

My Wife Makes a Choice

MATTHEW LEE

My Wife Makes a Choice

By Matthew Lee

Chapter 1

“How many followers do you have on Instagram now?” I asked Sabrina, my wife of twelve years.

Suddenly coy, she turned her pretty face away, soft blonde hair falling to hide her embarrassment.

“I’m not sure,” she lied.

I waited. She follows that page obsessively.

“One hundred fifty-one thousand three hundred ten.”

“Amazing,” I said.

“I don’t understand why.”

“I do. You’re fucking pretty as fuck.”

“My boobs are too small.”

“No, your boobs perfectly match your Olympic swimmer’s body.”

She laughed. “High school swim team is a long way in the rearview mirror, my Darling. Plus, guys like tall girls. I’m too short.”

“You’re petite; a juicy little nugget, a tight little firecracker.”

She looked down at her chest and squished her elbows together.

“I wish I had bigger boobs.”

I dropped the topic. We’ve had this discussion a million times. I’ve offered to pay for whatever size she wanted but when it came to making the decision, she always backed out. Her toned body was strong and healthy in a wonderfully sexy way and she always defaulted to that when the subject of breast augmentation arose, so why have the same conversation again? I was perfectly happy either way, being an ass-man, and her ass was world-class.

About eighteen months ago she posted her first sexy bikini picture to Instagram. It brought her five-thousand likes and four hundred new followers. A week later her girlfriend Kathy snapped a picture of Sabrina in a frilly light sundress and that brought eight-thousand likes and twelve hundred new followers. My wife realized she was onto something. Now,

almost daily, she posts some hot photograph and her numbers skyrocket again. I'm amazed that a site which so controls nudity does so well but there are hot women like Sabrina all over it. My wife works part time in a dentist's office and no one there gave a shit about her scantily-clad online escapades.

Lately, she's gotten more daring. Her white top the other day showed darkened circles of nipple beneath the fabric and her followers, almost all men, lost their minds. I know when she shops for clothing now she has posting pictures in mind.

I'm perfectly fine with it. I wish she could show more. She's an exhibitionist and I encourage that behavior because I love showing her off. What does it say about me that I scored a smoking hot babe of a wife?

My efforts to get her to take things farther have not met with great success. Last year we vacationed in France and she agreed to a nude beach, but only because we were so far from home. She stayed clothed her first hour, lost her top the second, and finally stripped nude by the third. We fucked like savage animals back in our hotel room later.

Once she was naked I told her I'd walk the shoreline for a while, knowing she'd want to stay with the blanket. I wandered off and then doubled back to watch. Guys converged on her like bees to a flower, all of them naked too. I got such a rush watching all those cocks waving in her face. She was polite and entertaining and I know she loved their attention too.

I've tried to take things farther in that way too. Four years ago, I confessed my fantasy was to watch her get deep fucked by a cock bigger than mine. I'd love to watch her suck the life out of some big-dick stud. She listened attentively and without judgement but then burst my bubble, telling me she believed I would deeply regret such an event and once it was done, it could never be undone. She said most fantasies don't handle the conversion to reality well at all.

"Besides," she'd added. "Your penis is already too big for me. I couldn't handle something bigger."

While I don't believe the second part, the first part is partially true. I am above average in length and girth, which is nice. Not huge, but a bit above average. I'm not too big for her but we can both really feel it going in. I try not to think about it too much since I want to see her with

something bigger, and my size makes that less likely to find. Win some, lose some.

I've gotten her to admit the idea of a new lover is exciting, for herself, but she remains convinced the sight of watching her fuck would ruin me and, by extension, us.

About six months ago I introduced talking dirty in the bedroom. She went nuts. I started off slow, telling her how sexy she looks and what a hot little body she has, but then I expanded to different scenarios. She loved the idea of me fucking her while someone secretly watched us.

When I mentioned a threesome, she tensed.

"Me, you, and another girl?" she probed, riding my dick.

"No," I murmured. "Me, you, and another man."

Her pussy clenched around me. The thought sent her gushing. She came a moment later, growling and grinding.

I told my best friend Hayim about my fantasy, which is a little weird, I know, but I needed someone besides Sabrina to talk to. Hayim and I talk about everything.

"Dude, why do you want to see Sabrina fucked by a dick *bigger* than yours?"

I explained the erotic charge I got but when I tried to explain *why* I got the charge, words failed.

"I just think she'd look so hot, so sexy," I said.

"She already is hot and sexy."

"I mean like watching porn staring her. I want to watch her fuck. She loves me so when we make love no matter how wild we get, love is always mixed in. I want to see her *fuck*. Like raw, love of sex kind of fucking. She's admitted she loves dicks. I know a big-cock stranger would drive her insane."

"Yeah, I get what you're saying, but where would you find a bigger guy?"

"I've seen a few guys at the gym and there's a guy on Craigslist that's a total stud; his body is a little hairy but he's got a huge cock."

"Dude. You've searched for guys online? That's weird."

"I'm kinky, fuck you. What about you? I know you think about dirty shit too. I've shared mine. What's your favorite fantasy involving Kathy?"

He grinned broadly. "My favorite fantasy is a young Jessica Alba, say circa two-thousand-five, stranded on a country road by a flat tire. I

won't go into the details. I'm sure you get it. Kathy's favorite fantasy is being ravaged by five men at the same time."

"No shit?"

"No shit, and I'm trusting you to keep that between us. Don't tease her about it. She'd be hurt if she knew I told you."

"Of course. That's hot. I asked what your favorite fantasy involving Kathy was, not Jessica. Wouldn't you love to see her do that? If there was no threat to your marriage?"

He stared at the floor a minute. He folded his arms across his chest.

"All right," he admitted. "If I knew our relationship would remain intact and *nothing* would change, then, yeah, watching Kathy act out her fantasy would be pretty hot."

"Just imagine her face, imagine the sounds she'd make. Can't you picture her cumming like a freight train, those big tits bouncing?"

"Easy, Jimmy. I was talking about a perfect scenario. In the real world, I'd feel jealousy, like I'm feeling right now with you going on about how she'd look."

"Sorry."

"You know my penis is way too small to even contemplate shit like this," he said. "A man needs confidence to explore fantasies. I got none. You can hang with guys like that, so to speak, because you have what it takes. I worry too much to enjoy myself. Kathy loves sex, bro. If I brought it up I think she'd jump at the opportunity and then leave me for her new stud. I don't want you talking about this idea to her. Tell Sabrina to keep her mouth shut too."

"Kathy would *never* leave you. That's bullshit and you know it. You guys are made for each other and I know she feels the same way."

"I guess we'll never find out because that shit ain't never gonna happen."

He'd reached his limit so I switched the conversation to something else.

Chapter 2

Saturday found Sabrina and me walking the outdoor mall, eating corn dogs with spicy mustard and shopping. I noticed a cute pair of sandals in a window display and pointed them out.

Cool air washed over us as I opened the door for her. Inside we wandered a bit before a young man in his early twenties, sporting a funny accumulation of facial hair, said hello and introduced himself as Tyler.

“Hi, Tyler,” I said. “I’m James and this is Sabrina. I liked the sandals in the window. Will you find some in her size?”

He said he would and headed for the stockroom. I set our bags next to a chair and took a seat. Sabrina took the seat next to mine, her thin and flimsy skirt floating down to drape across her knees.

I got an idea.

“Are you wearing panties?” I asked, my voice low.

She gave me a measured grin. “Yes.”

I glanced over a shoulder to make sure I had time.

“Your skirt is short,” I said. “Maybe you should give Tyler a thrill.”

Her eyes got a wicked gleam. “You’re bad.”

I held her gaze.

“Okay,” she said, mischievously. “If you’re serious, it does sound like fun. Tyler’s cute. I’ll toy with the boy but not with you right here watching. Go wander.”

I kissed her cheek and headed for a rack of men’s boots.

Tyler returned with stacks of boxes. Sabrina had shifted in her seat, parting her legs slightly and hiking her skirt up a few more inches. My heart pounded far harder than I expected. This brushed up against my fantasy and her willingness was intoxicating. I calmed my breathing and settled in.

Sabrina and Tyler shared some pleasant exchanges and I assumed he asked questions about her preferences. He turned to the first box and Sabrina opened her legs a bit more.

When he spun around again, it took him two seconds to notice he could now see between her well-toned thighs. He kept his cool but I saw his entire body tense. Sabrina played innocent and indifferent, slipping her dainty painted toes into the first selection. She lifted her foot to consider the choice, further revealing the glorious vision beneath her skirt. I was dying to see what he saw so I moved three racks over and turned.

She’d spoken truthfully; she did indeed wear panties, but just barely. To beat the summer heat, she wore the most sheer and lacey pair she owned, the small strip of pubic hair she maintained visible through the mesh. The air left my lungs in a rush.

She asked Tyler a question and pretended a total lack of awareness. I'll give the young man credit. He handled it better than I would have at his age.

The next pair brought more fun and games. Sabrina was carefully maneuvering her ass towards the edge of her chair, nudging ever more fabric out of his way, increasing her exposure. I felt blood flowing to my dick.

I watched him and how carefully he stole as many glances as he could. I felt sure he was getting hard too. How hot it was to witness my wife excite another man. I had some distance between me and her pussy but he was less than three feet away. I tried to imagine all the additional details he must be enjoying.

Was this affecting Sabrina too? I turned my attention to her and found her staring at me while Tyler buckled another shoe on her foot. Her eyes were large and her lips parted and I suspected this little game excited her far more than she expected. I don't know why I did it or what it even meant, but I gave her a slow, acknowledging nod. What was I agreeing to? Who knows? But I was telling her I knew what was happening and I was more than okay with it.

"Ow!" she chuckled, seeming to reach for her foot. "Ow. I'm getting a cramp. Will you rub my arch, Tyler?"

The young man hurried to comply. Sabrina leaned back, making encouraging moans and thanking him profusely, while Tyler dug in with fingers and thumbs. Sabrina relaxed, allowing her thighs to fall to the arms of her chair, closing her eyes and showing the lad everything. I bit my lips together to keep from groaning.

I nervously glanced around the store. The other customers had exited without my noticing and the other salesperson had returned to the backroom to restock. Sabrina seemed already aware of this and asked Tyler to continue up her leg.

"That feels fantastic," she said. "You're an angel. I've been walking for hours and my legs are tired."

The young man forgot I existed. He checked to make sure they were alone and sent his fingers up to her calf and then the muscles around her knee.

"I love it," she cooed. "Keep going. Don't stop."

I was afraid he'd remember me so I crouched behind a display, pretending to examine a black dress shoe. I needn't have worried. He boldly sent fingertips over her knee to her thigh, his hand now under the hemline of her gossamer skirt. However her game began, my wife now found herself as caught up as Tyler and me. I know she thought it would be fun to tease us simultaneously, but a good-looking man had his hand under her skirt, rubbing her leg. I thought she'd suddenly realize how far she'd gone and end things abruptly, but she didn't. She was as spellbound as us.

How far would this bold youth go?

Sabrina's hands moved to the arms of her chair and squeezed. She slouched slightly and then opened her legs wider. Tyler knew a green light when he saw one and his hand slid higher, her skirt hiding him from the elbow down. My heart was a jackhammer. Did he touch her lace covered pussy? God, I hoped he touched her lace covered pussy.

Everything became slow-motion. I focused on Sabrina; the flush of her cheeks, the tension in her arms, the skin bunching between her eyebrows. When her mouth jerked open and a gasp slipped out, I knew he'd brushed her pussy at last. She clamped her teeth on her bottom lip.

I couldn't tell with certainty but he seemed to remain on this side of her underwear. I suppose finger-banging a customer was a bit too much. He played with her pussy, teasing and tickling, until she squirmed in her chair.

Finally, he began his retreat, perhaps feeling he'd pressed his luck as much as he dared. Any moment someone would enter the store or his coworker would emerge from the backroom. Sabrina breathed rapid and shallow and opened her eyes to watch his hand return from under her skirt. She gave him a playful smile and he made a comment about bringing more stock from the back room. He stood, blatantly adjusted the front of his pleated pants to let her know the effect she'd had, and headed off.

Her eyes lifted until she found mine. I gave a reassuring smile right away and she sighed with relief. Tyler returned and took his place at her feet and the performance entered stage two. Confident now, my wife slowly opened her legs fully, all subterfuge gone. She was showing him her pussy and they both knew it. He stared and stared and stared. A family of four entered to browse and the other salesperson came out to help them, yet Sabrina and Tyler continued their game. He kept his hands below her knees but his eyes ate my wife's pussy alive.

At last she made her selections and he carried three boxes to the register. I joined her there, feigning ignorance to the entire exchange. When she got the chance she discretely cupped my dick, discovering my still-fading erection.

“Is that right?” she said.

“That’s right,” I replied, unashamed. “You should have checked fifteen minutes ago; cast iron.”

“I’m flattered.”

“You should be. You tied us both in knots with hardly any effort at all.”

Tyler returned with a receipt for her to sign and I shook his hand and thanked him for his help. Out in the mall once more, Sabrina kissed me.

“That was wild,” she said, giggling playfully.

“I loved it.”

“You’re not mad?”

“Not in the least. Do that every time we go to the mall and I’m more likely to come shopping with you.”

“Good to know. Let’s find a place I can suck you off. Tyler got me horny and I love a man in my mouth.”

We continued shopping and kept our eyes open but the mall was too busy. She seemed to float along, happy and content. I know in the back of her mind she weighed the encounter with Tyler but I left it alone, suspecting the wiser path was showing how utterly fine I was with it. Ten minutes later she stopped at a bathroom. I waited outside on a bench, watching people. When she reappeared, she handed me a small, wadded piece of fabric, jamming the ball into my hand and quickly closing her fingers around my fist to keep it hidden.

“What’s this?” I asked.

“My panties,” she said, leaning close. “It’s scorching out here today and besides, they’re soaked.”

If I thought she was sexy before, and I did, watching her walk around in public knowing only that thin dress covered her amazing body drove me crazy. Each puff of wind, each time she sat, each staircase or escalator, all became erotic moments of visceral excitement. She caught on and played to my fetish, moving her body in provocative ways. She’d discovered a new way to taunt me and toyed with it like a kitten. An hour later my balls ached with sexual tension.

We finished shopping and left the mall to grab an early dinner. We both wanted Italian so I drove to Buca di Beppo. They seated us quickly and we were halfway through our meal when I asked why she kept grinning.

“That handsome older man over there can see under our table.”

My heart skipped a beat. “Oh.”

She giggled. “Yeah. I accidentally flashed him about twenty minutes ago and he smiled so I started intentionally showing him more and more. We’ve been carrying on a relationship right under your nose. His wife has no idea and neither did my husband. Fun! I just showed him my hot pussy and he started rubbing his crotch. I wonder if I can make him cum in his pants?”

Good lord. Fish to water.

“I think you should try,” I said. “Shall I continue to play ignorant?”

“Would you mind? I think he’d feel more comfortable.”

I cleared my throat. “Sounds fun.”

Talk about distracted. I tried to carry on normal conversation with my wife, knowing all the while she was busy displaying her pink treasure to another man. I wanted very much for her to see how comfortable I was with this so I never looked at him or gave any indication I was in on the charade, but damn, I almost died. Even when she said: “His bulge is big,” I continued unperturbed.

“I want to show him more,” she said, as if asking my opinion of the pasta.

I pointed at the basket of breadsticks. “Sneak a hand down and spread your pussy for him.”

Her eyes bugged out. “Are you serious?”

“Yes,” I said, pointing at the butter. “Let him see your tasty lady insides.”

