Yes. Except you're not actually drunk."

"I suck them off and you don't get mad at me?"

"I won't. We pick married men, men with a lot to lose, married men from the nicer areas of town. There are always dozens of people waiting for a ride. I'll hang in those areas and match myself to male names. I pick them up and then you send a request, just like before, and act drunk. When it's over, I suggest they drop some cash to buy our silence. Nothing menacing. I won't extort them. I don't want them getting angry. I'll merely suggest it would go a long way."

"What if they don't pay?"

"That will happen from time to time but overall we'll make a lot. The hits will pay for all the misses. Additionally, I still collect my pay for the ride. We collect money on top of money. Easy."

She chewed a lip, pretending to be anxious. She had to or look like a slut. I know her and this crazy idea is something she'd think was fun. I decided to drag some facts into the light.

"Baby," I said. "I know you think the idea is hot. I know you believe you need to hide that from me. You don't. You love sex more than me and that's cool. Here's a chance to enjoy handsome wealthy men. You can use them and discard them and get paid for it. If we try this and you hate it, we stop. Okay?"

"You won't think I'm a slut?"

"We're doing this together, so, no. You're not cheating on me or sneaking around behind my back. We'll be in the same car. I may not like what I see but I don't have to look. This ploy isn't forever. I say we do it until we're ahead on the bills."

She was conflicted. She wanted to say yes but worried what I'd think of her.

"Don't wear that dress again," I said. "It was too awkward. Go with a low cut top and short skirt. Way easier to move around and you can show more skin, get our targets in the mood."

"You've thought this through."

"I have. I spent days considering all the angles. I've already seen you do it once so the shock factor is gone. This time we do it deliberately. This time we're in charge. This time we're choosing to make it happen. We're in control."

She pondered a moment.

"If I ever get a bad vibe on the man," she said. "I'll start talking about the moon. That will be your clue that I'm calling it off and you should just drive."

"Good idea."

She drew a deep breath and held it, then released the air slowly.

"When do we start?"

"Right now?" I said. "Mess your hair. Have a few drinks so you smell like alcohol. I'll drop you at the club and swing by with a passenger to pick you up. Be ready."

"This is crazy, Todd."

"So? We've done plenty of crazy things."

She strode the linoleum and planted a kiss on my lips. She was acting hesitant and speaking about uncertainty, but I saw the fire in her eyes. These would be highly-charged sexual encounters. I was granting her immunity to enjoy new men. Part of her wanted to jump for joy but she kept that part under control out of consideration for me.

She headed for the bedroom to get ready. I sat at the dining table and coached myself to remain calm. If my plan worked, I was about to put cocks into my wife's mouth. I reminded myself all the reasons we had to do it and that only my own weak ego could trip us up, so get that shit under control.

Tabitha appeared after a while and I gasped when I saw her. She was taking this mission seriously. She'd done her hair and makeup and selected her outfit all with the goal of attracting a male. I stared and she blushed a little.

"Jesus, Taby."

"Todd, stop. You're embarrassing me."

"Sorry, but, Goddamn."

She shook her head slowly.

"I figure we need this, right? We're getting crushed by bills. You're working two jobs and as much overtime as you can. If I can boost my

contributions, I should, at least until they make me full-time."

"We do need this."

"All right. I'm in."

We grabbed our stuff and headed for the car. I soon dropped her at the club and drove away. She looked hot. Her body was mouthwatering. To see her look so good raised fears about our plans but I quieted those, reminding myself how badly we needed the money. I drove to Pleasant Hills, the affluent section of our town, and waited. My first hit took only a few minutes.

A trip to the airport request arrived from a client named Mister Thornton. I accepted and sent Tabitha a text to be ready. She sent back a kiss face emoji.

Thornton was sixty-something and preoccupied, his face etched with worry. I put him in the backseat and drove. Taby sent her text request right on time. I made the second-passenger pitch to Thornton and he agreed I could pick her up, provided he lost no time as he had a flight to catch. I assured him he'd make the flight.

Taby waited at the curb and, just like before, I helped her into the backseat. I'd gone a hundred feet when she began to flirt, telling my fare how handsome he was, how good he smelled, and how much she liked older men. Poor guy had no chance.

"Naked men dance in that place?" he asked, pointing out the window.

"Lots of hot naked men," she answered, touching his hand.

Soon she announced she was tired and asked if she could rest her head in his lap. He quickly sat up straight and patted a knee. My wife laid down. I drove. I soon heard fabric rustling but could see nothing so I was forced to watch his expression. I knew the moment his cock entered her mouth by the melting of his face. He glanced nervously at me but I feigned ignorance.

I heard a slurp.

"Everything okay back there?" I asked.

"She's— She's got—" was all he managed.

I gave him a thumbs-up.

"I understand," I said.

I grinned like we males were bonding over something cool. He was nervous but Tabitha can suck cock like a professional. Soon his hand

gripped the headrest and his jaw was set. He was about to blow.

"Your secret is safe with me," I assured him. "I won't tell a soul."

My assurances only placed the seed of doubt in his mind, but that was the goal. He was soon breathing fast and staring at his lap. I caught a glimpse of Tabitha's long hair bobbing between the seats and then he groaned, unleashing his pent-up load into her vacuuming mouth. My dick grew hard listening to the sounds of sex. How could it not? Taby sucked him dry and swallowed, cleaning his cock before sitting upright and pretending to pass out. He tucked his dick away and met my eyes in the rear view mirror. Guilt sank claws him.

"I trust you'll tell no one?" he asked.

"Of course. No way."

"Can I buy your silence?"

"Sure. If that will make you feel better. It will certainly seal my lips."

He reached inside his coat for his billfold and withdrew a fifty. I made a face. He went back in for more.

"Remember, I'll share what you give me with her," I added. "I'll make sure she knows nothing. If she asks, I'll provide false information about where I picked you up, what your name is and what you look like. You can relax. You're buying my loyalty."

That did the trick. He withdrew a wad and dropped it over the passenger seat. I spied four-fifty.

He eyed Tabitha and then me.

"Best ride to the airport I've ever had," he said.

"Happy to be of service, sir," I chuckled. "Please leave a five-star review."

"Gladly."

He paid the bill. There was a man-to-man air about what we did, like a bros-before-hoes feeling. Men are quick to form teams and Mister Thornton and I were buddies now. I navigated the airport drop-off zone and waved goodbye. Tabitha pretended to be out until we hit the freeway.

"That was crazy!" she squealed, scaring me.

I laughed.

"Fucking hell," she continued. "My heart is pounding. How much did he pay?"

"Looks like four hundred and fifty."

"Sweet Jesus. That's more than I take home after two weeks. Fuck!"

She met my eyes in the mirror.

"You okay?" she asked.

"I'm great. The seat blocked my view so I only experienced the sounds. I'm okay. That's a great first attempt. Let's go home."

"Hell no, Baby," she said. "Let's do it again. I'm horny now."

Not what I expected from her but she had a point. I dropped her at the club and circled back to Pleasant Hills. My wait was longer this time. The ride would be from the airport to Mister Rainier's home. I called and explained to her that this time she'd already be in the car when I picked him up and she needed to work the club into the conversation.

"Maybe," she said.

"They need to know you're horny. That's part of our cover."

She chuckled.

"You overestimate men, Baby," she said. "All men need is a flirt from a drunk girl. Trust me, I can make this happen. Come get me."

I soon learned she was right. I picked Jason Rainier up at the airport arrivals and apologized for having a fare already.

"We're crazy busy and I wanted to save you the wait time," I said. "Her home is in line with yours but you'll be first."

"I'm fine sharing a ride," he said, after glancing at my sexy wife.

He climbed in and I drove. Tabitha woke enough to chat with the man, acting drunk to perfection. She used the same line about being tired and requesting his lap and he looked at me in the mirror. Her head drifted down.

"Go for it, brother," I said. "Your secret's safe with me."

"I'm married," he said, showing me his ring.

"Maybe she'll just sleep?" I suggested.

He stared at her face and then ran his eyes over her body. Her tits spilled out and her short skirt rode up to her ass. She looked delicious. I angled the mirror when he wasn't looking and got a much better view this time. I'd scooted the passenger seat forward to open the gap. Tabitha nuzzled his thigh and dropped a hand on his crotch to lay her head. He grew agitated, fidgeting. I drove in silence for a minute.

"Did I do that?" Tabitha said, groggy, drunk.

"Fuck yes," he said. "What did you expect? I can't have a hot pretty girl breathing on my cock and not get hard."

"You think I'm pretty?" she asked.

He didn't answer. He couldn't answer. I heard the sound of a zipper and then a loud slurp. I heard him gasp and then moan.

Tabitha was right: men are easy.

"Dang," she muttered. "Really? Daaaamn."

I tried to see what happened back there but traffic demanded my attention. She slurped his cock again and he sighed.

"God, I fucking needed this," he muttered.

"Difficult flight?" she asked.

"That entire business trip sucked."

"Ended with a suck too," Taby giggled.

Traffic opened so I risked a long glance. The man's cock stood upright from his lap, a thick pillar capped by a helmet head. Tabitha held him around the root with both hands while her stretched mouth bobbed. He was big, almost too much cock to suck. My wife went at his beast with enthusiasm, all pretense gone. She wasn't acting like she wanted his cock. She truly did.

"Slow down," he said, and my wife did. "Not you, Sweetness. I'm talking to the driver. No need to rush me home. Let's give this angel time to finish what she's started."

"Your secret is safe with me," I assured him, reusing my line. "I won't tell a soul."

He was only partially listening. Tabitha had risen to her elbows and now stuffed her mouth with dick. She sucked hard, popping off occasionally. She struggled to stroke with her hands but there was little room to maneuver. I was surprised by her fervor. She maintained the façade of drunkenness but attacked his big cock with gusto. She forced him into her wide mouth and moaned deeply.

"Enough of this," she muttered.

Tabitha sat up and threw a leg over his lap. She settled on him, facing the man and kissing his mouth. Her skirt had ridden all the way up and I saw her underwear press against the head of his cock. I was forced to look away to drive and when I looked again his cock rested between her butt cheeks. Her tits were in his face. She'd pulled her top down to feed the man her nipples. I glanced as often as possible, so I saw when her free hand found her panties and pulled them aside. All the air left my lungs as she sought his shaft, found it, and tugged him into position. Her split labia

enfolded his meat and the tip began to vanish inside her pussy. My wife groaned with satisfaction as his stiff fat meat began to fill her.

"You're so tight," he growled.

"You're so thick," she retorted.

She bent her knees and his inches disappeared. In moments, his cock was concealed, swaddled in her steaming flesh. She began to bounce slightly, working his buried beef. They kissed passionately.

I was freaking the fuck out! He was fucking her!

This was never the plan. Tabitha broke the kissing to stuff nipples in his mouth again and then her hips worked his meat. She rode him hard, chasing an orgasm, and his hands roamed her body. Her top was a ring around her waist and her skirt sat like another ring just below it. She was virtually nude. He grabbed her panties and pulled, tearing the flimsy fabric away. He was limited by the seat and her body weight so he couldn't fuck her, but there was no need. My wife rode him like a bronco. She ground her pubic bone against his and soon uttered the squeaks and squeals which meant approaching climax. I was dumbfounded. My wife fucked this stranger as I drove.

"You're going to make me cum," he said, voice deep.

"I am?" she groaned.

That was all she needed to hear. Her head fell back and her cry of orgasm filled my car. Her body trembled and shook. A shudder ran through her. The man was thrilled to make her cum and he grunted and groaned and then jerked. He jerked again, thrusting his hips upward. He jerked again. I realized each was a blast of hot sperm inside Tabitha. I could say nothing. I could do nothing. I drove and watched as much as I could, witnessing the insemination of my wife.

Tabitha was wiped out. She clung to him weakly as he shot her full. Sperm oozed around his fat shaft and dribbled to the seat. She lowered her lips to his and kissed him sweetly, tenderly, grateful for the earth-shaking orgasm he'd given. She'd come back to her senses and realize what she'd done but I needed her to continue the charade.

"You guys are hot together," I said, reminding her where she was and what she was doing. "Best taxi ride ever."

Neither spoke. They weren't ready. I caught the gap between seats and spied the place their bodies merged. His thick cock forced my wife's pussy into a wide circle. She had to stretch to take him. I stared until traffic

forced me to look away. I heard movement and noticed Taby lifting from his lap. She lowered her head to lick his softening cock clean, bathing his balls too. I saw her lick his cum from the seat. Once he was fresh again, she sat up and looked out the window.

"You married?" he asked.

She nodded slightly.

"Yes." She cleared her throat and said it again, stronger. "Yes."

"He's a lucky man."

"Not at the moment," she said.

He turned his attention to me.

"What will it cost to keep you quiet?"

I ignored him for now.

"Do you have any money, Ma'am?" I asked.

Tabitha shook her head. I met his eyes in the mirror.

"Looks like you're paying for both of you," I said.

"Will a thousand cover it?"

I tried to control my face.

"Absolutely," I said. "That also buys me as a witness for your side, if need be."

"Appreciate it," he said.

"I won't get you in trouble with your wife," Tabitha muttered.

He leaned over to kiss her cheek.

"Don't be too hard on yourself," he said. "One cannot help who they're attracted to. I was powerless before your beauty."

She met his eyes. They kissed sweetly and she lowered her mouth to his soft cock, sucking gently and pulling him like rubber.

"I wish I had the time to go again," he said.

"Me too."

The car fell silent. I drove him home and he paid the bill, granting me five-stars and adding a tip on top of his grand. Fucker had money. He kissed her again and I drove away, wondering how I'd approach this subject.

