Chapter 1

I raised my Champagne flute to Jordan across the room. She smiled meekly, hanging on Maxwell's shoulder, pretending she barely knew me. Her long clingy dress revealed her curves and showed plenty of skin. Max loved showing her off as if she belonged to him. She didn't. Jordan was my wife, legally, but Max loved to throw these corporate parties and insisted she stay glued to his side. He didn't need to do that. I knew the score. Jordan would stay glued to Max regardless. She's a fiercely independent and competitive woman until he comes around. It shames her to admit but the man has fucked her into submission. She loves the way he handles her in the bedroom. She loves the feel of his big hard cock plunging deep. She loves the way he commands obedience from others too, including me. I work an extremely well-paying job for the man and my wife can't get enough of him, so what options do I have, really?

This little shindig was a fishing expedition. Max was looking for more investors and he'd lined up the best from Silicon Valley to Wall Street. These were the big money guys, the old money guys, and they expected something extra if they were going to venture some capital. When Max first told Jordan she'd be helping him seduce investors, a shiver of pleasure ran up her spine.

"He's going to use me," she'd said. "I won't even know the men. He'll just hand me over and expect me to satisfy them."

I didn't need to ask how she felt about that arrangement. The excitement was plain on her face.

"You like that idea," I'd said.

There were other women at the party and some of the guys would pair off with them, but Jordan was the main attraction. They all thought she was with Max and they all wanted to fuck the CEO's gorgeous wife.

But, like I said, she wasn't his wife. She's mine.

Max engaged an older man in conversation and Jordan took that opportunity to drift closer to me. I was supposed to be one of these bigshots too so it made sense she'd at least say hello. That dress showed off everything without showing anything. A dozen hungry male eyes watched her cross the room.

"There's no reason for you to be here," she murmured.

"Max loves his little torments," I replied.

Our eyes met. She grinned.

The truth is both Jordan and I love a little torment. Maybe more than a little. Since I spied my wife dancing with a stranger, we've made a lot of interesting self-discoveries.

"That makes me the prize," she said. "He dangles me in front of all you men, including and especially you, and I see the want. I see how you all desire me. I like it."

"You *are* the prize."

She pretended to laugh at a joke I'd made.

"I wasn't supposed to tell you this," she said, preparing to move on, "But you'll be on the receiving end of a blowjob tonight."

My eyebrows rose.

"Every man here will get one," she said.

She floated away to flirt with the next man and I pretended to check my phone. I watched her move around the room, the perfect hostess, teasing with her words and promising with her eyes. Some men had already paired with other women but most wanted Jordan. After a while she left the room and Max moved to the center.

"If I can have everyone's attention please. The night's about to get a lot more interesting. Please follow me to the next room."

He headed down a hallway which led to a red door. Inside, a canvas tarp cut the room in half, floor to ceiling and wall to wall. Four holes dotted the fabric, evenly spaced but varying from two and a half feet to three and a half feet from the floor. Someone had done a fantastic job painting beautiful nude women of every color on the canvas. A dozen of us filed into the room, sipping drinks and milling about. On some silent cue, four lovely

mouths, each adorned with deep red lipstick, appear in each opening. Lips softly parted and tongues extended in clear invitation.

"Bloody hell," an older gentleman next to me breathed.

I knew in my heart one of those mouths belonged to my wife.

"Gentlemen," Max said, smiling. "Enjoy."

He waved a hand, beckoning us to partake. All around men quickly unzipped, freeing penises in various stages of engorgement. I rapidly studied each mouth presented, trying to determine which was Jordan. I made my best guess, joined the line, unzipped, and pulled my dick into open air.

One by one up and down the tarp, cocks slipped into warm, wet, sucking mouths. I wasn't sure which one was Jordan but I knew with certainty she had a dick in her mouth at that moment. I began to fill and swell. I sent my gaze up and down the wall. Four men leaned in, pelvises glued to canvas, lip-biting pleasure on their faces as Jordan and three other women sucked the life from them. My wife knew another man waited behind the first, and another after him.

Did I guess right? Would she recognize my dick? I doubted both. There'd been too little time. The man at the front of our line was already breathing hard and convulsing.

I began stroking. I wondered which of the many women at the party tonight had been selected for this task. I tried to remember them.

The man ahead of me moaned and his legs began to shake.

I knew wherever she was her pussy was drenched right now. Hell, she was probably masturbating. I pictured her behind that thin wall, down on one knee, finger desperately rubbing her clit while she sucked off one anonymous cock after the next. I groaned imagining the sperm flowing into her belly.

Another self-discovery I've made is the delight I get from my wife handling another cock. We've had numerous sessions with Max. He loves the control he has over Jordan and me and he's revealed just how big a slut she truly is. I've seen her take his cock out at the opera. I've seen her fall asleep, like a baby with a pacifier, with his cock in her mouth. She's always in the mood for him. Even when she's not in the mood at all, she's still in the mood for him. I have a hundred pictures in my phone of her with a cock in her mouth. Better than that, I have a thousand memories of her with him, that thick cock plunging, her moans and squeals embedded in my mind. I've

seen and heard her orgasm so many times on his cock if I so much as think about it for a second I start to get hard. I've almost forgotten what her pussy tastes like without his cum in it.

Chapter 2

Erin sailed through the front door, kissed my cheek and gave me a quick hug, then dropped her Dior purse on the kitchen counter and flew up the stairs. I heard Jordan call down, asking if our lovely daughter had arrived. Erin wore a thin multicolored Versace dress to go with her expensive designer bag. I couldn't help but notice her firm tits bouncing freely beneath the diaphanous fabric. This was the biggest I'd ever seen them. I wasn't checking out my daughter but one couldn't help but notice. Erin's wardrobe had been slowly changing over the last few weeks, showing more skin as her body developed and she realized her power. She'd gained confidence and poise.

As her father, I was happy to see the change. Her teen years had been rough. She has a small mole near the corner of her mouth and at fifteen she'd asked for surgery to remove it. I told her those are called beauty marks and to look up a model named Cindy Crawford first. That changed her mind. Erin started calling it a beauty mark too and even nicknamed it Cindy. Her whole attitude changed.

But, as her father, I know young men and when she displays her sexy body like that she makes me uncomfortable. Fashion has changed a lot since my youth and girls just show more skin these days but sometimes I wanted to say damn, Honey, put more clothes on.

In the time since I discovered Max was also fucking her, I never revealed the truth to my wife. Erin continued to blossom, filling out her clothes more every day, and I sat on my terrible secret, knowing one man enjoyed both the women in my life. I should have said something. I know that. The reason Jordan gave in and fucked Max was to spare our child from his clutches. But we'd been too late. Max had lied. He was already fucking Erin with no intention of stopping. Once I kept that truth from Jordan I made myself subject to blackmail and every day I delayed made it worse. So much time had passed now I dared not share the truth with my wife. She'd be crushed I'd lied and would need a long time before she trusted me

again. Once I started down this path I was forced to follow it, until the day Max finally got bored with us and turned his attention elsewhere.

What kind of ego rush was it for him to own the mother and daughter, with neither knowing? Stack on the fact the husband and father *did* know and was powerless to say anything. I bet his big cock was hard all the time.

Chapter 3

Jordan said nothing as she sat next to me on our couch. She'd just gotten back from the gym and still wore her yoga pants and sports bra. She was a knockout before, big tits on a slim body, but now she turned every head. She'd firmed up all over but lost nothing off her breasts. She'd let her hair grow these past months and dressed sexier than ever. All fringe benefits, I told myself, of our new risqué life. She threw her legs over my lap.

"Rub my feet," she pleaded.