“Jesus, James,” she exhaled.

I waited her out. A sip of wine, a dab at the corners of her mouth with her napkin, and when her hand carried the cloth to her lap again, a frozen stare. She was doing it. My wife was opening her pussy to another man. My cock and balls glowed red hot.

“He’s looking,” she smiled. “Oh, my God, his eyes are glued to my pussy, Baby.” She took another sip of wine and placed her hand on top of mine. “I’m going to play with my clit for him.”

This was too much. I could barely breathe. I longed to look at him, see his expression, watch him watch her. But I dared not. I pretended to check something on my cell phone.

I don't know if *he* came, as was her wish, but Sabrina did. She controlled herself almost flawlessly but air hissed between her teeth and her arms went rigid. I wanted to rip my clothing off and fuck her on our table. I hoped he realized what she'd done. It lasted a long moment and then her eyelids fluttered and she regained composure.

"Holy Christ," she muttered. "I can't...that was..."

I turned my phone as if to show her something on the screen.

"The hottest thing ever," I murmured.

"Yeah. I've *never* done something like that."

She nodded at nothing and we turned our attention to our meal.

"I'm going to leave my legs wide open for him," she said. "I want him to remember this forever."

I knew he already would.

We ate and chatted and moved on to dessert.

"They're finished," she said. "Here he comes. They'll walk by our table."

I casually continued until I felt their presence. I glanced up; husband and wife, late forties or early fifties, well-dressed, happy. I suspected he was handsome because his wife was attractive. At the last moment, he locked eyes with Sabrina and they shared a meaningful smile. I pretended not to notice. After they'd gone she placed both hands on the table palms down, fingers spread.

"That was thrilling," she gushed. "Take me home and fuck me, James. I'm dying for cock."

My impulse was to call for the check and do as she asked but so far today had been a special day. I was reluctant for our games to end.

"Soon," I said. "Let's play a little more."

She stared in disbelief. I'd resisted sex? For an instant, she looked hurt. Then she realized what I was really saying.

"All right. What next?"

I played with my bottom lip, thinking. I wanted to escalate things but not so much I scared her off.

"How about we take the long way home. Stop at some bar far from our house. You go in first, like you're meeting someone. I enter later, take a

seat and watch you. We pretend we don't know each other. If nothing happens, I come over and pick you up and we head home to fuck our brains out."

"Sounds good. What if someone *does* approach me? What are the rules here? We should have limits so no one gets hurt feelings."

"I don't want to limit us first. Let's just say what happens, happens, and we talk about hurt feelings after. We can make rules then for next time."

"Next time, hm?"

"You must admit this day has been a blast."

"It has."

We finished our meal, paid our bill, and headed for the car.

Chapter 3

We should have stopped while we were ahead. First we couldn't find a bar that looked decent, then once we found one, the people inside were less than desirable. One drunk slob approached Sabrina to tell her she was pretty but as soon as she said thank you, he followed up by saying she wasn't better than anyone else. After that a fat, half-drunk woman came up and told Sabrina to stay away from her man. At that point I stepped in and led us back to the car. We were annoyed at first but laughing by the time we reached home. We chalked that one up to trying new things and aimed for the bedroom.

"Let's say there *had* been a handsome guy there," Sabrina said, slipping the dress off her shoulders. "What would you have done if we started flirting?"

"The same thing I did at the shoe store; watch and get hard."

She studied my face. "You know, you've said that before but I never believed you. After today I must admit there may be some truth. I flashed that man at the restaurant my bare-naked pussy and you should have seen your face. You did a good job acting cool but I saw beneath your show. You got hot."

"No argument. That's what I've been saying all along."

She crawled onto our bed backward, keeping me in her sights. "I don't understand how that can be," she said. She looked down at her fit body, drawing a hand slowly up her thigh to her tummy to a pert breast. "You can imagine another man touching me like this?"

“Yes,” I said. “Easily.” Her hot little figure looked delicious.

“Don’t you feel protective of the woman you love?”

“I’d kill any man that tried to hurt you. This is not about protecting you from harm. He’s not forcing something on you. He’s doing something you want him to do. His excitement would excite you. Your excitement would excite me.”

This conversation, combined with the day we had, got my penis growing. Sabrina opened her legs, aiming her slit, still wet from the day’s events, at my face.

“I opened my legs like this to that nice man at Buca. He saw what you’re seeing. Do you think he had the same thoughts then that you have right now?”

“Yes.”

“Show me. Take your pants off.”

I did. I was a little below half-mast but coming along nicely.

“He got hard too,” she said. “I like making dicks get hard. Would you like me to make more dicks hard?”

“Yes.”

“That makes me happy. I’ve always loved making dicks explode. I started in high school and continued through college. Have I told you that before? I am fascinated by the male orgasm. I imagine getting so excited liquid spurts from your penis must feel truly amazing.”

“It does.”

“Yes, that’s what I’ve deduced. Do you want to shove your cock inside me?”

“God, yes.”

“Do you think Buca Man did too?”

“Yes.”

She opened her legs wide so each foot went off opposing sides of the bed.

“I think he did too. Come fuck me like you think he would have fucked me.”

I stepped forward, smiling, casually moving to the edge of the bed. When I was close enough, I grabbed a fistful of her pretty blonde hair and twisted her away from me. Her body naturally followed her head and now I had her face down. I slapped her firm, round ass and climbed on the bed, using my weight to pin her. I grabbed an ass cheek and spread her open and

pushed my big cock into her wet pussy from behind. She yelped and struggled, a little, but I just rammed another four inches deep.

“He’d fuck you hard,” I growled. “Like this.”

I pushed her face into the mattress. Her pussy was roasting and drenched. The day had gotten to her as much as me. I pumped, easily sliding in and out, and fucked her like that horny stranger might. Her butt lifted off the bed, an offering despite my physical aggression.

“He was so handsome,” she said, twisting her face so I could hear. “His wife was right there, oblivious. I made a man cheat on his wife and I kind of liked it. I’m bad. He rubbed his cock under the table and watched every move I made. He couldn’t look away. I had him hypnotized, Baby.”

I rose to elbows and toes and pumped my cock.

“His eyes got me so hot,” she continued. “I bet he’s good in bed. He looked strong and aggressive. He looked like he wanted to eat me alive.”

I pushed my dick all the way in and forced blood to expand my organ. Sabrina groaned gratefully.

“His wife was so pretty,” she continued. “Beautiful wife right there yet he couldn’t take his eyes off me.”

I moved to my knees and opened her butt cheeks with both hands. Her slit, covered with a thin coat of fine blonde hair, glittered with wetness. I sank a thumb up her ass and started fucking her hard.

“Unngh!” she cried, squirming to get away from the double penetration. I repeatedly drove my penis balls deep and she stopped struggling, now welcoming my lusty assault. Her eyes were closed and a slight smile curled her lips and I wondered what she was thinking.

“Is that me fucking you?” I asked. “Or him?”

Her mouth opened like she’d been caught. I pushed my dick all the way in and held it there and she groaned with a mixture of pleasure and pain.

“Answer me,” I said.

Her head slowly curled backward. I put my mouth next to her ear.

“Tell the truth.”

“Hiiiiiiiiim,” she rasped.

She cringed, waiting for my anger, but it never came. I started moving inside her again, timing my prodding thumb opposite my penis.

“That’s right,” I rumbled. “That’s his big cock inside you, the cock you made hard. That’s him you feel in there.”

I felt her shudder beneath me. Our dirty talk had never crossed this line. I'd described threesomes but never suggested the cock fucking her belonged to someone else, especially someone with a face attached. Now it was my turn to wait for her reaction. Had I crossed a line?

Her pussy grew wetter by the second. I decided to push the envelope.

"You met him at a cheap motel room while I was out of town for work. Look around, Slut. Feel the scratchy comforter against your stomach. Hear the ice machine down the hall. You met him just to say you couldn't go through with it but now his hard cock is jabbing the depths of you and you love it. I feel how wet you are, Sabrina. Are you picturing his face right now? Do you love his big dick fucking you?"

"Yes!" she hissed, surprising me. Her ass started rising to meet me and I suddenly realized she was moving towards climax.

"Aaaaah, unnnngh, fuck!" she cried. "Fuck me!"

I worked my thumb and penis together and her body jerked and she yelled into the bed. I kept going, drawing out her long, hard orgasm, until she slowed and eventually stopped. She was breathing hard and sweating.

As reality reasserted, I felt her withdraw. I pulled out and rolled onto my back and she wordlessly curled under my arm with her head on my chest. She gazed down my stomach at my wet, pulsing penis. She often likes to masturbate me just to see the sperm shoot, but that's not where her head was this time.

I waited for her to share her feelings, but she didn't. I sensed she felt guilty for climaxing while fantasizing about someone else. She's joked about masturbating over George Clooney, but this was way different. I was here. She'd imagined my dick was someone else. I played with soft hair, giving her time, but she kept her thoughts to herself.

After a time, my hard dick proved irresistible and she slid down my chest and sucked me. I thought about shifting the dirty talk to Tyler but some instinct said leave all that alone for now.

I thought she'd blow me and we'd be done but after sucking and licking a long time she threw a leg over and slipped me inside her pussy again. She rode me slowly, grinding her clit and playing with my nipples, until leaning over to kiss me deeply. Her hair fell around my face, creating a tiny fort. We gazed into each other's eyes.

"I love you," she whispered.

“I love you.”

Her grinding took on more urgency and I knew she'd cum again soon. I teased her sensitive nipples and squeezed her taut butt. She kissed me again and then met my eyes once more.

“Tyler slipped a finger in,” she confessed. “I loved it.”

I got the sense she thought she was admitting something she thought damning, a dirty secret she'd carried for hours.

“Good,” I declared.

That seemed to free her. She laced her fingers through mine, using my hands to balance. Her head went way back and her back arched and I stared at the amazing body over me. Her abs churned and her toned arms flexed and she pressed more weight on me, pushing my dick deeper. Our pubic bones met. Whatever guilt she'd carried lifted and I heard the air leave her lungs.

“Oooooohhhh Gaaaaawd,” she moaned, cumming again.

I held back. I probably could have orgasmed if I'd tried but something was happening here. I don't live in her head so I wasn't sure exactly what, but something was happening. She came so hard I heard her neck pop.

When she came down she landed on my chest and lay there, breathing deep. She was so wet she trickled down my balls. Eventually she rolled off and cuddled me and then slipped her mouth over my erection again. This time I let her work her magic and soon blasted her cheeks full of hot jizz. She refrained from swallowing, letting me fill her mouth, until I was spent. My penis slipped free and she opened her mouth carefully, showing me the pool of milky sperm she held. Our eyes met. I stuck a fingertip in her open mouth and stirred my jizz. She closed her lips around my finger, maintaining eye contact, and lovingly swallowed my seed.

Fuck me she's sexy.

Chapter 4

The neon sign caught my eye as I waited for the light to turn green. An idea wormed into my brain. I hit my turn-signal and cranked my wheel and pulled into the adult store parking lot. I'd not been in one for years.

I muttered a hello to the stringy-haired creep behind the counter and passed through the turnstile. All these places are cut from the same cloth;

DVDs, a cinema, individual booths for jacking off, some, no doubt, with glory holes, and walls of toys. This store also carried fetish clothing. I aimed for the wall of toys.

My idea was to find a suction-bottom toy and surprise Sabrina in bed with it. I'd attach the thing to our headboard and then pile the pillows to hide it, slowly backing her towards penetration as she blew me. She said she loved fucking and she loved sucking, so let her feel both at the same time and she how she loves that.

Yes, I had an ulterior motive.

The selection was intimidating at first but soon became humorous. People are trippy. How many ways are there to fuck? They even had dog and horse cocks hanging on the wall. I searched for something that looked like me only bigger. As I left the freaky stuff behind I entered a section of ever more realistic and more expensive dildos, arriving at last before a glass case of molded and hand-painted masterpieces.

On the bottom shelf my eyes were drawn to a partial male body, absolutely lifelike, modeled on some hot guy from the knees to the bellybutton. The cock was erect, long, thick, and indistinguishable from the real thing, if you ignored the lack legs and head and shoulders. I stared at that dick for a long minute. The detail was astounding. I pictured myself dimming the lights, propping pillows around to hide him, and then slowly backing Sabrina towards our bed. I wanted my dick in her mouth when she felt my friend nudge her pussy. For an instant, she'd believe another man was somehow behind her, that I'd done something drastic without telling her, and I wanted to see the look in her eyes in that moment when she wrestled with her reaction.

My new friend was pricey but I suspected we'd get a lot of use from him. I also wanted Sabrina to grow accustomed to two cocks in bed at the same time. If she flat rejected the idea it was still money well-spent.

She was still at the dentist's office when I got home and I hid my new friend, who I'd named Tyler, under my side of the bed. I'd also purchased a small bottle of lube and I tucked that into my nightstand drawer, noting on the bottom a black rubber cock ring I bought years ago, unopened and unused. My idea at that time had been to put it on during sex so Sabrina could feel a bigger me, hoping the idea intrigued her, but I'd never had the guts to use it.

"Well, not this time," I said to the empty bedroom.

Chapter 5

“I fucked up, Brother,” Hayim said.

Across my backyard he watched Kathy and Sabrina float in the pool on their queen-sized inflatable mattress. They may have been asleep.

Sabrina wore a light blue one piece which hugged her body like paint and Kathy wore her usual green bikini. She’s a bit heavy but not fat, with round hips and big tits. Her long brown hair was piled on top of her head.

“What’d you do this time?” I asked. Seriously. With Hayim, it could be anything. I’ve pulled his ass out of many fires over the years.

He powered through the rest of his beer. “I mentioned to Kathy I had a friend that wanted to see his wife fucked by another guy. Don’t worry, I left your name out of it. I wanted to get Kathy’s feedback on the idea. I thought I might better understand where you’re coming from if I had a woman’s perspective, like maybe hear what Sabrina might be thinking and feeling. I don’t remember how I worded it but I said something wrong. Kathy asked how long I’ve been wondering such things and then said the idea was awesome.”

I turned to look at his wife drifting in the sun.

Hayim continued: “She said it was a great way for a couple to spice things up, provided the relationship was strong and honest.”

“Uh oh.”

“That’s not the bad part,” he said, eyes growing big. “I then said ‘Strong like ours?’ and she gave me a naughty look and told me she was willing to try, and there was a guy at her office, Teddy, she’d love to fuck. She said he’s single and dated some of the girls and they’ve gossiped about what a stud he is. Before I could protest, she heaped all this praise on me for my courage.” He shook his head sadly. “Dude,” he finished. “I was only fishing for information.”

“Holy shit.”

“Yeah. I panicked. I had no idea what to say. I just smiled like an idiot. How do I always get myself into these situations?”

I shook my head, commiserating. “I have no idea, brother, but if she mentions what you said to Sabrina, we’re busted.”

“No worries. I made her swear to say nothing to anyone, including Sabrina. I’m hoping if I never talk about it again, it will just go away.”

This was bad. One word from Kathy and Sabrina would know I'd been talking to others about what I wanted her to do. I desperately hoped Kathy kept her mouth shut. Sabrina and I had come so far. Our sex was better than ever and our dirty talk was out of this world. We'd not enjoyed another shopping day like that one weeks ago, but she now flirts with other men while out with me. I was always out of the picture but she knew I was watching when she'd do it. We'd have wild sex when we got home. Sabrina knew I wanted her to show off, which matched her desires to be seen, and rarely wore bras anymore. With her small firm tits she didn't need them. On occasion, she skipped panties too. After that day at the mall, she felt free to behave as she wished.

One word from Kathy put all that at risk.