"Did he give us a thousand dollars?" she mumbled.

"More. He added a hundred to my payment as a tip."

"Eleven-hundred dollars," she said. "Just to fuck me in the back seat of a car."

"Are we going to talk about the fact that you fucked him?"

She looked surprised.

"Was that not allowed?"

"No. You were supposed to only blow him."

"When did we discuss that rule? I had no idea. I thought the plan was to get as much money as we could. You never said no fucking. You never said no kissing either. You never said just suck their dicks. If you had, I would have mentioned the situation will be more fluid than that. I can't give away what we're doing. I can't be obvious about it. We need to roll with the punches, take it where it goes."

I couldn't tell if she was playing me or not. Her natural acting skills were too good. My guts were tight and twisted. I'd just witnessed my wife fuck some dude. My guts were in knots but that was nothing compared to my head and my heart. Emotions raged. If the misunderstanding was fake then she just banged him because she felt like it, and right in my face. There was no way to prove anything and every time I started to get angry with her, eleven hundred bucks floated in my face.

"That's all for tonight," she said. "Take me home and make love to me. I'm happy we just earned a month's worth of money in a few hours but I need my husband to hold me and say everything will be all right."

"Okay, Baby," I said, seeing it from her side for the first time. "I understand."

Chapter 4

I pulled away from the man's mansion, watching the gates close behind me.

"I'm surprised to be driving you, sir," I said. "I expect with a home like that you'd have your own fleet of cars and stable of drivers."

"That is true," Mister Calhoun said. "But today is a mandated safety course each is required to attend, and I must travel."

"Well, I'm happy to have you aboard, sir."

I turned my attention out the windshield, waiting for the alert from Tabitha. It came, and I pretended to be receiving the news for the first time. I made my proposal about another passenger to Calhoun.

"I know that club, sir," I said. "The women often drink too much. If you want me to ignore this ride request, I'm happy to. She has me dropping her at a nearby motel. Probably flying out like you."

"I don't mind at all. I've not enjoyed the company of a young woman in quite some time. I know you must make ends meet."

"Thank you, sir. Yes, I do."

I sent Tabitha an eggplant emoji, our code for a mark on the hook, and soon pulled up to the curb. She looked gorgeous. She'd purchased new clothes and makeup with a little of the money we'd made, and looked great. She snatched my breath. We also spent some to catch up on bills.

"Is that her?" Calhoun asked.

"I believe it is, sir."

"My, my. Isn't she lovely?"

I parked and ran around to open her door. She gave me an address and slid into the back seat, introducing herself to my fare. Mister Calhoun had to be about seventy but still had a nice head of silver hair and his wits. He was skinny but full of energy.

I left downtown and merged onto the freeway. Calhoun and Tabitha were chatting like old friends. She maintained her drunken façade but toned it down for him. I drove on, waiting to hear her request to rest her head in his lap. So far, that question had been our Golden Goose. Their voices were low and I strained to listen.

Since the night Tabitha fucked Mister Rainier, we'd transported a few without payoff. There were guys who behaved themselves and guys that resisted her invitations. One was gay. We made no money on them but they helped us refine our approach.

I noticed her hand had landed near his crotch.

Taby was antsy, which means Taby was horny. We did this for the money but she got a lot more out of it. For the first time in our marriage I felt like she was sexually satisfied. Our sex life had gone through the roof, especially oral. We ate each other almost every night. She was constantly aroused.

Calhoun made a comment I did not hear but Tabitha's reply was clear.

"Really?" she scoffed. "You know every man says the same?"

"I'm sure they do but in my case, it's true."

She raised her hands like he was robbing her.

"Then show me, Arnold. Whip it out."

Ah. Now I understood where she'd led the conversation. Mister Calhoun, who I now knew had the first name of Arnold, unzipped his pants and lifted his hips, pushing his trousers down and exposing baggy boxers.

"You do the rest, my Dear," he said.

Tabitha grabbed his boxers and shuffled them down his scrawny legs, uncovering a fat tube of beef and two big balls. She gasped.

"I made pornographic films in the seventies," he chuckled. "Well before I made my millions in real estate. I remember those days fondly. I had only just turned eighteen when I made my first. I was in *Behind the Green Door*, with Marilyn Chambers. We were youngsters. She was such a beauty. Just so naturally sexy. She loved penis. I was only an extra but she picked me out of a room full of men."

Tabitha was listening, but only barely. Her eyes were glued to his impressive manhood.

"That's a big dick," she said.

"Did I not warn you?"

"Yes, but I didn't believe you. Like I said, every man brags about himself in that way. You backed it up."

Arnold began pulling his boxers up.

"I don't brag," he said. "I'm too old for such games."

Tabitha placed her hand on his, stopping him.

"Leave it out," she said. "Let me look at it a little longer."

He laughed.

"With pleasure, although I must warn you. Your eyes on me will eventually embarrass us both. You're a lovely woman and I'm sure I'll become erect."

"At your age?"

He laughed again, louder.

"I'm a bit of a showoff, too," he said. "Keep looking. You'll see."

He told the truth. He put his ass in the seat again, large cock resting on his stretched boxers. My wife leaned close, examining his inches, and blood began to flow.

"How many women have you fucked?" she asked.

"Who knows? Hundreds. More."

"I bet they loved it. Did you still need to pay your costars?"

He laughed again.

"Beautiful and charming," he said, tilting Taby's chin up. "I was an actor, not a producer. I paid no one. I got paid. I made films for about three and a half years and then moved on to real estate. That's where I made big money."

They continued their little conversation but his dick continued to rise. Tabitha casually curled fingers around the shaft and began to slowly stroke from balls to crown. Traffic closed in so I lost track of them and when I next glanced in the mirror, my wife gently suckled the head like a baby.

"You make my jaw hurt," she told him.

"Here's an industry trick. Relax your jaw. Don't use it. Let it hang and take me into your mouth. I'll do all the work."

She followed his suggestion and the head vanished in her mouth. She naturally closed her lips around the shaft. He wasn't terribly hard but he was thick and heavy and the softness made it easier for my wife to take more. She bent him to get the best angle. She'd hold her head still and try to work her lips down the shaft, craving more and more of his cock. She suddenly withdrew all of it, gasping.

"I think you should fuck me," she said.

"All right. I'd like that."

She sat up, ready to throw a leg over his lap.

"Not here," he said. Then, to me: "Driver, find us a hotel nearby. There are plenty by the airport. Get us a room so I may fuck her correctly."

"What about your flight, sir?" I asked. "You'll miss it."

He chuckled.

"I doubt that. My private jet will wait for me."

"You own a jet?" Tabitha asked.

"I own two," he said.

I pulled off the freeway and into a parking lot. I checked my phone.

"There's a five-star three blocks away."

"Perfect," he said.

He reached for a large briefcase and withdrew a billfold. He pinched bills, handing me several hundreds. A quick count added up to a thousand dollars. The man's walking-around money was greater than our monthly budget.

"Book us a room," he said. "I cannot be seen. Media will arrive and make a circus of things so please, be discreet. Book us something on the ground floor at the back. We'll enter that way. You may stay with the car if the sight of people engaging in intercourse bothers you or you may attend, but be warned. I will not be sharing this delightful strumpet. I've not felt excited like this for years."

"She's all yours," I said. "I'm happy to observe. To wait in the car sounds awful."

I admit at this point I was seeing dollar signs floating in the air. Luck had dropped this codger in our laps and the fear of public attention set us up for a big payout.

Chapter 5

I parked behind the main building and led them into the hallway. The ground floor units were not as nice as the top floor penthouses, but neither of them cared. My wife was genuinely eager to fuck this old man. Either that, or she was a far better actress than I realized. She held his arm as they hurried down the hall, following me to the room. I felt strange leading my wife someplace so another man could fuck her. This was different than the game we played in the car. This felt more real.

I waved the card at the lock and the little light turned green. I ushered them inside. I flipped the deadbolt and turned to speak, ready to ask what he had planned, but Tabitha was already kissing him. His skin was loose and wrinkled and hers was tight and smooth. He worked on the buttons of his shirt and she worked on the buckle to his pants. Her enthusiasm was clear. She hungered for sex. Was this still about milking him for cash? She seemed to have lost sight of that goal. She seemed keen only on fucking the man. His pants and underwear hit the floor and his cock swung in her face. She reached for it with both hands.

He stepped away.

"Strip for me," he commanded.

Taby pouted but stood, slowly removing her clothes.

"I see you wear a ring. Married?"

"Yes," Taby said.

"I love taking another man's woman. Have you cheated on him before?"

"Yes."

"Does he know?"

"Yes."

"Does he cheat on you?"

"Never."

"Ha! That's the power of pussy. Men will pay any price. I've taken dozens of married women to bed. Are you on birth control?"

"No."

He regarded her, studying her expression.

"You must allow me to pay you for tonight."

"No," Tabitha said, playing the long game. "I want you. I want that dick."

"I carry protection with me," he said, watching my wife undress. "I always use it, with exceedingly rare exception. You'd be shocked how many women come after my money using sex. I want to make you such an exception. I want to forgo a condom with you. You're sweet and young and delicious and married and I yearn to fill you with seed. I want to pump my essence into you. I'll pay to know you carry my sperm. It's a fetish I have that I almost never get to act on. Since a baby would be hard to explain to a husband, I'll pay you to take that risk. Will you?"

"You'll pay to fuck me bareback?"

"Not merely fuck. To inseminate. I'd love to flood your married pussy. You have an innocence about you that drives me wild. I want to put my stamp on you."

Tabitha removed the last of her clothing, standing now naked and unashamed before this septuagenarian. Was this an act or did she truly desire this man? I honestly couldn't tell.

"Your turn," my wife said. "Strip for me."

"My body does not compare to yours. Time has ravaged me."

"Do it," she insisted.

The man began removing clothes.

"I'll take your money," she said. "But I would have fucked you bare without a payment. I think you like buying things and that includes buying people, so I'll take your money. But, also, I need it." She stepped close and knelt before his hanging cock, lifting the heavy head on her palm. "I like you," she continued, and for a moment I was unsure if she spoke to the man or his dick. "I want you. I'll take your sperm gladly. My womb feels warm and ready. Maybe you will put a baby in me. That danger is exciting. I'll take the risk and deal with ramifications and my husband later."

I sat. Truth be told, I fell into my chair. Her words hit hard. I'd never considered a possible pregnancy because blowjobs don't make you pregnant. We'd leapt far ahead in a short time. Rainier had cum in her but I'd been so occupied in the escalating sexuality of our encounters, I'd never considered harsh real-world realities.

Until now.

The only reason I was doing so now was because Old Man Calhoun was forcing me to, and that's because he wanted the element of that harsh

reality present. Crazy rich fucker. What an ego trip. Possessing a big cock wasn't enough for that man. He needed to know he might father a child on some other man's wife.

Obviously, such consequences were something Tabitha had considered. Of course the woman would think of such things. She'd considered the possibility before she mounted Rainier and done it anyway. Now she was about to do it again.

My dick began to grow.

My wife was a nastier slut than I realized.

She finished undressing him and they kissed again. Tabitha rose on her toes because he was much taller. His thick cock bumped against her stomach and she slipped her fingers around his girth. His cock was suddenly a menace in my eyes, a weapon, a dangerous thing capable of altering our lives forever. Taby knew all this already and wanted him anyway. I caught a fleeting glimpse of how different fucking was for men and women. The sexes approach the act so differently. Men worry about almost nothing. Women worry about almost everything.

Arnold sank his fingers into her long hair and spun her away. He walked her forward roughly until her hips hit a small writing table. She gasped at his aggressive actions and struggled a little, but allowed him to manhandle her. He took a wrist and twisted her arm behind her back. He pinned her there and lifted his meat by the head to drop the cudgel on her firm butt. He gripped the root and tapped his growing erection on her ass like a night watchman.

"Big cocks make you weak," he hissed. "I recognized the look in your eye. You lowered my boxers and saw what I had and you were done for. I knew then I could fuck you. I decided then I would."

Tabitha shuffled her feet farther apart, opening herself to him.

"Your husband has no idea who he married, but I do. I can't wait to send you home carrying me inside. What a delightful little Easter egg you will be, a Trojan Horse, a naughty Christmas present waiting to be opened."

He held his cock and dipped the head under her round ass cheeks. He searched blindly for a moment and then Tabitha gasped and tried to stand up straight. He kept her down.

"Do you know how I've amassed so much wealth?" he asked the back of her head. "I acquire things."

He flexed his hips and my wife cried out, melting as her cunt was filled with thick throbbing cock. He spread his legs for support which also revealed his big balls. I thought about the load of sperm they carried and how he'd purchased the right to inject all of it into her. He'd pay extra, I suspected, to know I was her husband and he'd be doing it in front of me. He kept her pinned to the desk and began to saw in and out. Taby groaned from the fat intrusion. He continued to harden as his pornstar cock shoved her flesh out of the way, shoved her inner and outer lips until they accepted the shape of his dick. She grunted with discomfort.

"You're too big," she whined.

He chuckled.

"Oh, am I? I'm so sorry. Let me just—"

He released her arm and withdrew his gleaming cock completely. He stepped away. Tabitha whined and whimpered and wiggled her ass at him.

"No," she cried. "Put it back in."

"That's what I thought."

He grabbed her wrists and pinned both arms behind her back. His spear was aimed at her cunt and he stepped close, sheathing the beast again. She moaned with a mixture of discomfort and satisfaction.

