Who's The Boss

I was on thin ice, and I knew it. I cursed myself for not being more careful, more thorough. It hadn't been my mistake, but I should have been the one to catch it. That was my job.

I'd been in such a hurry yesterday when I went over the proposed financials on the Henderson Plastics job that I hadn't noticed the error in the balance column. My wife Tammi had told me in no uncertain terms that if I was late getting home, she wouldn't use her key to let me out of the chastity cage for the evening.

"The Golden Key" was what she called it. She had told me when I proposed to her that if she agreed to marry me that I had to promise and swear that she would be the one calling the shots. I had no problem with that, since she was much better at making decisions than me. Even when we were dating, I always went along with whatever she wanted. The simple fact was, I always did better when she was in charge. She was even the one who initiated sex, and totally took charge in bed. I liked it that way, so she seemed to me to be a perfect choice to be my wife.

I'd had no idea just how dominant she would be. On our wedding night, she waited for me to finish inside her, then spent the next hour pleasuring herself with a vibrator. Once she had brought herself to orgasm several times, she announced that she had a wedding present for me.

She'd disappeared into the closet and come back with something I'd never seen before. It was a silicone chastity cage. She fastened it around my soft member and locked it tight. As she hooked the key into her favorite necklace, she had informed me that my dick would only be allowed out to play at times of her choosing. She adjusted the chain around her neck, the golden key nestling between her fabulous breasts.

And that was where it stayed for the next two weeks. I could take a leak through the opening in the front, but no matter how aroused I might get in

my brain, it was impossible to get an erection, thanks to the snug fit of the small silicone device around my prick.

Tammi had toyed with me mercilessly. She'd worn skimpy clothes around the house that gave me constant views of her ample breasts, and she'd stand in front of the open refrigerator, letting the cold air make her nipples hard beneath her revealing a-shirt before parading past me with them on full display. At night she'd climb in bed next to me and masturbate with her vibrator, panting and screaming out loudly when she came. My cock would try to swell against the device, and it was excruciating. When she had finally unlocked my tortured dick, days later, it swelled up immediately and I shot a two-week load all over myself in less than thirty seconds.

When I left for work yesterday, she'd whispered in my ear that if I got home in time that evening, she would unlock the cage and give me a slow, oily handjob. She didn't do that very often, and I spent a long and very uncomfortable day fantasizing about it while my manhood strained inside the cage, trying in vain to get hard.

I had been finalizing the Henderson Plastics bid, and in my hurry to finish it and get home for the chance to feel my wife's hands on my dick for the first time in months, I missed the mistake that one of the associates had made when he filled out the bid report. There was a decimal in the wrong place, and a missing zero. Although the mistake had really been his, I was the one who was supposed to spot and correct those things. I would be blamed for the fact that we sent out a price that was \$20,000 too low.

The bid had gone out with the mistake still in it. I'd rushed through it to make it home in time for Tammi to release my cock from its prison and stroke an enormous load out of it with her lubed-up hands. I came so hard I thought I was going to pass out, and I lay gasping on the bed while she took care of herself. When she was done, she put my little guy back into his cage.

By the time I got back to work this morning, Henderson had accepted the bid. When my boss Dominic realized it was too low, there was much

discussion about whether the offer could be retracted or not, but the owner of our company finally told him that would be too embarrassing, and we would just have to eat the loss. Dominic would surely miss his quarterly bonus over this, and I knew that I was in deep shit.

I called Tammi and told her what had happened. As I knew she would, my wife berated me over the phone, reminding me with a few choice words that I was a loser, and that she couldn't believe the position I had put her in.

"What do you mean?" I asked her, the phone feeling hot as it pressed against my ear. "I'm the one that's going to be in trouble, not you!"

"As usual Bud," she said, "It's going to be on me to fix another one of your fuck-ups!"

I will admit that I usually get aroused when she speaks to me this way. In this case, though, I was too nervous. I was really afraid that I was about to lose my job. I made a good salary, and it paid the bills and kept Tammi from having to work. If I was unemployed, there was no telling what she might do. As unconventional as our relationship might be, it would crush me if I lost her.

"Just keep your head down for a while," she told me, and hung up. I switched off my phone and went back to my computer screen, trying to focus on my work. I could feel sweat beneath my collar and on my palms. It was impossible to concentrate.

I got up from my desk and made my way down the hall to the men's room. I found an empty stall so I could pee, as I couldn't take the risk of someone else spotting the silicone cage around my dick if I used one of the urinals out in the open. The chastity device felt more uncomfortable than usual, even though I was completely soft.

When I got back to my desk, there was a sticky-note on my computer screen. Dominic wanted to see me in his office. This was it. After five years of doing good work for the company, he was going to can me for one mistake. I felt every bit the loser Tammi had told me I was.

I walked down to Dominic's office, and as he motioned me in and closed the door, I realized right away that no one from Human Resources was in the room. Maybe I wasn't being fired after all! I held my breath and adjusted my position in the chair opposite his desk. I was uncomfortably aware of the chastity device, and I tried to make sure it wasn't visible beneath my slacks.

"You know, Eldon, this was a huge fuck-up," he said. I hated when anyone called me by my given name. Most people called me "Bud," which had been my nickname since grammar school.

Dominic continued. He loved to hear himself talk. "This is the kind of thing that usually leads to termination, and to be honest, an hour ago that's where it was headed."

He stood from his desk chair and started to pace around the room. I could smell his cologne, which was probably pretty pricey, but he always wore a little too much of it at a time. If you got on the elevator even after he had walked out, you could smell it lingering in the air, like an expensive fart.

He looked directly at me, sizing me up. I could tell from his expression that he actually felt sorry for me. That made me feel even more like a loser, but maybe it would help me keep my job.

"Look," he said, "I probably should just let you go. I've been told it's my call, and they'll support whatever I think is best."

"I understand," I said, even though I didn't.

"But I just got off the phone with your wife," he went on, with an expression on his face that I couldn't quite read. "That's a hell of a woman you're married to, Eldon."

"Yes, she is," I replied feebly. I couldn't believe that Tammi had called him. She really did think it was up to her to fix this. He had always had a thing for her. I remembered him flirting with her at last year's Christmas party after quite a few drinks. She'd been flipping her hair back in that sexy way of hers that had a tendency to drive men crazy.

“She talked me into giving you another chance,” Dominic finally said, after a long and deliberate pause. “You should be very thankful to have a woman like that.”

I nodded, but said nothing. I was embarrassed that my wife had felt it necessary to take it upon herself to resolve the situation.

“You’ll be on employment probation for three months,” he said, pacing back and forth behind his desk. “One fuck up, no matter how small, and you’re out.”

“Thank you Dominic,” I said. My cheeks were blushing a deep red, but I was relieved that he wasn’t handing me a cardboard box to pack my things. “I won’t let you down.”

“You’d fucking better not,” he said. “I’m putting my own ass on the line by doing this.”

That was probably true. He said the decision was his, but he’d look pretty bad if I made another mistake like this one. I stood and walked to the door, assuming that I’d been dismissed.

“Oh,” he added as I reached for the doorknob. “Tell Tammi I’ll be there around 7:30.”

“Huh?” I blurted. What was he talking about?

“For dinner. She invited me over to have dinner with you guys tonight.”

“Oh, sure,” I said, and began the long walk back to my desk. Tammi must have been trying to make nice, but I wasn’t looking forward to having dinner with Dominic. He was one of those guys who would monopolize the conversation, talking pretty much only about himself for hours. It was going to be a long evening.

* * * *

Tammi was busy in the kitchen when I got home. She liked to cook wearing only a pair of tight shorts and a chef's apron across her bare breasts. My dick twitched inside its cage as I took in the sexy sight.

She'd prepared a pasta dinner with salmon and some kind of white sauce that smelled delicious.

"I need you to toss the salad," she said, handing me a large bowl. "I've got to get dressed."

Using a set of wooden forks, I mixed the lettuce and tomatoes with the other salad ingredients while she disappeared into the bedroom. She returned a few moments later in a short black dress that accentuated every curve in her body.

"Wow," I said. "You're dressed up! It's just Dominic."

"Yeah, it's just the guy that was going to *fire* you today. You're lucky I was able to talk him out of it."

I decided not to press the subject, and finished preparing the salad. I set the table for three, and Tammi was just putting the salmon platter in the center when we heard a low rumble in the driveway outside. It was Dominic's Porsche, and he revved it a couple of times before turning the engine off and coming to the door. He was always bragging about that damned car, and I was sure we would hear more about it tonight.

My wife greeted him at the door and gave him a kiss on the cheek. He handed her a bottle of wine he had brought as a dinner gift, and spent the next five minutes telling us all about the vineyard it came from, and how he toured it last summer and brought home a case of the Cabernet, which had cost him an arm and a leg.

Tammi thanked him profusely, and bent down to get a wine opener from the bottom drawer in the kitchen. Her dress hiked up as she did, revealing her bare ass and a faint glimpse of the bottom of her pussy lips. She wasn't wearing underwear.

I pretended not to notice, but Dominic had clearly seen. His eyes were laser focused on her as she straightened up and brought the corkscrew to the table. Dominic made a big show of opening the bottle, pouring a small splash in a glass and swirling it around like he was a sommelier.

He handed the glass to Tammi, who took a sip and pronounced it to be amazing. She licked her lips suggestively and handed the glass back to Dominic, who filled it with a generous portion, and then poured a glass for me and one for himself.

It really was good wine. I sipped mine slowly throughout dinner as Dominic talked about himself and Tammi batted her eyes at him. We went through the bottle pretty quickly, so I got us another one from our wine rack and Dominic poured again, giving the largest amount to my wife this time as well. It wasn't as good as the bottle he had brought with him, but it wasn't bad.

Tammi was either getting tipsy, or starting to act that way. I couldn't tell which. She laughed, too loud, at Dominic's jokes and reached out several times to touch his hand as she spoke. It was obvious that she was flirting with him, which I guess she felt like she had to do to keep us on his good side. I'd seen her flirt with other men before, but Dominic? I usually tolerated him without too much trouble, but I was starting to feel a knot in the bottom of my stomach as I watched him looking her up and down.

He told another joke, something about a guy fucking his neighbor's wife. It wasn't that funny, but Tammi laughed like it was the greatest thing she'd ever heard, and stood up from her chair. With her wine glass in hand, she stepped toward Dominic and sat down on his lap.

I didn't know how to react, so I said nothing. She was still giggling at the joke, and he embraced her, pulling her body closer to his. He ran his hands along the back of her dress, trailing them all the way down her backside, and began squeezing her ass.

Tammi cooed at him, drained her wine glass and sat it down on the table. She grabbed the back of his head and pulled him to her, locking her lips on

his in a steamy kiss. Dominic probed her mouth with his tongue while she wiggled suggestively in his lap. When their lips parted, Tammi gave out a sensuous sigh and looked deep in his eyes.

“Feels like *somebody* has got something going on down there in his pants,” she purred at him. Dominic lifted her up from his lap and reached for his crotch, his eyes never leaving hers. He unzipped his pants and reached inside, pulling out his cock for her to see.

It was huge. At least twice the size of mine. And it was still growing.

“I *thought* that’s what I was feeling,” Tammi said. That would be the last thing she would say for several more minutes, because she knelt down immediately and took my boss’ prick into her mouth.