"You need to remind Kathy to keep your secret," I said. "Say you're ashamed. Tell her you'd hate for any of your friends to find out."

"I did but I will again."

I needed to distract myself so I started the barbecue. I love Hayim like a brother but he often possesses shitty judgement. He sat sulking, sipping his beer and watching the women, until a thought brought him over to me.

"I need to find out about this guy at her work. Who the fuck is Teddy and how big a threat is he?"

I flipped a burger. "I think you're missing the point, my friend. Since Kathy is telling you about him, he's no threat at all. That's why she gave you his name and made you aware of her feelings regarding him. She thought you were telling her your relationship is so strong you could share her. If she didn't agree she would have argued with you, saying the idea was stupid or too risky."

"I get what you're saying but I'm still worried."

"All right," I said. "I have access to tons of information at work. I'll check him out and maybe we can do some spying while the girls go shopping."

"You can find out things?"

"You'd be shocked what credit agencies can discover."

"James, that would be awesome."

"You can always tell Kathy you've changed your mind and are now against the idea."

He looked at me like I was crazy. “You should have seen the way she looked at me. She said she admired my courage and maturity. She said it showed her how much trust I have in her, how much I must truly love her. No way I’m giving all that up. If I backpedaled now I’d never hear the end of it. You know how much she loves to tease me. I’d be hearing chicken sounds out of her for years.”

The girls came out of the pool about an hour later and if Kathy had mentioned something to my wife, Sabrina didn’t show it. We ate and drank and laughed and talked. Kathy asked again, like she always does, when we were going to have kids and Sabrina said, again, possibly never.

“Children aren’t for everyone,” Sabrina said.

Kathy and Hayim had been trying for a long time without success. About four months ago they got themselves checked at the doctor and discovered Hayim produced a small quantity of sperm. His sperm were healthy, there was just not very many of them. They’ve been reading up on adoption and Hayim mentioned he and Kathy weren’t having sex as much lately. Kathy wants Sabrina to have kids so she can enjoy them vicariously.

“Besides,” Sabrina added. “I’m too vain and selfish for kids. I love my freedom and I’ve worked too many hours on this body to ruin everything with a couple of brats.”

Kathy dropped the baby topic and we all moved on to ice hockey. Our town had a brand-new team and it looked like we were headed for the Stanley Cup. Each of us had been researching the game so we understood what was happening and the conversation zipped around the table rapidly.

Nothing else noteworthy happened and eventually our friends said goodnight. Kathy and Hayim had been gone for hours when Sabrina entered the bathroom as I was brushing my teeth. She wiggled between me and the counter and pulled the elastic waistband of my pajama bottoms down to suck my soft penis into her warm wet mouth. I gasped at the rush of pleasure and steadied myself on the counter.

She often attacks me like this simply because she loves a cock in her mouth. Lucky me, right? I closed my eyes and let her work her magic. Once I was rock hard and close, she told me to finish on her tits. I jacked off and she watched, eyes wild, as I sprayed semen all over.

We both showered again.

I meant to ask her what brought that on but once we were in bed, I forgot.

Chapter 6

“Bad news, Hayim,” I said into the phone. “He’s ten years younger, nine inches taller, a hundred pounds heavier, and holds three mixed-martial arts titles. The titles are local, so he’s not like world champion or anything, but the man’s a stud.”

“Well, fuck. That sucks.”

“I didn’t finish. I have his driver’s license on the screen in front of me. He’s good looking, and did I mention he’s black?”

Silence. Hayim is no racist, but picturing a giant black man fucking your loving wife would knock anyone around for a minute.

“Well...fuck,” he said again.

“Just back out, Brother. Tell her you’ve changed your mind.”

“No can do. She’s mentioned it several times, always fawning about how amazing I am. She’s not saying she plans on fucking him, just going out for a drink to get to know him. I’ve been thinking I should see the situation more like you’d see it. Kathy is sexy, right? I bet she looks incredible fucking. Maybe I can come around to your way of seeing things.”

“It’s worth a shot. I’m happy to discuss it with you. And if she says she just wants to meet the guy for drinks, then maybe that’s all it is. Like she wants to feel single for one night after being married so many years. Our wives are getting older, you know. It’s different for women.”

He was silent for almost a minute.

“Are you picturing her fucking a giant black guy right now?” I asked.

“Yeah.”

“How you feeling, my friend?” I felt bad for the guy.

“Not as bad as I thought,” he said, surprising me. “You’re probably right about her not taking things too far. Life at the office could get uncomfortable awfully fast, especially if other women there, single women, have their sights set on the guy. But even so, I love her so much, if she wanted a onetime experience, and could convince me that’s all it was, I might let her. We’ve been married forever. Since our initial conversation she’s interested in sex again. If this idea has reignited her libido that’s great for me, I’m just wondering how far she’d go with him.”

“You are the tightest couple I know. You guys are like best friends, even more than me and Sabrina. I love how much you two love each other.”

“It’d just be sex, right? She’s not looking for more because she’s wildly happy here, with me.”

“I believe it,” I said, trying to sound encouraging.

“All right,” he said after another long pause. “I’ve got to see this guy. I know where he works but Kathy works there and I don’t want her to see me. Does your screen tell you anything else about him?”

“Like which gyms he belongs to? Or his home address? Or the church where he donates time and money? Or his credit card statements where I can see every restaurant he loves and how often he eats there, including a sushi place where he has lunch *every* day?”

“Yeah, like that. Where and when do we start?”

“Tonight. Sabrina and Kathy have Pilates until eight. I’ll start a file on this guy. I’ll know everything about him in less than two days.”

“Cool. I feel a lot better talking all this out with you, James. You’re a good friend even if this is all your fault anyway.”

I laughed. “Pardon?”

“You put the Goddamn idea in my head. If it wasn’t for you I never would have tried to find out more and fumbled the ball with Kathy.”

I laughed again. “Okay, blame me if you want, I’m cool with that. Now let me try to make things better.”

It was his turn to laugh. “Cool. I’ll be at your place tonight at six.”

We joked around another few minutes and then disconnected. I started running a deep search on our man Teddy and returned to my work duties. By the end of the day I’d discovered more and doubted Hayim would like any of it.

Sabrina called on my drive home and said she was headed to the gym so we exchanged pleasantries and I told her to drive safe. The house was empty when I got home. Hayim arrived a few minutes later and I spread my sheets on the dining table for him. I opened my laptop and went to Teddy’s Facebook page.

Theodore Jackson had over four-thousand friends, about three-quarters of them female. The guy can sing and years ago performed with a handful of other hot people in a risqué vampire show off the Strip called Fangs. He posted pictures and in several I noticed fierce tribal tattoos

adorned his torso. I clicked on the first as Hayim came around to look over my shoulder.

“That’s great,” he whined. “That’s terrific. Fan-fucking-tastic. The dude’s ripped *and* stuffs that pouch like a suitcase.”

It was true. All the performers wore vampire themed capes and fangs and makeup and costumes. Teddy wore a costume which consisted of a dramatic black and red cape and a red silk pouch held by a thin string. The outline of his thick cock was obvious even with the shitty lighting. In fact, as I clicked through the photos, I noticed all the guys in the act looked hung and all the girls were smoking hot babes. Fucking Vegas. I was sure the interview process included standing there fully nude and allowing the producer to thoroughly check you out.

Teddy’s most recent pictures were of travel, dining with friends, and kicking guy’s asses in the ring. He was intimidating *and* handsome. Hayim buried his head in his hands.

“At least Kathy’s got good taste,” he muttered.

We studied the page about twenty minutes, learning all we could, and then Hayim noticed Teddy had checked-in at a bar on the Strip.

“Let’s go see him in person,” he suggested. “Pictures are good but up close and personal is best.”

“Why not?” I said. “He has no idea who either of us are.”

I sent Sabrina a text saying I was going to meet Hayim for billiards, as we sometimes do, and then backed the Jeep out of the garage. Hayim climbed in and we were on our way.

Draped in babes. There’s no better way to describe it. Teddy was there with two other black guys and they had six women with them; an Asian, a brunette, and four blondes. Every girl was pretty.

“Fuck this fucking guy,” Hayim whined. “How is this fair? I’m five-eight with a four-and-a-half-inch dick. Why’d this brother get so much?”

I tried not to laugh. It’s true about Hayim’s penis. I’ve seen it several times at the gym or changing clothes. Normally he doesn’t care and for the few years before he got married he had good luck with women that didn’t care much either.

Teddy was a giant. He filled his own space but seemed to extend into the space around him too. Larger than life, I guess you’d say. He laughed easily, flashing a perfect set of whites and treated everyone around

him with generosity and empathy. Everyone got a hug and a pat on the back, everyone got joyful laughter and genuine concern.

After twenty minutes, even I liked the guy. I understood Kathy's attraction to him. I got a better sense of why she may just want to know him better, and not necessarily fuck him. Teddy was a life of the party kind of man but without being obnoxious or overbearing. He was charming.

Do I tell Hayim? I studied my friend's tortured face as he spied on the man his wife craved. I kept my mouth shut.

A while later I saw Teddy set his three-quarters beer on the table and stand. He spoke to the group and turned to walk away. An idea popped into my head so I urged Hayim towards the bathroom.

"I don't need to go," he complained.

"No, but Teddy does. It's a chance for reconnaissance."

He still didn't understand and just stared at me like an idiot.

"Let's go watch him piss," I stated.

The lightbulb came on.

"Ooooh," Hayim said.

I gave him a quick nod and we cut across the bar. Luck was with us and Teddy took the middle of three urinals. I went left, Hayim right. Just three guys taking a leak. Was it weird? Yeah, a little. Guys check each other out all the time but rarely so deliberately. We played it perfectly cool and he never suspected a thing. He stared down at the bulky, black, uncircumcised cock in his hand and so did we.

After he left we washed up and returned to our spot at the bar.

"Well, fuck," Hayim said yet again.

"Yeah," I agreed. "That was impressive."

I'm a little bigger than most and Teddy totally intimidated me. I couldn't imagine what Hayim was going through. My friend had a lot to think about.

"Let's go," he said after two minutes of smashing peanuts. "I've seen enough."

We beat the girls home by ten minutes. They were hot and sweaty with dark spots all over their gym clothes, so Sabrina said she'd shower in the master and Kathy was welcome to use the guest. Hayim went with his wife, I went with mine.

Sabrina asked about our night and I hated lying but felt loyalty to my friend was greater than stupid made-up details about shooting pool.

I watched Sabrina soap and thanked God she was my wife. Stunning. She caught me staring and called me closer, freeing my dick and blowing me while under the spray. I came surprisingly fast. She smacked her lips.

“I love penis,” she teased.

I laughed. “I swear it seems like you prefer your mouth stuffed with dick more than your pussy.”

“Some days I do.”

We kissed and I told her I’d check on our guests.

I heard a strangled moan as I approached the guest bathroom and through the seam along the door spied Kathy blowing Hayim, trying to remain quiet as he shot his load in her mouth. I stopped, watched for a minute, and then backed silently away. Sabrina was toweling off when I got back and she asked how they were.

“In good spirits,” I said.

“What’d they say? Are they staying for a while or heading home?”

“I didn’t actually speak with them.”

“Why not?”

“Because Kathy was blowing Hayim.”

Sabrina grinned and covered her mouth with both hands.

I don’t know why it never occurred to me to ask why both girls were horny enough to blow their men as soon as they got home from Pilates, but I didn’t. Perhaps I was still in a euphoric fog.

Chapter 7

A horny wife is great. You should get one.

Sabrina was in the shower after a run when I pulled half-torso Tyler from under the bed and arranged the pillows to hide him. I asked if I could join her to freshen up and she laughed.

“I know what that means,” she said.

I stripped, played with my dick a little to plump it, and stepped into the shower with her. The woman is drawn to dick like moths to porch lights. She gathered my member in her soapy hands and played with it.

“You love those things,” I said.

“I do. They’re fascinating. They grow, they shrink, they get hard, they spit. What’s not to love?”

I teased her nipple and we were off; hot kisses and roaming hands under the hot water. When I felt the moment was right, I opened the shower door and backed her towards our bed.

“We’ll get water all over the floor,” she warned.

“I don’t care.”

She loved my passion and let me guide her. A foot from the bed I tangled my fingers in her wet blonde hair and pulled her mouth to my dick. She slurped my shaft onto her welcoming tongue. When she felt the mattress hit the back of her legs, she backed onto the bed, keeping me in her mouth.

Closer, closer, closer.

I tugged a pillow out of the way, exposing Tyler’s fleshy erection. She had no idea what was coming. I moved right and she followed and now I had her slit perfectly aligned. I nudged her backward toward that big, perfect, pink and veiny spear. I watched her face intently.

Her eyes flew open and she squealed, muffled by my dick in her mouth. I moved forward, moving her backward, and she felt a cock push deep in her vagina. She tried frantically to turn and see what was happening but I held her like a vise, always moving backward. Tyler, shiny with lube and thick as my wrist, burrowed deeper. She struggled but I had her pinned and the growing sensations radiating from her pussy proved ever more distracting. She couldn’t fight me and the rising pleasure Tyler gave.

“Tyler says hello,” I murmured.

She groaned from far down in her chest. I pulled her forward an inch and then advanced, driving that big rigid cock deep. She was assaulted from both ends and loving it. When her hips began fucking him, I relaxed my grip some. Moments later she’d taken over; sucking my dick like a ravenous whore and fucking herself silly on his unyielding cock. I could have watched her toned body work us both for hours. She was stuffed with dick and exceedingly aroused. My work was done. My wife worked hard to satisfy us both. No doubt she realized there was no second man but the thought had been planted and we’d both witnessed her reaction.

Let that simmer for a while, I thought.

Chapter 8

Saturday night I was home reading when my phone rang. Sabrina and Kathy were out watching the latest female empowerment film, *Ocean's Eight*, and I had not been invited. I'd left a message with Hayim about hanging out but never heard back so boom, the reading chair it is.

The screen showed Hayim called.

"Speak of the devil," I joked.

"Why?" he asked. "What have you heard?"

"What?"

"What?"

I made a face. "I was just thinking of you. That's why I said that."

"Oh."

"Why did you react like that?"

He waited before answering. "I promised I wouldn't say, but fuck that. I'm going crazy. I gotta talk to you."

"Go on."

"Kathy is out with Teddy and Sabrina is with her."

"Sabrina is at the movies with Kathy."

"No, that's the lie they agreed on. We're all lying to each other these days, trying to keep secrets. When Kathy and I got home the night me and you spied on Teddy, she was crazy horny. She blew me at your house but that wasn't enough. I finally got out of her that at Pilates she'd spoken to Sabrina about my wishes, and Sabrina admitted you felt the same way. That was all the vindication Kathy needed. She thanked me *again* and praised my courage. She was so excited I couldn't burst her bubble. I told her go ahead. At work the next day she made a date with Teddy and that's where she is right now. Sabrina is along for support. Sabrina knows everything and has all along."

"Holy shit."

"Yeah, I'm going out of my mind over here. Can I come over?"

I told him he could and we hung up. I dropped my phone on the chair and began pacing. Sabrina was out with Kathy and Teddy? That ponderous black slab of beef popped into my head. Was there any chance Sabrina might do something with Ted? I shook my head. No, no way. Sabrina was there for Kathy and would cross no lines. What a fucking mess. I was the one with the fantasy but I'd drawn everyone in and gotten them all involved. Tangled webs indeed.

Hayim soon arrived, clearly agitated, and I poured him straight whiskey.

“Relax, brother,” I said. “Nothing will happen. Sabrina will act like a chaperone, putting the brakes on their whole night. I’m sure that’s why Kathy invited her.”