I removed her shoes and socks and got to work, concentrating on the game I'd been watching. The Saints were crushing the Colts.

"How was your workout?" I asked, absentmindedly.

"Vigorous," she said.

"That's nice. Make any friends?"

She didn't answer. Not vocally. I felt her body shift and saw her sports bra fly across the room. Gorgeous tits stared me in the face. A coy smile turned her lips.

"Busy?" she asked.

"Never too busy for you," I said.

I grabbed her stretch pants and pulled them off along with her underwear. She curled her ankle behind my head, making clear what she craved. I hit pause on the television and she laughed.

"So romantic," she giggled.

I kissed up her inner thigh and then all around her sweaty pussy. She kept it smooth and bare these days, Maxwell's request, and I soon zeroed in on her slit. She sucked air. I flicked her lips with my tongue and she pulled my head with both hands, eager to feel me lick. I wiggled my tongue all over and then stiffened and pushed in. She gasped loud and then moaned

and I immediately knew why: slippery, tangy, hot and wet. She'd never made it to the gym.

"Who fucked you?" I asked, slightly pulling my mouth away.

"Maxwell..." she exhaled. "I was forbidden to tell until you tasted him."

I was not surprised. Max had begun these little mind-fuck games weeks ago and Jordan seemed to love playing along. I was annoyed at first but I always got hard. Really hard. Jordan asked if she should refuse but I told her no, go along with whatever he wants. I'll get a photo sent to my phone or answer her call only to listen as she moaned in the background, obviously fucking. I get jealous but I never get mad. Our sex life is astonishing. Spicing things up like this keeps us on our toes.

She lifted her used pussy towards my mouth again, yearning, her expression hopeful. Maybe you can resist offered pussy but I cannot and If I'm honest, I've come to crave the taste of her sluttiness. I've come to savor my little surprise discoveries; a foreign taste in her mouth after a late night at work or a pussy far too wet to be all her own juices. Usually it's Max but he's also instructed her to service occasional strangers before returning to my arms. Our sex life is an avalanche forever racing down the mountainside. We're voracious. After these little escapades Jordan gets home hungrier for sex than I've ever seen her. I'm between her legs eating Maxwell out of her pussy and yet I feel like I owe him a big thank you.

"Right there," she breathes as my tongue drags her clit. "Make me cum."

I focus on her tiny nub and add my fingers to her G-spot, rubbing the bumpy flesh until she's breathing hard and whimpering. She's wildly wet and dripping and the sounds of her sloshing pussy excite us both, indisputable evidence she was a naughty wife earlier tonight.

"Close..." she whines, and I flick my tongue faster. "Almost..."

Her pussy walls are tightening around my finger and I know Max felt the same thing around his thick cock just an hour ago. I lick her used pussy with renewed passion and she grips me, gently pulsing as her orgasm climbs. She clamps her teeth on her bottom lip and groans and her vaginal walls clench my finger.

"Fuuuuuuuuuck," she moans, filling her fists with cushion and lifting her hips, driving her cunt into my mouth and eager tongue. Her head tosses and she growls, seized by the fierce climax.

I try to imagine the rush of having your cum-filled pussy eaten by your loving husband. How many taboos does that break for a loving wife? How dearly must your husband love you to do such a thing? I try to understand her wicked desires, but only catch a glimpse. Only another married woman could fully appreciate how decadent Jordan is in this moment.

Her knees rise and her pelvis tilts. Her thighs close around my head, squeezing. She's cumming hard and I'm lapping up every drop. I attack her slit and she grabs my hair but I hang on, slamming her orgasm into high gear.

"Oooooooooooooohh," she wails, flinging her head side to side. "Fuuuuck!"

I admit I was too rough. Her sensitive nerves jolt her body, sometimes more than she can take. She claws at my head but I continue, whipping her clit until I have her on the verge of screaming. I was taking her back, reclaiming her with a show of power. I was in control. I decide when we stop.

At last she came again, a strangled cry deep in her throat. I slowed and let her relax, watching her melt into a puddle on our sofa.

Chapter 4

Jordan and I were on our way to watch *The Rise of Skywalker*. We'd been riding in comfortable silence for a while, Jordan holding my hand. Erin was home, meaning our place, studying, meaning texting with friends and occasionally glancing at her schoolbooks.

"You know," Jordan said. "Having a rich boyfriend with a big cock makes me want to show him off. Maybe I should open a Twitter account and post pictures. I can hide behind sunglasses or something. I just want the world to see how well I scored. I want people to know."

My knuckles turned white on the steering wheel.

"What the fuck do you mean, *boyfriend*?"

"Isn't he?" she asked. "We make plans and go on dates. We talk and text and email. Of course, we also fuck a lot. A *lot*. Doesn't that sound like a boyfriend?"

My guts churned. Logically she was right but that word lanced right through me like a white-hot skewer. My beloved wife has a boyfriend? A

boyfriend? Fucking hell.

"Should we go back to how things were?" she asked, reading my face.

"What? Like Mike and Angela across the street? Not possible. All those couples seem small to me now. Their lives seem a little sad. This life is so much better."

"There are risks we've never discussed."

I looked at her. The dashboard lights illuminated her face and she looked gorgeous. It was just us going to the movies so she'd pulled her hair back and thrown on a sweatshirt but her eyes and lips looked amazing. She looked sexy. There was something in her gaze now; she carried secret knowledge of an illicit affair. She had a lover. That inducted her into a select group of women.

"What kind of risks?"

"I'm not that old, Alex," she said. "I can still get pregnant. We've been lucky."

An electric thrill raced through me. My balls tightened. My mouth went dry.

"Also," she continued. "We never know what Max has planned. That man has schemes. Who knows what ideas he'll come up with? Are you prepared for anything he might throw at us?"

That sent a thrill through me too although a little different from the first. I've never gotten a hundred percent comfortable with the little humiliations he played but I enjoyed them anyway.

"Alex, in the after-glow the last time I was with him, he hinted he might have my clitoral hood pierced. I had to look it up. Can you imagine me wearing a gold ring around my clit? I'm in the PTA for Christ's sake."

I *could* imagine it. Just like the ring I'd placed on her finger, Max wanted to mark Jordan in some way. My balls heated. Bad enough I shared my wife physically. Now he wanted to plant a mental reminder in her mind. She'd feel him down there all day, think of him constantly, even more than she already did.

"What did you tell him?"

"I told him to fuck off. Pierced ears are enough for me, thanks."

I smiled.

Road construction forced us into a detour and we soon found ourselves stuck in traffic. Jordan pulled out her phone and started searching

maps.

"Take a right," she said as we inched forward.

I turned the wheel and we pulled out of traffic, gliding between some warehouses. A few more turns and Jordan giggled.

"What's funny?" I asked.

"How about a walk down memory lane?" she said.

I gave her a puzzled look.

"Take the next left," she said.

I aimed west on Sahara. Several minutes later I pulled into the parking lot at Mel's House, a bar-slash-restaurant with a small area for dancing, which also happened to be the place I first saw Jordan dancing with another man. That moment started a chain of events which ultimately led to me watching her fuck someone else.

"Memory Lane, hm?" I mused.

"Where it all started."

We sat with the engine running, staring at the neon sign.

"Want to go in?" she asked.

"What about the movie?"

"Another time."

"What would we do in there?"

She pondered a moment. "We enter separately," she began. "You watch while I dance and flirt with other men."

"That's a Penthouse Letter."

"It's a good one though. I'll flirt, maybe kiss the sexy ones. Get them hard and grind on their cock through their pants."

"Then what? That won't be enough for you and most men won't like having the husband around."

She pondered again, smiling after a minute. She showed me her phone.