"I'm in charge," he hissed. "Say it!"

I watched Taby closely. Our sex was never like this. The sounds coming from her were pure pleasure but still, my protective instincts had kicked in.

"You're in charge," she groaned. "Fuck me. Fuck me like no man has ever fucked me. I know you can."

He laughed. His chest swelled and his shoulders straightened. He pinned her with his weight and slowly buried all the inches she could take. His fat cock stretched her hole wide. He reached the depths of her and held himself there, forcing her stuffed cunt open. My wife groaned and groaned.

"I can't take it," she whimpered. "Fuck me."

He laughed and began to move his hips. He held both wrists with one hand and wet his thumb. He pushed the stubby digit up her asshole, invading her puckered sphincter without warning. Tabitha thrashed a little at the unexpected intrusion but then moaned and worked her hips to take it.

"Jesus!" she gasped.

"I knew you'd like that."

Calhoun pumped his cock in and out, enjoying the pussy he'd purchased. My wife's gasps grew louder and more frequent and Arnold leaned over but never broke his smooth rhythm.

"Are you about to cum?" he chuckled. "Is my big cock about to get you there?"

"Yes!"

"So, I'm not too big?"

"No. God, no."

He bore down, pumping his thumb in opposite time with his cock. Her hips pinned against the desk exposed her clit to his smashing balls and Tabitha writhed under the man.

"Cum for me," he hissed.

My wife whimpered, twisting.

"Cum for me," he hissed again.

Tabitha's body went rigid and she howled through clenched teeth. He thrust even faster, rocketing her climax skyward and shattering her mind. He thrust faster and my wife orgasmed again, on the heels of her first. He laughed with abandon as he felt her squirming beneath him but he never slowed. The man had fucked for a living. He was skilled. He worked his fat dick like a machine until my wife babbled and sobbed. He released her wrist to lift himself over her and drive his long cock even deeper. Over and over he pounded her sweet hole until he roared and drove all the way in. He held himself buried, spurting hot sperm through her cervix and directly into her womb. I was staggered by the sheer volume of semen he produced, flooded by the deluge of dripping batter he pumped. He set my wife's uterus awash in slippery soup.

Her orgasm ended but she continued to writhe, almost involuntarily. I was sure electricity coursed through her, leaving her tingling from head to toes. I expected him to withdraw and collapse on the bed but he did not. He continued to lean over my wife and keep his hefty cock firmly buried.

"That was amazing," Tabitha groaned, finally.

He withdrew his thumb from her ass, gently, easing the digit free. He straightened but still left his fat cock entombed. Taby was in no hurry to change a thing. He flexed his hips and pushed half an inch deeper, preventing his softening cock from slipping free. His big balls began to sag and hang. They slowly collected their wits.

Eventually he stepped back and withdrew his slick inches. Her cunt lips clung to him. He kissed her on the butt and gripped her by the hair again.

"To the bed," he muttered.

My wife allowed him to steer her. She crawled up on hands and knees.

"Just like that," he said.

She stopped. He moved behind and lifted his semi erect dick, aiming himself at her flooded hole.

"So soon?" she asked.

"I'll never see you again. Tonight must be everything."

He pushed. He was just stiff enough and she was certainly slippery enough and his cock entered and traveled deep. Her reaction wasn't the hard stabbing of a stiff dick but more like a welcome home. She pushed her ass at him and he tried to stuff her with every spongy inch he had. His hands went to her waist and he began to pump.

The old fucker began to stiffen.

"I love it," my wife muttered.

I saw she clearly did. Her eyes were closed and her face a serene expression of pleasure and delight. His shaft thickened and his strokes grew stronger. Soon he was pounding her again, driving his meat deep, conquering her pussy with confident thrusts.

"I'm going to orgasm again," she whimpered.

"Cum for me," he hissed.

He held his rhythm and I swear I saw his thickness surge. Tabitha gasped so I know she felt it. The man was a fuck-machine, trained by years in the porn industry. Taby's nipples stiffened into glass-cutting points and she wailed, tossing her head and climaxing all over his fat driving meat.

I hoped they stopped. My heart could take no more.

Calhoun allowed her orgasm to peak and plateau and he kept her there with strong, smooth strokes, until she at last began to melt and collapse. He held her up with an arm under her stomach and fucked her raw until he exploded with a new inundation of sperm. His firehose blasted her guts to overflowing, semen dribbling around his shaft. They fell to the bed but he was careful to keep his cock embedded. They spooned and lay there catching their breath.

"Again?" she teased, after a few minutes.

He laughed.

"If I were younger," he wheezed. "There was a time when I'd go all night."

"You've done yourself proud," she said. "That was an epic fuck."

He lifted his head to find me and waved towards his pile of clothing.

"Get her information," he said. "Then hand me my phone."

I grabbed a notepad and pen and found his phone in a jacket pocket. I brought everything to him, my eyes glued to his fleshy snake still inside her. I noted the veins and arteries twisting along the shaft before his inches vanished, sealed away by her soft inner lips. Her cunt was a tight ring around his softening girth.

"Do you have a PayPal account?" he asked her.

She did and told him her username. He left his cock inside her as he authorized a transfer.

"Is ten-grand enough?"

Her jaw dropped. I had to look away to hide my glee. What a fucked up mess my emotions were at that moment.

"More than enough," she said.

He hit send, showing her the screen on his phone.

"Now you have my information too," he said. "Should you conceive, and decide to keep it, please inform me of your decision. I'll send more money. If I've put a baby in you and you learn it's a girl, I'll send a lot more money. I have six boys scattered around the world but no girls."

My dick was a steel rod in my pants. I successfully hid my condition even if I didn't understand it. It wasn't all that money turning me on. It was something else, something deeper.

"I'll let you know what happens regardless of the outcome," Taby said.

She snuggled against him and when his softening penis tried to slip out, she reached a hand down to nudge his cock deeper.

Chapter 6

I punched a code into the numbers pad and entered the tarmac through an airport gate I'd never even seen before. Arnold pointed directions and I pulled up to a lovely chrome-finished Hawker Four-hundred XP private jet. Beautiful. Uniformed pilots waved and smiled at me through tiny windshields.

Mister Calhoun had something on his mind. He took Tabitha's hands.

"You love to fuck," he said, and she nodded a bit shy. "You need money. If you want, I can put you in touch with porn industry people. You'd make a ton of money in the business. You have the right look. You have an incredible body. You're naturally sexy. Make a few movies to get your name out there and then you'd make a ton more with your own website. It's just sitting there waiting for you to scoop it up. Give me your phone."

My wife handed her phone to him. He entered information.

"That's my most personal contact info. Nobody has that. If you decide to try it, let me know. If you get pregnant, let me know."

Taby kissed him.

"I'll let you know," she said.

He mounted steps and waved goodbye. I put her in the backseat, continuing our little charade, and drove away. I waited for Tabitha to say something and she waited for me so we rode in silence.

"I'm not keeping it," she said, at last.

"Good."

"I thought you might feel that way."

"The ten grand is amazing, though."

"Should I make porn? Maybe just take a year to try it? He knows the people. He says I'd make a ton."

"You would."

She looked out the passenger window.

"Feels a little impersonal, you know?" she said. "What we're doing now is real. The connection is real. We have as many men decline me as use me. I talk with them first, get to know them a little, then chose to seduce them or not. Porn is just genitalia and camera close-ups. I like our routine. I

like our hit and miss. We're making way more money than we were, I still have my job at the publishing house and you were able to quit delivering pizzas, so you're down to two. I think I should skip porn for now."

"I agree."

She leaned over the seat and placed a hand on my shoulder.

"Are you okay, Baby? Was that difficult to watch? You had a much better view this time. Much better than using a small rear view mirror. Are you upset?"

"I'm horny."

She scoffed.

"Oh, my God, me too," she said. "Pull over and fuck me. That was insane. That whole encounter kept getting crazier and crazier. I came hard but I'm still horny as fuck. Park someplace and crawl into the backseat with me."

I saw a sign for a rest stop and took an off-ramp. I pulled in at the back and ran around to her door, throwing it wide. She was spreading her legs as I opened her door.

I froze.

Her panties were long gone and I found myself faced with a leaking cunt. Arnold filled her narrow slit with oozing white. The sight went off in my mind like a bomb. He was in there, inside my sweet wife. Tabitha sat up.

"What's wrong?" she asked.

"Nothing. That's just— intense."

She dipped a finger and raised it to her eyes.

"Fuck yes, it is," she admitted. "That man paid for the right to cum in me. He paid money to cum in me. That's crazy. I've never felt so slutty, so whorish. I got so turned on. I still am. I'm getting more turned on the longer you look at his jizz dripping out of my pussy. Are you okay?"

I couldn't look away. The sight was so shocking, so jarring, so gut wrenching, I had to stare. Rainier had cum inside her too but this was so, so different. This was deliberate. This was in-my-face. Arnold had pumped himself in there to outrage and disrespect her husband, whomever the man might be, not knowing her husband was me. This was a stark reality laughing at me. We all knew what was at risk, what was at stake. Sperm sought Tabitha's egg right now. I tried to imagine what it was like to be so rich you could buy wombs around the world. Jesus.

"Fuck me," she whined.

"In a minute."

I wanted to remember this sight forever. I wanted to remember this moment forever. A light nighttime breeze stirred my hair. Goosebumps rose on my arms. That was the woman I loved in that backseat yet another man leaked from her pussy. My dick ached with need. My balls burned.

"Goddamn it, Todd. *Fuck me.*"

"You look incredible, Taby. Like, I don't even know what to do with this. My mind has no idea how to handle this moment. How did a mistaken, drunken blowjob lead us to this situation?"

"Are you angry?"

"I'm fucking horny as fuck. Horny does even begin to describe what I'm feeling. Fucking you wouldn't be enough. I need to eat you, devour you and digest you so you become a part of my body."

"I love the passion but that sounds a little creepy."

I laughed.

"Baby," I said. "Looking at you right now is by far the most erotic thing I've ever seen. I hate that he's in you but that fact lights my whole body on fire. I feel my mind and my heart ignite. I'm burning up. Fucking you will not be enough."

"It will be enough for me. Come on."

I shook my head. My train was skittering off the tracks. She looked amazing with her open legs and messy hair. I felt a sudden desire to eat her until she orgasmed but hesitated. Milky liquid seeped. I scanned the empty parking lot and unzipped. My dick was stiff. I began to lightly stroke as I gawked.

"Todd. Come fuck me. Are you kidding right now? You can't show me your hard dick and not fuck me with it."

"I'm not big like Rainier or Calhoun," I teased. "You sure you want this cock?"

"I want *your* cock. I want it because it's you."

"Pull your top down. Show me your tits."

She hurried to comply. I jerked off, studying every inch of her.

"Play with your pussy. Push a finger into his cum."

Tabitha did as I asked. I stroked and she played, rubbing her clit too. Her lips parted. She opened her legs wider.

"Is this it, then?" she rasped. "We're just going to look at each other and masturbate? I'm asking you to fuck me but you just want to yank it? Does the sight of Arnold in me drive you crazy?"

Silver strands like spider webs clung to her fingers: his semen tangled with her knuckles. She rubbed her clit, getting into it now, and raised a finger to her mouth. She sucked his cloudy fluid.

"His sperm tastes good," she told me, and I moaned. "His cock felt so good inside me, Baby. That man knows how to fuck. He moves that big cock so well. Did you see your sexy wife orgasm? His hard dick did that. I couldn't resist. I came so hard all over his shaft. I felt him deep in me. That's the best part about sex as a woman, feeling the stiff dick you've taken inside your body. I love it."

I moaned again, excitement rising. She rubbed her clit faster. She grabbed a big tit and massaged.

"He shot so much sperm into me, Todd. I felt him exploding in there. I've never felt anything like it. He gushed like an oil derrick, spraying everywhere. His sperm is hot and sweet. Next time I'll swallow him. Next time I'll give him my ass. I want him to shoot into every hole I have. I want him to flood me completely. I want him— Unngh!"

She orgasmed!

Her climax was my last straw. That was all I could take. The mere thought of him fucking her again brought her to climax? It was too much. I exploded, long ropes of jizz flying from the tip of my dick. Tabitha watched me just like I watched her and we both erupted. I groaned as my balls emptied and she howled, legs rigid, abs tight. I launched huge blasts of sperm onto the asphalt as Taby's pussy quivered around Calhoun's semen. I roared as I released, more aroused than ever, so aroused I had no place for it, no idea what to do with it.

I was on my knees when my wits returned. I'd staggered and fallen. Taby was wiped out, splayed and exhausted. I tucked my penis away and crawled into the backseat with her, kissing her lips as I adjusted her clothing. She came around.

"Take me home and fuck me," she murmured. "I need it."

"All right," I conceded. "I need it too."

Chapter 7

Our next six fares were a waste of time. Two were gay, two were happily married, and two were so drunk they couldn't focus. We were current on all our bills and Tabitha's pregnancy tests all showed negative, but we hungered for another successful run. We did not talk about it. We did not talk about how our need for money was diminished and we could go a while without. We both wanted another seduction, but money was no longer the point.

"I have an idea," Taby said.

I stopped washing dishes. She sat at our small dining table and I gave her my full attention.

"I get dressed up," she began. "We go to a club downtown, a nice one, but enter separately, like we don't know each other. I mingle and dance and flirt and find a man. He's my victim. I get him drunk but not too drunk and inform him I'm an escort and then I call an Uber, you, to give us a ride somewhere or maybe just drive us around. We play in the backseat and then I get paid. You drop him back at the club."