He gulped his whiskey and handed me the empty tumbler for another. I poured. “Kathy felt so guilty she had to tell me. Sabrina doesn’t know I know. I promised Kathy I wouldn’t tell you but I had to talk to someone.” He gulped again. “She wore a little black dress and really high heels. She curled her hair and put on makeup for him. She looked gorgeous.”

He was staring at my floor, remembering.

“Where did they meet him,” I asked. “Did she share that?”

“Yes, the Starlight bar at Planet Hollywood, but if you’re thinking let’s go spy again, we can’t. I promised to wait at home. If they saw us all our lies would crumble.”

“So would all their lies.”

“Yeah, but she’d be the one humiliated in front of a colleague.”

I refilled his drink and moved to the living room.

“So we sit and wait,” I said.

He nodded while drinking. “Yeah, she’ll text when she’s about to leave and I’ll race home. I was going crazy by myself in that house.”

I pictured the three of them back in a corner, two white women and a giant black man. I knew heads were turning. Sabrina wore a short skirt and tight top and I’d thought nothing of it. I knew Teddy was running his eyes all over her too.

Hayim picked my brain for a handle on this fantasy. I shared my thoughts openly and honestly and after a while, he started to come around. We talked about jealousies and insecurities and he surprised me by admitting sometimes during sex Kathy makes comments about his small penis and he likes it.

“We watched a porn the other night and she hit pause to get a better look at the guy on the screen. Had to be ten inches. She said his cock was pretty and the size made her horny. I got a blowjob out of it but honestly, I was more turned on by how sexual she was acting.”

“That’s how I feel about Sabrina. She’ll do something slutty and I love it. She flirted with some guy during dinner and I almost came. If she

acts slutty with me, it's just Sabrina acting slutty with her husband. When she acted slutty with him, it was Sabrina *truly* acting slutty, which is me trying to say it wasn't acting at all. Sabrina *was* slutty. They couldn't take their eyes off each other and I got so worked up. We fucked hard when we got home."

He nodded, understanding. "Kathy's been a lot more sexual too lately. I know this whole idea has her revved up. It's risky and exciting and dangerous."

He finished that drink too and I poured again.

"What do you think they're doing right now?" he asked.

I pondered before answering. "I see them tucked in a shadowy corner. I see Kathy's hand resting on Teddy's thigh, maybe even in his lap, maybe even squeezing his dick through his pants."

"No shit?"

"I'm just speculating but yeah. Kathy's not a sit around and wait kind of girl. Neither is Sabrina. Rubbing his dick is exciting but easy to hide. Harmless fun, really."

I saw Hayim trying to chew on that.

"I bet she's wild horny when she gets home," I added.

That did the trick. His face softened and his eyes lit up. Now there was something in it for him. He pictured Kathy coming through their front door, already wet and ready to go. He didn't care that another man had gotten her started. She'd come to him to finish it.

After that, we could discuss other topics. About the time the movie should have ended I got a text from Sabrina saying she and Kathy were going to grab a glass of wine and a small dessert. An hour after that, she said she was on her way home. Hayim's phone buzzed too as Kathy sent him the same message. We stood and shook hands and he told me he'd keep me posted. I walked him to the front door and watched him drive away.

I returned to my book but my mind raced. I had to play it perfectly cool when Sabrina got home.

At least, that's what I thought.

She came in and dropped her stuff and I asked about the movie and her night. She was smooth as glass and a much better liar than I knew. She must have read up on the movie because she answered every question I had. I said I'd spent the evening alone, reading, sipping a glass of whiskey. She

hinted she was horny and I needed to take her to bed. She didn't shower or even brush her teeth. My girl was on fire.

She swooped on my dick as soon as my pajamas dropped. We undressed awkwardly, keeping my penis in her mouth almost every second, until I propped our pillows behind her head and started seriously fucking her mouth. She groaned deep and meaningfully. This was exactly what she wanted. I held her head and aggressively sawed my dick. After a few minutes, she spat me out.

"In me," she gasped. "Get it in me. I need dick in my cunt."

I quickly shuffled down the bed and plunged home. The groan which escaped her sent shivers up my back.

"Fuuuuuck meeeee," she whined.

I pushed her legs over her body and started pounding her little hole. The harder I went, the more she loved it. I rolled on my back, pulling her with me, and gazed up as she mauled her own small tits and wildly worked her hips on mine. Soon she was sweating and chewing her lips.

Our eyes met and I saw she was dying on the inside, eaten alive by the burning secret she held trapped behind clamped teeth. I held her gaze and tortured her stiff nipples, running my hands all over her fit, sweaty body. She fought so hard. Her expression was a mix of sensual arousal and tortured agony. She *hated* hiding something so important from me.

"Kathy fucked someone!" she suddenly blurted.

I shoved my dick balls-deep from underneath, forcing the air from her lung. I grabbed fistfuls of hair and pulled her slippery body down, pinning her to my chest, fucking far up into her.

"Kathy cheated on Hayim?" I growled.

"Yes! I promised Kathy I'd keep it secret but I'm dying. Promise you won't tell Hayim I told you."

My ass left the bed on every stroke.

"You watched? You watched Kathy fuck another man? I thought you went to the movies. Were you right there beside her?"

"Yes." It was practically a sob.

I wrapped my arms around her waist and flipped her on her back. I buried every inch again and held myself there, barely moving my hips in and out.

"Tell me," I said.

She was happy to be rid of the burden. They met Teddy at *Starlight* and since Kathy was incredibly nervous, Sabrina suggested they sit and talk and drink. That lasted about an hour.

“Then Kathy took one last drink but slipped her hand into his lap instead of her own. He was so smooth, just turning his hips a little and smiling sweetly, like he knew it was coming all along. Kathy tried to be smooth too but then her eyes got big and she asked him if he stuffed his underwear. He laughed. It took me a second to figure out what she meant.”

“Then what happened?”

“She said she didn’t believe him and he suggested he get a room to show her. She called his bluff. He paid our bill and said I could come along too.”

A lovely swell of heat rose along my spine.

“Did you?” I tried so hard to sound casual.

“Yes! A while back Kathy told me Hayim asked if she wanted other men. She knew he was just speculating but she turned it around to prank him, the way she always does, and pretended she was answering seriously, as if he were truly asking. She played it up, ready to admit her joke, and then was shocked when he didn’t back down, answering her seriously and pretty much saying okay. She talked to me about it and I told her you feel the same way and that got her thinking. I hope that was okay. Hayim’s like you, Honey. Did you know that about your friend?”

“Um, no, I didn’t”

“I bet a lot more guys think that way than women realize.”

“So you went to the room with Kathy?”

“He went first and we sat there talking a million miles an hour. She said she just wanted to see it and go home with a hot story for Hayim. Teddy texted the room number and we both sat there staring at her screen. There was a hot black guy waiting upstairs to show us his cock! We kind of savored that moment. How often does such a thing happen to two old married ladies? Eventually we finished our drinks and took the elevator and she made me promise to stay by her side. We were so nervous!”

“But in a good way.”

“Definitely. He’d already changed into a hotel bathrobe and waited for me and Kathy to take the couch in front of him. It was all so theatrical. He was acting dramatic but we all knew we all wanted this to happen. We laughed. I think you’d like this guy a lot.”

“So you’re on the couch...”

“Yeah, sorry. He opened his robe and let it drop behind him. Fuck, Baby, his cock was huge. He has a foreskin, which was kind of intriguing, but the shaft was velvety all the way up, with hardly any veins. He shaved everywhere. His cock is much darker than the rest of him. He’s got tattoos and massive muscles and he’s about nine feet tall. He told Kathy she could touch his body and I saw her wrestling with her conscience.”

I caught her strained tone.

“Did you explore his body too?”

Her face froze.

I started my hips up again.

“Did you touch his cock, Baby?”

She swallowed hard. “Yes.” Her tiny voice was a squeak.

“With your hands? Or more than just your hands?”

“More.”

Blood surged and I stiffened into iron.

“Did you put him in your mouth?”

I know this woman. I know what she loves.

“God, yes, James. I’m sorry. Kathy knelt and sucked the head and my legs melted. I have no memory of moving but there I was on my knees with her. She sucked and then passed the head over to me. We took turns passing him back and forth as he grew stiff. I’m sorry, I’m hoping this fits into your fantasy somehow and I didn’t just ruin our marriage, but Christ Almighty, Baby, I’ve never been so turned on.”

She was now so wet she sloshed.

“You know I’m not upset. Go on.”

“That’s all I did. Kathy and I got him hard and then he started undressing her. His cock and body are amazing. I’ve never been in a room with a naked black man and I gawked constantly like a school girl. I helped him undress Kathy and then turned her to face him. He knelt and started eating her pussy and she moaned and I wanted to die. Fuck! It was all so hot. She leaned against me and I felt her trembling. He stood, bringing his erection up between her legs, and she didn’t hesitate; as soon as his cock touched her cunt, she parted her legs, reached down, and guided him in. You should have heard the moan she made.”

I lifted my body and started fucking Sabrina with long strokes, pondering my next question. I saw the scene perfectly. I was disappointed

Sabrina didn't get more involved but totally understood.

She went on: "He lifted her and she jumped a little and wrapped her legs around his waist. I bent over and actually *saw* his black cock entering her body. It was raw and graphic and so fucking hot. He's so big. His dick smothered Kathy's pussy. He laid her on her back and began to kiss and fuck her. I went to the minibar and came back with five small bottles. I knelt by the bed to watch and drink."

I considered telling her everything I knew and the truth from my side but held back. Sabrina pulled my face to hers and kissed me softly. She gazed into my eyes, wrestling with some new dilemma. Fuck she's pretty. She kissed me again and I saw her eyes harden. Whatever her internal struggle was, she'd made a choice.

"I'm ready to do it," she whispered.

I froze. My balls clenched. I refused to believe.

Sabrina searched my eyes. "After watching Kathy fuck a man who was not her husband, I realized how much I wanted that too. I get weak just thinking about it. if you're still interested, I'm ready."

"Fuck yes I'm interested. Wow."

"I'm not saying Teddy. I'm not saying how or when or who. All I'm saying is now that I saw Kathy do it, I want it too."

My dick was pure diamond. I started fucking my wife faster.

"You're so hard, Baby. Are you thinking about another cock in me?"

I grunted, slamming my dick home.

"It's hot just to hear myself say that," she said. She pulled my ear close again. "I'm going to fuck someone, Honey, and not because you want me to. I'm going to fuck a handsome man because I want to."

I almost came. I had to slow way down and then pull out, dropping my mouth to her pussy. She was so excited from the hotel room with Kathy I had her gushing and cumming quickly. I rolled her over and pushed my dick in again and fucked her fast, turning loose a flood of cum with a shout.

Chapter 9

I fucked her again two hours later. She woke me before dawn with a blowjob. The rest of our weekend we couldn't keep our hands off each other.

I checked in with Hayim and she with Kathy but neither of them responded. I got worried.

“What if Hayim hated what she did?” Sabrina asked. “What if he thought it sounded hot but deeply regretted her decision?”

I knew what she was really asking.

“Then Hayim must be a man and accept his choices. If he told her to go ahead and she did, that’s on him, not her. Maybe they’re just sleeping in.”

Around noon I got a text from Hayim saying they were fine and he’d give me the details later. Sabrina got a phone call from Kathy and wandered into the kitchen so I couldn’t hear. When she came back she announced they were going shopping.

“Bullshit,” I said. “You are meeting her so you can squeeze every detail from her night with Hayim. It’s all right. I’m sure she’s dying to talk and this lets me talk to Hayim.”

She chuckled and kissed me on the cheek. I sent Hayim a text asking if he wanted to meet for a beer and he said yes. Sabrina and I went separate ways.

There’s a dive bar called *Castaways* about halfway between our houses and Hayim and I met there. He waited until the waiter shuffled off and then spilled his guts.

“She fucked Teddy,” he said. “No condom. Nothing.”

I searched his voice for a broken heart or betrayal fueled anger but heard only tension, which I expected. I filled him in on Sabrina’s confession and my promise to keep it secret and he said he knew she’d tell me.

“Just tell her I figured it out,” he said. “I’m tired of all these secrets.”

“Done. How are you feeling?”

He stared at the mug of beer in his hand.

“Well, that’s what’s weird,” he laughed. “I feel pretty fucking great. We had sex all night. She told me everything, holding back nothing, and I grew hornier by the second. Knowing what she’d done sent my sex drive into orbit. I fucked her again and again. She was insatiable and so was I.”

I toasted my mug against his with a tiny clink.

“Then we both scored,” I said. “Because thanks to her watching your wife fuck, my wife now says she wants to do it too.”

He grinned. “You got what you wanted,” he said.

“Yes. Well, almost. It hasn’t actually happened yet. But at least I got her to try.”

“You gonna call hairy Craigslist guy?”

“I don’t know. Sabrina and I haven’t talked. There’s so many directions this can spin. Maybe I just let her pick a man on her own and tell me after? Maybe we go to a bar and act like strangers? I have no idea. Every thought is pure cocaine. I can’t concentrate on making plans. I get too excited every time I try.”

He took a sip and gave me a hard look. “I gotta warn you, James, I know you think you’re ready but trust me, you’re not ready. Hearing those words come out of her mouth will destroy the world you know. I’m sure you jack off all the time thinking about the fantasy but reality will break you in half.”

His sudden seriousness caught me by surprise. He was truly concerned for my wellbeing. I was touched.

“Kathy gave me details while I fucked her,” he said. “Can you imagine hearing your wife talk with passion about another man? She said he fucked her like a bull, moving her around the bed like she was weightless. She said she’d never felt such a masculine aura, whatever the fuck that means. She said his huge cock melted her mind, forever changing her views of what sex was and could be.”

My throat was dry. “So he made her cum?”

He scoffed. “Many times. She raved about him. She babbled about his big black cock. Are you picturing Sabrina? Because I promise you, and this is straight from Kathy’s mouth, reality will bury fantasy.”

He had me nervous. Was he right? I took a drink of beer and he noticed my trembling hand.

“Did Sabrina just watch?” I asked. “Or did she get involved?”

“Kathy says she just watched. She had a hand up her skirt masturbating, which totally turned Kathy on, but yeah, no touching.”

I was ready to drive home and fuck Sabrina for hours.

“What happens now?” I asked.

“I’m leaving it up to Kathy. I want everything she does to be her idea. I hate that she’d do something for me she didn’t want to do. On the other hand, knowing she’s doing something because she truly wants to, I get an incredible rush. I guess I should thank you. We arrived in this place because of you.”

I thought about saying you're welcome but I couldn't take credit.

We spent a minute in quiet contemplation and then he said: "It will destroy everything you think you know and replace it with something infinitely more exciting. I keep asking myself is it real? Did that really happen? Then I get kicked in the gut by a bronco because it *did*. When we're finished here I'll meet Kathy at home and fuck her *again*."

His smoldering enthusiasm was infectious. My dick and balls were hot for Sabrina and like Hayim, I'd fuck my wife the moment I got home. I wondered what the girls were discussing and wished I had some way to listen.

"What do you think the ladies are saying right now?"

He chuckled. "Kathy is sharing every orgasmic second. She said Sabrina asked a million questions on the drive home but she was too stunned to answer clearly. Today she was going to share all the details. You've got a tiger by her tail, James. Sabrina is more sexual than any of us and you just gave her a green light. She's gonna run full speed."

I hoped he was right. I was ready. After years of wanting, I was ready.