"Once I pick a guy, I apologize and say I must leave. I pretend to call a Lyft but actually I call you. I ask him to walk me out to keep me company. You pick me up and I'll get in the backseat and invite him in. You drive us around while I play. He'll never know you're my husband and this way you can watch."

Her plan was brilliant.

"I think this might work," I admitted.

We kissed and I watched her cross the parking lot. I waited fifteen minutes because that was all I could stand, set my phone to vibrate, then followed her inside. She was already dancing. She'd removed her sweatshirt to reveal a wife beater beneath. Her big tits were braless because it was supposed to have been just a trip to the movies. With that body, jeans and a tank top are a great look for her. Men all around the place stared. I took a seat at the bar.

Half a dozen women were pissed at her within ten minutes. She sucked all the attention. She laughed and danced and refused no man. Grabby hands roamed all over and a few bold men even brushed her full tits. Her glances cast my way had me stiff in my pants.

The evening wore on and Jordan slowly shrank her pool of men, gently declining offers until she had three hot guys on rotation. Each slow song was a visual treat as my wife glued her body to theirs, rubbing against them. She slipped a hand down to size them up, squeezing their erections through their pants the way she liked to do.

Her final choice surprised me. He was young, blonde, taller than me, and skinny. He laughed easily and often but I suspected that was not the deciding factor. She stayed with him through several songs and then returned to his booth, meeting his friends and sharing a few drinks. When she reached for her phone, I slipped out the door to the parking lot.

I started the car and waited for her text. I lacked the glowing sign on my dashboard but what man would care? Her text arrived.

I'm so fucking horny.

I waited a few minutes, aiming my rearview mirror at the backseat and turning on the dome light, then texted I was on my way. I left the lot and drove down the street, made a U-turn and returned, approaching the bar just as they emerged arm in arm. He kissed her on the mouth and my heart skipped. I drew next to them.

"Lyft?" I said through the open window.

"Thanks," Jordan giggled, opening the door and climbing in the backseat. Blondie followed and then we were off.

Their kisses were intense. I might as well not have existed. They were already in their own world. Jordan was into him. She held his face and I knew their tongues played. He pulled her top, freeing one big tit. He hefted it in his palm.

"Gorgeous," he said. "Just like you."

"You should see the other one," Jordan teased.

He lowered his hot mouth to her nipple. She moaned and met my eyes over his head, then winked at me.

"Take your cock out," she told him, looking at me. "Let me see it. I've been squeezing the thing for an hour."

"You take it out," he mumbled around a mouthful.

I sat up to watch Jordan's fingers fumble at his zipper. Her hand disappeared inside, then reappeared wrapped around a fat sausage. He was circumcised but the sheath of skin was so loose it covered his head when she stroked. He filled her hand, thicker than me by far.

"I need to suck this beauty," she said, squirming in her seat.

"Not yet," he said, pinning her. "First I get to enjoy you. I can't wait to see you naked. You had all the guys staring."

He pulled her top over her head and then got to work on her jeans. She helped and a minute later my wife was nude in the backseat of our car. He pinned her again and forced a finger inside.

"I knew you'd be drenched," he bragged. "You wanted my dick from our first dance. You couldn't keep your hands off it."

"Ungh, I did," she said. "I almost got us kicked out."

"I'd say your husband's a lucky man but here you are with me so I guess he's a sucker instead."

"Jokes on him," she moaned. "Imagine knowing your wife is cheating on you. Keep your finger moving."

"If he files for divorce I'll marry you. You're unbelievable."

"You're sweet," she breathed, succumbing to his finger.

Her eyes closed and the young man kissed her long neck and full breasts. Jordan lay there, soaking up his attention and lust. His arm moved in a smooth, strong rhythm and his nibbling lips traveled all the flesh he could reach. Jordan slow stroked his hardening dick, lost in the erotic moment.

"Okay," he murmured at last. "Now you can put my cock in your mouth."

Her eyes opened, filled with rampant desire. This young buck knew the right way to handle her. He leaned back to get a perfect view and Jordan dropped her head to his stomach, kissing a trail to his cock. She flipped her hair to give me an unobstructed view but he didn't notice. Her eyes hit the

mirror, locked on mine, and she opened wide, a fat new cock about to slide across her wet tongue. She smirked.

The light was dim but enough to see the rigid veins lacing his shaft. Young cocks get so hard. The head was plump and purple and Jordan teased me with it, holding her mouth open over the tip. She moved her hand to the base to display his length and I quietly freed my dick, acting like I was oblivious to what happened in my own backseat. My skin felt extra sensitive as I wrapped my fingers. Jordan looked so sexy.

Blondie pushed on the back of her head. Her eyes flared in surprise as his cock entered her mouth. My wife had chosen this guy from all the men in the club and I knew size played a big part. His cock had brought him to this moment. Jordan closed her lips around his flesh and sighed, her cheeks denting suddenly as she sucked hard.

I began a light stroke, eyes on the road only as much as required. I'd not seen Jordan with a new man for a long time and the freshness added extra excitement. For her too. I saw it in her eyes. I watched her tight lips work lower, taking his inches. Her palm cupped his heavy balls. Blondie forced her head down again and Jordan groaned at his aggression.

"Your husband's a lucky fucker," he grunted. "You can suck dick."

I stared at the spot where his cock vanished between her lips. His skin was wet with drool, his balls dripped spit. He owned her mouth and a surge of adrenaline set my skin tingling. Soon she'd climb on his lap and guide his cock into her body. My heart ached at the inevitable. Jordan forced more dick until it tickled her throat. The young man glanced at the mirror, caught me, and grinned.

"Maybe you can get some of this too," he said. "She's horny as fuck."

Jordan pulled his cock from her mouth, speaking before I could.

"No," she said. "He's not my type. He can watch but no touching."

Blondie shrugged. "Sorry, Bro."

I gave a disappointed head tilt and watched the road. Jordan's little dagger twist had my dick hard as glass. These games we play were not for the weak-hearted.

After a moment, I checked the mirror. They were kissing as Jordan stroked his dick. His hand played with her large breast. She lifted her nipple to his mouth, which brought her slit dangerously close to his cock, then lifted higher, aligning her hole with his spear. My mind took a snap-shot. He was

so close the tip brushed her labia. Jordan wrapped her arms around his head, pulling his face between her tits, and glanced over a shoulder at me. Her hips sank slowly. His cock head rubbed her opening and then forced the labia apart, sinking half an inch into her.

"I have a condom," I heard his muffled voice announce.

"Good," Jordan replied, relaxing her legs and allowing her weight to carry her down his shaft.

I had to stop jerking or risk shooting my load. Even with protection available, my wife chose to take him bare. What can be sluttier? He pulled her ass cheeks apart and I saw her little sphincter clenching over and over, each time her pussy tightened around his shaft. She was milking him, gripping his young solid inches. Jordan ground her hips to the base, every inch of his cock buried. She groaned. His meat felt so good inside.

I knew he was burning this moment into his memories forever. I knew he'd never forget the night some cougar picked him from the crowd or her snug cunt wrapped around his dick.

"I think you're bruising my liver," Jordan panted.

"I'm gonna knock you up," our new friend growled.

Jordan's eyes got big and I clamped my jaw on a gasp. Her hips froze for a heartbeat and then she grabbed his face and kissed his lips, slamming her pussy all the way down. He forced her even lower, engulfing that final inch.

"Do it!" Jordan barked. "Oh God. Try."

My heart exploded.

She circled her hips, grinding her clit against his pubic bone and stirring her pussy. She lifted and slammed down again.

"Aaaagh!" she cried, an orgasm shaking her.

"Fuck yeah," he mumbled, taking her climax to be permission, which it was.