Tammi couldn’t speak then, for obvious reasons, but Dominic wouldn’t shut up. As I sat frozen in place with my wine glass in my hand, he started going on and on while Tammi worked her lips up and down his stiffening pole.

“Ahhh, fuck yeah, baby. That’s so good! Oh my god you know how to suck a man’s cock!”

She increased her intensity as he continued to speak. *“FUCK, baby! Take my dick in your mouth like a slutty little hotwife!”*

He had pulled his pants down to his thighs, and Tammi’s lips brushed up against his balls and the base of his dick as she took him back into her throat. It was more than just a blowjob. My wife was worshipping his cock.

“Holy shit, Eldon, you didn’t tell me your wife was such a hot cocksucker! Where did she learn to suck dick like this? You’re married to a little whore, dude! Does she do this to you?”

The honest answer was no. She gave me blowjobs every once in a while, usually when she wanted to reward me for having done something she liked, or when she wanted to go out and buy something expensive for herself. But she had never shown my dick the kind of attention that Dominic’s was getting.

He grabbed the sides of her head and began to pump her mouth with forceful strokes. As horrified as I was to watch my wife getting face-fucked by my boss, I couldn't deny that my own dick was beginning to strain against the silicone. I shifted in my chair, trying not to show my discomfort.

Dominic released his hands from her face and pulled his cock out of her mouth. As I watched, the power dynamic between them seemed to shift. He had been in control of her while she sucked him, but now she took command. As horrified as I was, this turned me on even more. She straddled his lap, facing toward him in the chair, and kissed him forcefully. His cock, slick with her saliva, stood straight up from his body as he slumped back. Slowly, she lowered herself onto it, inch by inch, until the fullness of his erection was buried deep in her pussy.

I knew that he could feel the tight walls of her cunt gripping his dick as she sat astride him, flexing her inner muscles. His dominant demeanor had changed, and the cocky tone was gone. He began to whimper, as if he were now begging her to fuck him.

Tammi reached for the buttons of his shirt, tearing it from his body. She pinched his right nipple, and I saw him flinch as it sent a pang of pain and pleasure through his body.

"Stay still," she commanded him, and began to grind slowly back and forth on his thick shaft. He groaned as she rocked against him, trying to thrust with her movements. "Don't!" She said, pushing a hand to his chest. She held it against him to keep him from moving, and slowly began to pleasure herself on his cock.

I watched my wife pull her dress up over her head and drop it on the floor. Her tits bounced gently in rhythm as she ground against him, writhing sensuously in his lap. Her voice rose in pitch and she began to moan louder, working her way toward an orgasm.

Dominic was still whimpering as she fucked him, as if he was asking her permission for release. She held one hand against him as if to say "No,"

while she rubbed her clit in small circles with the other.

She rode him that way for what seemed like forever. I was still frozen in my chair. I couldn't believe I was actually sitting at my own dinner table watching my wife fuck my boss. Even tougher to admit was how much it was arousing me. *If only my dick were free from its cage!* But the key to my freedom was bouncing up and down between my wife's tits as she continued to move and grind on Dominic's cock.

His face contorted at the erotic pleasure of her amazing pussy gripping his manhood, and he looked like he was about to nut inside her. Tammi sensed he was close, and slid upward, releasing his dick from her wet hole. He moaned loudly, but didn't shoot his load. Tammi rubbed her clit furiously and as her body rocked with an explosive orgasm, she released a stream of fluid across his stomach and legs. My wife is a squirter, and she came hard enough to soak his lap with her juices.

The look on Dominic's face told me he'd just witnessed something that he'd never seen before. He wet a finger in the fluid that was dripping down his belly and lifted it to his lips for a taste. He must have liked it, because he licked the finger dry.

Tammi tossed him a kitchen towel from the nearby countertop. "Take a minute to cool down and then meet me in the bedroom," she told him, and started up the stairs. Dominic stared at her ass until it disappeared from view. When it did, he turned to look at me.

"Fuuuuck..." he said, drawing the word out so it was two syllables long. "Fucking fuck!"

He dried himself a bit with the towel and placed it on the table. Tammi had kept him from coming, but his dick was still rock hard. He stood from his chair and stepped out of the pants that were now around his ankles, and began to make his way to the stairs.

Even his body language had changed from before. Gone was the swagger he always exhibited when he walked and the way he cocked his head to one side. Instead he began climbing the stairs with a completely different

posture and aura. I wracked my brain for the word I was looking for to describe it in my thoughts.

Obedient. That's what it was. He was walking up the stairs almost *obediently*. Of all the things I had seen tonight, that was what surprised me the most. The most confident, cocksure, alpha-type guy that I personally knew had been transformed into a dutiful, compliant man, and it was apparently all from the power of my wife's incredible pussy.

If ever a human being had an organ with magical powers, it was my wife and her otherworldly cunt. God knows I had been under its spell since the first time I flooded it with a load of my own sticky cum. Granted, I don't get to do that much any more, but whenever Tammi actually does let me inside her, it never fails to deepen the trance-like hold she has over me.

And now it was clear that Dominic had fallen fully under the spell of her near-mystical pussy. I watched as he climbed out of sight up the stairway, drawn to the wonderland of the secret garden between my wife's legs.

I wanted desperately to follow him, to see the results of the almost hypnotic state she had put him in. There was no doubt in my mind that she would get him to do anything and everything she wanted. This was her game now, and Dominic and I were just the players. But of course, he was the starter, and I was on the bench, a sad second-stringer who almost never got any playing time.

Most men I know would have put a stop to all of this long before her lips touched their boss' cock. Hell, most men I know would not even be letting her call the shots in everything, especially when it came to locking up their cock in a little cuckold cage.

But I'm not most men. I'm just not wired that way. And as much as I wanted to—at the very least—join the two of them in bed and be a part of the lustful scene, to have my dick in her mouth while he was inside her pussy, or to feel the heat of her breath as I kissed her while she fucked, I knew it was never going to happen. My place was the cuckold place. I was the pathetic one with my manhood encased in silicone while she came repeatedly from a much bigger, much better cock.

So I sat at the table, taking another drink from my glass of wine. She must have left the bedroom door open because after a few minutes, I could hear her moaning from upstairs.

Tammi is pretty loud during sex, so I could clearly hear her telling Dominic, *“That’s it, boy! Lick that pussy! Lick my clit good and keep licking it until I squirt all over your fucking face!”*

This went on for a while. I poured the rest of the wine from the bottle into my glass and drank it all while I heard her voice rising in pitch and in volume.

“Ahhhhh, fuck yes! I’m cumming! Ooooooh, FUCK!”

My dick strained inside the chastity cage like never before. My body wanted it to swell, but the device held it down. A feeling of claustrophobia began to creep over me. There was no way I could unlock it without the key.

The sounds from the bedroom quieted for a few moments, and then I began to make out low grunts that must be coming from Dominic. As I strained to hear what was happening, I detected a rhythmic slapping sound that could only mean she had him banging her really hard. Her voice began to mingle with his as they groaned together in the throes of passion.

“Oh, yeah...fuck me!” I heard as her voice filtered down the stairway. *“Fill my pussy up with your big-boy cock! FUCK YES!!!”*

I couldn’t stand it any longer. I sat my wine glass down on the table and walked to the stairway. I had to see what she was having him do to her. I had to see what it looked like with his thick cock pounding that incredible pussy.

The slapping sounds came faster and closer together as I crept up the stairs. Tammi’s voice grew higher once more as I heard her start to come again.

I reached the open bedroom door to find my wife on all fours in the center of the bed. Dominic was behind her, burying the thick slab of his shaft into her pussy from behind. Tammi shook and spasmed as the orgasm took her,

and Dominic stopped pounding her, holding himself deep inside while she came all over his cock. It was the hottest thing I had ever seen.

Tammi pulled forward, causing his dick to plop out of her pussy. Her juices dripped from his shaft and his balls, soaking the bed beneath them. Undaunted, she pushed him down onto his back right on the wet spot. His full erection was standing straight up, pointing at the ceiling. Turning to face away from him and giving him full view of her ass, she lowered herself onto his thick pole in what I think is called the “reverse cowgirl” position, and began to bounce up and down on his throbbing cock. I walked the rest of the way into the bedroom and stood at the foot of the bed.

She allowed him to thrust upward a little, but my wife was in full control of their movements. Dominic whimpered in the same way he had when she rode him in the chair downstairs earlier, but every time it sounded like he was getting close, Tammi would pull up off of him, waiting for him to cool down before she slid him back into her dripping pussy. The key to my cage nestled between her tits, bouncing against her skin as she rode him.

I wondered if my dick would injure itself somehow inside the device. Every nerve I had was on edge, as if my body couldn’t figure out what to do because it couldn’t send blood to the place that it wanted to.

Dominic was pleading with my wife now, begging her to allow him to unload in her pussy. She had pulled back up off of my boss and turned around to face him, letting him take in the sight of her breasts, both of which sported hardened nipples that were standing out proudly from her beautiful mounds of flesh.

“You want to fill this cunt with a big hot load?” Tammi asked him, loving the desperation on his face.

“Yes!” Dominic gasped. *“I want to shoot it all inside you! Please!”*

She hovered over him, the wet lips of her slit brushing against the head of his cock.

“Then my husband’s job is safe,” she said, stating her terms. “You will *not* fire him under any circumstances.”

“Okay, okay, yes!” Dominic gasped, his voice filled with need and lust. *“He’s safe. I promise!”*

Tammi squatted further down, sliding her pussy all the way down his shaft. He bucked beneath her hips, thrusting up into her with the wildness and intensity of a man who needed desperately to come.

And just as he was about to, Tammi lifted up off him once more.

“Fuck!” I heard him exclaim. It wasn’t anger, just pleading desperation. *“Come on! I said his job was safe! Please, I can’t take this!”*

Tammi held her position above his erection, not moving.

“In six months, you’re going to promote him to head of his department,” she said to Dominic. *You’re going to tell everyone what a great job he’s doing, and you’re going to give him a 20 percent raise!*

“Come on, Tammi, I can’t promise that,” he whined, and she instantly pulled back, lifting her wetness completely away from his swollen cock.

“Aww, man come on!” Dominic wailed. *“You can’t do this to me!”*

“Up to you,” Tammi told him, leaning away like she was about to get up from the bed.

“Alright,” he said quickly. *“Six months. But I can’t give him a raise that big. They won’t approve it!”*

“Ten percent in six months, another ten in a year,” Tammi said, spreading the lips of her pussy for him to see deep in her hole. *“Final offer!”*

“Deal!” Dominic cried out, and within seconds, Tammi was back on him, engulfing his fullness inside her dripping cunt.

My boss thrust wildly beneath her, pushing as far as he could. With a shudder and a whimpering cry, he unloaded streams of hot cum deep into her pussy as he finally found his release. Milky whiteness oozed out of her around the base of his thick cock as he shot the last of his seed up into my wife.

Watching all of this made me delirious with lust. My body buzzed like an electric razor as waves of almost painful ecstasy rocked through me, and

without warning, the most amazing thing happened. Globbs of cum began spurting out of my flaccid dick, still locked inside its cage. I was coming while I was completely soft! It was the most bizarre climax I'd ever experienced, and I lost my balance, dropping to my knees on the floor while a huge wet stain grew in the front of my pants.