"How is that different?"

"Right now we have too many misses. We don't know who the fares are until you pick them up and then we just hope it works out right. This way I screen them up front. I make sure they have money and are down with what's about to happen. If not, I move on to another man."

"You mean you get to pick guys you are attracted to, guys you know have money and guys you've already felt-up on the dance floor and know they're hung."

"Basically, yes."

She looked calm but I know she hoped I'd say yes.

"All right," I said. "Let's try it. Tomorrow night. That new yuppie club Poetry just opened. We'll start your plan there."

She jumped up to kiss my cheek.

A little over twenty-four hours later I dropped her in front of the club. I had my dashboard sign lit in case anybody saw her arrive. She spoke to the bouncer who waved her through, but of course he did. She looked hot. I'd get stuck in that line for twenty minutes and pay a ten-dollar cover.

I wandered the place searching for her. The darkness and flashing lights made it difficult but I did eventually find her seated with three men on a circular couch. I breezed by like I didn't know her and she ignored me too. I found a spot to watch.

The group laughed and talked, shouting over the loud music. Her black dress showed a lot of leg and even more cleavage. The guys fawned over her, touching her arm or knees to get her attention and make their points. She never shied away. She danced with each and all of them together but it became clear she was zeroing in on one man. He was tall and slender, with dark skin and long cornrows. I grunted in surprise. I'd never imagined her with a black man. She's never expressed any attraction to black men. She was clearly attracted now, and so was he. His friends got the hint and soon wandered off, kissing Taby's hand first. She sat with Cornrows and they engaged in intense conversation. He made her laugh a lot. They gradually moved closer and soon their knees touched. Then their shoulders. He took her hand in his.

My blood was already boiling. This gradual seduction was much harder to watch. I knew where she was headed and that gave every move she made a poignancy, a weight of importance. My wife was gradually leading this man to a moment when he'd fuck her, because she wanted him to fuck her. It was difficult to watch her attraction in action, to see her make moves on him and his body. She steered him but he didn't know it. But even if he did, I doubted he'd care. He wanted to fuck her too. I agonized over this slow seduction. My heart stopped when they kissed and I got my phone out, ready for her text. They leaned close and his hand drifted to her knee. She parted her legs slightly. His dark hand crept higher, grazing her inner thigh. She was already wet under there. I knew it. I imagined his big cock was jet black.

They leaned apart and began talking again. I thought perhaps I'd misjudged. Maybe nothing would happen. They sipped their drinks and soon leaned together. His dark hand rose to hold her chin. He kissed her deeply. He spoke and she shook her head. He spoke again and she shook her head again. She spoke and he nodded.

I got moving for the door. I just hit the parking lot when her text message arrived.

I'm so ready.

At your service, I sent back.

I drove the long way around the block to add realism. They stood at the curb as I approached, holding hands and standing close. He opened the door for her and she entered. He followed.

"Where to, friends?" I cheerfully asked.

"Just drive around the city," she said. "I love the lights and the tall buildings. Is that cool?"

"I charge by the mile," I said. "So that's totally fine with me. Take your time."

"I intend to," Cornrows said, grinning, his voice a rolling baritone and his teeth two rows of perfect white. "But first, let me pay this angel for the ride."

He lifted his phone and pressed buttons. Taby checked her phone and smiled.

"That's too much," she said. "That's more than we agreed on."

He chuckled softly.

"Think of it as a tip," he said. "You can earn it if that would make you feel better."

My wife put her phone in the pocket behind my seat. I pulled away from the club and entered traffic, beginning the start-and-stop of downtown traffic lights every block. I was forced to focus on driving as it was still early enough traffic was heavy.

"Fucking nice," I heard Tabitha say.

"You already knew what I was packing," he chuckled. "You did your homework while we danced. You're not as sly as you think you are."

It was her turn to laugh.

"I wanted you guys to know what mattered to me. You and your friends are all handsome. I want more than just handsome."

I'd learned how to position the rear view and side view mirrors, replacing the standard issue with larger versions. I'd also experimented with passenger and driver seat placements, so the result was a good backseat view from every angle almost all the time. Even so, I was not ready for what greeted my eyes. Tabitha now leaned over his lap and had opened his pants. A black snake of a cock lay drooped in her hands, weighed down by a large, flared head.

"I can't take all of that," she muttered.

"Just take what you can," he said. "It all feels good."

"Let me see your balls."

They maneuvered until his pants clung to one ankle.

"Let's get a hotel room," he said.

"This is better," she said. "I love the city all around me and I feel safer in the car with a driver. I don't know you."

"You know me well enough to suck my dick."

"I know you well enough to fuck this big black dick," she teased. "But that's a big difference than being alone in a locked room with you."

He chuckled.

"Fair enough, girl. Let me see that banging body."

He helped my wife strip. She removed the pants from his ankle and now they were almost nude. He still wore socks. She leaned over his lap again and lifted the large black helmet head to her mouth. He reclined and used his strength to swing her body into a sixty-nine position. She gasped when he began to eat her little white pussy. I gasped when she stuffed his big dark cock in her mouth. She raised her eyes and found me watching and sucked on him while looking at me. My dick stiffened. Her head bobbed slowly and her grin spread. She knew she tortured me but she also knew I wanted to see it. His shaft stayed about the same length but gained girth and turned rigid. She bounced her eyebrows at me, pleased.

"This is a nice thick cock," she told him, but kept her eyes glued to mine.

"This is a delicious young pussy," he said, from somewhere over her ass.

Tabitha suddenly gasped and then slid into a groan. Whatever he did back there, she loved it. She scooped his hanging balls and weighed them, reminding me that what they carried would soon be inside her. He must have read her mind.

"I have condoms," he said. "Do I need them?"

She shook her head but he couldn't see that.

"No way," she said. "For what you paid? No. You get special treatment."

She got to work. She opened wide and eased as much as she could towards the back of her throat. He was too thick to take a lot but she sucked hard on what she could. He kept his hips still, allowing her total control. She was forced to pause at times when his pussy eating was too good. She'd lift her head and close her eyes and savor his big tongue all over and in her.

I stopped for a red light and a truck pulled up next to me. The driver glanced our way and then did a double-take, staring down into the backseat. Tabitha was oblivious and I said nothing, allowing the driver to witness my hot wife in action. He couldn't believe his eyes. When the light turned green neither of us moved until a horn sounded from behind. He gave me a thumbs-up before driving away.

I turned left and circled the block. Cornrow's cock rose from his lap like a black spear. Taby leaned back to admire the thing, using her spit as lube to stoke his length. He gleamed in the faint light.

"I need this in me," Taby said, lifting her pussy away from his face.

He sat upright and helped her straddle his lap, facing him. She found his cock with one hand and I watched with rapt attention as my wife rested her slit on the tip. She lifted a breast to his mouth and gradually allowed her weight to force her cunt down around him. He feasted on her titty while her tight pussy slowly enveloped his dark inches. What a sight. Her pink cunt was too small for his girth but that only made her want him more.

"I knew I'd found something special on the dance floor," she groaned.

"I haven't cum in weeks," he said. "Family staying at my place. You made me hard out there, grinding like that."

Her ass crawled down his length until she stopped with several inches to go.

"Unngh," she groaned. "That's a lot of cock."

"Your pussy's on fire."

"I'm so wet," she admitted. "Cum in me, okay?"

"Birth control?"

"Don't worry about it. Just fucking explode in me."

My heart caught in my throat. I know she loves sex but I was beginning to suspect she hid the true depths of her desires from me. She lifted her heels to drive her weight down and force more black cock in, but only managed to capture another inch. The man had about two more to give before she reached his big black balls.

Tabitha fucking a black man was a special kind of hot.

She held herself impaled and ground her hips and began to squeak and squeal.

"You gonna cum, Baby?" he asked. "Damn. I thought you probably did this for the money but now I see you do it for the dick. You love cock,

don't you, Baby?"

"I do!" my wife gasped. "I do."

He attacked her sensitive nipples and grabbed handfuls of tit. Tabitha whimpered and then her whimpers grew into a shriek. Seconds later she orgasmed, writhing on his cock like a piece of meat. He kept her centered, forcing blood to flare his big head inside her. My wife lost her mind. Pussy juice dripped from his balls, soaking our backseat. He chuckled continuously, delighted by how much my wife loved his dark meat. He watched her perched up there, grinding, cumming all over him.

"You make a man feel special," he said.

"You are special," she rasped.

"You like dick this much, maybe I should share you with my friends."

"Are they hung like you?"

"I don't know."

"They aren't. I checked. Fuck me."

He laughed and scooped her off his lap. He kept his cock balls-deep in her and turned, placing her on her back. She put her feet on the ceiling of the car and he sank all the way in, using his superior weight to accomplish what she couldn't. Taby's eyes went wide, feeling that big cock reach places far up inside her.

"Goddamn!" she growled.

"I'm gonna cum in you," he said.

She circled his neck with her arms and pulled his mouth down for a kiss. He worked his hips, pumping, driving his cock in and out. He moved his mouth to her breasts again and my wife sucked air.

"Fuck me!" she cried. "God! Fuck me. Your cock is so hard."

He muttered something and slammed his hips into her.

"Wait!" she cried. "Wait. What? Oh, my God!"

Her surprised shriek filled our car.

"Fuuuuuuuck!" she cried, cumming again, harder than before, maybe harder than ever. "Unngh! Jesus! Fuck!"

She was trapped, captured by the powerful waves of pleasure assaulting her. Her body shook and her legs trembled. He pressed his body close to hers and I saw her face over his shoulder. Her eyes locked to mine.

"I'm cumming!" she cried.

She was a speck blown about by a hurricane. She held onto her lover while her body convulsed and spasmed. His cock ripped pleasure from her tight cunt, either many orgasms or one long one, I don't know. She looked panicked and afraid by what her body went through but rocked her hips against him, extending her climax until tears ran from her eyes.

"Fucking hell," she gasped. "Fucking hell. What just happened?"

She was coming down, wiped out, disbelieving. She did not notice he still pumped her cunt. She was dazed, confused, eyes locked to mine. He fucked strong and deep, building towards an orgasm of his own, and she slowly realized what was being done to her. She circled his neck again and looked him in the eye.

"Fill me," she rasped. "Fucking pump me full of hot cum. I've never fucked a black guy before. Give me your hot load."

He appreciated the encouragement. His hips slammed her into the seat, driven to be her first, eager to plant his black flag on her married cunt.

"God!" he shouted. "God! Yeahhhhhhhh!"

His hips were frantic, pounding and pumping, emptying his balls as he blasted away inside my wife. Tabitha clawed at his back, begging him for everything, urging him to give his load to her. He said he'd stored his load for weeks and I believed him. The man shot and shot and shot, filling my wife until his milky fluid spilled out around his dark cock. Still he kept cumming, spraying and spewing until her cunt drowned in sperm. His hips continued on their own after he shot his last, slowing gradually, dwindling, finally stopping. The happy couple were covered in sweat and gasping for air. She curled her legs over his back and hugged him lightly. I drove for several blocks before they moved.

"Yo," he mumbled. "Brother, take me back to the club?"

"As you wish," I said, my voice packed with strain.

"I gotta get your number," he told her. "I gotta see you again."

"All right," she said. "I'd like that."

She reached for her phone from the seat pocket. He took her hand.

"This ring mean what I think it means?" he asked.

"What do you think it means?"

"You're married."

"Yes, that's what it means. Is that a problem?"

"Not for me. Is it for you?"

"Only in that I may be unavailable sometimes," she said. "But we can work around that."

He kissed her lips. His thick cock still filled her tunnel and neither made a move to change that. They both liked that log in there.

"Club in five minutes," I announced.

At last they began to separate. Tabitha was quick to pull her panties up, sparing us the need to shampoo the seats, but that meant her pussy was sealed shut, holding his massive load inside.

My dick was so hard it hurt.

They dressed and I drove slowly and soon pulled up to the curb. He opened his door and climbed out.

"You are something special," he said, clearly floored by his encounter with her.

"I feel the same about you," she said. "Call or text. I need to fuck you again."

He kissed her lips and backed away, closing her door. I sat until a gap in traffic appeared and pulled away. He showed the back of his hand to the doorman and reentered the club. What a story he'd have to share with his friends.

Chapter 8

"Eight hundred dollars," Tabitha said, turning her phone to show me how much cash the man had deposited. "Eight hundred to drive around town and get my soul fucked out of me. I've lived my whole life wrong, Todd. Office jobs are bullshit. Working nine to five until you die is bullshit."

"You're making big money."

"I'm living a dream. These men are hot. They're sexy. They don't *need* to pay for sex, they *like* paying for sex. Paying makes them feel powerful. They select the woman they want and then they have her, but the best part is they keep choosing me. Me! It's crazy. I never knew this many hot guys would want me. My self-confidence is sky-high."

I squirmed, glancing around our shitty apartment. She seemed to skim over the part about her having sex with them.

"Won't it be awesome when we aren't forced to do this anymore?" I said. "Imagine we have all our bills paid. We own new cars, a new apartment. Money in the bank. Maybe even money so you can finish your college degree. We can finally stop all this and lead normal lives."

Tabitha recoiled as if I'd slapped her.

"What do you mean?" she asked, making a funny face.

"I'm just saying at some point we'll be far enough ahead that you can stop."

"Stop what? Stop fucking hot guys? Stop living exciting lives? Stop meeting interesting people and doing wild things?"

"I wouldn't phrase it that way."