He thrust upward, short hard strokes pounding her cervix. His balls tightened and then he gripped her waist, fingers denting her skin. Hard grunts told me he was ejaculating. When the first milky drips leaked, I looked away, heart racing. His sperm was swimming inside her, seeking her egg. Her earlier comments about risk came back with a roar. I was hard enough to spurt with a single touch.

"Driver," she exhaled, breathless. "Never mind. Take us back to the club."

"I want to fuck you all night," he whined.

"Early day tomorrow," she lied. "I'll give you my number. Raincheck."

That satisfied him. I spun the wheel.

Chapter 5

"This sucks," I said.

Jordan chuckled. "At least this time you know a lot of people. You'll have someone to talk to."

I made a face at her. She wasn't being helpful. We once again found ourselves summoned to a party at Max's penthouse. I've long suspected Max had other husbands under his thumb but he was always careful to keep work life and private life separate. Not tonight. Tonight, he had a handful of Chinese officials looking to invest and he knew those guys get off on power. Max had invited every cuckold couple he owned to the party and informed the delegates they'd be fucking married women in front of their husbands. The officials fell on our women like lions.

"There's Mark from accounting," Jordan said. "And Brian from sales. You guys love talking sports. Go say hello. You can hold each other's hands until this is over."

I met her gaze. She was having way too much fun with this. I've still never gotten used to the idea of handing her over to Max but at least I could hide behind anonymity. No more. All of us husbands looked around at each other, dismayed our secret was out. I was surprised how many of us there were. Max is a predator. Office life would never be the same.

Double doors opened across the vast living room and Max entered, several Asian men in suits following. My boss gestured to all the lovely women and spoke Mandarin and the officials grinned. Max continued, pointing to each husband and each wife, one after the other, and the smiling men snickered. I don't know what he said but I assumed he was telling the men who was married to whom, then he called each wife by name to come join him. Jordan gave me a backward glance and left my side. Surrounded by our wives, Max told them to strip and accept the advances of any man present.

"Except your husbands," he announced. "Their surprise comes later."

Brian caught my eye and moved closer.

"I've always wanted to see Jordan naked," he admitted. "But not like this. I had no idea Max was blackmailing you too. Brenda hates him but does what he says."

"Jordan loves fucking Max," I confessed.

Brian took a drink and turned to watch. The officials were undressing and our wives helped them out of their clothing. There wasn't a man over six feet tall and none of them had a dick that hung past their balls.

"Brenda does too," he conceded. "We got into financial trouble and Max gave us a huge no-interest loan with no payback date. How'd he hook you and Jordan?"

"I saw him on a date trying to seduce our daughter, Erin. I told Jordan and she offered herself if Max would leave Erin alone."

"Did he?"

"Yes."

That was a lie but I couldn't risk the truth. Brian could tell Brenda and then that would get back to Jordan. Samantha, Mark's wife, sauntered to Max and helped Brenda and Jordan undress the man. His cock was as impressive as always and a few Chinese men pointed at it and laughed. I would have laughed to if I didn't know what came next. Max hefted his dick and our wives leaned over to suck him at the same time. Brian groaned in misery.

"I'm never around to see what goes on between them," he murmured.

His face was a grimace of anguish. Brenda kissed the tip of Maxwell's dick and slipped the head into her mouth.

"That's horrifying," he added. "I'll never un-see that."

One by one our Chinese guests selected a woman and moved to the couch or loveseat. A few disappeared down the hall to the bedrooms. I knew one of those rooms had a canvas wall set up with a series of holes about crotch level. This would be the "husband's surprise" Jordan spoke of. Brian and Mark and my other colleagues had never attended one of these parties. I considered telling them what was in store, just to ease their pain, but decided to let them discover things on their own. I wanted to avoid looking too familiar about Max and his ways. At least they'd get a blowjob out of the evening. Samantha lifted Max's ball sack on her palm, displaying the full, heavy orbs for Brenda and Jordan.

"Prize bull stud," Jordan teased.

The women giggled, husbands forgotten. Brenda kissed the man's testicles and Max rested a hand on her head. Jordan shocked me by turning to Samantha and planting a sensual kiss on the woman's mouth.

"Whoa," Mark muttered. "That's hot."

"Is Jordan into women?" Brian asked.

"Not that I know of," I said.

Samantha palmed my wife's big tit and gently squeezed. Max stepped back, guiding Brenda's mouth to his cock head, and then nudged Sam and Jordan closer. The women closed and began kissing and running their hands over each other's bodies.

"Jesus Christ," Brian said.

"Yeah," I agreed.

We'd all known each other for years, in the way coworkers know each other; attending countless office parties and company events. We'd celebrated birthdays and anniversaries. I knew the other husbands looked at Jordan with lust. It's impossible not to. But what was happening now right in front of us was a huge leap forward. Jordan sank to her knees and wiggled her face into Samantha's crotch. Each of us gasped. Sam rested her hands on Jordan's head to balance and closed her eyes, savoring the sensation of a woman's tongue licking and sliding. Max watched too, his hand still guiding Brenda up and down his swelling cock.

"Brian," Maxwell said. "Come over here. Hold Brenda's hair so I can see my cock in her mouth."

Ouch. Brian hesitated but then did as ordered, gathering Brenda's hair into a ponytail and holding it. His hand bobbed in time with her head. After a few minutes Max spoke.

"Force her deeper," he told Brian. "Make your wife gag on my dick."

Brian looked sick but Brenda could barely contain her lust; nostrils flared, eyes squeezed shut. She'd slipped a hand down to finger herself. I wondered what effect this night would have on their sex life.

I looked around the room. Asian men lounged around the room being serviced. All the husbands had sour faces but only a few women did. Most were happy to give Max what he wanted.

"Jordan," Max said. "That's enough pussy. Both of you get over here and help Brenda suck my cock. Three at a time feels amazing."

Sam seemed to return from someplace far away and I wondered if Jordan had made her cum. They joined Brenda on her knees and my wife opened wide to suck Max's entire scrotum into her mouth. He gasped. Her cheeks bulged and Brian looked at me, waiting for my reaction.

"You husbands get naked too," Max ordered. "I want everybody showing what they have."

We undressed slowly but soon everyone in the room was nude. Brian kept his arms in front and Mark nervously scanned the room. Neither had anything special so just stood around awkwardly. Max enjoyed their discomfort. We watched our wives pleasure his big prick and waited for the next command. I think he planned on waiting longer, drawing out our torture for his own amusement, but the wives knew what they were doing. His grunts and gasps became louder and more frequent.

"All right," he said, pushing the women away. "Let's give the husbands their surprise."

He whispered in their ears and they trotted off. He gave them a few minutes and then we followed him down the hall and, as I suspected, into a large bedroom which had a canvas wall dividing it with small holes strategically placed. Red lips protruded through each opening, patiently waiting.

Brian and Mark lit up. They were troubled by their wives being used but here was a blowjob all for them, and the odds were they'd score someone other than their own wife, possibly even Jordan.

"Take your pick, gentlemen," Max instructed. "Any opening you wish."

I tried to determine which mouth was Jordan's but honestly, they all looked too similar. The heavy red lipstick made them uniform. I hurried to hole number three because those lips looked faintly familiar. I wanted to get there before someone else did. Max was bad enough. I don't want coworkers sampling Jordan's skills. I stepped close and aimed my bouncing penis at the waiting mouth.

I was eagerly sucked in.

This was not Jordan.

Jordan is amazing at sucking cock but whoever this was surpassed her. Whoever this was created an intense vacuum which pulled my semen up and at the same time spun a whirlwind tongue around my head. I grunted and stumbled, pushing my dick deeper, offering my balls through the hole

which were quickly fondled. I was in heaven. My hips began thrusting with no thought from me. I easily reached the back of her throat and she held me there, tongue snaking out from below to batter my nuts. A hand awkwardly pushed through and a wet finger pushed up my asshole.