Still impaled by Dominic's cock, Tammi turned toward me and saw the evidence of my strange orgasm.

"Look at cuck-boy!" She exclaimed to Dominic. "He came all over himself! I don't know how that even happened!"

"What do you mean?" Dominic asked. He was still catching his breath after filling Tammi's pussy with his big load of creamy jizz.

She pulled up off of his cock and jumped from the bed. I stood there, red-faced, while she yanked my pants down to show my boss the cage that encased my dick. Cum was leaking out of the front of the device, which still kept me from becoming erect.

Dominic laughed out loud, his boisterous tone returning. "I've gotta get my phone and get a picture of this!"

Tammi turned to him and stuck a finger in his face. "You will do no such thing!" She demanded. "In fact, you are not going to tell anyone what happened here tonight, or you will never get inside this pussy again. Are we clear?"

My boss gulped, and once again became completely submissive to my wife. Her pussy really did seem to have unexplainable powers.

"Clear," he said, in a thin voice, sounding like a puppy that had just been scolded.

Tammi folded her arms across her chest. Dominic's cum was leaking from her cunt and running down her leg. She looked at me, and then back to Dominic.

“I want to make sure that you both understand this,” she said, her tone making it clear that we both had better pay attention. “The two of you will continue to do as I say, or I’ll lock up both of your dicks and flush the keys down the toilet.”

My boss looked at me and nodded. “I understand,” he said. “I’ll put in for the raise starting six months from tomorrow.”

“Good,” Tammi said, looking back to me once more.

“Don’t worry baby,” I told her. “Both of us understand who’s the boss.”

Bull At The Pool

A hot summer afternoon was giving way to a warm evening. It had been another Texas scorcher, and Terry was glad to be in the water.

The neighborhood pool had been pretty busy earlier in the day when he and his wife, Jenna, arrived, but by now it was just them. Terry was treading water in the deep end while Jenna stretched out on one of the loungers on the pool deck, trying to enjoy the last few warm rays of the sun.

The lifeguard waved at them as he headed for the dressing rooms. His replacement, Rashaad, was already seated in the tall chair that overlooked the pool. He was staring at Jenna's round, firm tits in the small bikini she wore like they were something he owned.

And with good reason. Rashaad was Jenna's bull.

Terry had married way out of his league, landing one of the best-looking girls from his college. *She* had actually been the one that asked *him* to go out the first time, and he'd had trouble believing his luck. Girls like her didn't usually go for guys like him.

Jenna told him that she could tell he was smart, and that she was interested in smart men. She had been right about that. Terry wound up graduating at the top of his class with a degree in chemical engineering, and they got married two months later. He had already lined up a great job, and Jenna said she had known from the moment she met him that he would be a great provider.

They had been married for less than a year when Jenna confessed to him that she had been faking her orgasms. According to her, Terry's dick was just too small to give her enough pleasure to bring her to a climax, so she usually just pretended to come as soon as she realized he was shooting a load inside her. After Terry fell asleep, she would pleasure herself while he

snored softly, using her fingers or the small pink vibrator she kept in her nightstand.

Terry was devastated by this revelation, but had been determined to find ways to please his wife. He bought a collection of dildos and vibrators, and began to use them on her clit and pussy when they were in bed. Jenna, always the dominant one, began to demand that he use his tongue or one of the toys to get her off at least twice before he was allowed to fuck her.

That sexual dynamic seeped over into their whole relationship. Jenna was firmly in charge, and if Terry wanted access to her pussy, he would need to remain obedient to his bride. He dutifully followed her commands, both in and out of the bedroom.

He hadn't been surprised when she announced a few months later that she intended to start fucking other men. He'd objected at first, but she agreed to allow him to watch, at least most of the time. She'd let him be in the room, and he would be allowed to jerk himself off while someone with a much bigger cock had their way with his wife.

In the beginning he hadn't been too happy about the idea. But when she'd brought home her first new lover, that all changed for Terry. She'd gone out to a bar, and returned with a strapping young man named Victor whose cock was even larger than the biggest dildo Terry had ever bought for her. She'd taken the impressive dick in her mouth and brought it up to its full size before lying back with her legs spread wide. As he watched the stranger impaling his wife, and heard how she screamed and moaned from the young man's seemingly tireless pounding, Terry became aroused in a way he never had before.

He'd sat in a chair across from the bed with his dick in his hands, pumping it furiously. As his wife shuddered with her first orgasm, his small cock erupted, coating his hands with a huge volume of sticky cum. It was much more than he usually released, and he'd felt the orgasm all the way down to his toes.

But Victor was just getting started. He'd been nowhere near ready to shoot *his* load. As Terry watched, the young man maneuvered Jenna through half a dozen different positions and pummeled her cunt relentlessly. By the time his body tensed and he unleashed his hot seed deep inside her, he had brought her to several more trembling climaxes.

Jenna lay on her back as the young man dressed and left their apartment. Terry's dick had grown hard again from all he had witnessed. That was a first, because it usually took him hours before his prick would stand up a second time.

"May I?" He asked his wife as she tried to regain her composure.

"Go ahead," she had replied, almost dismissively, but Terry took the opportunity and wasted no time in mounting her. He could feel Victor's large load of cum squishing in and out of her as he pushed his much smaller cock inside her walls as far as he could get it to go.

Jenna laid still, allowing Terry to please himself in her well-used cunt. "*This won't take long,*" she had thought. She was totally accurate. After just five pumps, her husband had emptied whatever remaining cum he had into her pussy, letting out a submissive whimper as he came.

And from that evening on, Terry's role as a cuckold husband was firmly established. The rule was unspoken, but he was now only allowed inside her after she had been fucked by another man.

Terry got to watch her be pleased by many other guys she brought home to their bed. Sometimes she would meet a lover somewhere else on her own, and Terry would get a photo texted to him of another man's cock in her mouth, or a big load of jizz on her face. A couple of times she had even arrived at their apartment with her panties soaked by a big load of cum that had leaked out of her while she drove home. That was when she began to make Terry clean out her pussy first with his tongue before he was allowed to put his dick inside.

"I want you to know what a real man's cum tastes like," she had told him.

When she met Rashaad, the lifeguard, she'd stopped seeing random guys and reserved her pussy exclusively for him. Terry still got the occasional chance, but only if he had successfully completed his clean-up duties.

Rashaad was built like a basketball player, with a taut physique and an amazing nine-inch cock. He had worn Jenna out so thoroughly the first time they fucked that she was completely in awe of him. He quickly became the alpha in the relationship, dominating Terry as well as his wife.

The tall black man would call or text Jenna at any time, and demand access to her pussy whenever he felt like it. He'd show up unannounced at the little bookstore where Jenna was the manager, and take her into the small bathroom in the back to shoot a load in her mouth. Whenever Terry was present during their encounters, he gave him specific instructions about what to do as well.

He'd sometimes made Terry sequester himself into the bedroom closet, where he could only watch them through a small crack between the closet doors while Rashaad destroyed his wife's willing pussy. Other times he made Terry lie with his head beneath her hips to get a close-up view of his huge black dick as it slid in and out of her slit. Once he had even pulled out of her at the last moment and sprayed his huge load of sticky goo all over Terry's face.

In his role as the cuck husband, Terry was aroused by all of this. And Jenna had never come so hard or so much in her life, so she happily acquiesced to anything and everything that Rashaad demanded.

Now, as Terry watched his sexy wife recline next to the pool, he was pretty sure of what was about to go down. He had known that Jenna wanted to spend time there this evening because Rashaad was working. The tall, sexy man waited for the other lifeguard to get into his car and drive away before he climbed down from the tall chair and approached Jenna. The sun was setting, and the three of them were alone at the pool.

Terry moved to where the water was more shallow so he could stand with his feet touching the bottom. As he looked on, Jenna undid her bikini top and dropped it to the ground. Rashaad responded by sliding out of his swim trunks, revealing the monster that was within. It was already growing to massive proportions.

The lifeguard towered over her and bent down to take a nipple in between his lips. He licked it softly, then began to suck and finally bite down on it as it grew hard in his mouth. Jenna squirmed from the pain and pleasure of his teeth on her as she felt her pussy begin to moisten.

Removing his mouth from her breast, he spat between her tits and ordered her to bunch them together. As she squeezed her amazing mounds against each other, he slid his dick between them and began to fuck them slowly, reveling in the sensation of her tender flesh against his knob and shaft.

Terry watched the bull's tight ass cheeks flex as he pushed between her breasts with long, erotic strokes.

"Oh, yes, baby," Jenna began to purr. *"Fuck my titties with that big black cock!"*

Terry's dick had already made a small tent-pole in his green Lycra swimming trunks. He found himself reaching down into the fabric, touching the head of his cock beneath the water. Rashaad was moving faster now between his wife's tits, and he could hear him grunting as he pumped.

He'd learned from their experiences that Rashaad was a multiple cummer. He'd seen him on more than one occasion leave a load inside her pussy, only to shower her face with big vines of cum just a few moments later. He wondered from the groaning if the man would spooge between Jenna's tits this quickly, but knew it wouldn't really matter if he did. History told him that Rashaad would be ready to go again in no time.

The lifeguard quickened his pace and intensity.

“Beg for my cum!” He demanded with a growl. *“Let me hear you!”*

“Oh please, Rashaad! Shoot your hot load between my big titties and spray it all over my face!” Jenna cooed. *“I want you all over me! Please give me a cum bath!”*

With another stroke between her fleshy mounds, the bull’s cock pulsed and spat out a forceful stream of milky juice that coated Jenna’s mouth and chin. He rose from her and aimed his twitching prick at her beautiful breasts, painting them white with rope after rope of cum. Jenna traced her fingers through the warm semen, rubbing some of it into the skin around her nipples.

“You look great covered in my fucking seed,” Rashaad proclaimed.

“Yes, but we do need to do something about cleaning you up,” Jenna said.

“Terry! Come here, darling. Be a good boy and polish up Rashaad’s dick for me, would you please?”

This wasn’t new. Jenna had made her husband perform clean-up duty on Rashaad before. Terry dutifully climbed out of the water, his prick still visibly erect beneath his swim trunks. He knelt by the edge of the pool and took as much of Rashaad’s enormous cock into his mouth as he could, dutifully licking away the few traces of cum that remained. It had softened some, but Terry felt it begin to swell once again as he swirled his tongue across the head to lick it clean.

The bull’s dick was still in his mouth when a loud splash let him know that Jenna had jumped into the pool. He released the prick from between his lips and turned to look at his wife. Milky drops of cum floated away into the water as it washed Rashaad’s jism from her tits and face.

The lifeguard looked around, surveying the pool area. The three of them were still alone. He walked to the gate, his prick fully erect, and latched it shut, making sure it was locked so no one could get in for a while. He was clearly not done with Terry and Jenna.

With a splash, he dove into the pool and made his way to Terry's topless wife. He pulled her to the shallow end and stood her up against the edge, bending her over against the poolside.

"Take those off," he commanded, and Jenna pulled a string on her bikini bottoms, releasing them to float away in the pool.

As Terry looked on in awe, Rashaad mounted his wife from behind and thrust his full nine inches into her cunt. Jenna backed up against him, taking his fullness into her with crazed desire. She came almost instantly, crying out as her body did the little "shudder dance" that Terry knew often accompanied her orgasms.