Chapter 10

We said nothing. I came in through the garage ten minutes after her. We saw each other across the living room and moved with speed. We kissed, clothes flew, and we fucked right there on the carpet. Our desire consumed us like a forest fire. We explored each other's body like we were touching for the first time. Every inch I caressed I imagined another man handling for the first time and marveling at his great fortune. My penis was not my own. I was an anonymous man, thrilled to have Sabrina beneath me, learning her curves, learning how she feels wrapped snugly around my dick.

I moved us to the bedroom and told her to close her eyes. I dug that old cock ring from the nightstand drawer and stretched it around my rampant penis, then smoothed it into place and instantly began to swell bigger. I played with my dick while I kissed her and ran my hands all over her until my organ was far bigger than usual.

With her eyes still closed, I opened her legs and pushed the head into her sweltering cunt. She groaned loudly at the unfamiliar and

considerably larger intrusion. I fed another inch and gasped, unprepared for the intense stimulation caused by my extra size combined with her natural tightness. Her groan shook her ribs.

“Fuuuuuuuuck,” she exhaled. “What the Hell?”

“Told you,” I gasped.

She opened wide and pulled her legs to her chest, naturally constricting her pussy around my meat. We groaned at the same time. I walked my knees closer and began driving deep with each thrust.

“Keep your eyes closed,” I said. “Feel that new cock.”

She did, rolling her lips into her mouth and biting. I got a huge rush knowing at moment she imagined another man fucking her. My mind raced with possibilities, wondering how I could make my fantasy happen. Although I didn’t know it at the time, the choice was totally out of my hands and already made.

At that moment, across town and fourteen floors up, Theodore Jackson, known to us as Teddy, described my wife to his best friend, Levi Harris. Levi and Teddy knew each other from *Fangs* and had a long history with women. Teddy had already shared his exploits with Kathy and wanted Levi there next time to handle Sabrina. Levi appreciated the offer and accepted and the two men shook hands.

As Teddy and Levi agreed on how to divvy-up our wives, Sabrina slid both hands to my ass and pulled me deep. With eyes still closed in sexual bliss, she began raising her hips in time to meet mine, rapidly moving towards climax. The shock of our collisions sent chills through us both. She was imagining another man fucking her and I couldn’t be happier. I drove my dick deep, desperate to please her, desperate to prove bigger was better. Moments later, she wailed with pleasure and came on my enlarged penis. It was all too hot.

“Whoever he is,” I growled. “He’s gonna fuck you so hard, Baby. You’re so hot. He’s gonna love fucking you.”

Her cries rose as she kept cumming.

“He’ll fuck you again and again,” I grunted. “He’ll need the whole night. I’ll hand you over to him knowing I won’t see you again until morning.”

Her eyes were squeezed shut, her mouth open. Her firm, toned body glimmered with sweat, muscles clenching beneath the skin as her orgasm continued. I couldn’t hold back anymore. I rammed my dick deep and

sprayed hot cum. Her climax lasted almost until the end of mine. I ripped my dick out, tore off the cock ring, and collapsed on the bed next to her, mind blown. We lay there in silence a long time, breathing hard, slowly cooling down and collecting our wits. Enough time passed I began to wonder if she'd fallen asleep.

"Teddy said he has a friend he wants me to meet," she said.

A jolt of adrenaline rocked my heart.

"When?"

"Next weekend. He told me after he fucked Kathy."

I realized I'd held my breath and forced myself to relax.

"What do you know about the man?"

"His name is Levi; they've known each other for years. They used to perform in a show on the Strip while Levi worked his way through college. He's a cosmetic surgeon now. Teddy said I'd love him."

My body still tingled from her announcement. I drifted through all the photos online and wondered which guy was Levi. I made a mental note to check for tags next time I logged on.

"Are you going to do it?" I asked.

"Yes," she murmured.

My dick began to rise. That's all it took. It lifted off my leg and curled up my abdomen. Sabrina noticed. Never one to waste a perfectly good dick, she partially rolled over and slipped half of me into her mouth. Her tongue played with my inches as I stiffened.

Sabrina often sucks me like she hasn't a care in the world. No timetable, no goal of making me cum. She just loves a penis in her mouth. She loves sucking on it, and not just because it's mine; she's admitted she's always been this way. She says she sucked her first dick in high school and loved it.

I watched her now, leisurely working me like a baby with a pacifier. I grew harder by the second. My gut told me Levi would be looking down at her doing something similar just seven days from now. She may plan on just meeting the guy but I suspected more would happen. At least, I hoped so. She felt the surge of blood and grunted approval. As I watched my wife play with me, an idea formed.

Once we finished here, I'd withhold sex all week, professing to be too busy. Blaming work would be easy. I wanted her as horny as possible when she met Levi because I wanted him to fuck her. I wished there was

some way for me to watch but that was asking too much on the first date. Let them get comfortable and then I'd have Sabrina either invite him to our bedroom. That thought sent another surge of blood.

After a while Sabrina rolled on her stomach, stuffed a pillow under her hips, and aimed her diamond and pearl right at me. I had no choice. I was mindless in the face of that sight. I climbed on her like an obedient dog and grabbed handfuls of blonde hair. I tried to hit her cervix on every thrust and mostly succeeded.

Thirty minutes later we fell apart again, exhausted. She held my hand and we drifted off.

Chapter 11

"I told you so," Hayim said.

I wanted to punch him.

My great plan to sexually frustrate Sabrina worked perfectly and by Wednesday she was visibly tense. Thursday, I think she figured out what I was doing and got ominously calm. I got nervous. We were putting groceries away Saturday afternoon when she hit me with it: "I'm going out with Kathy tonight, alone, but we won't stay alone. She's meeting Teddy and I'll meet Levi. I think at first it's best if you're not around so I didn't invite you."

I told her I agreed but I should probably know where and when in case something went wrong.

"Apex Social Club at the Palms. I'll try to be home before four in the morning."

My guts twisted. "That sounds like more than an introduction," I said.

"Yeah."

That's all I got: *Yeah*. My wife was going out on a date. I'd looked up Levi on Teddy's Facebook page and discovered he was about six-feet-four and two-hundred-thirty pounds. He had blonde hair like Thor and muscles to match. The pictures were older and apparently he's off social media, so let's hope he gained some weight and lost some hair since they were taken. Not that his penis would have shrunk. His vampire thong was packed like Teddy's, the only difference being ten pounds of white meat instead of dark.

Yes, I was jealous.

Tormented is perhaps a better word. I don't know. All I do know is Hayim and I sat now at *Castaways* nursing our drinks while our wives enjoyed the company of hot studs. It was agonizing. Hayim was right about the reality not matching the fantasy but he missed the mark; all this torture felt *good*.

I'd tried a million times to picture what my wife was doing at that moment but my brain always retreated. She left the house wearing a sparkly silver dress that was so short I saw the curve of her butt cheeks if she lifted her arms. Her bra was purely decorative, fish net style with fake diamonds set at every cross-stitch. Her sassy tits were plainly visible each time she leaned forward. I was hard as rock following her around the house as she got ready. She told me precious little about their plans, revenge, I think, for me withholding sex. After she'd gone I reentered the bathroom to clean up and spotted her forsaken panties next to her sink.

"I bet you're horny though," Hayim offered, snapping me back to the present. "Despite your obvious malaise."

"Yes, you told me so, and yes, I'm fucking horny. My plan backfired. By denying her I also robbed me of sex, and I think I'd like how good I am in bed fresh on her mind right now instead of a distant memory."

"Pure misery, right? I'm going through the same thing. Worse, maybe. You don't know if Sabrina will like Levi but we all know Kathy loves Teddy. If the men got a room at the Palms, they could all be fucking right now."

Goddamn it shut up, Hayim!

"You're right," I said calmly. "They could be."

Fucking Hell!

Four pounds of broken glass worked through my intestines. Sabrina could be nude and under Levi right now, that huge white cock pumping in and out like a piston. I debated if not knowing was worse than knowing and arrived at no answer. I'd be forced to wait and when I finally saw them together, make my choice. I'm sure Hayim suffered too but I had no sympathy for him. I was too busy dying. One thing I knew with certainty; when Sabrina got home, I'd fuck her like an animal. I hoped she was ready.

My night with Hayim was excruciating. I never drew a full breath and my hands never stopped shaking. We talked about the World Cup and the upcoming football season and how awesome the Netflix show *Black*

Mirror was, but neither of us was fully present. We were half a city away with our lovely wives.

Eventually, we gulped our last beer and paid the tab. We hugged briefly out in the parking lot and headed in different directions. I entered my dark home and wandered through the rooms, looking for reassuring signs Sabrina lived there. The master bedroom was a knife in my gut. On the bed still lay her rejected choices for tonight; simple little black dress and a lovely but risqué floral print sexy outfit that hung to mid-thigh but plunged in front to below her tits. Several pairs of shoes, a black lace bra, and a forgotten pair of sheer panties. In the bathroom was her mess of makeup and hair tools and those Goddamn panties she'd decided to skip staring back at me.

Everything carried an intense sexual charge. I got on Instagram and looked at pictures of Sabrina and me on vacation, her wearing a tiny green bikini or topless wrapped with a sarong around her waist and hiding her nipples with an arm. There were dozens of photos and she looked scrumptious in each. I ached to touch her but at that moment she was being touched by someone else. She was touching someone else. Someone else had her heart racing. Someone else gave her shortness of breath and sweaty palms.

"Fucking Hell!" I yelled into an empty house.

How did this happen? I wanted to watch a big cock fuck Sabrina, not sit at home while one did. I never should have looked at pictures of Levi. In my mind, I always saw Sabrina and a fat dick, never the man attached to it. I viewed whoever her lover ended up being as nothing more than a living dildo. I now realized Sabrina saw her potential lovers as gorgeous men. What the fuck have I done? Jealousy and regret sizzled in my guts like acid. I was sure by now he'd discovered her oral fascination and marveled at her obsession with his dick. He was probably high-fiving Teddy and thanking him for handing her over.

My wife. Teddy gave my wife to Levi.

"Fuck!" I yelled again.

The mental dam broke and images of her in the throes of hot sex flooded my mind. I could almost hear her moans and groans. If he was close to the same size as Teddy, and judging by those G-string pictures I'd say he was, then Sabrina was getting pounded by a white version of that cock in the men's room that night. Was Levi circumcised? Suddenly I could

see her sucking and licking and spreading her tight pussy wide to accept him. I saw her trim and fit body gleaming with the sweat of her efforts as she tried to give Levi a night he'd never forget. For an instant, my brain popped up a warning, admonishing that I truly did not know if he was fucking her, stressing that possibly my imagination merely ran away with my fears. Then my gut spoke and told my brain to shut the fuck up. I knew. *I knew.* Sabrina was fucking another man while I wandered our home adrift. The agony was poignant.

Ever see a lion pace inside a cage? That's me. I wandered from room to room to room, burning nervous energy, fretting and suffering horribly. My dick hardened and softened a hundred times. I dared not masturbate in case she wanted sex when she got home, but I seriously doubted my ability to achieve orgasm anyway. I was way too distracted.

One hour. Two hours. Three hours.

She'd warned me she may not get home until four in the morning at that was still two hours and fifty minutes away. I changed out of my clothes and into a loose bathrobe, noticing how incredibly sensitive my skin had become. My penis was electrified, my balls ached for release. I pictured myself throwing Sabrina on the bed the instant she stepped through our door but what if she said no? What if she was too tired, or too tender? What if she wanted to savor the memories of fucking him and not cloud her mind with thoughts of me?

"Fuck," I muttered. I'd go nuts. I'd just fucking die.

I left my robe opened and walked around our home running my hands over my skin. I felt feverish and obsessed. My dick was in a perpetual state of semi-erection and I played with it often. My touch felt a thousand times better than usual.

I'd gone into the master bath to gaze at her deserted panties for the hundredth time when I heard the garage door open through the wall. I tied my robe and raced to the kitchen, watching and waiting for her to come through the door. I tried to stay calm and control my breathing but that failed completely.

The door opened.

Sabrina stepped through.

The door swung shut behind her.

My eyes bugged. My jaw dropped.

He'd nearly fucked her to death.

Dried streaks of cum crisscrossed her face. Dried streaks of cum sparkled like frosty spider webs all over her inner thighs. Her hair was messed and stuck together in clumps here and there. Her dress sat askew on her shoulders, revealing one soft and lovely breast, her diamond bra, a favorite, gone, her exposed nipple, stiff and swollen. He'd *ravaged* her. Her face was dreamy but her eyes held a touch of worry. She was waiting to see how I took all this.

"You fucked him," I said, or at least I tried to say. My voice croaked.

She slowly shook her head.

"No, Baby" she corrected. "He fucked *me*."

She moved closer and leaned her body against mine, tilting her face for a kiss. I smelled sperm all over her. I smelled cologne. I saw redness on her cheeks from his whiskers and a slight hickey next to her nipple. I lowered my mouth to hers and tasted slippery semen coating her tongue. Before I could pull away her hand gripped the back of my head and her tongue pushed into my mouth. Jealousy tore me up inside but I returned her passionate kiss.

She pulled away briefly: "He never ate my pussy and I didn't even care."

Her hand slipped inside my robe and found my penis and her touch was fifty-thousand volts. I gasped and she tugged once on my tumescent shaft and then slid her palm under my hot balls.

"Jesus, James, you're burning up."

"Tell me," I whimpered. She held all the aces. She had all the power.

She kissed me again and whispered: "He fucked me for hours, Baby. His cock is so much bigger than yours and you were right; bigger was better. Much better. I've been so stupid denying us this. Are you hurt? Are you angry? Have you changed your mind?"

I tried to swallow but couldn't. Her words dripped into my ears like lava, setting my mind and body aflame.

"No, not hurt," I said, falteringly. "Not angry. Did he cum in your pussy?"

She started kissing my chest. "He came inside me *everywhere*," she murmured.

I sucked air. My dick was stiff. Sabrina threw my robe open and sank to her knees, sucking my cock head to the back of her throat. One hand

fondled my balls while the other joined her lips around my shaft.

“I want to fuck him again,” she said between trips up and down. “His cock hurts sometimes but in such exciting ways. It’s dangerous and demands respect. I want to fuck him a lot, Baby. I’ve wasted so much time. You said I could but I didn’t. You’ve been saying it for years. Now I want to.”

Her words were pure adrenaline. I was throbbing hard. She didn’t ask if she could do these things with him. My erection already told her she could. With each pulse, I was giving her permission to do as she pleased.

“Don’t cum in my mouth,” she stated. “I want you inside me. I want you to fuck his sperm. I want you to work him deeper with your big dick. I am dying to feel you slipping and sliding where he just was. I can’t wait to feel the difference between you. He’s so big, Baby. I’ve never fucked two men in the same night. It’s raunchy. I’m a bad girl. I feel sexy and slutty.”

She stopped abruptly and stood, slipping the thin straps of her shoulders. Her sparkly dress piled at her feet and she wore nothing underneath. I saw bite marks across her tummy and around her other breast. She turned and walked to our bedroom and I saw the red handprints across both ass cheeks. He hadn’t just fucked my wife; he’d manhandled her, owned her, used her, and then sent her home bearing his mark.

My immature fantasy crumbled. She hadn’t been fucked by a big cock like I’d always imagined, but by a *man*. A powerful, virile, potent, studly man. He was intelligent and attractive and successful. He had my wife fawning. She was flush with desire for him, hungry for more.

We were now headed for the bedroom so she could use my dick to push *his* semen deeper. What had I created?

“I’m dying, Baby,” I muttered. “I need to fuck you...*now*. I must be there next time. I love that you want him again but I can’t go through another night like tonight. Waiting was torture.”