The pleasure was savage. My mind exploded. This expert cocksucker had my sperm boiling in minutes. I had no control. The relentless pull from her suction and severe tongue lashing would have pushed me over the edge soon enough but that pumping digit massaging my prostate was fantastic. She'd rub my gland each time she took the length of my dick and my legs went weak. I struggled to remain standing.

I could no longer hold back. My load was surging whether I was ready or not. I've never experienced anything like it. I let go and released, my balls clenching and my asshole throbbing. A massive blast of hot cum shot out of me and down that hot wet vacuuming pipe. I moaned loudly, looking down as the next surge boiled, racing from my balls. Those red lips were sealed around my hard shaft, ferociously gliding and sucking.

That's when I saw the birthmark.

Right there at the corner off her mouth.

A tiny mole, hidden by ruby lipstick.

I was too far gone to stop.

My mind reeled. A second blast of cum exploded, combined now with my awful suspicion, and scintillating sparks raced over my skin. My balls contracted again, forcing a gush of hot sperm into the waiting mouth. My mind screamed but the Devil inside laughed. I fired again and then again, pumping out massive loads of white-hot cum, my orgasm fueled by a wicked and decadent lust. That goddamn mouth kept sucking and swallowing, drinking the river of semen I was giving. I laughed maniacally and squeezed my eyes shut, too shaken by the horror but unable and unwilling to stop. Over and over and over I blasted every drop I had, more convinced by the second the taboo I smashed was real.

Only when my penis began to deflate did she break the seal and allow me to slither from her mouth. I staggered backward, breathless, waiting for the crush of shame and guilt which must surely come.

The rest of the night was a blur, a crimson haze floating in my brain. I wandered aimlessly, still feeling those highly skilled lips caressing my inches. My balls ached from how hard I'd ejaculated. I remember watching Jordan bent over a table and three Asian men in a row fucking her from

behind until emptying their nuts. I remember Max seated in a plush chair, Jordan on her knees, sucking at his altar until he held her head and shot into her mouth. His final jets of semen he shot on her face.

What would I tell my wife? Did I dare share my suspicion? Jordan still did not know Max was fucking our daughter. To raise one subject was to reveal the other.

I dared not.

Lastly, I remember Brian and Mark finding me in the living room, sitting to either side, watching their wives passed around as I watched mine.

"You seem so calm," a clearly shaken Mark said. "Have you done this before? You watch Jordan like a hawk, like you're trying to memorize every scene."

I'd been caught. Before I could manage a lie, Brian chimed in.

"I think Alex likes it, Mark. Jordan looks so sexy. I think Alex can't look away, even if she is fucking another man."

I let it go. We returned our attention to the pile of bodies on the floor. Brenda, Sam, and Jordan were climbing all over three men, sucking, fucking, teasing. They'd bring a man close and then turn their talents to another man. Finally, Jordan rolled onto her back and spread her legs. Mister Chinese official hurried between them and slid his cock deep. My penis started to rise. Mark and Brian noticed.

"That's what I thought," Brian said.

It was just after three in the morning when Jordan returned to me. She suggested we go home but I asked to find a bedroom and stay the night. If I was right, we'd return to an empty house and that would require another chain of lies. Jordan was incredibly horny as we slipped under the covers but my penis was done for the night. She hinted and pleaded and hit me with those big eyes so I slid under the sheet and used my mouth to get her off.

She came *hard*.

Chapter 6

"Danny?" I said, dumbstruck. "Danny? From university?"

"That's the one," Jordan calmly replied.

We were driving down the interstate to visit her parents for Christmas. Erin had stayed at our place to finish a school project.

"Max says you have to fuck Danny?" I asked.

"And send him pictures."

"Why?"

"Who knows? Max does what Max wants. Probably to mess with my head. Danny and I did not part on great terms. Now I'm expected to seduce him."

Her words burned a hole in my stomach. I'd occasionally heard Danny's name over the years but the stories were never good. He'd cheated on Jordan and that ended the relationship. They'd dated her sophomore and junior years and the breakup was a large part of why she and Kilani and Tressa embarked on their wild senior year.

I slammed my hand on the steering wheel. "Fuck!"

Jordan jumped. "Are you jealous?"

"Hell yes!"

"Danny means nothing, Baby."

"Danny means *something*. How does Max even know that name? You said something one of the times you were with him. What did you say?"

Jordan looked at her hands resting in her lap. I waited.

"About six months ago," she admitted. "He demanded I stop by his penthouse after work. We had sex and after I told Max he was amazing in bed, best lover I'd ever had. He asked who was in second place. Not emotionally connected like me and you but just raw fucking. Hot bodies and passionate kissing and crazy desire."

"And you named Danny."

"Yeah. Danny drove me crazy but the sex was great."

"Hot body? Big dick?"

"Pretty big, yes."

"I knew it."

Jordan turned sheepish.

"Well, it makes a difference. A girl can't have mind-blowing animal sex with a little dick. I don't care how ripped or handsome the guy is."

I've never come so close to revealing my lie. Jordan still believed we followed Max's orders to keep Erin safe. I knew Max didn't give Jordan this task to mess with her head. He did it to mess with mine. He was trying to break me, get me to confess everything. I bit down hard.

"You know Danny still lives in your home town?"

"Yes," she said. "I checked his Facebook page."

"And told him you wanted to see him."

Guilty pause.

"Yes."

"Fuck."

"I'm sorry, Alex. Max is a bastard."

I was fuming. Never mind that my wife told Max he was the best lover she'd ever had. I'd bring that up later. I was steamed over this Danny bullshit.

"Any picture you send to Max you must also send to me."

"Okay," she said. "That's fair."

We drove in silence. Jordan was going to fuck her ex and that turned my head inside-out. Anonymous sex with strangers was so much safer, so less entangled. Jordan has feelings for Danny. Jordan would remember more feelings once she was around him. I was worried and anxious. This guy meant something to her.

We arrived at her folks and unloaded the car. We spent that night and all the next day eating, drinking, and catching up. They wanted to see every picture of Erin we had and were thrilled to hear of her scholastic successes. We sat up late, talking, then slept in the guest room. At breakfast the next morning Jordan's phone chimed and she excused herself from all of us.

"Work," she explained.

I pretended to use the bathroom and crept close enough to hear her talking to Danny, discussing schedules and making plans. I was in the kitchen again when she returned. We shared a glance and my expression told her I knew. As soon as we were alone again she explained.

"There's a dive bar out by route sixty-seven," she said. "Country music. I'm meeting him there at eight tonight. What are you going to do?"

I'd already made my plans.

"I'll be there at seven-forty-five," I said. "He doesn't know me. I'll keep an eye on things."

"You're worried?"

"Of course I'm worried."

"We'll have a drink and then I'll suggest we leave for his place. You can't come. You know that, right?"

"I know. But I want to be as involved as I can. I hate this."

"Me too," she said, unconvincingly.

Bullshit, I thought. I saw eagerness in the movements of her hands, the darting of her eyes. She was nervous and excited and I wondered if this had been Max's idea like she said or if Jordan had asked for the assignment. That thought hit me hard. Then it occurred Jordan could do anything with any man she wanted and blame it on instructions from Max. I wondered if she had already. I made a mental note to watch her for signs.