Rashaad allowed her a moment to savor the pleasure, feeling her cavity grip tightly around his swollen cock. When her erotic moans began to die down, he started moving inside her, bringing them back almost immediately.

"Oh, yes, Rashaad! Yes, baby!" Jenna squealed. *"Fuck your little slut with that big black cock! I need it!"*

The bull began pumping her fast and hard, fucking her like a wild animal. There was nothing gentle about the way he used her pussy. He ravaged it with complete abandon, shoving Jenna hard against the side of the pool.

Terry's cock was about to explode. He reached to slide down his swim trunks, and the simple motion of the cloth moving against his small dick, together with the erotic scene he was watching, made him twitch and forcefully bust the load of cum he'd been holding back. It seeped in globs from his cockhead and soaked the trunks he'd been trying to remove. It might have been embarrassing if Jenna noticed it, but she didn't. Her eyes were rolling back in her head as Rasheed's assault on her pussy continued.

With an audible "plop" the lifeguard pulled his massive manhood from her wet cunt. He laid it on her back, with his balls nuzzled up against the cheeks of her ass.

"Today's the day I take your asshole," he growled to Jenna.

"Oh my god!" She exclaimed. This was something Rashaad hadn't done to her before. How was she going to accommodate his huge prick?

Terry couldn't figure out how she would possibly be able to take it. *"There's no way he will fit,"* he thought as his own cum began to leak from the swim trunks and down his leg.

Using a finger, Rashaad began to open Jenna's tight hole. He moved it inside her in slowly widening circles to relax the tight opening. After a moment, he added a second digit, and then finally a third.

Rashaad's fingers weren't small, and he had three of them in Jenna's ass now, working it carefully. He had opened her up quite a bit by the time he slid them out.

Jenna braced herself against the poolside as she felt the head of his dick against her opening. Even after being rimmed, it was going to be a challenge to handle something that large.

He pressed against her softly, and then without warning gave a sudden thrust. Jenna winced as Rashaad embedded his cockhead just inside her outer ring.

It was painful at first, but she wanted so badly to accommodate this man who had given her so much pleasure that she bit her lip and did her best to relax around his girth. He held still for a moment, then began to slowly slide more of his massive prick into the waiting cavity of her ass.

Terry couldn't believe his eyes. Slowly but surely, Jenna was taking the man's huge cock inside her asshole. Rasheed pushed on, his dick still wet from the pool and from the juices of Jenna's pussy, until finally his ballsack nudged up against her cheeks. His massive erection was now completely embedded in her ass.

The sensation was a completely new one for Jenna. She had never been filled back there, and while it didn't feel the same as when he was inside her

cunt, there was something so slutty, so arousing, about being stretched out by this big black dick that she felt almost delirious with lust.

Rashaad started slowly moving in and out, his thrusts becoming more urgent and more intense as she accommodated his size. As Terry stared in disbelief, the bull began banging his wife's ass with the same fierceness he'd displayed before when he fucked her pussy.

Jenna was being bounced around like a rag doll, but she managed to find her clit with her fingers and rubbed it furiously. Her orgasm was hard and explosive when she came, and Rasheed could feel the muscles of her ass grip him even tighter.

He was close to unloading a torrent of sperm in her asshole when Jenna cried out that she wanted him in her mouth. *"I want to taste you, baby!"* She moaned. *"Please let me suck your beautiful cock!"*

Rashaad held back his explosion and pulled his long, swollen member from her ass. He jumped up to sit on the side of the pool and Jenna went immediately between his legs and slurped his dick into her mouth. The taste was forbidden and highly erotic, and she felt another climactic wave roll through her body, even without touching herself.

She sucked him with abandon, discerning that he was very close. She lifted her face from his cock and slid both of her hands around it, jerking him hard and fast.

Rashaad let out a loud *"Fuuuuck,"* and his huge dick began to jerk and spasm in Jenna's hands. Jets of cum erupted from the head and splashed out into the blue water of the pool. Jenna continued stroking him as he came, coaxing stream after stream from his cock as Terry watched in amazement.

The orgasm was so explosive that the big bull was fully spent. Jenna felt his cock soften in her hands before she released it. She glanced at her cuckold husband and laughed at the awestruck look on his face.

Rashaad turned to face Terry as well. “Okay, cucku,” he said as he stood, his large dick dangling down in front of him. “Time for cleanup!”

“You want him to clean off your cock?” Jenna asked.

“Oh no,” Rasheed replied. “My dick is fine. His job is to get in the pool and slurp up all the cum that’s floating around in there.

“We can’t have that stuff in the pool when we open tomorrow.”

Cuckold Cab

You've probably seen those porn clips with the "fake taxi" driver. He picks up a ride, always a somewhat slutty but shy-at-first woman, and winds up having his way with her in the back of the taxi. Of course, the girls are all porn actresses, and the whole thing is staged, but it's a cool fantasy if you're willing to suspend some disbelief.

In my case, I actually do drive a taxi. I'm a private driver, so I don't get pick-up calls from a big taxi company, but I also don't have to deal with their bullshit. I don't work for one of those rideshare companies either, because then I'd have to comply with all of their rules. I'm independent. I'm fully licensed, and I've got a nice car that I keep in good shape with a rooftop light that says "TAXI" and "Peterson Taxi Service" painted on the doors. I get into the taxi lines at hotels and bars around the city, and I make a decent living.

My wife Danielle began cuckolding me before we were even married. I've never been the alpha type, and she clearly figured that out when we started dating. To be completely honest, I've lost count of the guys she has fucked while she made me watch, and over the years I've slurped what must add up to gallons of cum from her leaking pussy after the guys have loaded her up. Most men would probably hate that, but for me, the only thing I love more than hearing her scream in orgasmic pleasure from being impaled by some stranger's dick is getting to clean up the aftermath while she grinds herself against my face.

I'm not into wearing a chastity device, and she doesn't make me do that. That leaves me free to jerk off while I watch her being taken and used. I've had my most powerful orgasms while she's been on her back and some guy whose name I probably don't even know is embedded in her quivering cunt.

I've been driving the taxi for about a year, mostly at night. Tonight, as I was getting ready to leave for an evening's work, Danielle approached me and announced that she wanted to come along. I paused, with the keys in

my hand, as she wrapped her arms around me and purred in my ear that she thought it would be fun.

“I don’t know,” I said. “People may not get in the car if there’s someone else already in there with me.”

“Oh, darling, I think they will,” she said, and stepped back so I could notice what she was wearing. It was a tight-fitting, light blue sun dress that accentuated the curves of her gorgeous 36DD breasts perfectly, and was just short enough to reveal the bottom curves of her ass cheeks if she bent over. Danielle pulled the bottom of the dress up with one hand to reveal a wonderful thing. She had opted to go without panties.

The sight of my sexy wife’s beautiful shaved pussy, and the idea that she was going commando filled my mind immediately with the kind of lusty scenarios that sent a tingle to my dick and made me suck in a quick breath.

The truth was, I was never going to refuse. I would do whatever it was she wanted, panties or not. I had become used to her calling the shots in everything we did. I was a little worried though, that I wouldn’t be able to pick up as many fares with her in the car.

Then again, maybe I would. I might not get many female riders, but men might be happy to ride in the back of the cab with my hot wife. Who knows, I might even get better tips with her along.

“You know I can’t say no to you, babe,” I told her as I looked her over once more.

“You’d better not!” She said with a twinkle in her eyes, and reached down to squeeze my cock playfully. “We both know who wears the pants in this relationship.”

“Pants?” I said with mock outrage. “You’re not even wearing panties!”

“Better watch your mouth if you want it anywhere near this pussy later!” Danielle replied, and delivered a knee to my groin. It only hurt a little, and

I didn't really mind. She knew I craved any attention I could get from her, even if it was in the form of playful punishment.

We left the house and got into my taxi. Danielle climbed in the back seat and slid to one side so there would be room for another passenger. It was just getting dark, and I started the car and pointed us toward the Embassy Hotel, where I usually had decent luck picking up a fare. Traffic wasn't too bad, and we got there in under ten minutes.

I joined the taxi line and waited. There were two other cabs in front of me, and it wasn't long until we were in the first position.

A pair of plump women came out of the hotel together and approached the car. I rolled the passenger window down and motioned to my wife in the back seat.

"She's riding along with me tonight," I told the ladies. "Do you mind?"

They looked at each other for a moment, but decided to take another cab so they wouldn't be too crowded. "Don't worry, babe," Danielle cooed to me from the back seat. "We'll get the next one."

A forty-ish businessman was the next one out the door, briefcase in hand. He was wearing dark slacks and a button-down shirt. "I'm headed to the airport," he told me, and I asked him the same question I had put to the two women before.

He eyed my wife in the back seat as the hotel attendant opened the door for him. With a shy grin, he said, "No, I don't mind." He climbed in with his small bag and let me know which airline he was flying. Danielle looked him up and down with a smile that could make any man weak in the knees.

He cleared his throat nervously. "Hi, I'm Darren," he said.

"Danielle," she replied, and patted him on the leg. As I watched in the rear view mirror, I could tell that he didn't quite know what to think of her touching him. He smiled at her and busied himself positioning his briefcase next to his legs on the floor of the car.

I headed for the nearby on-ramp to the freeway that would take us to the airport. As I navigated the traffic, I glanced in the mirror every chance I could to see if anything was happening in the back. So far, Darren just rode in silence.

By the next time I looked back, Danielle had reached under the top of her dress and was removing her bra, just like Jennifer Beals did in that movie Flashdance. She made a small show of pulling it out of the armhole of the dress and dropping it on the seat next to her. The dress hugged her tits even more tightly now, and the indentions made by both of her nipples were clearly visible, even in the low light of the back seat.

Our passenger looked astounded. Was this woman putting the moves on him? He cleared his throat again and shifted in his seat.

“I hope you don’t mind,” Danielle purred. Her voice could sound incredibly sexy without it sounding like she was trying to be that way. “It’s just more comfortable like this.”

Darren couldn’t stop staring at her breasts. I was having trouble looking away as well, but I had to glance at the road at least once in a while to make sure I stayed in my lane.

“You are really beautiful,” I heard him say, his voice almost a whisper.

“Thank you, Darren,” she replied. She ran a hand across her left breast as he watched breathlessly.

“Here she goes,” I thought, as I sped up to pass a slow-moving truck.

In the back seat, Danielle slipped the top of the dress down, revealing her tits in all their glory. She loved exposing herself to strangers, and was becoming aroused by her own boldness. Her nipples stood out proudly, beckoning our passenger like beacons in the night.

“Do you want to touch them?” I heard her ask. Darren shifted again nervously in his seat, but his dark eyes were fixed on the majesty of her ample bosom. His reluctance was beginning to break down.

And break down it did. He reached to Danielle with both hands and began to fondle her tits, feeling the hardness of her nipples. When she sighed at his touch, his lips found her flesh immediately and he began sucking on her breasts hungrily, one after the other.

As I changed lanes to take the airport exit, the man leaned toward her in the seat, giving Danielle a clear view of the bulging erection beneath his pants. Above the clicking sound of the turn signal I heard her say, *“Why don’t you let me help you out with that?”*

By the time I exited the freeway and was able to take another look at the back seat, Darren was slumped back against the door, with his pants down to his thighs and his cock in Danielle’s mouth. It wasn’t that large, but my beautiful, slutty wife had engulfed the whole thing.