She crawled onto our bed and spread her legs to me. Her pussy lips parted and I saw his milky semen clinging to her inner lips. How much was inside?

“That’s a problem,” she said. “He said no husband. I told him what was going on and he said he’s tried it before and jealous husbands suck. Sorry, Honey. Why didn’t you just jack off and fantasize? How many times has you masturbated to this idea? Now you can close your eyes and know I’m really doing it.”

I stopped ten feet from the bed, wrestling. Could I go through another night like this? Could I go through nights like this every time she wanted to fuck him again? My perverted dick throbbed harder than ever, welcoming the pain, wallowing in the torment. Part of me wanted the crushing anguish, welcomed the humiliating ache. Sabrina stared at my erection, ready and waiting, watching to see the effect her declaration had on me.

“How about this?” I said. “He doesn’t know me. What if you introduce me as someone else? I can take off my wedding ring, hire a girl for the night, hang out with you and Levi and then watch him fuck you.”

Her eyes flashed wide and narrowed to wicked slits.

“You’d go through all of that just to see me with him?”

“Yes,” I gasped. “Fuck yes. This is the hottest thing that’s ever happened to us or to me. I can’t take a backseat. Help me make it happen.”

She spread her legs wider, a devilish grin curling her lips.

“Come eat my pussy,” she said. “He didn’t and I’m craving the feel of a nice, soft tongue. Make me cum and perhaps I’ll help you fulfil your twisted fantasy. I’ll be your secret whore, Baby. I’ll fuck him all you want. We’ll have a hidden life and when I finish with Levi, I’ll make you find me another hot stud, one that will let you in the bedroom with us.”

I swear I felt like I could just blast cum across the room any second. My dick was so hard and wound so tight any touch would make me explode. I never expected Sabrina to react so strongly. She’d gone from fully against to fully for in a matter of hours and while I loved it, I was still trying to catch up.

She dipped two fingers in her dripping pussy and opened her labia to me. Some of Levi’s ghostly fluid ran out. She stuck her fingers in her mouth and sucked his jizz and I groaned.

I crawled on the bed and licked her salty cunt. The shudder of excitement that ran through her body and the heartfelt moan that floated from her throat made everything worth it. I lowered my face, curled my arms around her thighs, and sent my probing tongue deep. Her piercing cry of pleasure rang in my ears. I licked fast, nibbling and chewing.

“Kathy and I met Teddy and Levi at the *Starlight*,” she said, “and I instantly knew he’d fuck me. He knew it too. Our eyes ate each other alive and less than a minute later he told Teddy and Kathy goodbye and took my hand, leading me to the room the guys had rented upstairs.”

I licked faster. I wanted her to cum so I could fuck her.

She put a hand on the back of my head and kept talking: “On the elevator I realized how backward I had twisted everything. You *wanted* me to do this. None of this was behind your back. I fucking love sex and you were telling me to have more, to pick sexy men and fuck them. That ride to the fifth floor changed everything for me, James. Old Sabrina is dead.”

She tilted my chin to gaze into my eyes.

“Meet new Sabrina.”

A thrill raced through me. Her cunt was sloppy and slippery and I fucking *loved* knowing another cock had been in there tonight, probably less than an hour ago. Her body still bore so many clear signs of her infidelity my heart boomed in my chest.

She closed her eyes and let her head fall back. I felt her legs tensing. I saw her abs clench. She bit her bottom lips and tweaked her nipples, rubbing her perky tits and moaning. She was awash in their mixed fluids. Her clit was a swollen berry. Her whole body went rigid and her back arched. A long, low groan poured from her throat as she came. I kept licking until she pushed my face away and pulled my face towards hers.

“Put your fat cock in me,” she said. “I’m full of him. Make a plunger of your cock and shove his load deeper inside your wife. Fill my womb with him, Baby. Drive your cock all the way inside me, Love, and plough his sperm deep.”

I climbed until our lips met and felt her hand find me and guide me. I looked down between our legs and saw a large snow-white glob of sperm slide from her hole. I scooped it with the tip of my penis and aimed it at her opening. She looked down to watch, her breath catching in her throat. She used both hands to open her cunt.

“Yesssss,” she hissed, as I sank my dick in, carrying the glob on the head.

It was like sinking into boiling water. Her pussy was scorching, hotter than I’d ever felt, and with his liquid lubricating my shaft, I sailed along smoothly, gliding all the way in until I met her cervix. We both knew at that moment I was introducing him directly into her womb. The erotic chill left us speechless.

I fucked my wife with long, silky strokes, fully aware my flared head acted like a squeegee inside her tunnel, scooping him up and pushing him forward. The physical sensations were heavenly but our mental arousal

was insane. We stared into each other's eyes, utterly captured by what we were doing. Sabrina gazed back at me intensely, relishing the moment her husband filled her with another man's cum. In all our years of marriage, we'd never shared a moment this powerful. Not even close.

"I'm not going to last," I gasped.

She pulled my head to her mouth and whispered in my ear: "Pull out and cum on my belly. Let *your* pussy be *his* pussy tonight."

Where was she getting this shit? My balls convulsed at her suggestion. My shaft surged. I thrust two or three more times and then lifted myself over her, whipping my dick free and taking over with my hand. She stared at my spitting penis with wild, laughing eyes and open mouth. I pumped about a gallon of burning jizz out, or at least it felt like it, showering her firm flesh with white rain, driven to unspeakable heights by the simple knowledge he would be in her and I would not.

I heard myself groaning with each new blast. Sabrina watched it all, her face a maniacal mask of glee. I saw my load fall over her, spewing from my dick to land wasted on her skin. The stark image maddened me, making me cum even harder. He was *in* her, I wasn't. I'm her husband but her pussy belongs to him.

Sometimes you get what you want but not in the way you expect it. Life is messy. I wanted my wife to fuck a cock bigger than mine, and she had, but not only was I not there to see it, I wasn't even allowed to reclaim her.

I came so hard I almost passed out.

Chapter 12

Click.

I'd just gotten home from work and now headed to the bedroom. I heard Kathy and Sabrina talking but not what they said.

Click.

I bumped the door and entered.

Sabrina lay on our bed dressed in jet-black lingerie. Kathy stood at the foot, phone in hand, snapping pictures.

"Instagram?" I asked.

"What else?" Kathy responded.

I met Sabrina's eyes. Holy shit I have a sexy wife. The lingerie hid almost nothing but Kathy had strategically placed darker straps to cover my wife's small nipples. I devoured her starting at her toes and working my way up. She giggled when I locked eyes with her again.

"You like?"

"I love," I said. "You look amazing."

"Thank you," Kathy joked. "I put a lot of time and effort into making your wife this pretty. I'm glad you approve."

"Will Instagram allow something this sexy?" I said.

"I'll blur some things with photo editing," Kathy said. "Make them legal. Sabrina got a direct message today from Scott Devonport, a professional photographer. He's doing a shoot on the girls of Instagram and wants your wife to be one of his models."

"You going to do it?" I asked Sabrina.

"Yes," she replied. "I've already checked with work. They're fine with it."

Her night with Levi was two weeks ago. Since then she's fucked him four times, all at his place. I've not gotten so much as a photograph. Actually, that's not entirely true; about four days ago he sent her a portrait of his huge erect cock with the caption: "Thinking of you." She shared the picture with me and I fucked her hard from behind while making her hold it in front of her face and calling me by his name. Twisted, I know, but at least I admit it.

She's developed a crush on him which gets me as excited as it does anxious. She shares all their text exchanges and phone calls, even speaking with him right in front of me while telling him I'm out of the room. She hides nothing, but I still haven't seen the sex, and that's what I wanted most. I'm not about to call a halt after all the work I put into getting her moving. I'll ride this out and see where it leads.

Chapter 13

"I want to show you something," Hayim said. "But don't yell or freak out."

I gave him a funny look but told him to go ahead.

"Not here," he said. "Meet me in the men's room."

We were sharing a beer at *Castaways* again while Levi was busy fucking Sabrina. Kathy was home since Teddy was out of town. Our wives effectively had boyfriends and, yeah, it felt weird a lot of the time, but exciting all the time.

I gave Hayim a minute and then asked the bartender for refills as I headed for the bathroom too. It was a slow night in the bar so I knew we'd be alone.

He stood at the wall urinal so I took the spot next to him.

"What?" I asked.

He leaned back a bit and I looked down.

He'd shaved everywhere. Stainless-steel rings circled his penis from the base to the head. His balls rested inside a steel mesh cage and the head was trapped under a metal helmet with a hole for urination. The entire apparatus was anchored by a hefty flat steel band which circled his genitalia behind his testicles and secured with a small brass lock on top. He could piss, but he could not get hard.

"What do you think?" he asked.

I had lots of thoughts but the one that came out was: "Don't lose that key."

He chuckled. He continued to stand there, allowing me to study his caged dick. I realized after a moment being seen like this gave him a rush.

"Kathy fucks big black cock," I said. "But locks up your tiny dick."

I swear a shiver ran through him. A flash of understanding gave me insight into their new dynamic; my friend was a true submissive. I wouldn't judge.

"Has she made you suck his dick yet?" I asked.

"No, not yet, but she says she will."

"I bet you're looking forward to that."

"I'm not gay," he said.

"I know it and I'm not saying you are. Sorry if I came across that way. I'm your best friend, you don't need to tell me. She'll make you use your mouth to get his black dick hard and then ride it in front of you. This is about dominance. I'm saying you'll like it because she's making you do it, not because you love dick."

He relaxed. "I'm turned on all the time, bro. The shit we're doing now is crazy. We have sex after he leaves and we're like animals. It's awesome."

“Kathy better not give Sabrina any ideas,” I said. “I’m not wearing one.”

“It’s humiliating, right?”

“Yes, but that’s the point. Too bad this town has no nude beaches. She should take you out in public like that. Let everyone see you.”

His jaw dropped. “Fuck that would be exciting.”

“Go to the sex club over on Industrial Road. Kathy can walk you around naked in front of a crowd.”

“Jesus.” He breathed. I saw his small dick twitch.

“How long have you had that thing on?”

“Over a week. I feel it constantly. I love it.”

We buckled up and returned to our beers. He’d certainly given me something to think about. Maybe I didn’t know where Sabrina and I were headed but I knew it would be intense and that it did not include me trapped in a stainless-steel cage or with a dick in my mouth.

Looking back now, I sure got the intense part right.

Chapter 14

I turned to watch the sexy brunette walk by. Once she was gone, I scanned the Victoria Secret lingerie section taking note of every pretty female I could see, and there were plenty. Fucking Vegas. Sabrina had been browsing the sales floor and holding different sized bras up to her breasts.

“What about this size?” she asked.

She’s tried everything from an A cup, which I think she was now, to a D cup, which actually looked pretty good on her fit body.

“Stop clowning around,” I said. “I’m hungry. Let’s grab lunch.”

“Hang on,” she retorted. “I need to make up my mind.”

“On what? Buy your new bra and let’s go.”

She held up a red lace full sized C cup.

“On how big I want Levi to make my tits.”

I stared dumbly.

“He’s a cosmetic surgeon, remember? Why do you think I brought you in here, Silly? I want to find out what size you like best for my body.”

“You? But? He?” I said, intelligently.

Sabrina giggled. “I know, pretty hot, right? I read up on him and everyone calls him an artist. He’s won awards. I’ve seen pictures of his

work. He doesn't do those bolted-on fake Hollywood tits. He studied and trained in Japan. I'll have big perfect tear-drop breasts indistinguishable from the real things. He uses a special mix so everything about them looks and feels real. I'm going to have nice fat tits, Baby. What do you think of that?"

She reached up and closed my jaw with a finger.

Yes, I admit the thought of Sabrina with nice full boobs sounded hot as fuck, but I was more excited, and in fact deeply aroused, by the idea my wife's lover would be altering her body. Weird, right? Talk about leaving your mark. My dick got hard so fast. This was far more than getting his name tattooed above her pussy or getting a piercing he wanted. He was shaping her into his image. She would forever bear his stamp. My mind cartwheeled at the thought.

I looked down at the full C cup red lace bra covering her tits. Good God. She's be insanely hot. What would happen to her self-confidence? What would happen to her sex drive? I knew the answers to those questions and that's partially why my dick was hard as stone.

"Full C," I stuttered. "Maybe small D."

"Small D? Really?"

She swapped out her red lace for a green, slightly bigger. Her face broke into a wicked grin as she turned side to side in the full-length mirror.

"Hot damn," she giggled. "I'll be unstoppable."

Chapter 15

Sabrina returned her teacup to the saucer, tracing the gold rim with a fingertip. She was off today and had come to meet me for lunch at the cafeteria on the ground floor of my office building. The Wednesday crowd was thin.

She wore a tight white cotton-knit top thinner than a T-shirt and a short, frilly skirt almost as light as air. Her top followed the fresh curves of her tits like white paint. Her breasts rested high on her chest, tilted further upward as she arched her back in a lazy stretch. Darker circles hinted at nipples just under the delicate fabric. She wasn't showing much skin but her outfit displayed her new body perfectly. I saw her in the shower last night when she got home from the gym and the hot soapy water running down accentuated her full tits. It also accentuated her flat abs and bubble butt and

toned legs. She looked stunning. She radiates sex now, burning bright like a star.

She'd called me at work this morning to say she had an idea how I could watch Levi fuck her, something I still had not seen. She wanted to discuss details face to face and could she have lunch with me.

She dabbed the corners of her mouth with her napkin.

"Don't turn and look," she giggled. "But do you know the older gentleman at the corner table? He has thinning red hair."

"Yes," I said without looking. "That's Jarrod Berringer, EVP of Sales."

"Is he your boss?"

I considered for a moment. "Yes, technically. He's my boss's boss. Why? Do you know him?"

She showed a demure smile. "No, but he keeps looking at me and I'm going to innocently show him more. Purely unintentional, of course. In fact, I'm doing it now."

She leaned forward to kiss me and through our glass table I saw her knees part. Her pussy was aimed directly at Jarrod so I suspected she wore no panties. She broke the kiss and gave me her most loving eyes.

"He's staring right at my cunt," she said, as if telling me she loved me. "Should I fuck him for you? Maybe get you a corner office?"

I had to chuckle. Sabrina had transformed over the last few weeks. After her recovery, which was brief, her confidence shot through the roof. There was nothing arrogant or obnoxious about her and she didn't suddenly dress like a slut, but she was utterly fearless. After going weeks without, she was ready for Levi again but this time she had a plan.

She reached down to play with the buckle on her shoe and when she stopped I realized her legs were another few inches wider. Poor Jarrod. Sabrina gave me her full attention.

"So here's my idea," she began. "Rhonda, who you don't know but I work with, just got back from San Francisco and since we're tight, she told me about this wild nightclub she and her husband found. She says it's inside an old Victorian house which is still zoned residential so the owner can do whatever he wants with whomever he wants. Rhonda said she saw some crazy shit there and they didn't even explore the lower levels. She said they heard moans and groans and turned back to the dance floor. She says people walk around naked and fuck right out in the open."

“Vegas has sex clubs where people fuck out in the open.”

“Yes, and we’re sure to run into people we know here. I’d like to keep our kinky sex life hidden. Would you like our friends and families to know you’re a cuckold?”

She’d used that word often lately and I get a jolt of excitement each time she does. I don’t know where she learned it but I subconsciously hoped Levi taught her that one. I liked the idea of him naming me that.

“So you and Levi fly together and I take a separate flight?”