"I would. I love doing this. I'm not going to stop. I had no idea life could be like this. I thought I was a little cute but now sexy men are paying big bucks for the right to fuck me. They're the hot ones but they are willing to pay thousands to fuck *me*. Tell me why we'd give that up?"

I dug a toe into our living room carpet. I knew my response was lame before I ever spoke the words.

"Because we're married?" I said.

She laughed. Not a mean laugh. Not scorn. Not an in my face laugh. A real laugh like she finally realized I'd been joking. She studied my

expression, gradually understanding I was serious.

"Hypocrite much?" she asked. "Should I remind you this was all your idea?"

Ouch.

"That's true, it was. But I always imagined an end date. I never thought we'd keep doing it forever, like it would just become a part of our marriage. It was my idea but now I'm feeling like we should go back to how things were. We should try to have a normal marriage like everybody else."

Her eyes turned soft.

"Baby," she said. "Oh, Baby. That ship has sailed. That old-fashioned way of marriage is dead for us. We can run our marriage however we see fit. We don't need other people's rules. If I like to get paid to fuck, and you like for me to get paid for fucking, which you obviously do, then the only reason to stop that I can see is I get pregnant. A big belly would put a damper on things, for sure. You might need to start sucking a few dicks to keep the cash flowing."

I made a face.

"I'm joking," she quickly added. "About you sucking dick sucking, not about me quitting. No way."

"Wives are only supposed to fuck their husbands."

"This is twenty-twenty-three. Husbands and wives can choose whatever life they want. We don't need our grandparents' rules anymore, Todd. Come on. Why are we even discussing this?"

"It feels wrong."

"That's because it turns the rules upside-down. Listen to me. It's up to us and us alone. Nobody tells us what to do. We do what we want. You love watching your hot wife take a big cock. I know you do. You get so horny. I've seen you get hard. Put that fear and worry out of your head. We're exactly where we should be."

I met her intense gaze.

"How long?" I asked. "How long do we keep doing it? Years?"

"Whatever the market will bear. I won't stay cute for long. I ain't no Elizabeth Hurley. Female beauty tends to fade quickly, like a flower in a vase. I need to cash in. If all this is bothering you as much as it's turning you on, draw comfort from the fact it won't last long. I'd got a short shelf-life."

I chewed my lip. I couldn't shake the feeling that what we did was wrong, even if it did make me hard. Arousal is no basis for policy. I was conflicted.

"My poor Baby," Tabitha said, leaving the dining table to kneel between my knees. "I see your struggle. If you can make money fucking women, you're free to do what I do. Are you worried one of these hot guys will take me away from you? That will never happen. Maybe for a night, but you hold my heart forever. It's just sex, my Love. You have nothing to fear."

My penis awoke. How could it not? Her face was close, her long hair brushed my inner thigh. My shorts began to tent. She noticed but pretended not to.

"I fuck them for money, Baby. That's all. I pick the big dicks to make it hot and fun for me too. We wouldn't want this to feel like any other job, right? You wouldn't want me to fuck a man I disliked, or one that did nothing for me, right?"

She pinched my zipper and smoothly drew it down.

"It's all a game," she continued. "A crazy, wild game. Think of me like an actress. I put on a show. We all play our part but when the drama ends, we go home, back to our other lives."

She pulled my growing penis through the opening.

"I hear your concerns, Todd. I know there are times it must be difficult, even painful, to see. Your beloved stretched open, your beloved spreading her long legs to a handsome lover. His large cock poised and ready."

Goddamn it. I grew in her hand. What protest can I make when contrary evidence is so obvious? I can say I want her to stop but my true heart says no, keep fucking.

"Their big cocks drive me wild. I know you suffer to see me like that. To see what they do to me. To see your pretty wife climax, impaled by some other man."

I was stiff and throbbing in her hand now. This argument was over. I lost. I simply cannot say I hate something and then let that thing make me erect. My hard dick turns my words to bullshit. She slipped my head into her mouth and circled the ridge with her hot tongue. I groaned, eager for her to suck. She lifted her mouth off me.

"I remember how you adjusted the rear view mirror to see me suck Rainier's fat dick. I wondered why you did that but now I know it was because the sight upset you. You saw his thick dick slip and slide through my lips and you hated it. You couldn't wait for me to stop. You hated it so much you stared. Do you remember, Baby? Can you picture that dick in my mouth?"

I was pure diamond. Of course I remembered. I'd pictured that sight a thousand times already, using the image to jack off many times. She knew this. She closed her hot mouth around me again and slowly bobbed, her tongue whipped my penis and teased the head. She'd made her point. If I was genuinely upset, why was I so hard? If I truly hated what she did, why did remembering make me want to cum?

I did cum. She curled her fingers around me and applied a vacuum stronger than she'd ever used. She bobbed in time with the stroke of her fist and overloaded my senses. My head was filled with images of her sucking and fucking, which is exactly what she intended, and my hips bucked and my dick shot. I blasted in record time. She gulped and sucked and left me clean.

There was nothing to say. Her eyes met mine and we had an understanding. She'd listened to my concerns and logged them in her book but we would continue our present course. There would be more cock in her future.

"There's a new club downtown," she said, wiping her lip with a thumb. "*Cloud Nine*, I believe it's called. Drop me there around midnight and come in or wait outside if watching me choose a target is too much. I'll call my ride when I'm ready."

"All right."

"Are we good, Baby? Did I alleviate your worries?"

"Drained them out of me."

Part of me hated that I was so easily manipulated. Part of me was thrilled that she might do the same each time I got upset.

Chapter 9

Cloud Nine was a theme bar. The cocktail servers, all women, dressed like sexy angels. The décor was based on a fluffy Heaven, pinks and whites. I dropped Tabitha at the door and circled until I found parking. I had to jog seven blocks back to the club. The line to get in was long but Taby did not wait in it. She never does. Bouncers want sexy women in the club and have been instructed to let them in. I found her, finally, seated at one of the many bars that lined the walls. She conversed with a gorgeous Asian woman dressed as sexy as my wife. I hung back, observing, noticing their discussion was so animated I wondered they knew each other in life outside these walls. I continued to wait and watch.

Less than two hours later Tabitha surprised me when she pulled her phone from her purse. The Asian woman counted out cash on the bar and Tabitha scooped it up and stuffed it in her clutch. My phone lit several seconds later.

Ready, she'd typed.

A woman? I was shocked. I gulped my drink and hurried to bring the car. I found them at the curb, as usual. They were locked in a hot standing kiss, hungry hands roaming. People in line stared. Taby opened the door and both slid into my backseat, short skirts providing a lovely flash of bare pussy slits. Neither woman wore panties and neither had pubic hair.

"Welcome, ladies," I said. "Where to?"

"Just drive around," my wife told me. "I love the city at night." She turned to her new friend. "Is that all right, Hana?"

Hana did not answer. Hana threw herself at my wife and kissed her. Hana filled a hand with a palmful of white-girl breast and rolled Tabitha backward with a passionate kiss. I got out and hurried around to close their door, then got in and drove.

Tabitha tried to be the aggressor but Hana would not allow it. The hot Asian pushed my wife against the seat and opened the front of her dress, exposing her large, full breasts. She slurped a nipple and attached her mouth and Tabitha groaned, holding Hana's head. She let the woman suck for a minute then pushed her back, kissing her wildly while helping her shed clothing. In moments, they were both nude. The Asian's body was lithe, like

a ballerina's. Tabitha sent a hand down a flat stomach and cupped Hana's hairless pussy. She slipped a finger in. Hana gasped and licked all around Tabitha's areolas. Hands roamed freely. They kissed with passion. This sex was different from male-female sex. There was no element of conquest. They each wished to give pleasure more than receive it. Men take what they want for themselves. These women sought to drive each other crazy. Each felt the other's pleasure was the priority.

They naturally moved into a sixty-nine position. Backseats offer few options. They planted mouths over bare vulvas and the car filled with muffled moaning and the smell of excited pussy. Tabitha's large breasts mashed against Hana's body. Hana's small breasts dragged along Taby's flesh until the nipples stood stiff. Hana orgasmed first but Tabitha held tight, refusing to release that spasming cunt and forcing Hana to cum like an earthquake. Fingers and tongues drove each woman crazy. Tabitha climaxed soon after and Hana pumped two fingers like a penis while whipping her tongue over my wife's clit. It was glorious, sexy and passionate, but I did not get hard. The spectacle was hot, sexy, captivating, and magnificent, and I was thrilled for Tabitha, but watching her with a woman simply did not arouse the same kind of lust in me.

Both women orgasmed again. They feasted on each other. They used fingers and tongues and lips. They caressed and savored and indulged. They fucked like demons. They orgasmed *again*. They fogged my windows. They filled the car with dripping sexuality and I was so happy for my wife but I did not get hard.

They gave me something to think about.

Why did I not sprout an erection? Most men would. If Hana had a big dick, I'd be ready to explode. I can tell Tabitha sharing her with other men feels wrong but sitting here with a soft cock gave me one indisputable proof: I *wanted* to see Tabitha fucked by a man, and I wanted the man to be *big*.

There it was. I had to face it. When this night was over I'd share my discovery, and tell my wife she was right, and she was free to seduce any man she wished.

The ladies continued until exhaustion claimed them. They were wrecked, wet and sweaty messes. They laughed about their lust for each other and cuddled as I returned us to the club. They kissed and snuggled and, eventually, got dressed, although Hana waited until she stepped out of

the car to put her top on again. Everyone in line and the bouncer got a lovely flash of Asian titty.

I drove Tabitha home. She was quiet. I waited, allowing my wife to digest her thoughts. When she finally spoke, she surprised me.

"All in all," she sighed. "I prefer cock."

I chuckled.

"Don't get me wrong," she continued. "Hana was sexy as fuck. But nothing beats a hard cock insisting you open and take it. There's nothing like the urgency of a straining erection inching deeper. The male need to empty their balls thrills me." She met my eyes in the rear view. "Did Hana and I turn you on?"

I shook my head.

"It was a gorgeous sight, but, no, not really."

"You'd rather see me pinned down and stuffed by a big dick?"

I laughed.

"Actually, yes. It's a different kind of sexy. It has a hard edge, an urgency. Girl on girl is hot but soft. It's like a luxury. Man on woman sex carries a desperate need."

"Well said," she admitted. She was quiet a moment. "Take me back to *Cloud Nine*. I need hard dick."

"I have a hard dick for you."

"Aw, that's sweet, Baby. I need a *big* hard dick. Hana started an itch I need to scratch. You and I can make love when we get home tonight."

Abashed, but secretly thrilled, I turned the car around.

"Same routine as always?" I asked.

"No," she said. "No need. I've been paid. I just need to find a hot guy to fuck me. You can dance with other women if you want. I won't need the car."

I had sudden cotton-mouth.

"You're going to fuck some guy for free?"

"Why not? I got paid already without taking a dick. It will be the same as if I did."

I shifted uncomfortably in the driver's seat.

"So, you're just going to pick a man and have sex with him?"

"What's the difference?"

"Where? On the dance floor?"

"If he has a room at the attached hotel we'll go there. If not, I'll fuck him in some dark corner or seated on his lap on a couch. Maybe we'll go to a motel."

Wow. Wow.

"Is there a problem?" she asked.

"No, that's logical. You've been collecting money to fuck men and you got money but haven't yet fucked a man. I get it."

"Would you feel better if I made it part of our game? You want to go through our steps like usual?"

"If you wouldn't mind."

"Not at all. I'd love getting paid twice in the same night."

"Cool. Thank you."

She sat back, scanning her clothes to make sure everything was in place. Satisfied, she smiled at me in the mirror.

Her phone buzzed. She read the message there.

"Arnold's in town," she said. "He said he needs a release. He wonders if I can come fuck him for an hour before he leaves to the airport."

"That's big money."

"It is, or it promises to be, but what about you? You're supposed to be a random Uber driver, not someone I know. Certainly not my husband. I think you'll need to drop me at his hotel and go home to wait."

"Just leave you with him?"

"Can you think of a better way? He can't discover our secret. He'll feel duped. We can't jeopardize our relationship with that man."

My stomach sank. Just hand her over and drive away? Gut-wrenching. I'd see nothing. I'd be cut from the equation entirely. Taby would be with another man like I didn't exist.

"Can you?" she insisted.

"No," I croaked.

What a fucking night this was turning out to be.

"I need to answer him. Will you drop me off?"

"Yes," I croaked again.

She fired off a text and then reached into her clutch for her lipstick, primping and preening to make herself presentable.

"Waldorf Astoria," she said, after reading a text that just arrived. "The desk knows I'm coming. Isn't this exciting, Todd? Little ole Tabitha going to a ritzy hotel to meet a distinguished gentleman for sex? I would

never have imagined this just a few months ago. It's crazy how things have changed."

I couldn't speak. My throat was dusty dry, my hands white-knuckled on the wheel. This was no escapade we played together. I was driving her to another man for sex. A bomb went off in my head: this was the man that would pay for a baby! He'd fill Tabitha with sperm several times before sending her home. They'd fuck with deep emotion and passion. Goddamn it. I realized I needed to say something. I needed to stop her. I thought about what I would say and how I would say it.

"You can pick me up but don't let him see you. I'll pretend I'm calling a ride but text you. I wonder what he'll pay me this time? I guess we'll see. Oh! There's the hotel. Pull over here. I'll walk the last bit."

I pulled over. She was already in escort mode so there was no last banter, no last kiss. I watched her cross the street and enter the huge glass lobby. She spoke to a man at the reservations desk and then waited before a golden elevator. Doors opened, she entered, doors closed.

My wife was gone.