Our passenger whimpered and squirmed as Danielle worked him expertly. She was cupping his balls with one hand, and had the other up under his shirt, pinching one of his nipples.

“Ohhh, fuck yeah!” He roared. *“That’s so good! Suck my dick, baby!”*

I maneuvered into the lane for his airline while my wife slid her lips up and down his swollen shaft. I couldn’t see her face from my view, but I could see his, and the expression was one of pure lustful ecstasy.

We were less than a minute from the spot where I would drop him off. I tried to drive slowly, giving Danielle the time she needed to coax a load out of him. I could hear the slurping sounds as she did her best to get him off with her lips and tongue.

As it turns out, I timed it perfectly. Just as I was pulling up to the skycap stand, I heard him cry *“Fuuuuuck!”* I found the mirror with my eyes just in time to see him shiver as he unloaded in Danielle’s mouth. She locked her lips around his pulsing prick, nursing every drop from him that she could.

He had closed his eyes when he shot his load, but as he opened them now he could see that we were pulling in right where he needed to get out of the

car. He hurriedly tucked his cock back into his pants and zipped them, rummaging for his briefcase.

Once he managed to regain enough composure to open the car door he stepped out, but then leaned back in to see how much he owed for the fare.

“It’s 23 dollars,” I told him, and he reached across the seat to hand me a wad of bills.

“Thank you both!” He said, and rushed away through the revolving door into the airport.

I looked at the money in my hands. He’d given me two hundred dollars!

I was about to tuck it into my pocket when Danielle leaned across the seat with a smile on her face. She angled her face to kiss me and I parted my lips to kiss her back. As I did, she flooded my mouth with a huge load of semen. She’d held on to Darren’s cum and was feeding it to me!

I gulped down the warm, salty liquid and licked my tongue across my wife’s lips for any lingering traces. It slid down my throat, leaving a musky taste on my tongue. A mouthful of cum and two hundred bucks! Not bad for the first fare of the night.

Danielle settled back into the soft cushion of the back seat and fingered her clit while I drove away from the airport. The taxi line for passenger pickup was a dozen cabs long so I decided not to wait, and we drove back into town in search of our next passenger.

As we pulled up to a stoplight, a young guy in a hoodie and faded jeans flagged me down. He was headed downtown to a nightclub and gave me the location as he slid into the backseat next to my wife. He didn’t introduce himself, but he was much less nervous than Darren had been.

He spotted Danielle’s bra on the seat right away and cocked an eyebrow.

“Looks like you forgot to put something on!”

Instead of answering, she opened her legs to display the bare lips of her pussy. Unlike the first fare, this guy didn't hesitate at all, and immediately began fingering her soft lips.

"Fuck, bitch, you're already wet," he said as I made a right turn onto a less crowded street. By the time I looked back in the mirror, his head was buried between her thighs and he was going to work on her clit with his tongue.

I made my way down the street to a darkened parking lot and pulled the taxi to an inconspicuous spot. With the motor still running, I shut off the headlights, leaving only a dim illumination from the dash and the small safety lights that offered enough of a soft glow for me to make out what was happening in the back seat.

Danielle was moaning softly. *"Mmmmm yeah, that's it. Lick my pussy just like that..."*

She gyrated her hips in response to his efforts. Even though I couldn't quite see it, I knew that his chin was getting soaked by her delicious juices. My wife got incredibly wet when she was aroused, and judging by the sounds she was making, this guy had her cranked way up and on her way to a climax.

Danielle let out a plaintive cry as she felt the tension in her body suddenly release. She bucked against the young man's face and ground her wetness against him. Our passenger happily lapped up everything she was giving to him with enthusiasm. His wet face shone in the dim light as her movements slowed. She had come so hard that I could see that she was in a post-orgasmic daze. I wondered if she even knew where she was in this moment.

The guy in the hoodie knew where she was. And he knew where he wanted his dick to be. He yanked his dark grey pants down just far enough for his cock to pop out, and aimed it for the opening of her waiting snatch.

He mounted her with a low grunt, pushing her legs high as he sank his engorged prick deep in her cunt. Danielle cried out as her pussy opened up to receive him. I was turned around now, with a clear view of my hotwife's wetness as he began to pound her.

Danielle moaned with each one of his thrusts. Her voice pitched higher and higher as he fucked her wildly, crushing her into the car seat as he assaulted her dripping hole with what I now realized was an impressively large dick.

"Ohhhh, this pussy is so good," he grunted out in between her cries of passion. I could tell that Danielle was in the zone by the sounds she was making. She came on his cock as he thrust deep and held it there. I watched her squirm and heard her make incredibly erotic sounds as his fullness twitched inside her.

He pulled out of her, and then thrust back in again, and continued impaling her while she came two more times. When the throes of the last orgasm shook her, she began to plead with him to fill her up with his seed.

"Give it to me! Fucking come in my pussy!" Danielle screamed as he pounded her. *"Breed me like a slut!"*

He bucked wildly as his cock pulsed, shooting hot jets of semen deep in her cunt. She flexed her muscles as he came, gripping him tightly while he unloaded inside her. My own cock strained against my pants, but I didn't touch it. I didn't want to come just yet, as the night was still young.

When he had delivered the last of his load into my wife's well-used pussy, I started the car and guided it out of the parking lot, heading for his destination.

"Fuck, baby!" I heard him say. *"You're a hot shit! That's the best pussy I've had in a long time."*

Danielle cooed, but stayed where she was, her dress bunched up on her stomach below her tits. In the mirror, I saw him tuck his dick back into his

pants and straighten his hoodie.

I drove to the nightclub and he gave me the fare before he got out, plus a fifty dollar tip. As he was leaving the car, he leaned back in and handed a small tablet of something to Danielle.

“It’s ecstasy,” he said. “You’ll enjoy it.”

Danielle put it on her tongue and swallowed it down as he shut the cab door and walked toward the club. I pulled away and found a dark parking spot down the street with no one around.

Putting cab in park, I got out and climbed in the back seat with my wife. The young guy’s jizz was starting to leak from her pussy, and I lapped it up, savoring the taste. Danielle began to grind against my face and came again while I licked her. Her juices flooded my senses, mixing with our passenger’s cum. I was in heaven.

We set out again once I had done my cuckold cleaning duties properly. The next fare we picked up didn’t respond to Danielle’s advances, but I still got a nice tip from him, so I guess he must have at least enjoyed the view.

We picked up a couple of tipsy girls who were leaving a bar downtown and Danielle wound up licking them both to orgasm. I was able to pull over while she went down on the second one and I very nearly shot a load in my pants from the sensual thrill of watching my wife eat her pussy.

Once we dropped the girls off, I counted my take for the evening. It was more than double what I would usually have made by now, and I had tasted two men’s loads, one from Danielle’s mouth, and one from her pussy. I’d also watched some girl-on-girl action that was hotter than any porn I’d ever seen. This was turning out to be quite a night!

The pill Danielle had taken had put her in a dreamy state, and she was even more horny than before.

“If we can just do one more,” she whispered in my ear as she leaned across the seat to run her hand through my hair, *“I’ll give you the blowjob*

of your life!”

This sounded like a great deal to me. I pulled up in front of an Irish pub that had been a good spot for finding customers before. Sure enough, after waiting just a few minutes, two men came out of the bar and waved toward the cab.

Danielle had pulled her dress back on by this time, but she still looked so sexy that they noticed her the moment they approached the car.

“She’s riding with me tonight,” I told the pair. “Do you guys mind?”

“Not at all,” the first one said. He was stocky and large, and reminded me of a lumberjack. The second guy was smaller, but he was strikingly handsome and looked a lot like the guy who played 007 in several of those James Bond movies.

They climbed in the cab and gave me the address of their destination as they slid next to Danielle. My wife has very few inhibitions, and by this point any that she might have had were completely gone. As I stole a look at the back seat, I could see her spread her legs in full view of our two new passengers to reveal the wondrous pink lips of her pussy.

I have always thought Danielle has the most beautiful pussy I have ever seen. It is perfectly shaped, with a nice-sized clit and lips that protrude outward a bit, making it look like the bloom of a sensuous flower. I knew that it would be visibly wet by now from a combination of the drug and all of the attention her body had received already tonight.

“Well, hello!” The lumberjack-looking guy said in a deep, booming voice as he stared between her legs. “I guess we should introduce ourselves. *“I’m Lucas, and my friend here is Ken. And you are hot as fuck!”*

I had turned back around to navigate the cab into the flow of traffic on the busy street in front of the pub. When I was able to check the mirror again, Danielle was sliding her dress up over her head, and her new admirer Lucas had unbuckled his belt and pulled his pants below his knees. I glanced at

the road again as the car in front of me slowed to make a right turn. By the time I was able to look back at the reflection, my wife was bent over him with her face in his lap. His cock was in her mouth and he leaned his head back as she began to bob up and down on his shaft.

His friend Ken was taking off the black sweatshirt he wore and was already naked from the waist down. He stroked his cock with one hand as he watched Danielle going down on Lucas and squeezed the cheeks of her ass with the other.

My horny wife repositioned herself without ever removing her mouth from Lucas to give Ken better access. He licked a finger and used it to begin probing the opening of her ass. Lucas started to pump in and out of her mouth rhythmically as she sucked him.

I was so turned on by what I was seeing in my mirror that I had to force myself to look back at the road. The address they had provided wasn't far, and their street would be coming up soon. I heard Lucas' deep voice call my wife a cocksucking slut as I put my blinker on and maneuvered into the turn lane. I made a left when I got to their street. We were only a couple of blocks away.

I stole another look back at them after I made the turn. Ken had his finger all the way in Danielle's ass and was working it around in a tight circle. She lifted her mouth from Lucas' cock and whimpered as Ken applied more pressure. Lucas started smacking his dick against her face, calling her a dirty whore.

All of this was turning Danielle on even more. She was in a sex-crazed stupor, and it was clear she was going to let these two men do anything they wanted to her.

I reached the address the guys had given me to find it was a large, older apartment complex. I pulled into the front entrance, and Ken instructed me to drive around to the back of the main building.

“You can keep the meter running,” he said, and in the mirror I saw him motion to Danielle to get up for a moment. I could tell they were shifting positions, but the apartments weren’t well lit and I had to keep my eyes on where I was going as I made my way around the parking lot.

The area behind the main building was even darker than the front. I found a spot in the far corner of the parking lot that was somewhat secluded by a cluster of trees and a large dumpster. I put the car in park and turned my head to see what was happening.

Ken was lying down on the seat, and he’d pulled Danielle on top of him on her back. She had her left foot up on the back dash and her right leg spread wide in the other direction. My dick strained against my pants as he positioned his cockhead against my wife’s asshole and slowly pushed inside. Danielle moaned, but it sounded much more like pleasure than pain.

He began to rock slowly in and out of her. After a few thrusts, he paused, and Lucas moved above her hips and mounted her from the front, working his large cock into her wet pussy while Ken throbbed in her ass. They were double penetrating my wife!

I felt like I was about to jizz in my pants, and turned away for a moment to concentrate on keeping my orgasm at bay. When I looked back, the beautiful woman I had married was fucking both of them at the same time. She was taking Lucas in her cunt, and Ken in her asshole. It was the most amazing thing I had ever seen.