“You could be on the same flight, Baby. He has no idea who you are.” She leaned closer and lowered her voice. “You’ll be able to stand right next to us as he fucks me and he wouldn’t know. You might even be able to join us, depending on his mood. You’ll be inches away, maybe even touching me, when he fills my pussy with cum.”

That hit like a fist. How the fuck was I supposed to go back to work after a lunch like this? Sabrina had mastered this Hotwife thing faster than I thought possible. Once she made her choice, she was fully immersed, baptized in sin and hungry for new cock. I thought about all the times she’d already fucked him since first deciding to. She had to be averaging at least three times a week. How much sperm had that man pumped into my wife? What if he got her pregnant?

“Has Levi ever worn a condom with you?” I asked.

She scoffed. “Why would he?”

“He inseminates you often.”

She gave me a bashful smile. “That’s true.”

“You’re not worried?”

She offered an indifferent shrug of maybe half an inch.

“He’s probably fucked a lot of women.”

She took my hand and kissed a knuckle. “That’s sweet, Baby, but I *love* that he’s fucked a lot of women. I *love* that he’s a stud every girl wants. Every time I suck his cock I wonder how many women have had the beast in their mouth. When he fucks me, and I feel that monster rearranging my insides, I think about how many women have had that hard cock in them. I belong to a sorority of sluts and I love it.”

“Why?”

“One, because he’s ridiculously hot. Two, and this is my main reason, nothing shows my devotion to cock quite like being a willing bimbo for him. I’m one of Levi’s Babes and I don’t mind at all. Kind of proud,

really. You should take comfort in the fact he fucks other women and I don't get jealous."

That was a good point.

"When do we leave for San Francisco?" I asked.

"I see him later today for a required checkup and I'll ask him then."

Chapter 16

There's a freedom in walking around naked in front of people, and I must admit I liked it. It helps that my dick is kind of big and my stomach's still flat.

The mansion sat on a hill with a long flight of stairs leading to the front door. A path started down at the street and meandered through a faux graveyard to reach the house. The Uber driver told me the place used to get so busy the crowd spilled into the surrounding streets, but for the last eight months or so had calmed down.

"I heard the owner was murdered," he'd added.

Busy or not, there was still a sizeable crowd milling around. I saw bright pink mohawks and flaming red wigs. I saw shiny bald heads, male and female, and long dreads. There were a ton of piercings and tattoos. Most seemed to have a Goth angle to their attire and almost everyone, male and female, used plenty of makeup. The blinds were drawn on all the windows and brightly colored lights flashed behind them. I heard the deep boom, boom, boom of trance music. I paid my driver and said goodbye.

The man checking IDs at the door wore a kilt and practically waved me through without checking. I was in the upper age bracket for this place but I had seen some men and women older than me so I relaxed.

Sabrina and Levi had gotten here over an hour earlier. I'd searched frantically when I first arrived but soon realized the place was vast and calmed the fuck down. I'd find them, I thought, and I did not want to look like I was searching for them when I did.

The front rooms were all pedestrian and what you'd find at any dance club in any city. There were bars and booths and tables and waitresses, flashing lights and smoke machines and paneled dance floors. A different DJ spun every few rooms. Upstairs was more for conversation and had large padded areas for sex. I held my breath casually sauntering through, sure I was about to see Levi burying his huge cock in my wife.

Nope. I did see some hot people going at it, including one gorgeous Persian woman taking on six men at the same time.

Towards the back of the house things turned a little darker and I passed through a bondage area. Sabrina wasn't in there either, thank goodness. The walls were painted black and accented in red to look like dripping blood. Several women were trapped inside insidious machines which continuously vibrated their clits and fucked their pussies with large realistic dildos. Their mouths were held open with hard plastic rings and horny men waited for a turn at the ladies' mouths. Puddles of semen pooled on the floor beneath their faces.

The next area had a bouncer at the archway entrance. I looked over his shoulder into beds as large as swimming pools scattered around. Everyone in this area was nude and he pointed to a wall of cubby holes to store my stuff.

"Nudity required," he said, bored. He pointed to a wall of individual compartments where people left their belongings. Forced nudity sounded like Sabrina so I picked a cubicle and stripped, tucking my watch and phone and wallet at the back and hiding them with my clothing. Naked, this time he let me through.

Wow. As I mentioned earlier, there's a freedom to walking around absolutely nude in front of other people. The area curved away from the entrance and was much bigger than I'd realized. I strolled through, checking out the hot and not so hot women and men. I saw a few guys wearing a cock cage like Hayim and made a mental note for Sabrina and I to come back here with our friends. I also saw a few guys walking around with ponderous slabs of beef hanging. Good Lord. Most everyone was average, as you'd expect, but the upper and lower percentages stretched the scale; skinny, fat, tall short, big tits small tits. Everything. One guy was a monster of muscle and cock. He had several women and two men following him around, swept up in his presence. They followed like puppies and I got the feeling if he stopped and ordered them all to suck his massive cock, they'd fight for the honor of doing it.

After his entourage swept by, I stepped around a large marble column and almost landed on Sabrina and Levi. They sat on the curving edge of a half-circle padded lounge and watched a nearby muscular and hung black man fuck a petite white woman. The woman's husband sat a few feet away, watching, furiously jacking his penis and playing with his hairy

balls. Levi looked right at me but registered nothing. Sabrina glanced at me and just as quickly looked away, acting oh so cool. I kept moving, casually ignoring them, until I reached the next marble column. I got comfortable leaning against the cool stone and pretended to watch the same cuckold mating they did.

Sabrina wore a pair of hot pink panties I'd never seen before, crotchless, with thin straps framing her bald and lovely cunt. A hot pink butterfly the size of my hand covered the area where her pubic hair would have been if she'd had any. Waxed smooth for Levi, no doubt. Her top was her favorite fishnet diamond bra which had disappeared so long ago. Now the bra cupped and hugged her big tits, accentuating their curves and perfect shape. Her nipples poked through the netting and reached for the ceiling. I guess the bouncer decided that was close enough to nude. She had a pink choker around her throat and a thin silver chain ran to Levi's hand. The man had my beautiful wife on a leash.

"That's hot," Sabrina murmured, watching the interracial couple, and slid to her knees between Levi's thighs. Hot or not, I knew what she did next was all for my benefit. He opened his legs to give her access which also revealed his cock. I'd seen it once before in a picture he'd sent but a three-inch screen did the thing no justice. I'd always believed I wanted to see a big cock fuck my wife but suddenly I wasn't so sure. He was big, true, bigger than me by maybe double, but he was also gorgeous, if I can say that and not sound gay. His cock was perfectly proportioned; long, thick, smooth skin with one squiggly vein running along the side. Semen drooled from the tip like honey, a syrupy, baby-making liquid, potent and dangerous.

To see his dick was unnerving, not because he was bigger, but because I knew exactly how Sabrina would feel about a cock that attractive. I had instant insight to their relationship. I knew my wife *loved* his cock. There was plenty about the man to make him desirable but she'd be powerless before that dick. How many times had he already fucked her with that thing? Now I understood her eagerness to so frequently crawl back for more. Now I also understood the leash; Levi owned my wife and they *both* knew it.

Jealousy and anxiety awoke in me simultaneously.

Sabrina innocently tilted her head to better show me her mouth on him and I got a good look at his hairless balls too. They were fat and heavy

and Sabrina swabbed them with her flat tongue. She never checked to see my reaction. Her tongue followed the squiggly vein until her mouth closed over the head. Levi pulled the chain down, forcing his cock farther into her mouth. She sucked hard, trying to draw his cum up, and then raked her red manicured nails across his scrotum.

She paused long enough to pout: "I want two."

Levi chuckled and glanced around at the men.

"Pick one," he said. "You can see what every man has. Pick the man you want."

Sabrina sat back on her heels and turned to the crowd. I straightened, standing taller, ready. I'd swollen some watching her worship his meat and proudly displayed my manhood. Her eyes swept across us all, passing me over with a smirk.

"That man," she said, pointing to a dark-haired thirty-something stock broker looking guy standing about four feet from me.

Fucking Hell.

At long last an opportunity to join her while she's with him and my jokester wife instead choses to extend my torture. I tried to control my expression but I know she saw the frustration and disappointment on my face. Stock Broker was watching white wife and black guy so Sabrina waved for me to get his attention.

Bitch.

I tapped the guy on the shoulder and he turned. "She wants you," I said.

Broker looked at Sabrina for a tenth of a second, maybe less, and he was moving. I saw his cock flopping as he hurried. The three of them exchanged words I couldn't hear but I saw him nod. My wife turned his hips and began sucking his cock until she had him rising and then split her attention between both men. I watched his penis swell and lengthen, the head turning a deep red.

That should have been me, my agonized mind screamed.

He was a hairy guy and she pushed his pubes down around the base and tried to deepthroat him. I guess all that time spent with Levi's bigger cock helped because she took every inch of this guy and he was about the same size as me. He reached for her tits, rubbing over the diamond lattice until he found her nipples and then tweaking those until she whimpered.

Levi watched her work.

“Take his whole dick,” he said, and my wife took a deep breath and worked her lips lower. Inch by inch his shaft disappeared. Her throat bulged like a snake swallowing an egg. We all watched, mesmerized, until her stretched lips met his pubic thatch. Deepthroating was something she could never do and I wondered how long ago she learned. Did Levi have friends? I suddenly felt stupid. I’d always assumed when she went to see him it was just her and him. Had other men been enjoying my wife? Levi ran his hands over her hot body while the new guy enjoyed his entire cock wrapped in the hot, wet, teasing folds of her mouth.

“Can I fuck her?” he asked Levi.

I stopped breathing.

Sabrina was unruffled, studiously continuing to suck. She never for an instant considered the decision was hers to make. She knew Levi would handle who fucked my wife, not her. Another wave of jealousy hit me at his display of power and control.

“Yeah,” he said, tugging the chain and pulling her away from the guy. “Get on all fours, Sabrina.” He said. His use of her name stabbed me. “I’m going to let him sample your tight pussy. Suck my cock while he fucks you.”

With another tug on the chain, Levi guided her face to his cock. She did without hesitation. Levi gave a chin-jerk to their new friend and Stock Broker took up position behind my wife. He made a slight adjustment to her pink butterfly panties and eased his bare cock into her volcanic hole.

My wife groaned with deep satisfaction as a new penis entered her. Her body shivered at a stranger’s penetration. My blood pressure shot through the roof. Resentment clenched my chest and stole my breath. I was bedeviled by my rising penis, who apparently doesn’t know any better and just wants to see Sabrina fucked. I worried I would say something terrible and expose our game. With possibly the greatest exercise of willpower I’ve ever had, I turned and walked away.

I decided on a long lap to cool off. The area was huge with lots of fornicating people to distract me, so I meandered from giant padded bed to giant padded bed, slowly working my way around. By the time I turned the last corner, I’d seen enough hot sex to have my perspective again; yes, other men got to fuck my wife, but Sabrina loved me. These other men just provided living dildos for her. I was ready to watch her again, even eager to

finally see Levi's heavy club penetrate her body. I wanted to see her blissful expression as she took the cock she so loved.

I turned the last corner and discovered they were gone. Stock Broker had moved on, his dick in a pretty black girl's mouth. Levi and my wife had vanished.

I approached Stock Broker. "What happened?" I asked. "I went to get my wife so she could watch you fuck that gorgeous cheerleader type, but when I got back you were gone."

He took his eyes off the face in his lap. "The man holding the chain said it was time to go and Cheerleader hurried to obey."

"Do you think they left? Did they head for the front?"

"No," he said, pointing to a dark archway farther back in the room. "They went through there. Deeper into the club."

I thanked him and headed that way.

Twenty feet beyond the arch, I stopped. It was dark back here, and I don't just mean the absence of light. There was a sinister feeling in the air, a faint echo of moaning and groaning and not all from pleasure. I felt eyes on me but saw no one. I advanced a little farther and now hallways branched off the main passage and there were many rooms with blurry white shapes moving in them. I heard someone suck air quickly, as if they'd been cut. I heard a woman whimper, exhausted, murmuring faint protests utterly ignored.

In a room nearby, I heard a muffled scream and people quietly laughing. I moved towards the sounds and saw a pile of bodies writhing. As I drew closer, I saw a naked young woman, on her back, bathed in sweat, tied ankle and wrist to a huge black altar, while people licked and nibbled every exposed inch of her skin. She had three people on each nipple, four heads between her thighs, two each for the bottoms of her feet, one each sucking her toes. Her hands were curled like claws. A black ball gag silenced her and she appeared to have been brought to orgasm so many times she now barely clung to consciousness.

I moved on, soon realizing continued pursuit of Sabrina was folly. It grew darker every foot I progressed and with each hallway the odds of making a wrong turn increased and the odds of successfully finding my way back decreased. I hated to abandon my wife, but the truth was, I'd already lost her.

I retraced my steps to the area with the huge padded beds and found an open seat, pondering my next move. I noticed a seamless section of the wall swing inward and caught a glimpse of a hallway beyond, lit with dull red bulbs. Two men led a stumbling woman, not Sabrina, away from the others. The panel sealed behind them, once more invisible. Aware now that there were hidden passages to go with the obvious ones, I grew more firmly convinced Sabrina was beyond my reach.

A young couple took a seat next to me. She had long brown hair and a delightful body while he looked a little chubby. He looked wildly uncomfortable but she seemed fascinated, moving her eyes all around the room, witnessing all manner of sex act with obvious interest. She cast her gaze upward and he mouth fell open. She tapped his shoulder and pointed and I followed his gaze.

Hanging far above us, almost lost in the dark shadows of the vaulted ceilings, were the inverted bodies of nude men and women, bound and hung by their ankles. I thought they were mannequins for a moment but then their struggles revealed their plight. They were trapped up there, gagged and helpless, forced to watch us move about freely. In the dim light, I saw the horror in the eyes. I shivered. Who were they? Who decided their fate? How long would they be held like that? Below them we crawled all over each other in wanton displays of carnal frenzy and they could only watch, and wait. This place put on a pedestrian front but had a macabre and scaly underbelly.

This place frightened me.

I soon left that area, retrieved my things and dressed, and returned to a nightclub section near the front. I ordered a beer, watched the other patrons enjoy themselves, and sipped in misery. I knew in my heart, at that moment, somewhere in this mansion Levi was balls deep in my wife, again, without me there to witness it.

Chapter 17

I returned to my hotel and collapsed onto my bed, intensely frustrated. I rubbed my eyes and stared at the ceiling. Sleep called but so did a strong desire to masturbate. I rolled off the bed to empty my pockets; two white plastic room keys, wallet, cell phone, pack of gum.

Two white plastic room keys?

My phone showed a slow blinking green light.

I checked the message. Sabrina had texted while I explored the mansion.

Poor Baby, her text began. You should have seen your face. We're leaving this place and headed back to our hotel room at the Metro, #318. I slipped my key in with your things. I talked to Levi and because of your self-control at the mansion, he agreed you could join us one time. I hope you get this sooner rather than later. Love you.

I read it again. I checked the time stamp. I collected my things, checked the map on my phone and discovered the Metro was less than ten blocks up Divisadero Street. I calculated I could jog faster than Uber. I was out the door.

Luck smiled. I caught a bus headed north and arrived at their hotel in minutes. I strode through the lobby and drew no attention, took the carpeted stairs two at a time, and emerged on the third-floor landing nervous and excited. Three-eighteen was the second door on the right. Do I knock? No. I have a room key and my wife was behind that door with another man so fuck manners. I checked the gap at the bottom of the door, noting a dim orange glow, slid the card and entered the room. My heart felt as big as a cantaloupe and as erratic as a man strapped to the electric chair.