The day with her folks passed slowly. I chewed my nails and listened to my stomach churn, my mind filled with nightmare images of a sweaty Jordan tossed around a bedroom while Big Dick Danny pounded her from every angle. I was taken back to our early days of playing, a fledgling couple experimenting with what excited us and what did not. I'd learned some painful lessons in those days, watching Jordan select a man for sex and then living with her choice. I discovered strangers were much less threatening and that was the route we took until my boss, Max, came along. I hated his power over me but he's married with kids. He was never a real threat. A challenge to overcome, yes, but not a threat.

Danny was a threat.

We told her parents we were going to hang out with Jordan's friends that night and would most likely stay with them. We rented a cheap little Budget Suite room for Jordan to get ready and me to have some place to go after the bar. No way could I go back to her parents' house while she was with Dan. I sat on the foot of the bed and watched my wife curl her hair and shade her eyelids. Pink lipstick to complement her tight green dress. She checked herself in the full-length mirror, frowned, then reached through a sleeve hole and removed her bra, smoothing the thin fabric over her luscious mounds.

"Better," she stated. "No ugly underwear lumps."

"I can see panty lines," I said, sarcastically.

She turned her hips side to side.

"You're right. Hang on."

Up went the dress and down came the underwear. Me and my big mouth.

"Hopefully I won't leave a wet spot," she added, punishing me for my cynical comment. She smoothed the dress in place again. My eyeballs ached. She's a sexy woman but when she tries she looks spectacular.

All for another man.

All for Danny.

Fuck.

She looked incredible but I was too anxious to get hard.

"Green is Dan's favorite color," she added, unnecessarily. "At least it used to be."

"It will be again when he sees you in that dress."

She bashfully looked away.

"I'm almost ready," she said. "If you want to get there ahead of us you should leave now."

"Okay."

I grabbed my keys, wallet, and phone. I kissed her deeply. She kissed me back, passion already high, tongue forced into my mouth. I knew that tongue would soon be curling around a pulsing shaft. She broke off and stepped back, allowing me to see her head to toes. What a prize. Without speaking I knew what she was doing. She wanted me to see her, really see her, and grasp that tonight she was for another. A giant fist clutched my heart and squeezed. My dick twitched and began to fill. Why does this anguish make me hard? I turned and left the suite.

The drive to the restaurant was brief; Jordan's home town is small, and I took a corner booth to see the entire room. I'd continued to stiffen on the drive and now sat rigid and uncomfortable, waiting for my erection to go away. I ordered a drink.

Sometimes, I'm so stupid.

My phone buzzed.

Danny's car won't start, Jordan had written. I'm going to his place. Stand by.

Fuuuuuck.

Was this planned? Was this ordered by Max? Was Jordan serving me up a nice warm dose of humiliation all on her own?

I knocked back my drink and ordered another. I could throw a fit and say Danny had to Uber to the bar but why? So I could watch for thirty minutes before they left for his place anyway? I shifted in my seat, covertly pushing my penis to one side, and scanned the bar. Couples were hooking up all over. This place was the local meat market. On stage a band started play country music.

I was paralyzed with indecision. I couldn't go to her parents without her and I didn't want to sit in my car in the cold. My mood soured and I slumped in my seat. My phone buzzed a few minutes after my refill arrived

but I left it sitting on the table. I knew some visual Hell awaited me. After a few minutes, I caved and opened the message: Jordan's green dress laid across a bed, recklessly cast aside and forgotten in her haste to be naked. My wife was now nude in front of an old flame. I knew his eyes devoured her and I knew she welcomed his lusty gaze. I was startled when my phone rang: Jordan, taking a quick break to call her husband, or so I thought.

"Hi, Baby," I answered.

A soft gasp met my ear. Then another.

"Take it out," I heard her rasp.

"What's your hurry?" a baritone said.

"I fucking miss it," she said. "I want to see it."

"You want me to pound you into the mattress."

"Yes, that too."

The sound was clear and clean. This was no accidental butt-dial. Jordan had dialed my number directly and set her phone near the bed. Maybe she told him and maybe she didn't. Passionate kissing filled my ears. Jordan's soft moans and gasps, back in his arms at last. I heard her desire in every sound.

"You look amazing," he said, and I knew his eyes roamed her body. "You look better than you did. Your husband knows you're here? That's amazing too."

"My husband will be eating your cum out of me later," she joked.

"Holy shit."

"Yeah, it's our special thing. He loves finding evidence of my naughty behavior and I love feeling welcomed home. If your man will eat you after you've fucked someone else, you know he'll love you forever."

"I'm just glad you guys discovered this kinky shit. Lucky me. I still jack off to you and the videos we made."

What?

That made sense but I didn't like it. The thought had never occurred to me. There were possibly many men who had pictures and videos of Jordan doing nasty shit. My already-hard dick grew stiffer.

"Do you? That's hot. Show me one."

Silence drifted for a time. I heard a door close and distant voices drawing near. I heard rustling clothes and a zipper.

"There he is," she giggled.

"Did you know your phone is on?" Danny asked.

Uh oh.

"Yeah. Alex is listening. Is that all right?"

I heard a laugh like a bark.

"Fuck yeah. Let's send him a picture."

"Great idea."

The call ended and I looked at my phone, counting off the seconds. At forty it buzzed. I opened the message. A photo. He was soft but wide. His testicles looked huge. He was a pink snake resting on her open palm. The head lay several inches down her wrist. I groaned and closed the photo, hanging my head in my hands.

"Bad news?" the passing waitress asked.

"Yes," I mumbled. "My wife has to work late."

"That's too bad. Can I bring you something to eat?"

"Burger. Medium well. Fries."

"You bet."

I watched her walk away. She had no idea that somewhere in this small-town Danny was guiding his cock into my wife's warm and eager mouth. I doubted she'd swallow his load. I sensed in her tone she wanted every drop inside her. I was embarrassed Danny knew my dark pussy-eating secret but the shame only made me harder.

Another picture arrived but I decided to let them stack up. Constantly checking every time a new one arrived seemed pathetic. I ate my burger and listened as my phone buzzed over and over. Danny was enjoying himself. I finished my meal and ordered yet another drink and angled my shoulders to shield my screen.

Danny's cock looked red and angry, the head purple, the shaft crisscrossed with blue veins. Jordan fawned over the damn thing. She cradled his balls while she sucked and had both hands on him when she guided him home. He forced her hole wide, her pussy lips like pink taffy, her clit swollen and gleaming wet. She was soaked.

Max was receiving these photos too. Who knows what instructions he was sending Jordan? I bet Danny loved that element too; my boss giving Jordan orders. Dan was the beneficiary of Max's twisted imagination. I took a deep breath and surveyed the landscape. How did I get here? I sat in a bar waiting for Jordan to finish having sex with the second great love of her life.

Worse, lurking beneath it all was an image I'll never forget, an image of ruby lips sealed tightly around my cock, sucking with sublime skill and manic enthusiasm. That mouth had practiced a lot, and on a cock much bigger than mine. I prayed my dark suspicions were wrong but my gut told me I was right and that made me guilty of an unforgivable sin.

God, I needed to jerk off.

My phone buzzed and without thinking I opened the message. A video this time, not a picture. Jordan's pussy stuffed with a thick pulsing cock. The volume was up way too high and all those around me heard the unmistakable sex noises of Danny groaning as his cock twitched and spit, pumping buckets of sperm into my wife's womb. I quickly lowered the sound but it was too late. Nothing else sounds like sex. Faces turned all around to watch the pervert alone in the booth, eating dinner and watching porn on his phone. Fuck.

I hit play again. He looked thick as my wrist, deforming her petite cunt, forcing her to take his shape. His cock filled her, stretched her. Her arousal gleamed all along his length, shiny and wet. I noticed additional details this time; his big balls resting on her inner thigh, her excited clit so swollen it peeked out from under the hood. He growled over and over, shooting her full. I remembered our conversation about the risk of pregnancy and my dick, which felt like it had been hard for hours, expanded further. Everything about this lifestyle ran against what I'd been told all my life.