The two men established a slow and steady rhythm of alternating thrusts. Danielle squirmed and moaned at the double fucking, and looked right at me while the passengers impaled both of her holes.

“Do you like watching them both fuck me, baby?” She asked in between her groans. *“Do you like seeing one dick in my pussy and the other one in my ass? I’ll bet you love watching your slutty wife taking both of these cocks at the same time!”*

"I do! I fucking love it, baby," I replied, and it really was true. The sight of her being taken like this was something I'd never dreamed of, even with all the times I'd watched her being fucked by other men.

Lucas was the first to drop his load. He roared as he thrust deep inside her dripping cunt and delivered what looked like it must have been a dozen streams of hot cum from his cock. Danielle shrieked, *"Fill my pussy you big motherfucker,"* and shuddered as she came around his thick member.

He pulled his leaking dick from her gash and leaned back, allowing Ken a little more room to move beneath her. Ken pumped in and out of her tight hole for another minute before announcing that he was going to come in her ass.

Danielle took his load like a champ. He bucked beneath her, shooting jets of semen in her asshole as she ground against him to milk out every drop.

"Fuck yeah," he groaned as he filled her with his seed. *"Take my load in your ass, you little slut!"*

I watched as Danielle pulled up off of him, cum flowing from both of her holes. The men dressed quickly, each handing me cash as they exited the cab. They walked toward the apartment building laughing and high-fiving each other. I pocketed the money and waited until they were gone. I would count it later and discover they had each given me a hundred bucks in twenties.

When the two men were out of sight, I got out of the car and climbed into the back seat with my wife. Kneeling on the seat before her, I went to work cleaning her up.

I licked and slurped Lucas' cum from her pussy, then worked my tongue into her ass as deeply as I could to clean out Ken's load. She was totally sated, and she lay on her back with a dreamy look on her face while I did my job as her cuckold.

When I'd swallowed all of the cum I could manage to lick from her, she sat up and unbuckled my pants. My aching cock stood at full attention, and I shuddered in pleasure as she took it into her mouth and began to suck me off.

Her lips felt so incredible around my throbbing pole that I knew I wouldn't hold out for long. When she reached below my ballsack and applied pressure right at the base with her fingers, that was all it took. I erupted in her mouth, spewing my pent-up release of cum across her incredible tongue and down her throat.

I felt my asshole clench as I delivered the biggest load I'd ever mustered between my incredible, slutty hotwife's lips. She gulped and swallowed, taking it all. When the spurts stopped, she looked up at me, her eyes still filled with a lustful glaze, and then did something she had never done to me before.

She slowly and carefully licked me clean, running her tongue gently across my softening cock.

Danielle had been right. Even though it was quick, it had been the blowjob of my life. Not only that, I'd probably made twice the money that I would on a normal night. Several guys and a couple of women had been expertly pleased by this beautiful creature. And she was in a blissful, post-orgasmic state beyond anything she'd ever experienced.

It was what you'd call a "win-win-win."

From now on, I'd drive the "cuckold cab" any time she wanted.

A Night At The Theatre

“What part of a man’s brain makes him derive pleasure from this?” Rick wondered to himself as he stood by the king-sized four poster bed he and his wife had bought just before they got married.

He held his dick in his hands, and it was rock hard. In the bed, a complete stranger was balls-deep in his wife, banging her mercilessly with an enormous black cock.

Valerie was shrieking loudly, begging the man to fuck her harder and to fill her pussy with his seed. She was making the kind of noises she had never made when they used to have sex. It had been a while, but Rick would have clearly remembered those lustful sounds if she had made them when his dick was inside of her.

The surprising thing, though, is that he was actually more turned on now than he had ever been when they used to fuck. Rick felt the familiar wave begin to build in his body, and the heavy, full feeling in his balls, and realized he was about to shoot a load onto the bedsheets. He tried to prolong it, but he knew he wasn’t likely to be successful.

Just before he spurted, he heard Valerie exclaim that she was coming. The stranger pushed deeply into her cunt as she gasped and writhed in the throes of her climax. Rick felt his dick pulse in his hand as thick streams of semen erupted from his cockhead and splattered onto the white sheets. It was as close as he and Valerie would ever come to a simultaneous orgasm.

The stranger pumped Valerie’s dripping hole a few more times, then pulled his cock from within her and gave it several long strokes with his hand, bathing her in a huge load of cum that splashed across her tits, onto her face, and into her dark brown hair. Some of it pooled in her navel, like a small dish of creamy man-milk, waiting to be served.

Rick, of course, would be dining on it tonight. The nameless bull was already stuffing his deflating but still huge slab of meat back into his pants as he pulled them on. In another moment, he was gone. The front door slammed behind him as Rick took his place above his wife, preparing for his clean-up duty.

He never would have thought he would be so drawn to the taste of semen. Once, when he was younger, he'd gotten drunk with his best friend Gabe and wound up giving him a blowjob. When Gabe had filled his mouth with a salty load of young spunk, Rick had spit it out, finding the taste to be bitter and not so pleasant.

But now, he couldn't seem to get enough. He slurped up the generous deposit from Valerie's bellybutton, and went to work licking the long ropes that shone milky white against her tanned olive skin. He cleaned her stomach and breasts, then licked what remained from her face, sighing happily.

"You really do love eating cum, don't you baby?" Valerie asked as he snuggled up behind her. A few drops in her hair were all that remained of the stranger's enormous load.

"Well I love doing anything to make you happy," he said to her as she pressed back against his body. "And yes, I will admit it. I have become a bit of a cum whore."

"That's my cuck-boy," she said, offering up a happy sigh of her own.

They lay together for a while, Valerie describing what it had felt like to have such a large cock impaling her over and over. Rick told her how explosive his own orgasm had been, and repeated how much he had loved licking her clean.

As they lay naked together, Valerie had a new idea. She turned to look at her husband, propping herself up on one elbow.

“I know what I want to do next,” she said. “And I think you are going to love it.”

“You know I will do anything for you,” Rick said, and he meant it. “Do you want me to wear a chastity cage?”

“No, nothing like that,” she said, although she knew that some women loved holding the key while their husband’s cock was locked in a cage device that prevented them from being able to obtain an erection. What she had in mind was different.

“There’s an adult theater downtown that shows porno flicks,” she told her husband. “I’ve read about it online. They’ve got a big screen and a lot of couches in the main room. From what I’ve read, it gets pretty busy on the weekends.”

“You want to go there and watch a movie?” Rick asked, not yet getting what she was suggesting.

“Silly boy! No, it’s not about the movie. I want to go and get naked and see if we can get a bunch of men to gangbang me. I can tell them I want their cum all over my body when they finish. You’ll have so much to clean from me, it will be like an ‘all you can eat’ cum buffet!”

Rick felt his dick begin to twinge as he visualized the thought. A big group of guys, having their way with his wife and leaving her drenched in sticky wetness sounded so crazy and erotic that he could barely imagine it. His cock swelled to fullness.

“We’ll talk about it tomorrow and make plans for Saturday,” Valerie told him as she reached to switch off the lamp next to their bed. She kissed him on the cheek and turned onto her side, facing away from him and falling into a blissful, post-orgasmic sleep.

Rick lay on his back in the dark, stroking his erection. Imagining his wife surrounded by a dozen cocks, he shot a small load on his belly, trying not to

move around too much so he wouldn't wake her up. Soon he was asleep himself, his own cum drying on his body.

* * * *

They parked outside of Cinema Equinox on Barker Street downtown. It wasn't much to look at from the outside, but it was Saturday night and the parking lot was full, so they found a spot on the street. Valerie got out of the passenger side of the car dressed in a long brown coat, and completely naked underneath. Rick locked the car and they walked past a deserted ticket booth in the front, a relic of a bygone era when the theater showed more mainstream fare.

There was another booth just inside the front door and a young guy with a hipster beard was manning it, sipping on an energy drink. A large sign displayed the prices for admission. Saturday was thirty dollars for men, but couples got in for free.

The hipster buzzed them in to a lobby area with double doors that entered the main theater. Rick pulled them open for his wife and they walked in, waiting for their eyes to adjust to the darkness.

On the screen, a blonde woman with ridiculously large breasts was gagging as she worked to take a big cock into her throat. Guys were scatted in seats and on couches around the room watching the scene. Only two of them were sitting together, and one of them appeared to be giving the other one a handjob. Several men leaned against the wall, some of them with their dicks out, stroking. Almost all of them turned to survey the couple as the doors shut behind them. Valerie was the only woman in the theater, and she immediately attracted a lot of attention.

Rick and his wife made their way to a vacant couch about halfway between the doors and the large screen. Valerie slipped her coat off her

shoulders and laid it carefully open on the sofa, exposing her perky 34C's in the dim light reflecting from the movie. She reclined across the couch on top of the coat, her ass nestling against the soft fabric, and spread her legs to offer a full view of her beautiful shaved pussy.

Men swarmed around her like bees to the last remaining flower in a garden. Rick knelt on the floor between her knees and went to work on her clit with his tongue, getting her ready for the men who were anxious to pollinate her. When she was fully wet, he licked her juices from his lips and moved out of the way. Her pussy glistened with moisture, even in the dim illumination of the theater.

"Okay, boys!" Valerie said with a wicked smile. *"Who is ready to give me a cum bath?"*

The group closed in on her, hands gripping her breasts and cocks flopping into view. A stocky guy was the first to begin licking her wetness, flicking his tongue all around her clit and poking it into her hole. Another man started slapping his dick against her face, and she opened her mouth to receive him. All around her, guys began to stroke themselves, taking in the amazing sight of this sexy woman offering herself up for their pleasure.

Valerie released the swelling cock from her mouth long enough to announce to the group that her husband was here to clean her up at the end, and to serve as a fluffer for anyone that wanted. A tall man with a sizable prick turned Rick around to face him and ordered him to his knees. He slid his semi-hard manhood between his lips and groaned as Rick began to slurp on his cock, doing as his wife instructed.

He felt it rise and throb as it came to life in his mouth. He heard his wife cry out as the man with who was licking her brought Valerie to her first climax of the night. The stocky man stood, his face covered with her juices, and plunged his dick between her wet pussy lips with a single thrust.

The cock in Rick's mouth was fully hard now, and the tall man withdrew, not wanting to come until he had a chance to work Valerie over with his

large pole. As soon as his dick was out from between Rick's lips, another replaced it, waiting for the cuckold husband to get it fully hard. Rick realized that he was likely to be busy sucking for most of the evening.

As Rick felt the new dick swelling against his tongue, the man who had been fucking Valerie's mouth removed his cock and began jacking it with long strokes. It pulsed in his hands as he shot a sticky load of cum across her face and tits, and another of the guys standing over her groaned and dumped his seed across her belly.

"Fuck yes, give me all that cum!" Rick's wife exclaimed. The stocky man between her legs complied by emptying his balls into her wet cunt. She could feel it dripping out of her for a moment, but his dick was quickly replaced by another, as a younger guy with short hair and a longer cock began banging her with abandon.

Rick was hoping for a break from his fluffer duties to watch the assault on his wife's body, but the man in his mouth had other ideas. Turned on from watching the gangbang that was happening in front of him, he pushed his cock further into Rick's throat and held it there. Rick gagged and coughed, but the man refused to relent until Rick felt the warm gush of semen coat his mouth. He gulped it down the best he could, trying to catch his breath at the same time. The man pulled away, his prick still standing straight out from his body, and joined the other men who were gathered around Valerie.