Chapter 10

I considered driving home to wait for her but quickly decided that would be a nightmare. I'd climb the wall in minutes. I thought about stopping at a bar or grabbing something to eat but the same isolation would rear its head and kick my ass. I needed something to occupy my mind so time could pass quickly.

I soon learned no such activity existed.

There would be no easy fix to this. Tabitha was with him, in his arms and in his bed. Tabitha was writhing under him right now, his big porn cock buried as deep as he could get it. He had her pinned to the bed and pumped her soaked cunt, building towards a baby-making orgasm. She'd probably already cum at least once. Hana had lit a fire that only big-dick fucking could extinguish. My wife was splayed in his giant hotel bed, open and offering him everything.

I laughed at myself. The way Arnold and Tabitha were into each other, there was an equal chance they sat sipping wine by the fireplace and chatting. Arnold was that kind of older man. He'd try to seduce the whore because every woman, regardless of what she does for money, deserves his respect. You can treat her roughly during sex. She wants that. But outside the bed she's a princess.

Fucking hell.

I spied a large park and pulled over. I parked and found a bench under a tree. It was late but there were still many hours before sunrise. I filled my lungs with cool night air and tried to relax. I closed my eyes. Images filled my mind, first of her and him in the back seat and then later at the motel. I'd memorized them without realizing it. I watched a detailed video in my head of his big cock dominating her until he unleashed a gallon of sperm deep inside her body. No, not a gallon, *a river. An ocean.*

Christ. I could still hear her cries of mind-boggling pleasure. I could still hear the ways he made her orgasm so hard and so many times. Nature would decide if conception happened or not but I bet at that moment she fucked him with the fervor of trying to get pregnant, and not just because the money would be considerable. She'd fuck him with every fiber of her being because she liked him, she adored him, she lusted after him.

I'd made myself hard. The park was empty and had been the whole time I sat. I doubted I'd need my dick later tonight because Mister Calhoun would return Tabitha to me sore and tender. She'd let me lick her pussy but fucking would be off the menu.

I took my dick out. Why did all this make me so hard?

I stroked and discovered a heightened sensitivity. My imagination was directly connected to my erection. I fingered my penis and pictured Tabitha with him and grew even harder. If all I could use was my tongue when she got home, then fine, I'd use my tongue. It was so easy to picture her flooded cunt. I'd seen him ooze out of her for hours. I'd discovered she still carried some of his seed days later. The old man was a stud. How fun for him to have a hot young thing like Tabitha under him right now.

A man entered the park and walked towards me. I covered my dick with my pants, folding the fly flap over. He gave a nod as he went by and I returned it, the way guys do, but then he stopped and turned back. He took the open spot on the bench with me. He stared at my crotch. He wiped his thin hair to the side. He was old and wrinkled.

"Keep going," he said. "I saw you from over there." He pointed vaguely in the direction he'd come. "Keep going. I want to watch."

I scrutinized the man. He seemed harmless and frail, deeply lonely.

"What were you thinking about?" he asked. "A pretty girl?"

There was no point in hiding the truth.

"Yes," I said.

"A girl at work? A celebrity?"

"No, my wife."

"Oh. That's lovely. My wife is dead. Ten years."

"I'm sorry to hear that."

He nodded several times.

"Can you please go back to what you were doing?" he asked. "I won't touch you. I just want to see it."

"You want to see me jack off?"

"Yes. Young cocks are so pretty. Such vim and vigor. I'll just sit here and watch you go about your business. Don't mind me."

Weird.

"I'm not sure I can do that."

"It's not gay," he said. "There's no touching. I just want to enjoy your youth."

I felt sorry for him. I opened my fly and pulled my dick, now softened, out again.

"No one will bother us," he said. "I'm in this park all the time. Ethel loved it. What were you thinking about? Your wife? Where is she right now? Abroad?"

I decided to continue with the truth.

"No. She's with another man."

"Her boss? For work?"

"No, her lover. He's fucking her right now as we speak."

He chewed on that, staring at my dick.

"She likes fucking this man."

"She does," I admitted. "He's older, like you, and he has a big hard dick she's crazy about. She loves sex and men and dicks. I can't keep up most times. This works well for us."

"That's exciting," he said. "You masturbate imagining your wife with this man?"

"Yes."

"Do that. Let me watch you get hard. Will you cum that way?"

"Easily."

"Oh, boy, that would be special. Please go ahead."

I'm not sure why I did it, but I did. I pictured Tabitha with her legs in the air and Arnold with his fat dick plowing her tight hole and my dick rose rapidly. I jerked and fantasized and grew harder by the second. Fuck it, Taby wouldn't need my dick tonight. I'd tell her I jerked off and all she could get was my tongue. She'd be fine with that, I was sure. I imagined her tongue painting his shaft, tracing the many veins that ran the length of him. My dick surged.

"What do you picture now?" the old man asked. "You suddenly got harder."

"My wife is sucking his big cock. She's licking the sides, teasing the head. She loves his dick and loves to make him as hard as she can before he fucks her."

"He's bigger than you?"

"By a lot. Double, maybe. She really feels the difference."

"He makes her orgasm?"

"Over and over," I said, breathing faster.

"Lovely."

The old man was forcing me to create pictures far more vivid than usual. I added detail because I knew he'd ask, I knew he wanted detail. I drew on memories of her with Arnold and the old man heard the truth in my words. I was getting close.

"Will you fuck her after he's finished with her?"

"Yes," I gasped. "Maybe. If I have time to recover."

"I understand. You will but not if you've cum recently. Is that right? Jerking off for me will mean he fucked her but you couldn't. Is that correct?"

"Yes," I growled.

"But you like that idea, deep down. Don't you? You like that she's a slut for him and you're unable to reclaim her. You like that she remains his for a while."

"God, yes."

"Then do it. Spray your load. Empty your balls and take your flaccid penis to your wife. Show her your soft cock and offer your tongue. Eat the pussy he just fucked."

Who was this guy?

Doesn't matter. His words landed hard. My dick erupted and cum flew, painting my pants, my fingers, the sidewalk. He mumbled encouragement, watching my dick from only inches away, fascinated at my youthful explosion. I squeezed my eyes closed and sprayed sperm everywhere. When I opened them, he was already a hundred feet away. True to his word he'd never touched me. I felt weak and drained.

Now I could go home and wait for my wife to call.

Chapter 11

Taby never called. A limousine pulled up out front. I heard the motor and looked out the living room window. The car idled in the parking lot and then the driver hurried around to open the rear passenger door. Tabitha emerged but from my angle I saw into the backseat. Arnold sat with his pants open and his cock resting in plain sight. My wife had gobbled him on the ride home too. He was off to the airport and parts unknown while she had returned to her husband. She waited as the stretch limo pulled away. She waved goodbye.

The delay in her arrival meant I'd had time to recover from my encounter in the park. I would have been able to fuck her the moment she walked through our front door. I would have, but I'd grown so aroused by her absence I'd recently jerked off again, spraying my load on the living room carpet. Emptied twice, I'd be of little use to her.

She turned as the car vanished and looked up at our apartment. The lights were off. The room was dark. She couldn't see me through the sheers. She was unaware I watched. She dipped a hand under her short skirt and withdrew to examine her slick fingers. She carried the man in her. I knew it. She smiled broadly and climbed the concrete steps to our place. I hurried to our bedroom to wait. I heard her enter and lock the front door. I heard her heels in the hallway. I had one low light on in here because I wanted to see her spoiled and used. She looked glorious. She looked slutty and wicked.

"He made me orgasm six times," she said. "Six. I love you, Todd, but there's nothing on this Earth like his cock. Jesus."

I instantly regretted my decision to masturbate. The words out of her mouth filled me with lust. I wanted her so badly.

"I want you to fuck me," she said. "And then I'm going to take a long bath and sleep for a week."

"I can't," I said. "I jerked off. Twice."

She looked genuinely disappointed, which eased my heart.

"Move over," she said, crawling onto the bed with me. "If you can't fuck me, there are other ways you can make me cum. I just need to squeeze out one more."

She spread her legs on the bed before her, bracing her back against our headboard. Her skirt rode up her thighs, exposing her bare pussy. Hana had eaten that pussy hours ago and then Arnold had fucked it. Now it was my turn to bow down before her altar of lust. I rolled over her legs and arrived with my face inches from her warm cunt. Her labia were pink, puffy, and gleaming with moisture.

"Everybody craves your pussy," I said, appreciating the sight.

"I do feel special lately. You're a wonderful husband and I've always felt your love but there's something extraordinary and distinctive about a person handing you cash for the temporary right to your cunt."

I chuckled.

"These are not random people, either," she continued. "I pick them. I want them and I get to have them and then they pay me for the privilege."

I eased her legs farther apart. Her labia separated, revealing her delicate inner lips. I used careful fingers to pry them apart and see inside her pink folds. My balls ached with need at the sight but I was too depleted. I lowered my mouth but she stopped me.

"He filled me," she warned. "With a lot. I know you've gone down on me others times, after I've been fucked, but he came a lot."

I did not care. I wasn't there for him; I was there for her. I kissed her soft clitoral hood and snaked the tip of my tongue over the nub. She jumped, sensitive. I teased her again, softer, gentler, and she quietly moaned, looking me in the eyes.

"Am I your princess?" she asked.

"You are."

I covered her slippery vulva with my flattened my tongue and pressed against her slit. I held myself there, wiggling slightly because holding one's tongue motionless is apparently impossible. I remained against her swollen cunt and savored the sensations of her used body. She smelled like sex. She tasted like sex. I parted her slippery labia and sent my slow tongue exploring. I withdrew and circled her whole mound, making her shudder with pleasure. I stiffened my taste bud covered appendage and pushed it deep, like a small wiggling cock. She groaned and closed her eyes.

Her cunt was messy but in a wicked way, a way I craved, it was also proof of her wayward night.

"I missed you," she murmured, enjoying my attention. "I only went because it was Arnold. I missed you in the front seat, driving and watching me misbehave. I couldn't trust a stranger enough to go to his hotel room without you but Arnold is safe. He adores me. I can feel his attraction when he fucks me. It's no simple lust for the hot young girl. He *wants* me."

"He adores you enough to have his baby for him."

She gasped. I'd struck a nerve. I was sure they'd discussed that topic again tonight, probably between fuck-sessions. Maybe *as* they fucked. Was that their mutual intention each time he ejaculated in her? Were they both thinking about her getting pregnant? That would certainly add a million volts to their sex.

I focused on her clit. I softly circled the small bump while gently sucking. I slipped my middle finger into her saturated pussy, stirring him inside her. I found the rough patch that is her G-spot and delicately rubbed while I licked her clit. She started breathing faster. I stayed put. This was the path to her orgasm.

"Tell me," I murmured. "Tell me about fucking the man."

She rested both hands on my head, settling in.

"I love the way he looks at me," she began. "Men are always looking at me like they want to fuck me, and Arnold does too, but his gaze goes beyond simple lust. He wants to possess me. He wants to consume me. His desire is other-worldly. I get so turned on just watching him watch me. I could cum by playing with myself and watching him look at me. That would be enough. But then he opens his pants and presents to me the Lord of All Cocks."

She suddenly sucked air and inched closer to orgasm.

"He's not the biggest on earth. Not the longest. But he does have a thick and perfectly shaped spear of meat. I get mesmerized. He gets so hard. I see his dick and understand I'm about to get truly fucked. He's an older man and his physical power is fading, that's true, but there is no drop-off in the power of his penis."

She was killing me. I was in her head with her, listening to my wife describe another man. I was wildly jealous but not angry and that jealousy fueled a raging need. I deeply regretted jacking off earlier. I desperately wanted to fuck my wife. I hated that he owned her insides and there was nothing I could do about it.

"Nothing beats that first moment he enters me," she continued. "My whole body reacts. He fills my insides with more cock than I can handle. I feel womanly, like here is the male I was born to fuck, this is the cock my pussy was born to hold. I laugh, Todd. I laugh with joy every time. That first moment he fills me is wonderful. I wish you could fuck me right now. I'd love to feel your dick in me after his. I'd feel such a difference between my husband and my lover. Sexy."

I had expected lusty words of hot sweaty sex and animal fucking but Tabitha described a kind of intimacy that left me resentful of their connection. My mind concluded the smartest thing to do was make her cum hard, to remind her what I could do and that she was married to me. I intensified my attack on her cunt, determined to make her climax, and it worked. She stopped talking. Her body slowly clenched, becoming rigid. She muttered nonsense and her legs curled over my back.

"Yeah," she mumbled. "Yeah, yeah, Baby, here it comes. Fuck!"

Her pussy gushed and I gulped. She growled like a dog and ground her pussy against my face. Her cunt squeezed my pumping finger. She was sopping wet. I teased and licked and nibbled until she cried a strangled scream, pushing my face away. She rolled onto her side, twitching with spasms, and I followed, eating her drenched cunt from behind. She howled from an orgasmic spike.

I regretted my lack of erection for the millionth time.

Chapter 12

It was inevitable that we would get sloppy. We'd enjoyed so much success, so easily, we thought we were invulnerable. The man was in the car and stowing his briefcase at his feet before I ever thought to look at his face.

"Where to, sir?" I asked.

He didn't answer. I checked the mirror. Tabitha was smiling nervously. I glanced at him and my heart sank. His lips curled into a sneer.

"Ran a game on me the first time, did you?" Jason Rainier said.

Oh no.

He chuckled.

"That's a good con," he said. "I did not suspect. But no way such a random event happens twice, right? This is your scam. You guys are married?"