A short hallway opened into a single main room; sliding glass door, widescreen television, small refrigerator, king-sized bed. They were on the bed. Naked.

Sabrina was on her side, facing away, gasping and moaning, one hand pressed against the headboard, the other mangling her tit, one leg pointed at the ceiling. Levi was on his knees, straddling her other leg, holding her leg straight up and working his enormous cock in and out of her sloshing pussy. His beefy balls seemed to swing in slow motion.

Behind me, the door closed with a loud click.

Levi looked over a shoulder and smiled. He pointed at an open chair and I moved towards it, my eyes glued to the joining of their bodies. He was inside Sabrina. His cock was in my wife. I desperately wanted to see her face. I wanted to see the expressions that went with the sounds he was causing.

Hayim was right; reality buried fantasy. He was right in another way too; I wasn't ready. Not even close. My distracted hands fished for the arms

of the chair, missed, and I dropped the last eight inches to the seat with a thump, eyes welded to the sight before me.

“Is...that...my...husband?” she gasped.

“Yeah,” Levi rumbled.

He fucked her like that for a moment and then grabbed a handful of blonde hair and turned her to face me, moving her to all fours, keeping his cock buried. He started fucking her from behind. I knelt at the side of the bed and took her hand. Her eyes were happy; happy I was there, happy Levi’s cock stretched her.

“You made it,” she whimpered.

We kissed and a thunderbolt struck me. I was kissing my wife *while* another man fucked her. Erotic energy surged and I moaned into her mouth. Our tongues intertwined and I held her face, feeling her body shudder with the timing of his cock moving in and out.

She pulled back and grinned. “Everything you hoped for?”

I knew what she meant. I ran my eyes along her body; her big hanging tits, her toned physique, her incredible round ass. Levi held her butt while he fucked her cunt and his big hand looked amazing holding her in place. She still wore the pink choker, a more powerful sign of ownership than if he’d branded her ass. She could have removed it but hadn’t. She *wanted* his collar around her throat.

My mind processed a million tiny details. This was far more than I could digest in the moment. I knew I’d be masturbating over this moment for years.

“More,” I answered, my strained voice a croak. “I...I can’t believe what I’m seeing. You’re so fucking sexy.”

He smacked her bare ass hard and she rolled her back like a cat.

She kissed me again. “Take off your clothes and sit back. I want to fuck Levi for you. I want to watch you watch me fuck him.”

I nodded and we kissed again. I stood and undressed, her eyes anticipating the moment I revealed my penis and the gratified grin when she saw I was hard already. I took my seat and started to play with my erection. Levi essentially ignored me but Sabrina held my eyes every time he moved her. They were in no hurry. I don’t know what she’d said to him but he fucked her like he owned her. After a while he rolled onto his back and told her to get on top.

“Get closer,” he said to me.

I left my chair to kneel beside the bed. Sabrina straddled him and reached between her legs to hold his cock erect. She sat on his stomach and let his long fat dick rest in her butt crack while they kissed, her big tits mashed against his muscular chest. They murmured things I couldn't hear but it didn't matter. My eyes were glued to that massive cock. I was shocked how wet she'd gotten him. My wife *loved* fucking this man.

She lifted her hips and snaked a hand to grip him at the base. Her wedding ring sparkled against his taut skin. I knew what was going to happen and I held my breath. I wanted to see it so badly. Her hips continued rising, her labia splitting against his pole. When they reached the top her delicate lips swaddled his cock head. He looked far too big to enter that tiny hole but Sabrina curled her pelvis and her pussy stretched wide to engulf him. Her skin strained to cover his large bulb and for a moment she rested there, waiting for her weight to force him in.

When he slid an inch deep, she sighed, deep and satisfied. She knew my face was close. She fucked Levi right in front of me, partially to please me, but partially because she loved fucking another man right in front of me. This was the new Sabrina. This was the new sex. She worked her overstuffed pussy up and down his thick shaft with brutal deliberateness, an agonizing taunt for her husband to enjoy. She kissed him again and leaned back enough to slip a nipple in his mouth. She cradled his head while he suckled and looked at me over her shoulder with wicked grin and smirking eyes.

I returned to my chair. I ran my gaze around the room, burning everything into my memory; their entwined bodies, the rumpled bedspread, the pillows on the ground. Out the sliding glass door, San Francisco twinkled and glittered. I heard a car horn. I heard a bus rumble. Back on the bed, Levi's cock thrust with maddening rhythm up into my wife. Her soft moans and groans filled their room.

I wanted to remember this moment forever. I wanted to scorch every erotic detail into my head. Hayim had warned that seeing this would destroy the world I lived in and replace it with something else and he'd been right again. No way would Sabrina stop fucking Levi. No way would Levi be the only man she took to bed. The door was closing on our old life and we faced something entirely new. In our new life, I was an eager and willing cuckold. In our new life, Sabrina fucked any man she wanted. The enormity of that reality hit me like a truck. It was already true. We'd already started.

Chapter 18

Levi fucked Sabrina for an hour, both leaving me on the sidelines to watch. When Levi felt like it was time, he called me over.

“I’m gonna cum in your wife now,” he said. “I want you to hold her legs open for me. Go straddle her head and face me. Put your balls in her mouth.”

Sabrina was on her back and I did as he instructed. He got between her legs and pushed her knees back and I gripped her ankles, spreading her. Her groan vibrated my balls. This was a power trip for him but if you can, then why not? He moved over her and his hefty spear waved between her thighs until he took the missile in hand and aimed at her slit. His hips flexed and I saw his inches sink. Another groan vibrated my balls. I pulled harder, offering him my wife’s juicy cunt without reservation. He moved higher, the top of his head bumping my chest, and began to fuck my lovely bride in earnest. My dick rose to point at his face.

His slid his hands under her firm ass and pounded his cock deep. Sabrina gasped for air around my scrotum. She sent a hand to my erection and stroked as she swabbed my nuts. Suddenly she stopped stroking and squeezed my dick hard, her body beneath us going rigid. She moaned a smothered wail, cumming hard under her men. Levi pumped faster through her orgasm. I played with her big perfect tits.

He grunted and tensed and exhaled through clenched teeth.

“Fuck!” he barked. “Fuck...yeah.”

His hips moved faster. He drew closer to the moment he flooded my wife with his seed. His back tensed and his thrusting grew erratic.

“Fuck! Close. Fuck!”

I leaned to see his cock working her pussy. Her labia were spread wide, hugging his meat tightly, creating a snug seal around his shaft.

“Yeahhhhhhh!” he suddenly bellowed.

His hips jerked wildly and Sabrina writhed. His buried cock was spurting sperm and her hungry cunt milked and coaxed every drop. Her teeth scraped my nut sack but I stayed put. He continued inseminating her with every grunt and groan. I saw her small hand on his ass, trying to pull him deep.

He gradually slowed and eventually stopped, holding himself over her with strong arms. After a time he walked his knees back and I saw his soaked cock slide from her gaping hole. He was a mess of semen and pussy juice. His dick had softened and fell out of her hole with a slurp to lay on the bedspread. I released her legs to him and he guided them to the bed.

Sabrina stirred beneath me and tugged my erection towards her mouth. I lifted enough to slip my dick in and she sucked hard, pushing my shoulders down. I was confused for a moment and then I understood; my wife wanted her pussy licked. I lowered my mouth to her freshly fucked slit and we sixty-nined in a post-coital fog. I harassed her clit and she whipped my dick head. She soon tensed and then climaxed again and that put me over the edge; I screamed into her clit and flooded her mouth with a pent-up river of white molten lava. Her tongue teased me for every drop. I poured my soul out through that orgasm. Weeks' worth of frustration, anxiety, and jealousy blasted out of my penis and down her throat.

Chapter 19

"I want to go back," Sabrina said from the kitchen.

I scooted my chair back from the dining table. "That place scared me," I said. "Do you know about the secret passageways?"

Her eyes got big and excited. "No, how do you know of them?"

I told her about searching for her and the woman bound to the altar. I told her how I returned to the vaulted area and about the nude men and women hanging from the ceiling.

"See?" she said. "There is no place like it. Vegas clubs try to be cutting-edge but that place *is*. We could get wild and crazy there. Did you see the wall of cocks in jars?"

I looked at her like she was crazy. "Wall of what?"

"Cocks in jars," she repeated. "A long wall of them, all shapes and sizes and skin colors, bathed in red light. They floated in yellow liquid. They looked real."

"They probably were," I stressed.

"That's what makes it exciting," she countered. "Where did all those dicks come from? I mean, I know they came from men, but how and why? Aren't you curious? Secret passage ways and sadistic pleasures; that mansion is the real deal."

“That’s what makes it frightening,” I said. I knew I’d already lost this argument. If Sabrina wanted to go back, we would. I’d just need to remain on guard.

“We can take Kathy and Hayim,” she said. “Those two are experimenting a lot. Did you hear Kathy made Hayim suck Teddy’s big black cock?”

“No.” I smiled politely. No way was I sucking a dick for my wife. I checked the time on my phone. “We need to get ready,” I said.

“What should I wear?”

“Doesn’t matter. Scott will have outfits for you.”

Sabrina’s first photoshoot with Scott Davenport had been a huge success. Her Instagram followers now topped a million. He’d suggested a bikini calendar and she’d countered with a suggestion for something more provocative. In a few days, she’d meet him at his studio to do a spread for a softcore magazine with two male models. I knew things would get heated. I was counting on scorching pictures and possibly video.

“But I want to make an impression coming through the front door,” she said. “His guys will be there. I want jaws to drop.”

I rubbed my chin. “Then I say cover your body but with something sheer. I guess it’s time to hit the mall. I wonder if Tyler is working.”

That started her mind working.

“Yeah, that handsome young man needs to help me with a few things.”

She kissed my forehead and aimed for the bedroom to change. I watched her walk away, bubble butt swishing.

Forty minutes later we wandered the outdoor mall. She wore a sexy black lace top which effectively covered her nipples with small but strategically placed satin pockets, but left most of her breasts exposed, and a short animal print skirt with black leather sandals. I checked from behind as she walked in front of me; no visible panty lines. Hold on tight, Tyler.

We played the same game as last time only the store was dead because it was too hot out. We said hello and I told the young man to help my wife find the perfect pair of shoes, and then moved myself out of the picture, pretending to examine sneakers. Sabrina sat and Tyler soon returned with a stack of boxes close to what she’d described. The man was in a hurry to get on his knees in front of her. I watched Sabrina check on her top. She adjusted the shirt slightly to reveal a nipple under black lace. I

waited for him to notice. He fumbled with the boxes and then showed her the first shoe, instantly noticing her stiff nipple under see-through gauze. He was cool, I'll give him that. Every time she looked at the shoe in his hand, he stared at her amazing tits.

"Let's see how it looks on," she said, smiling.

She slipped her delicate foot out of her sandal and offered it to him, slightly parting her knees to do it. His eyes went like a laser straight to her cunt. I'd watched her in the bathroom only an hour ago shave and soap and prepare her pussy exactly for this moment. He literally licked his lips.

He held her foot on the palm of his hand, lifting a bit to slip the toe straps on, and then slid the sandal over her foot. He boldly moved her leg aside to gaze under her skirt while securing the buckle.

"That looks fantastic," he said. "Absolutely delicious."

My wife's face froze in a grin. I knew she was at that moment imagining this handsome young stud's face buried between her legs. I decided to intervene.

"You have a coworker in back?" I asked.

"Yes," he said, meeting her eyes.

"Employee bathroom back there too?"

"Yes, but we let customers use it."

"Perfect. How about you call your partner out to watch the floor while you escort my wife and me back to fix her contact lens?"

That boy can move. A minute later a tall, goofy looking kid in clothing way too big for him came out. Tyler waved us back. I thanked Goofy on the way by.

"It's the desert," I said. "She's always getting grit in her eyes."

"No problem," he answered.

Sabrina led the way, dropping the toilet seat and sitting. Tyler flipped his tie over his shoulder and went to his knees, open mouth planted on her sweet pink pussy. I checked on Goofy but we were good.

Sabrina let Tyler eat until she could no longer wait. She lifted under his arms and went for his zipper once he was standing. He glanced at me nervously but said nothing. I loved how hot he was for her. Down came his zipper and out came his young, iron hard cock. He was about the same length as me but a bit thicker and he had an upward curve like a scimitar. Sabrina laughed with delight.

"Nice cock," she beamed.

I watched careful as my wife opened her mouth and wrapped her sensuous lips around his head. Her tongue slipped out and bathed him under and around the crown, wiggling for a moment in his hole at the tip. Then her lips closed and her mouth moved down his length and he groaned with pleasure. Her cheeks suddenly dented and I watched his face, knowing what that vacuum does to a man.

“Jesus,” he coughed, working his fingers into her hair.

“No time for this,” I growled. “Fuck her, Tyler. Bend her over the sink.”

He needed no other encouragement. Not even an okay from her. He lifted her by her pretty blonde hair and forced her against the porcelain. He slapped a hand on her round ass and shoved her skirt up and out of his way. I reached over and undid the buttons on her top so he saw her perfect tits in the mirror over the sink. She saw them too and moaned. With the unique, frantic urgency of youth, he pushed his stiff weapon down and rammed it forward. Sabrina cried out at first penetration so I covered her mouth with my hand. She gripped the sink with both hands as Tyler fucked her hard and fast.

“Oh my God,” he panted. “Ohmygodohmygodohmygod!”

My wife moved her feet farther apart and thrust her ass back at him. His eyes were glued to his own cock moving in and out of this incredible woman. His cock looked harder, skin stretched so tight it looked thin. I checked on Goofy, loving the animal grunts and groans behind me, and heard Sabrina tell him to keep going just like that and she’d cum. I hurried back to cover her mouth again and just in time. Her knuckles turned white as she clung to that sink with a vise grip, her shriek of pure pleasure smothered by my palm. Tyler kept going until her cries dropped to soft moans. I moved my hand away.

“Cum in me, Tyler,” my wife said. “Please fucking cum in me. I love semen so empty your balls, Tyler. Cum in my pussy. *Please*. I want to carry you inside me.”

Tyler clamped his jaw and breathed through his nose, ragged gusts snorting as his orgasm hit. I wondered if he was a virgin until this moment and then watched as he squeezed my wife’s waist and drove his cock deep one last time, spraying gobs of hot jizz into her womb, pumping so much youthful sperm, in fact, he began to dribble out and onto the linoleum.

I left them to recover and clean up, and took a position by a stack of inventory and to keep an eye on the door. Tyler hurried by first and then Sabrina nudged my shoulder, grinning.

“That was fucking hot,” she said. “I need to get that young man into a bed.”

“I suggest you use the one we have in our bedroom,” I said. “I can hold your legs open while he hammers away at you.”

We kissed and returned to the sales floor.

Chapter 20

In the months since San Francisco we’d drawn closer than ever. Two nights ago, Levi and I fucked her together for the first time and Sabrina lost her mind. She cried afterward from the sheer power of the moment and he and I held her in a group hug. That just made her horny and thirty minutes later we fucked her again.

Tyler made his first appearance, nervous but willing to take a chance for another session with my wife. We had him comfortable in fifteen minutes and he spent the night fucking her. He’s only a little bigger than me but bigger is bigger so it works, and there’s no denying the intense eroticism of his youthful exuberance. Sabrina *loves* how much he desires her. I often leave the bed and just let them fuck. It’s a glorious sight. Tyler tries to fuck her to death.

Hayim’s prediction proved accurate; Sabrina and I replaced our old life completely. Her true sexual-self does the driving now and my true voyeur-self enjoys every minute of it. She’s made her choice and couldn’t be happier.

End.