Finally, Rick got a moment to take in the action. The young guy who was fucking her groaned, pulling out and unloading across her body. Another guy aimed his small but thick cock at her tits and coated both of her nipples with a gooey wad of cum.

Rick couldn't believe the mess they had made of his wife, and there were still plenty of hard dicks surrounding her. The first guy Rick had sucked to an erection pulled Valerie's legs up onto his shoulders and entered her roughly, his balls slapping up against her as he began to pound her pussy. The second one, who'd spewed cum down his throat just a moment ago, crouched above her face and slid his still-hard cock into her mouth.

As he looked around the room, Rick realized that everyone in the theater was now fucking his wife, jerking off around her, or watching the show with their dicks in their hands. His hands were in his own pants, caressing his cock as he watched.

Valerie was lost in a cum-fueled fog. She sucked on the dick between her lips while she bucked against the one in her pussy. She felt another load of cum hit her in the face as she moaned and continued to work on the cock in her mouth. The man rewarded her by shooting a load down her throat the same way he had done a few minutes earlier with Rick.

One by one, the men in the theater all had their way with Valerie, coming in her pussy and all over her body. She was covered in a sticky glaze, and Rick was sure she had come at least twice more by the time the last man dumped his load all over the lips of her cunt. This clean-up job was going to take him a while!

"One more!" Rick heard a voice behind him say. He turned to see the hipster from the ticket booth, who was completely naked and sporting the biggest erection Rick had ever seen. He wasn't a large man, but his cock was the size of his forearm!

The hipster had come into the theater to check out what was going on, and he wasn't going to pass up the chance to impale Valerie with his enormous prick. It bounced in front of him as the group of men moved to make room for him between her legs.

He pressed the head of his dick against her dripping slit and pushed in very slowly. Valerie let out a cry as he entered her and her pussy stretched to accommodate the monster cock. He carefully worked it into her inch by inch, until he finally had as much of himself in her as she could take. She was completely filled by his massive manhood, and there were still at least two inches of him that he couldn't fit inside.

Rick watched in amazement as Valerie came right then and there, writhing against the huge member inside her as the wave of orgasmic pleasure

rocked her body. She clawed at his chest as she screamed out sounds of intense pleasure and gasped for air.

Rick came in his pants, unable to hold back as he watched his wife gyrate from the intensity of the orgasm. The cum soaked through his briefs, leaving a large wet stain on the front of his trousers. Even in the low light, the men who had been fucking his wife would be able to see that he had spooqed all over himself.

The hipster began to rock slowly in and out of Valerie's pussy. Even though he couldn't get all the way in, the tightness of her around his giant prick seemed to be giving him excruciating pleasure.

"Fuck, this cunt is sopping wet!" He exclaimed, as he felt the loads of the men who had filled her before him slosh against his dick. He pumped a few more times, then pulled out of her and began stroking himself with both hands. His massive cock was coated with the semen from her pussy, and his palms slid up and down the full length of his shaft.

When he came, it was as if someone had turned on a firehose. The hipster groaned and released spray after spray across Valerie's body. It splashed across her already-drenched tits and mingled with all of the other loads the men had jerked off onto her tonight. After the final spurt landed on her chin, he shook his cock, flinging a few last droplets of sperm onto her belly.

He looked around the group, knowing they were all in awe of his incredible cumshot. "I've got to get back to the front," he said, and hurriedly got back into the clothes he had tossed onto a nearby chair.

Once he was gone, the rest of the group began to dissipate as well, most of them sated from having shot their loads once or even twice during the gangbang. After a few moments, Rick was left alone with his cum-covered wife and a big, wet stain on his pants.

"This is going to take a little while," he said to Valerie as he began to lick the spunk from her belly.

“Take your time, cucku,” she said as she felt his tongue move across her skin. “We’re not leaving ‘til you’ve slurped up every drop.”

“What part of a man’s brain makes him derive pleasure from this?” Rick wondered to himself again as he continued to lick her clean. It was a question he would continue to ask himself for the rest of his cuckold life.

The Taste Test

I remember how it all started. My wife, Lorna, had always been a spitfire. She was incredibly sexy, with a slim figure that still boasted nice curves and wonderful 34C breasts.

Early on in our dating relationship, I learned that she loved to talk dirty when we were having sex. Over time this evolved from simpler things like, “*Give me your cock! Fuck my tight pussy,*” to even naughtier and more graphic verbalizations, and finally to detailed descriptions of other guys that she had fucked before, and how they filled her and satisfied her in various ways.

She could always see how much that her telling me about her past experiences seemed to turn me on. One night, just as I was about to slide into her dripping pussy, she stopped me for a moment and asked if I would like to see another man fuck her, for real.

My mind swirled at the thought. While I suppose most guys would be against that type of thing, I was finding that I was exactly the opposite. She began describing in explicit terms exactly what she would want him to do to her, and I was so excited that I came all over her wet snatch without even putting it in. Being a dutiful husband, I licked her to several orgasms since I had already shot my load, and we lay together in the afterglow, discussing how we might make it happen.

We began to go out to various bars, with her dressed seductively in a tight fitting top with no bra underneath. We would share a drink, then I would disappear to a table not too far away and watch. A sexy woman sitting alone at the bar will never stay that way for long. Men came up to her, bought her drinks, and began to flirt.

I was actually a little surprised at how much I enjoyed watching her chat with the guys as they put the moves on her. The first night, we brought

home a good looking man named Kenneth, and I looked on from a chair next to the bed while he mounted her and gave her an all-star fucking. I stroked my cock as I watched, and I came even before he did, shooting a huge load all over my legs and the floor below. Holding my softening dick in my hand, I continued to observe while Kenneth took her in several incredibly sensual positions, giving her not one or two, but FOUR different orgasms as he worked his manhood in and out of her dripping hole. Finally, he'd laid her down on her back and had shot a sticky load all over my beautiful wife's face.

To say I enjoyed it would be a massive understatement. I couldn't believe how sexy it was to see him cover her face with his seed after such a wild fuck. She took his number before he left, and I joined her in the bed, wiping his spunk from her face and neck with a corner of the bedsheet. We held each other and fell asleep, both of us content and sated.

After the first time, we started doing it on the regular. Lorna would choose a guy at the bar, let him know I would be there to watch, and bring him home to fuck her silly. It wasn't long before our routine began to regularly include me positioning my face between her thighs once the guy was done to lick as much of his cum out of her pussy as I could. This always gave her one more orgasm. The feeling of my wife squirming against my face as I slurped another man's semen from her slit was the most wildly arousing thing I had ever experienced. Over time, I learned not to come while I watched them, so I could finish in Lorna's pussy or all over her body at the end.

We were both getting what we wanted. Most of the visitors had much bigger cocks than I did, and Lorna got to feel them filling and stretching her in a way I never could. As for me, watching another man take my wife was *far* sexier than any porn I could find on the internet, and my own orgasms were incredibly powerful after getting so turned on. Lorna never failed to assure me of her love for me, and to thank me for letting her experience so many different dicks.

I also found that I really enjoyed the taste of cum. The consistency, and the saltiness of it were not just something I savored. It began to be something that I craved. As we lay together one night after our visitor had come and gone, she asked me what I thought of the taste of his load. How did it compare to the other cum I had eaten? Which guy's spunk had I liked the most?

We began to talk about this regularly. I jotted down notes on a little pad I kept in the bedside drawer, writing descriptions of each man's taste the way a wine aficionado might compare different bottles and vintages. I even began to rate each one, and we enjoyed reviewing my notes and talking about which guy's cum had tasted the best.

* * * *

One Saturday afternoon, I came up with an idea. What if we set a date for another encounter, and invited several guys at once to come over and fuck her on the same night? After each of them filled her with a load, I would drink it from her pussy and conduct a "taste test." I'd declare a winner, and then that guy would be invited over the next night to fuck her again.

Lorna had an idea of her own. "What if the winner not only comes back the next night, but gets to fuck my ass?" Her eyes twinkled as she spoke, and I felt my dick get hard in my pants immediately.

"You would do that?" I asked. Lorna had never seemed to enjoy anal all that much, and we had only done it a couple of times. None of the guys who came over had been allowed in her asshole, so I'd never been able to watch her be fucked that way.

"I think, in the spirit of the contest," she said, "I could be talked into that. It would be a way to make sure we're offering a nice prize to the winner."

I smiled at the very thought. Lorna's ass was incredible. It had just the right curves, and her puckered hole was delicious. I loved to lick her there when the two of us were in bed together. The thought of watching one of these guys, maybe even one with a larger cock, sliding in and out of it was almost too exciting to bear. I felt a drop of precum leak out of my dick and soak into my boxer shorts.

Seeing how aroused I became at the thought, Lorna unbuckled my pants and slid them down to let my cock spring free. She took it in her mouth and began to suck me. After only a moment, I lost all control and groaned as I spewed my load into her mouth. Cum dripped from her lips as she looked up at me and told me that she loved me. *"Damn,"* I said. *"I am one lucky guy!"*

We visited several bars over the next few weeks. Guys hit on her, as they always did. If she found them attractive, Lorna explained our plans and gave them the date we had set for our taste test. We hoped at least three of them would show, making for a good contest.

On the day we had chosen, I woke up early, excited for what the evening would bring. Lorna was still asleep in the bedroom while I climbed in the shower and started the water running. I must have been dreaming about the taste test, because I'd woken up completely hard.

I soaped up my cock and balls while the hot water beat against my back. The heat from the shower felt great as I began to stroke myself with the slippery suds. Reaching for a bottle of conditioner, I squirted a large glob onto my manhood. This felt even better, and I began to lose myself to the sensation as my hands slid across my shaft and swollen cockhead with the aid of the slick substance.

The scene we were hoping would play out tonight was playing in my head as I jacked myself off. I let out a soft cry as my dick spasmed in my hand, shooting long ropes of cum that splattered against the glass wall of the shower. My spooge dripped down the shower wall as the water began to wash it into the drain. The powerful orgasm almost made me lose my

balance, but somehow I managed to remain standing. *God, that had felt amazing!*

I finished rinsing off, cleaned up the shower, and stepped out just as Lorna appeared, looking sleepy. Her hair was sticking out on one side from where she'd slept on it, and her robe was open in the front, exposing her gorgeous breasts and beautiful pussy.

"Hi, baby," she said, looking me up and down as she spoke. I realized at that moment that she'd never looked more beautiful, and I had never loved her more. I loved being her cuckold husband, and I knew that I would do anything that she asked me to. I'd even suck one of the guys off if it would please her. I was hers to command, and I couldn't be happier.

We went out for breakfast, talking excitedly about our plans for that night. A couple of the guys had told her that they would choose their foods carefully for the week, trying to influence the taste of their semen and increase their chances of winning the contest. I told Lorna I couldn't wait for the taste test, and she laughed. "You've become quite the little cumslut," she said.

I nodded in agreement. "It's all for you, baby," I told her. She smiled and kissed me.

We did some shopping, and it was late afternoon by the time we returned home. We'd set the time to begin the evening's activities for 7 pm, and I found myself watching the clock as the hours crawled by.