I tried to swallow in a dry throat. I nodded.

"Ballsy. That's a great angle. No one would suspect because no one would believe a husband could sit by idly while his wife fucked a stranger in the same car. Clever. You pick wealthy married men who will want to keep what happened a secret, and then you milk them for hush money. Am I about right?"

"Yes," Tabitha murmured.

He looked at me.

"I won't ask how you can stand it. Money goes a long way towards making people do things they otherwise would not do. You kids are young and probably struggling financially, desperate for cash. But now you're caught and they won't let you share a prison cell."

"Please don't turn us in," I said. "We'll give you back your money."

He looked surprised.

"Is that right? So, this con has produced results. I'm not your only victim. If you have a grand to hand over without thinking about it. Am I right?"

"Yes," I admitted.

He studied my face.

"But you're not immune to your lady crawling all over another man. You force yourself to be cool with it because you need the cash and she loves all the new cock, but you struggle. You get jealous. I bet you fuck her brains out when she finishes for the night. Do you need to reclaim your bitch? Is that part of how all this works?"

"Yes. Please don't call the police."

He chuckled.

"I'm pissed that you suckered me but I kind of admire you kids too. You're a cuckold for allowing other men to fuck your wife but that's your business, not mine."

He turned his attention to Tabitha.

"You're not drunk, are you?"

"No," she admitted.

"You're a hell of an actress."

"She was never supposed to fuck you," I blurted. "That just happened."

"Is that true?" he asked her.

"Yes. I was supposed to suck you off but I got too turned on. Your cock looked so big and hard I just got on it. Todd got angry with me."

"You lied to me back then," he said. "Are you both lying to me now?"

"No," we said.

"Please don't call the cops," I insisted.

"Maybe I will," he said. "Maybe I won't." He eyed Tabitha. "But right now we're going to make things right. Put my cock in your mouth and I promise you both, there will be no money coming this time. I'm going to get my revenge and balance the scales and you're both going to just take it. Put my cock in your mouth, girl. I won't tell you again."

Tabitha glanced at me and I gave a little nod. She leaned over his lap and got to work freeing his dick. He was partially swollen, anticipating his vengeance.

"Take us to the Marriott at Third and Racine," he said. "I'm going to fuck her and you're going to help me do it. After that, I never want to see either of you again."

Tabitha whimpered as she lifted the bulbous head to her lips. She kissed the hole at the tip and then slid her lips over and around, enveloping

the ridge and half an inch of shaft. He leaned back in his seat for a better view.

"She can suck cock, I'll give her that," he muttered.

I knew the hotel so I charted a course. Tabitha obeyed his commands, slurping and licking as I drove. We arrived at the hotel.

"Go book us a room," he told her. "Leave your bra and panties in the car. I want the man at the front desk to know why you're here."

Tabitha slipped off her underwear and dropped them on the seat. She slithered from the car and crossed the lot, vanishing through the double doors.

"How can you stand it?" he asked me. "I'd kill my wife if I ever caught her with another man. You drive around town and watch us fuck her. She swallows our loads. We cum in her pussy. What kind of man are you?"

I pushed back.

"I could say we do it for the money, but that's only part of the truth. Tabitha looks hot when she fucks. You're right, I get jealous. It's a difficult thing to watch and sometimes I feel like screaming. But I don't, and then we fuck like animals."

He shook his head.

"I don't get it," he said.

"Yeah," I said. "It's not for everyone."

Tabitha exited and joined us in the car.

"Room one-eighteen," she said. "Facing the street at the far end."

I drove, pulling into the spot in front of our room. We left the car and entered. Rainier sat his briefcase aside.

"Strip," he ordered. "Both of you."

"Why me?" I asked.

"Because I fucking said so."

My wife and I looked at each other. He had my information from the ride requests. We couldn't even kill him and hide the body because an investigation would point to us. I shook my head to clear it of that thought, surprised at how quickly I went dark. We'd traveled well off the beaten path but not *that* far off. Tabitha began to undress and I did too. He poured himself a drink from the minibar and stared at us.

"You're cute," he told Tabitha. "But your body is incredible. I'd suggest you model bikinis but you probably make a lot more fucking

married men. All right, Todd. Get behind her and eat her pussy while she's standing."

I stayed where I was. He reached for his phone.

"I will call the police right now. Stop wasting my time."

I moved behind my wife and crouched, burying my nose between her butt cheeks. I licked her slit from clit to asshole. She gasped. I did it again.

"Keep going," he said. "I'll tell you when to stop."

Tabitha braced her hands on her knees and I licked every inch of her slit. Jason began undressing, eventually revealing the big cock that had enticed Taby in the first place. He brought it to her mouth and she knew what to do, sucking and licking as he began to stiffen. I wasn't eating her with the intent to make her cum, I was just doing what he told me. I peeked around her ass to see her sucking his cock. Soon he moved to the couch and sat, spreading his leg. His hard dick slapped against his flat belly.

"Get on me," he told her, and I understood why he had me make her wet.

My wife moved to the couch and straddled him, placing her knees outside his hips. She reached for his dick but he stopped her.

"Nope," he said. "Your dirty husband is going to put my cock in you."

I hesitated but what choice did I have? Taby lowered her ass and his erection rode up her crack. She lifted and I took his stiff dick in my hand, surprised by the girth and the warmth, and moved him around until I found her hole. I wiggled him into it and she began to descend. I guided her hips down around him. Tabitha quietly moaned. My wife naturally lowered her nipples to his mouth. He suckled like a baby. He let her ride like that while keeping me on my knees, up close and watching, and then told her to turn the other way and ride him again. Tabitha lifted from his gleaming cock and switched her position, her back to him now as she faced me.

"Put me in again," he told me.

I was not thrilled to touch his wet dick. Tabitha held herself over his shaft and I rubbed her clit with the tip of his cock. She bit a lip. I rubbed his thick shaft around, seeking, and told my wife to lift a little higher. I pushed his cock backward and the head found her hole, forcing her labia to part and spread. She sank onto him, pussy stretched.

"Lick her clit," he told me. "Make her orgasm with my cock in her."

This was his game. He'd fuck her every way possible and make me be the one to guide his erection into her. This was his revenge. He wanted me close. He wanted me to witness what he did to her. I'd seen her fuck before, but not like this, not so close, not so involved. I realized while riding in the driver's seat I'd been able to hide a little, shield myself from the rawest elements of her trysts. Jason would have none of that. Jason wanted me to see exactly what she did with other men. No way for me to rationalize the act now.

I carefully inched closer. With care, I could avoid his pulsating shaft. My wife worked her pussy up and down and her wetness surprised me, given our dire circumstances. I braced my hands on her inner-thighs and leaned closer. I extended my tongue and found her clit and fastened my lips to the nub. She gasped at the added sensations. I twirled her clitoris and caused her hips to writhe.

"Jesus!" she gasped, shocked.

I licked and sucked, but I was ready to pull away in an instant. I thought he might try to pull out and force his dick into my mouth to humiliate me. I wanted none of that. I was already far closer to another man's cock than I wished. My wife rode him and I ate her and soon she was gasping and breathing fast. She rose on her toes to spread her knees wide, opening herself wider to me. Her passion was growing and I was getting caught up in it. She worked her cunt up and down the long length and I followed with my mouth, teasing her clit as she fucked herself on him. She did not last long. Of course she didn't last long. The combined sensations were far too great.

Tabitha dropped her head back and groaned with deep passion. Her hips never stopped and I did my best to make her climax a huge one. I succeeded. Her body jerked and convulsed on him as she growled. Her drenched pussy soaked his upright cock.

He ordered me to the floor and Tabitha into a sixty-nine position over me. He got behind her and once more instructed me to guide his cock. Her legs trembled beside my head as I took his big meat and spread her labia. I aimed him in and pulled her hips back, watching her tight cunt swallow his inches.

I knew what he expected without being told so I brought my mouth to her clit again. I wasn't expecting to receive any pleasure so when her mouth closed around my dick I groaned into her cunt. My wife and I ate

each other with gusto, victims, clinging to our connection. Jason held her hips and pushed deep and his big balls grazed my nose but Tabitha was doing things to my dick that made me not care at all. I burrowed my face in her pussy until his nuts rested dragged across my face with each thrust. Too much contact made me pull away and I was hit with the most amazing sight of my life: hard thick cock stretching and filling Tabitha from only inches away. I was stunned. Her cunt struggled to take him and her moans of pleasure vibrated my dick. Jason did not give me long to gawk before he pulled all the way out and showed me his raging erection.

"Put me in," he barked.

I was forced to reach around her leg and grab his dick again. I ran him up and down her slit and then shoved, feeding his cock into my wife. She was whimpering with need and moving her hips, seeking his cock and trying to capture him. I shoved him in and tilted my head, planting my mouth on her clit once more. I tortured her little nub while he worked his thickness in and out and Tabitha soon shrieked around my meat in orgasm. I got carried away, licking and sucking and I'm sure sometimes my tongue licked shaft instead of pussy. I was far more concerned with her climax than incidental contact and just kept going.

He moved a knee so his balls grazed my nose on every thrust and soon announced he was going to cum in her. I licked faster and Tabitha forced her hips to meet his pounding. At last he plowed deep one time and held himself in her, his balls resting on my forehead, and I felt against my face his throbbing cock pumping blasts of sperm far up in her. He gasped through clenched teeth and shot again and again, each surge traveling up his shaft and across my cheek before launching itself into her womb. My tongue and his spurting cock got Tabitha to orgasm again.

I was close, so close. I thrust my hips, working my dick in her mouth and trying to get there, but just couldn't. When she cried out in climax she let me fall from her mouth to land on my stomach and that's where my throbbing penis stayed.

Jason held her hips firmly and withdrew his meat-stake. He forced her hips down to my mouth and I fastened my lips to her swollen pussy. I ate out of instinct, teasing her raw clit, and my wife groaned with deep satisfaction, grinding her cunt down. Fluids leaked and I swallowed as I licked, telling myself I had made her drenched to the point of dripping. I refused to consider other possibilities. I licked and sucked and teased until

she remembered my dick and began blowing me again. I was on a hair-trigger now, quickly cumming, spurting all over her tongue. She chased yet another climax and I continued to eat her sopping cunt until at last she cried out and gushed wet, flooding my mouth as she came. She rolled off me.

I spied Jason getting dressed. He looked smug.

"I won't tell you to stop," he said. "Maybe you're desperate for money or maybe you just enjoy watching your wife get pounded. Whatever. It's your thing. Other men can look out for you. It's not my job to protect them."

He dropped to one knee over my slick face.

"But know this," he said. "I will call you every time I need a ride home. I expect you both to meet me. Tabitha, you'll blow me and receive no payment. Ever. This is the punishment for you both. I won't tell the police about your scam but I also will not fall victim to it. Say it. You'll come when I call."

"We'll come when you call," I said.

"We'll come when you call," Tabitha repeated.

He chuckled.

"Perfect. Now get dressed and drive me home. I have a wife and kid waiting."

I breathed a sigh of relief. We'd escaped.

Chapter 13

Tabitha entered our apartment and sat her purse on the bar. She slipped her jacket off and turned away, lifting her ass towards me. The large tear in her black pants allowed skin to show through.

"What happened?" I asked. "Snag your pants on something?"

Her eyes grew big.

"No! Arnold was so hot for me he grabbed my shoulders and spun me against the wall. He tore my yoga pants to get to my pussy. What girl doesn't love that? He was hard under his bathrobe already and I admit the thought about what I was doing at his place without you had me soaked. He bent his hard cock to my pussy and pushed in. He fucked me against the wall."

"You were gone a long time."

"That was just the first time he fucked me. He was hard again in forty minutes. He fucked me like four times in five hours."

I studied her face. She had to know why.

"You know he's trying to put a baby in you."

"I know he is. I let him try. The money is outrageous and the sex is wildly better. He's inspired. His lust is off the charts. The man wants a daughter. He doesn't know I take the morning after pill when I get home."

"Thank God you do."

Her gaze dropped to the carpet. She wouldn't look at me. My dick stirred to life.

"What's going on, Taby? You're acting strange."

She kicked off her shoes and began to remove her torn yoga pants. She hunted for the right way to say what she was thinking.

"I'm starting to think I should give him one," she said. "A baby."

My jaw hit the floor.

"What? Are you crazy?"

"Think about it, Todd," she said. "He'll pay five-thousand a month until the child turns eighteen. That's sixty thousand a year. He'll continue to pay for college and healthcare and braces, whatever his daughter needs. That's a lot of money. We can have kids of our own on that money. You can go down to one job. We can live normal lives without stressing about cash

every minute. Think of it like I'm agreeing to be his surrogate. I'll just carry his child for him."

"First he'll fuck that child into you."

"He's already fucking me like that. Eventually, like every man, he'll get bored and move on. With a baby, I can hook him forever."

"We haven't even talked about having kids of our own."

"We will. Just let me have his first. We get all the paperwork signed and we're set for life. An extra sixty grand on top of whatever you make. We'll finally be able to relax."

"I don't care about the money. I do not want you carrying some other man's baby. You're my wife. We've fucked around with the rules, yes, but pregnant with his child is too far. No."

"Then we have a problem."

"What?"

"Because I really want to."

"No."

"Todd, you're not my boss. You don't own me or my body. After all we've done you'd divorce me over this? That makes no sense. It's nine months, maybe ten. Then we are back to Todd and Tabitha, good as new."

I could make all the protests I want but could I stop her? Could I actually prevent her mating with the man?

No.