I hit play again, risking a little more sound. In the background, hidden behind his deep voice, I heard my wife's shrill whines. She may have been cumming as he emptied his nuts inside her. Just the thought of her old sweetheart erupting inside got her excited enough to climax.

I hit play *again*.

I watched that clip until I was in a daze. Intuition told me I'd not get another for a long time and I was right. I left the booth for a seat at the bar and watched some Golden Knights hockey. Over an hour passed before the next clip arrived: Jordan, on hands and knees facing away. Danny behind and filming down. His wet cock pummeled her pussy and his thumb pumped her tight ass. Jordan moaned constantly, growing louder as Dan fucked faster. The veins rose along his shaft and then he drove his meaty stake deep and growled again, pumping another hot load inside my wife. I knew those would be the only videos I received tonight. I suspected they

were sending far more to Max than to me, on his orders. All I would get were the moments of ejaculation, the moments Danny pushed balls deep and sprayed Jordan's insides with seed.

It was a long night.

The last clip, hours later, was Jordan in a bathroom, explaining in hushed tones because Dan had fallen asleep that they needed some rest but wanted more.

"I'm going to spend the night with him, Honey. I know that will be a knife through your heart and I'm sorry. I love you."

I hit replay on this one too, noting little details. Jordan's hair was a mess. Her lipstick smudged, her mascara runny. Her lips were puffy from sucking his cock so much. I heard in her voice how badly she wanted to stay. That was probably her idea, not Max's. There were some former girlfriends I'd love a night with but nothing like the way Jordan still felt about Danny. I'd saved my load in case Jordan returned to me and we raced to our Budget Suite but now there was no point. I might as well go back to our room and jack off.

My phone buzzed. This clip was personal, just Jordan in the bathroom, not saying a word. The shot started on her smiling face and slowly floated down, over her pink tits until reaching her spread legs. She sat on the toilet, knees far apart, showing me her swollen cunt. Milk dripped from her slit to the water below. Danny's milk.

Chapter 7

Yeah, I jacked off. Lord did I. I watched the videos over and over and that helped but what got me there was my imagination. Jordan was with Danny and it didn't matter if at that moment they slept or fucked or enjoyed a late dinner.

Jordan was with Danny.

Jordan was with Danny.

That poignant reality crushed me. I imagined them having every kind of sex but what tightened my nuts, what made my head explode and cum spray everywhere, was the knowledge that somewhere buried under all that lustful passion, Jordan was also making love. They knew each other. They have history. Their sex was dramatically enhanced because they weren't strangers and that dramatically enhanced my passion too. I came

hard picturing Jordan tenderly kissing Danny as he filled her yet again. God! It was brutal. The very foundation of our marriage trembled and shook but I got hotter than ever.

I masturbated five times that night. Five. At my age. The last two times I never even got hard. I jerked off until the juice ran out and my balls were empty. Danny did the same, I felt sure, but not a drop of his was wasted. While mine landed all over the sheets and carpet his landed in a welcoming sea of warmth and wet. Jordan would carry every oozing trickle back to me and then watch with obsessive fascination as I buried my face and tongue, bringing her to untold heights of orgasmic bliss. Or something very much like that.

A soft knock the next morning woke me. She'd forgotten her room key. I let her in and scrutinized every inch of her. She looked guilty as fuck, avoiding my eyes and flitting around the room. She finally settled at the foot of the bed.

"How was your night?" she asked, her voice shaky.

"Long," I said. "Painful."

"Did you jerk off?"

"Yes."

A fire lit behind her eyes.

"Did you jerk off watching those videos?"

"Yes, and using my own tortured imagination."

"More than once?"

Her confidence was rapidly returning.

"Five times."

She was in my arms before I knew it. She kissed me and cupped my dick through my pajamas. Her breath smelled like semen.

"How was *your* night?" I rasped.

"Danny can *fuck*," she admitted. "I've never been fucked like that. Sorry, Honey. That boy had some repressed emotions regarding me and last night he turned them all loose. I'm feeling tender and virginal."

"I think you carry some feelings for him too."

She met my gaze.

"I won't lie," she said, shrugging. "I do. I almost cried when he entered me again after such a long time. Max is a bastard to set me up like that."

"Did you send Max more pictures and video than me?"

"Yes, but just videos. He plans on sharing them with you at work. He loves that he possesses clips of me that you don't."

The burn returned to my belly but my penis was too tired to rise. Jordan stepped back and pulled her dress over her head. Her body showed signs of a night spent fucking. She sat again and spread her knees, eyes filled with hopeful anticipation. She opened her labia with two fingers. My mouth watered.

"I'm going to see Danny again," she stated.

I knew she meant for herself and not because Max told her to. I could fight her about that, and probably win, but if that's what she wanted, why would I? I hated the idea of her and Danny together. I never wanted him touching her again. But she knew that and wanted him anyway and God help me, that turned me on.

"Not often," she continued. "Just when I get that special craving."

She was teasing me now, poking fun.

"New lovers are exciting but there's something special about an ex, a familiarity that lets a girl relax and let down every defense."

I groaned softly and dropped to my knees. Her eyes flared with wonder. Would I do it? After Max was one thing but would I feast on her after Danny? She seemed to nod slightly, encouraging me. Her pink slit was still glittering wet. I groaned again and slithered my tongue between her lips. Her hole was steaming, slippery and sopping. Her deep moan sent my heart racing. I licked gently, teasing, coaxing, pleasing her in all the ways I knew she loved.

"His cock is like a cannon," she whispered, holding my head. "He got incredibly hard, like iron. I was thrilled he wanted me so much. I'd open my eyes while we kissed, shocked every time to see Danny before me and not you."

I licked faster, keeping my strokes soft on her raw pussy.

"He came too soon the first time," she admitted, "but I got turned on by that: Danny the stud, Danny the womanizer, unable to hold back because he was in bed with *me*. I wrapped my arms and legs when he tried to pull out, tried to stop his orgasm. No way. I grabbed him and clung tight, thrusting my hips and working that pole. I was hot for his cum. I wanted to feel him shoot after all those years."

I groaned again. She was killing me.

"He swelled like a balloon and exploded. I felt the blast hit my cervix. I pulled him all the way in for the rest. You have no idea what it's like to take something inside your body. Can you imagine? A man is *inside* you. More than that, you know he's going to leave some of himself in there. It's intoxicating. Stick a finger up your ass and multiply that by a thousand."

I eased a finger up *her* ass and that shut her up. She moaned loudly, clawing my head, and I attacked her clit, ripping a monster climax from her exhausted body. She sobbed, gasping, working her pussy against my flickering tongue.

"Say his name," I growled.

"Danny!" she cried. "Oh! Fuck! Danny! I want Danny to fuck me againnnnnnn!"

Her cry broke into a wail. Her hips convulsed and her head snapped back. I was merciless. A little hurt, a little angry, a lot turned on. She tried to scrambled backward but I held her like a vise, eating that faithless cunt until she came again, one piled on top of the other, screaming and clawing.

At last, I released her to crumble. I stood, a long strand of leaking precum drooling from my flaccid dick. Too tired to get hard, me balls were ready to give up what little they'd made. Jordan opened her eyes like slits and stared at my penis.

"Bring me that," she slurred.

I rested my dick in her open mouth. She sucked slow and soft, nursing on me before falling into a deep sleep.

Chapter 8

"The Danny thing was a little too far," I told him. "Have your fun but leave the serious emotional stuff out. Jordan has a history with him. You stirred up all kinds of trouble. You've complicated my relationship with Jordan."