By the time the first knock came at the door, we were more than ready. Lorna had chosen her sexiest lingerie, and was wearing it beneath a silk robe as she answered the door. Ted was the first to arrive, and he was soon joined by Noah and Raj. We all shared some wine, and were just about to head to the bedroom when we heard another knock. Lorna opened it to reveal Thomas and Joe, who had both arrived at the same time.

Five guys had shown up to fuck my wife! It was going to be a real-life gangbang as the men all competed in the taste test to see which one would

get to tap Lorna's ass the following night! I was beyond excited, and was glad that I'd dressed in a loose pair of shorts. Five guys were here to leave their loads in Lorna's pussy, but I was the first one in the room with a full erection.

After introductions were made, we all headed to the bedroom. The guys were clearly sizing each other up, curious about their competitors. Once Lorna was on the bed, they wasted no time in beginning the party.

Noah and Joe pulled down the straps of Lorna's silky top and each began to lick and suck on her tits. Thomas started to kiss her, while Ted moved between her legs to begin working her pussy with his tongue. I watched as my wife began to absorb all the attention, squirming as the men went to work pleasuring her body.

When Thomas came up for air, Raj became the first to begin fucking my wife. He was already naked, and he'd been standing beside the bed watching the other four get Lorna prepared. His uncut cock looked to be about six inches long, but it was incredibly thick. Lorna gasped as it entered her, and Raj pushed all the way in.

He began fucking her with long, vigorous strokes. She moaned and cried, rubbing her clit furiously, and before long I saw her shake with her first orgasm of the night. Raj lifted her up slightly from the bed, wrapping his arms around her hips as he continued to thrust. After a few moments he let out what sounded like a howl as he unloaded in Lorna's pussy. He shook and shuddered as he deposited his seed inside her. I watched my wife come again as he thrust deep within her to deliver the final squirts.

The guys had all been told how this would go down. Raj pulled out of Lorna's wet hole and I was there in no time, slurping and licking his man-juice out of her. It tasted amazing, salty and slightly sweet on my tongue. I cleaned up as much of it as I could, and then retrieved the pad to jot down my notes. It was a little difficult to concentrate because my dick was as hard as a rock.

By the time I finished writing, I could hear the sound of someone slapping against my wife's ass. I turned to see Joe fucking Lorna doggy style. His sizable cock slammed in and out of her while Ted positioned himself in front of her and slipped his dick into her mouth. I watched in awe as the two men spit-roasted my wife right in front of me. *Holy shit, this was amazing!*

"Aaaaah, fuck! I'm gonna come!" Joe exclaimed, and Ted pulled his swollen cock away from Lorna's mouth.

"Shoot that cum in my pussy!" My wife yelled out as he began to buck against her. *"Give me your fucking load!"*

Joe did as she directed, dumping his sperm into her waiting cunt. From where I stood, it looked like he was coming quite a lot. This was confirmed when he removed his cock from her snatch and the milky liquid began pouring out of her.

I quickly assumed my position so I could lick it up before it all dripped to the bed. His seed tasted a bit different. It was just as salty as Raj's had been, but had a bitter taste that was similar in some ways to a very hoppy craft beer. Being a cum connoisseur, I appreciated the difference, and made a mental note to be sure I wrote that down in my pad. For the moment, though, I was occupied with Lorna's pussy, getting out every drop of it that I could.

Ted was next. He had become quite aroused from being sucked by my wife, and mounted her quickly while she was still on her hands and knees. He was already halfway there, and it didn't take long before he was delivering the third cum load of the night.

Lorna rolled over on her back and presented her wet pussy to me. I did my cleanup job with precision, licking Ted's cum from her and evaluating the taste. His semen was bitter, but not in as pleasant a way as Joe's had been. I knew already that Ted would not be winning the contest.

I still liked it, though. Once I licked her clean, I heard my wife ask, *"Who's next?"*

Noah stepped forward, and I noticed his cock for the first time. Although not overly large, it was beautiful, and curved up slightly as it stood out from his body. He positioned himself in front of Lorna and slid it in. She was well-lubricated from the previous fucks, and he began working her slowly, with long, deliberate strokes.

The first three guys had all come in my wife after only a few minutes. This would not be the case with Noah, who took his time and really worked on pleasuring her. He varied his speed, fucking her slowly at first, then fast and hard, then slowly again. Lorna writhed and moaned, her eyes closed and her breath coming quicker.

“Fuck me baby!” I heard her cry. *“Oh yes! Oh YEEESSSS! I’m gonna fucking come on your cock!”*

As I watched this glorious sight, Lorna began to shudder as the orgasm took her. Noah fucked her deeply, pushing her over the edge as her moans became screams. My eyes were glued to his amazing dick as it moved in and out of her. My wife was coming harder than I had ever seen her come before. He worked her expertly, prolonging her pleasure for as long as he could. She barely had time to catch her breath before she began to climax again.

Lorna dug her nails into Noah’s back as she quivered beneath him. This orgasm was shorter than the last, but no less intense. Her motions finally slowed, and she lay still and spent as Noah continued to fuck her.

For another ten minutes or so, my wife continued to take Noah’s cock. He pulled completely out of her several times, only to dive back in again and fuck her harder.

He turned his head to look at me, his manhood still buried in her juicy cunt. *“Your wife’s pussy is amazing!”* He said.

“Then why don’t you fill it up? Give her your seed!” I told him.

Turning back to face my beautiful wife, Noah gave several last thrusts and exploded inside her. He didn’t groan or cry out, but I could tell from his movements that he was loading her up with his man-milk. Lorna had begun

moving beneath him again, and I think she may have come one more time while he unloaded deep in her hole.

When he pulled away, I hurriedly moved to the bed to taste what he had left behind. I don't know if it was just him, or maybe the combination of my wife's juices with his deposit of sperm, but it was absolutely delicious. I slurped and sucked it out of Lorna, savoring the taste as it slid across my tongue and down my throat. *"This one's going to be hard to beat,"* I thought, as I swallowed down as much of his spunk as I could.

There was only one guy left, and that was Thomas. His dick was hard and ready, and he shoved it into Lorna's cunt with a firm thrust. There was nothing subtle about the way he went at her. He fucked my wife hard and fast, pressing her gorgeous body to the bed as he hammered away at her pussy. He slapped her ass several times, which she seemed to like. She squealed and moaned at the intense pounding he was giving her. I don't know if she came again or not, but she sounded like she was enjoying the rough way he slammed in and out of her.

He slowed and thrust deep inside her to deliver his load. From my vantage point, I could actually see his dick pulse as he shot stream after stream of hot jizz into her well-fucked pussy. Thomas moaned loudly as he left the fifth cumload of the night inside Lorna.

I climbed back between her thighs once he was finished, and sampled my final taste treat of the night. It was salty and decidedly alkaline. I slurped it from between her pussy lips until she was clean, then jacked off furiously to relieve my own aching balls. My cum spurted out across Lorna, covering her belly and her beautiful tits.

Once I recovered from my huge orgasm, it was time to consult my notes and declare a winner. Thomas had tasted great, and Joe's was different and delicious, but in the end I declared Noah to be the winner. The guys all high-fived him and began to put their clothes back on. Once they had gone, I climbed into bed next to Lorna, who was still covered in my semen.

I held her tightly. "Did you enjoy that, baby?" I asked.

Her eyes gave me the answer. I'm not sure how many orgasms she had, and she may have lost track herself. "I love you," she said, kissing me deeply and assuring me that she had just had the time of her life.

* * * *

She was a bit nervous by the time Noah arrived the next night. He had brought along something to smoke, so we all partook and that seemed to chill everyone out. By the time we moved to the bedroom for him to fuck Lorna's ass, we were all feeling good, and Noah and I both sported nice boners.

I went down on Lorna while Noah licked her nipples and kissed up and down her body. I could still taste the remnants of all the cum that had been pumped into her the night before. It was intoxicating, and I licked her in just the way I knew she would like.

Sure enough, she responded by grinding herself against my tongue and finally cried out that I was making her come. Her orgasm was forceful, and when I raised my head from between her legs I saw that she had Noah's cock in her mouth and was taking the whole thing down her throat.

I slid my dick inside her while she sucked last night's champion and enjoyed the warm feeling of her pussy around me. I worked her slowly for a few minutes until she pulled her mouth off of Noah's cock and I heard her announce that it was time for him to take her ass.

We repositioned on the bed with Lorna on her knees. I lubed her backdoor while Noah applied some to his stiff prick. Then, taking it as slowly as he could, he pressed his cock against her opening and popped the head inside.

Lorna stiffened, taking a moment to get used to his swollen manhood. When her muscles relaxed, she pushed back against him a little at a time until his entire dick was buried in her ass.

He started to stroke slowly in and out. Lorna began making sounds I had never heard her make before as his movements became faster. I was overcome with awe. *Oh my god! I was watching this very attractive man fuck my wife's ass!*

I got on my knees alongside her so I could watch her face as he plundered her asshole. She looked like a woman possessed by pleasure as she rubbed her clit with two fingers while he pounded in and out.

"Ahhhhh, yesssss!! Fuck my tight hole!" Lorna yelled loudly, and then began to buck and convulse. I couldn't believe it. She was coming with Noah's cock inside her ass!

Her orgasm was intense, and she collapsed to the bed, Noah still astride her. She lifted her head up to speak, and I heard her ask him, *"Are you going to shoot your load in my ass?"*

To my surprise, Noah pulled out of her. *"Nope,"* he said. *"I'm going to shoot it in HIS!"*

This was completely unexpected. I was about to get up from where I was still perched on my knees and say, "Hang on, I'm not sure about this," when I heard my wife squeal with delight.

"Oh please!" Lorna said, her voice quivering with excitement. *"I would love to watch you fuck my husband!"*

I wasn't sure what to do. I *had*, after all, promised my beautiful wife I would do anything that she asked me to. But I'd never taken another man's cock in my ass. I wasn't even sure if I could do it.

"I'll go easy on you," Noah said. *"At first..."*

Lorna sat up and began to work a generous portion of the lubricant into my asshole. Noah waited, stroking himself. Now that I was being prepared to take his cock inside me, it looked even bigger than I had remembered.

Lorna worked two fingers into my hole, opening me up. She positioned Noah at my opening, and I felt the pressure as he gave a little push and the head of his dick popped inside.

I won't try to say that it didn't hurt, but in all honesty the pain disappeared very quickly, replaced by a feeling of pleasure and fullness that I can't quite

describe. I moaned in ecstasy, and Noah took that cue to mean that he didn't have to stay gentle for long. In moments he was pounding away at my ass, thrusting his entire cock in and out of me. Lorna found her phone and started to video my first fuck.

I've watched the video now dozens of times. Seeing him slamming away at my ass turns me on more than anything I could have imagined. I love watching the moment my cock erupts, spewing thick ropes of cum on the bed while Noah bangs me. And I'm mesmerized by the look on his face when he delivers his load deep within the walls of my ass.

Lorna and I still venture out on the town, looking to pick up a guy from time to time. I love being her cuckold husband and watching her be pleased in front of me. I still savor the opportunity to clean her up after a man has had his way with her.

But thanks to the events of the taste test, and the night with Noah that followed, these days Lorna doesn't agree to bring home just any guy. She's become a little more picky, and looks for the ones that we now really want.

The ones that will fuck both of us.