I had a job which required I sit at a desk nine hours a day. I couldn't always be with her. If she were determined, and it sounded like she was, she'd find a way. With his resources to help her, I had no chance. He could fly her anywhere, send a limo to take her away and do as he wished. I balanced on a dangerous edge. Flat denial was a losing hand.

"He's old," she continued. "He has few years left. We can form a connection to the man that lasts beyond his life, and that would benefit us. Great. But there's more to it than that. His family has disowned him since his days in porn. His supposed friends only want his money and he knows it. He's kind of lonely. He adores me and I treasure him and I want to give him this before he passes. If we do it right, we may even be added to his will. It's not like he's moving into our apartment or sharing our bed. I love the way he fucks me when he's trying to get me pregnant. He's intense. The sex is intense. Also, his cock feels amazing and I cum harder for him than anyone. I think I might have a small addiction problem."

"More like a big dick problem."

She giggled. She stepped close, kissed my cheek, nibbled my earlobe. She leaned into my chest and my arms naturally rose to hold her, to hug her. Her naked body was warm.

"He's swimming in me right now," she said. "I'm filled to overflowing with that man's semen. Usually I'd go take the morning after pill and you and I would get on with our lives. This time I want to skip that step. This time I think nature should take over."

I sighed.

"We've come this far," she murmured. "We may as well go a little farther."

"A little farther? I think carrying his child is more than a little farther."

She ignored me.

"You just need to focus on the fucking," she said. "You've seen his cock. You've seen what it does to me, how I lose my mind over it. Don't think about the consequences. Leave those to me. You should just think about that thick hard cock plunging into my cunt and making me cum again and again. That's the part you love. That's the part that turns you on."

I hated that she was right.

"Also," she added. "You can think about all that money. If you were okay with me blowing a guy for hundreds, you should be fine with me surrogating for thousands."

Only kindness drove her now. We both knew I couldn't stop her and I wouldn't divorce her if she went ahead. The bridge had been crossed when she refused the morning after pill upon arriving home. Her efforts now were only to make me feel better, which was kind.

"The money will be nice," I said.

She kissed me, softly, but with intensity, and deeply loving. My objections were evaporating and she knew it.

"There's one more detail," she added. "You may have realized this already but in case you haven't, it needs to be said, because you'll hate it."

"What now?"

She wrapped her arms around my waist and hugged me.

"I should limit my sex to him only. No passenger sex. We don't need me conceiving with a stranger and required to start over. I should only have sex with him, to hurry things along."

"Obviously."

She studied my face, waiting. I took several heartbeats to understand why.

"Oh," I said.

"Yeah. Sorry, Baby."

"When you say only him you don't mean only him no strangers, you mean only him, nobody else. You mean no sex for me."

"That's right. You understand why it's necessary?"

"I do," I croaked. "Conceiving with me would complicate everything."

"That's right. He's not paying me to have a baby with you. He's paying me to have a baby with him."

"He's paying to take you away from me. He's on a power trip."

"Maybe. I believe him when he says he wants a daughter but there might be some of that mano-a-mano mixed in. I don't know what men care about in moments like that. I'm just trying to deliver a kid."

My ribs ached. My days of fucking my wife were over until she conceived with him. Dread triggered a flood of adrenaline. My dick began a rapid rise in protest to this arrangement, a good soldier ready to defend what's his.

"I'll still get blowjobs and handjobs."

"All you want. You know doctors can tell right away if it's a boy or a girl. This will all be over soon."

Her excitement was rising. I heard it in her voice. She'd worried about this conversation with me and now it was behind her with the outcome she'd hoped for. She was eager to begin his purposeful fucking.

"Does he know about me?"

"Yes, he does. I told him everything the first time I went to his penthouse and was surprised to learn he already knew. He'd paid a private detective to investigate me and learned about the game we'd played. He wasn't angry. It amused him. He said our con was clever. Now that he knows about us, you can be in the room sometimes too."

"I get your mouth while he has your pussy?"

"A threesome? That sounds great to me."

"That's not what I was suggesting."

"But it is a great idea."

"I think watching him impregnate you would be torturous."

"Then watch him fuck me instead. Don't do that to yourself."

I ground my teeth. There was no way to convey the difference. This was a male-mind thing. Pregnancy has been a concern every time she's had sex starting with her first time. Every woman worries every time. Men don't. I've never even thought about it once. I'm always just eager to get my penis in there. No more. I'd sure be thinking about it now.

"I'd love it if you were there too," she added, seeing my hesitation.

I broke our hug. My erection bumped her leg.

"You have a hard on?"

"Yes!"

She looked confused.

"Weren't you just telling me how much you hated this?"

"Yes. My dick thinks I'm in a competition with Arnold."

"Aw. He's ready to fight for me?"

"Yes."

"He deserves a reward," she said, pushing my pajama bottoms down.

I raced to remove my PJs. My hard dick flipped up to slap my stomach. Taby sat on the coffee table and leaned back. Her knees parted. I stepped closer, taking my cock in hand, aiming for her slit.

"Not there, Baby," she said, hanging her head off the low table. "That pussy is his. I'm offering my mouth."

She hung her head off the edge upside-down. She opened her mouth. I stood between her knees, staring at the pussy I'd lost. A milky seam separated her labia. His sperm was in there right now, hunting.

Chapter 14

My heart beat a million miles an hour. Arnold circled the bed with an erection already sprouted, a fleshy spike topped by a meaty head, a serpent waiting for the right moment to strike. Taby could not pull her eyes away from the thing. Was I jealous she never looked at my dick like that? Yes. Yes, I was.

We'd been here for hours and the man had walked around his home with his robe open the whole time. He is spry and wiry for his age but she was right: his cock-power had faded not at all. He had wrinkles in his skin and grey mixed in with his chest hairs but that dick remained young and ready. She'd informed him of my surrender and he'd invited me to accompany her to his home, provided I understood he alone had the privilege of her pussy.

That was a bitter pill to swallow, let me tell you.

Tabitha did not conceive the night he tore her yoga pants so here we were, trying again, only now our charade has ended. Now Arnold knows the truth. He knows who I am and the game we played on him, and while he thought us clever, his eyes tell me he also wants a measure of revenge. He hasn't spoken of it but I know he rejoices in the fact I must sit and watch. He delights how his money has taken her from me. He parades around his penthouse, heavy swinging cock on full display, waving in my face the instrument of her insemination.

At first we shared casual conversation, three of us hanging around, nude, just being friends. But anticipation and my wife's eyes crawling his inches changed the mood. The air in his penthouse became electrified. I expected he'd drag her to bed and fuck her immediately but no, not this expornstar exhibitionist. He preferred us viewing his manly erection from every angle.

We don't talk about it but we all know where that big cock is headed. We all know where he will sheath the thing. Tabitha cannot wait. I sit naked, free to enjoy my wife in every way except one. My traitorous penis is fully erect. He's ready for the competition. He cannot understand there won't be any. The war is won before the first battle.

Tabitha's womb belongs to Arnold.

The old man strays near the bed and my wife can no longer control herself, reaching a hand to grab his cock as he passes. He chuckles and she hurries to pull him close. She kisses the bulbous head, eager to please the man. A second hand joins the first, stacked at the root, leaving his long inches aimed at her face. She looks up at him and he smiles and she suddenly seems to remember I'm there too. Her gaze darts my way as her lips part and his cock head slips into her mouth. He looks at me too, probably wondering how much of this I can take. I wonder the same thing. This is harder than I expected. I've seen her fuck and it was sexy, but there's a different feel tonight. Tonight is not a bending of the rules. Tonight is a demolishing of a taboo.

I will sit idle and allow it to happen.

She keeps her eyes locked to mine and his cock began to slide into her mouth. My stomach is twisted in knots. There is no need for a blowjob. He's already hard. If our true purpose tonight is impregnation, they should be fucking already. We should be home already. But we've been here for hours. He introduced this slow-seduction bullshit to fuck with our heads. He plays Goddamn mind-games.

Just think about the money, the voice in my head tells me.

I meet his eyes and see my fears confirmed. This is about power. The man has amassed his wealth caring about power. When he saw in my eyes that at last I fully understood, he nudged her onto her back. My wife's legs blossom like a flower for him, an opening and an offering no man can resist. He holds his pulsating erection in one hand and steps between her thighs. She lifts her hips, eager to feel him slide deep.

"Put it in," she whimpered.

My heart aches to see her rampant desire. Her searching hand finds his dick and pulls him forward, rubbing the large head around her opening. My wife is hungry to be fucked. She places him at her hole and closes her eyes.

Tonight is only partially about giving him a daughter.

"Put it in," she says again.

He smiles triumphantly and holds her knees apart. He flexes his bony ass and pushes inches deep, sheathing his fat meaty spear in her cunt. The gratified moans she makes squeeze my heart. He pushes deeper, far deeper than I've ever reached, and she groans, arching her back and clawing

at his arms. He slowly leans forward and she wraps herself around him, kissing him softly, ready to make a baby.

His hips begin to rise and fall.

I want to hate him. I want to be angry with her. There was no need for them to share this intimate connection too. Just fuck the man and be done with it.

But I wasn't angry and I do not hate. My stiff dick throbs from lust. I've seen her fucked but that was nothing like this. This has intent. This mating has a goal. I move closer, watching his strong, thick shaft stretch and fill her. My wife moans constantly, her mind as aroused as her body. She is a woman and the woman in her fucks him with purpose. I'm staggered.

Forget about the money, I think, eyes devouring the sight.

Her hips rise slightly to meet his every thrust. She works her body to get him as deep as possible, striving to tickle her cervix each time he stuffs her full. I reach for my dick as I witness her complete surrender. This is fucking on a other-worldly level. Tabitha has all the passion she brings to sex plus something else, something buried in her female psyche. Her moans are filled with a heart-felt longing I've never heard before. She's tapped into something primal and rampant lust infuses every twist of her body and thrust of her hips. She is soul-fucking Arnold.

I masturbate while I watch. There was no way to see raw human desire like this and not react. That it was my wife only makes it hotter. I stroke my pulsating dick and marvel at their breeding.

He's finally worked as much cock in as she could take and now begins to long-stroke her, drawing himself almost all the way out before gliding every inch back in. She's drenched. I move closer and I see his fat hanging balls swing, brimming, no doubt, with sperm saved for her tonight. My throat constricts and my breathing turns shallow. What I witness is unfathomable yet I cannot look away. How many husbands are privy to such a moment as this? God! It is sheer agony. His spectacular cock pumps her tight hole and forces amazing sounds of pleasure from her. I am happy for her joy while tortured by her moans.

Her first orgasm happens fast and easy. She curls around him like a bug and all the air leaves her lungs.

"That's a good girl," he hums. "Cum for me. Show me how you love my cock."

Encouraged by his sweet words and tone she climaxes even harder. His hips move faster and my wife groans as her peak spikes again. I must slow my hand or spurt too soon. He drops his mouth to her fantastic breasts and teases as he sucks. Tabitha is losing her mind, overwhelmed by what they do. I suddenly remember what they hope to achieve tonight and must release my penis entirely or ejaculate at once.

We were so far off the map we are even beyond the dragons.

They kiss and his hips hold a steady rhythm, drawing out her orgasm until the last waves fade. He lifts her legs and points her toes at the vaulted ceiling and pushes all the way in, holding himself balls deep and forcing a groan from her before withdrawing and repeating the motion. Over and over he buries his cock and leaves it in until she begins to writhe from the stuffing. At the right moment, he almost withdraws completely, teaching her how an empty pussy feels, a pussy with his cock removed. He drives her crazy with this little mind-game, torturing her until she begs him to bury his cock and never leave. He laughs with delight and begins to saw his fat meat, gaining speed and power. Soon my wife urges him to fuck her harder, pleading for his load.

I reach for my dick again. If he was going to cum, so was I.

"So soon?" he chuckles.

"Only the first, my sweet stud," she pants. "We have all night."

That fact jars me. I'd expected he'd orgasm and we'd leave. I don't know why I thought that but of course I was wrong. They'll fuck until he can't.

He grins and opens her legs, handing me an ankle to hold. I gaze down on his plunging veiny shaft, watching as his gleaming inches vanish and reappear. Tabitha won't look at me and I know why. This goes beyond fun. This goes beyond money. She's connected to this old man in a way she's never connected to me. She will once we try for children of our own, but for now she's all his, body and soul. He fills his lungs with air and her body tenses. Mine does too. He growls and we all know what that means. Sperm was rising and would soon explode, rocketing out of his shaft to flood her fertile womb. The emotional agony is almost too much to bear but my dick has never been harder.

"It's coming," he rasps.

"Oh! God!" Tabitha wails, climaxing again at the thought.

"Me too," I hiss, but nobody is listening to me.

Arnold cuts loose, pounding his hips as he chases his orgasm. Tabitha's wail turns into a howl as her climax rips through her body from head to toes. He roars once and drives his pulsating cock all the way in, and I turned my hips away, careful not to splash any semen on the mating couple. I spurt buckets on his rug as he spurts gallons into her spasming cunt. He blasts her pussy full as she cries out, imploring him to give all he can. Her words drive me crazy and fuel my massive ejaculation.

It's done. It cannot be undone. We all drift, dazed.

My gaze slowly lowers until I land on his veiny manhood plugging her pussy. She is awash with sperm in there. I realize my penis is still hard, softly pulsating and ready for more. Arnold notices. He nods at my dick.

"I bet you're as surprised by that as I am," he says.

I shake my head in response.

"More," I counter. "I hate what you're doing to her, I must admit, but I can't wait to see you do it again."