Max leaned back in his chair, a panorama of the city out his office window. A slight smile curled the corners of his mouth.

"I saw you hanging out with Brian and Mark at my party," he said.

"Don't change the subject. Leave Danny out of this."

"I haven't."

He leaned forward.

"Do you know I've made both those men suck my cock?" he said. "I've fucked Mark in the ass. Thomson, who left the company and moved across the country, I made drink a cup of my piss. Are these things you want to do? Because we can change the rules right now."

He chuckled at my shocked expression.

"That's what I thought," he continued. "I'm a bastard, Alex. I know that. My therapist says I have sociopathic tendencies, but I have fun with it. I love the rush of bending people to my will. I can trade the mental torture for physical humiliation, if that's what you want. I can leave Jordan alone completely. But your ass will be sore."

He pushed away from his desk and unzipped, pulled his cock free and draped the thing between his legs.

"Start sucking," he said.

I didn't move.

"All right then," he said, leaving his dick resting on the cushion. "Remember I hold your secrets, Alex. I hold *all* your secrets. You want Jordan to know the things you've done? You want your lies exposed? You have your own reasons for keeping things from her but that gives me leverage. Imagine her reaction if I told her about Erin."

Alarms rang in my head. Did he somehow know what happened at the gloryhole? If he knew *that* horrible secret too I was truly fucked.

"Jordan will dance to my tune and you will follow," he said. "I'll get bored eventually but for now I own you. Understand?"

I was frozen. Did he know what happened? He saw which gloryhole I used. Did he know who was behind it? The probability seemed high. There were many ways for him to learn the truth. One hidden camera in his penthouse and I was exposed. I had to assume the worst. I nodded.

"Say the words," he said.

"I understand."

"What do you understand?"

"I understand you own me. Jordan too."

Bitter fucking pill.

"Good," he said, gloating. "Now take a look at this big cock. Remember it the next time you want to march into my office and give me orders and try to imagine how it will feel getting jammed down your throat or up your ass. Now get back to work."

I turned to leave, tail between my legs.

"Wait, before you go."

I faced him.

"Take a good look at my dick anyway. I'm going to call Jordan and tell her to meet me for lunch."

I couldn't stop myself. His cock rested on his leather office chair and I stared at the beefy thing. My wife would soon have that beast ravaging her in some way while I sat at my desk. How the fuck did my life turn out this way?

I returned to my desk and picked at my work. About two hours later Max left his office, telling his secretary he was headed to lunch. He gave me a wicked grin as he passed my work area. After that my concentration was shot. I did what I could, made some sales calls and followed up on a few items but my heart and mind were elsewhere. I opened a new window to visit Jordan's Facebook page, just because I missed her a lot in that moment, and saw she was now Friends with Danny. Terrific. I clicked his name to glance at his photos.

The last picture he posted showed he and Jordan holding glasses of wine and smiling at the camera. I recognized the outfit she wore from two days ago. She'd made good on her intention to see him again. They stood close enough their bodies touched and appeared to be at some work function for Danny. Jordan must have stopped by his place on the way home. She hadn't told me about this yet but we'd been so busy the last few days I wasn't surprised. I gazed at the photo, wondering if she sucked his cock before coming home.

My phone buzzed. A close-up of Max, hard as steel, Jordan's left hand circling the base, wedding rings sparkling. I knew what she was having for lunch. My balls tingled and tightened but I was many hours from going home. I dimmed my phone and got back to work.

Chapter 9

"It's good for your career," Jordan said, adjusting her skirt.

I glanced nervously around the restaurant.

"My career is shit," I replied. "As long as I stay with Max."

"Well I want to meet his wife anyway. I'm curious what she's like. He says she has no idea about his secret second life."

"Then why introduce us?"

"Max loves his little tortures."

She fidgeted with her skirt again. Beneath she wore a special pair of panties. Max purchased them for her and told her to wear them tonight. A vibrating surface in front was complemented by a vibrating post inserted into the vagina. Max controlled everything through an app on his phone.

"So he's flirting with exposure? He wants the thrill of doing all this in front of his unsuspecting wife? Jesus. That guy loves to fuck with people."

"Almost as much as he loves fucking," she said. "There they are."

I looked where she indicated. Justine was a petite blonde, pretty, big boobs and lots of jewelry. She wore a simple skirt and top, like Jordan, while Max wore his customary Hugo Boss suit. I wondered if her panties vibrated too.

We rose to greet, kiss kiss, and then sat. Conversation flowed.

Max apologized for mixing work with dinner but we all said we forgave him. Often he would pretend to receive a text message but would play with the app and send a jolt of pleasure through Jordan. After a while I realized he was doing the same to Justine but she had more practice hiding her reaction. Max would zap Justine and then quickly zap Jordan too, his wife too busy recovering to notice my wife catching her breath. The man had a blast toying with two women. I kept the discussion flowing, pretending never to notice Justine's responses. When she excused herself to use the restroom I moved my chair for her to pass, detecting the slightest hum from her crotch. Max waited until she was several feet away and then turned up the power. Justine's knee almost buckled and she hurried to get away. Max grinned and then switched devices, Jordan's quiet gasp alerting me.

"You're going to cum before she gets back," Max explained. "Right here at the table, in front of everyone."

Jordan fought for control but Max dialed it up. My wife reached for ice water, her hand shaking, beads of sweat on her upper lip. Max laughed and cranked it and Jordan's elbows hit the table. She gasped for breath.

"I can't hold back," she whimpered.

People were starting to notice. Jordan's eyes closed

"Hurry," Max hissed, playful.

He fed more juice. Jordan's eyes got big and she grabbed the edges of the table.

"And now this," Max said, his finger dancing over his phone screen. Jordan clenched her jaw, her knuckles white.

"Ungh!" she moaned, low and strained.

Her eyes slowly closed. I scanned the restaurant. Several people watched. Her mouth opened abruptly as did her eyes and every muscle along her arms stood out. She clamped her jaw and came hard, forehead gradually descending to the table, nipples poking twin bumps through her top. I was simultaneously aroused and embarrassed.

"That's my girl," Max said, lowering the output. "Now sit up and compose yourself."

Jordan did her best. If Justine noticed anything when she returned, she hid it well. We finished dinner and ordered drinks and dessert, sharing personal stories and getting to know each other. When Max wasn't busy being an asshole, he was charming. The evening eventually wound down and we paid the bill. Out in the parking lot Justine and Jordan hugged.

"That was delightful," Justine said. "I hope we spend more time together."

"I feel the same," my wife answered.

Max and I shook hands.

"See you at the office," he said.

"Thanks for dinner," I replied.

"No, thank you. For everything."

We shared a knowing look. I moved to hug Justine and Max hugged Jordan. They shared a few private words while Justine and I said goodnight. We parted company and left the parking lot in different directions.

"What did Max say?" I asked. "When you guys hugged."

"He's coming over," she said. "Tonight. After he puts Justine to bed. He said he must have me before he goes to sleep."

I gawked. "Are you serious?"

"Yes," she answered, excitement rising. "How hot is that? Max says he simply must have me. I love it."

I did not feel her enthusiasm. I'd planned on enjoying my wife tonight, not sharing her. Max knew he was intruding after a lovely evening.

Jordan jumped in the shower as soon as we got home. I poured a drink and grumbled. I heard her phone ring in the bathroom and when she emerged several minutes later, she wore some lacy white lingerie.

"He's on his way," she said. "He offered to make it a threesome if you want."

"What do you want?"

"That sounds exciting. Would you mind showering?"

I gulped my drink and kissed her, slipping by to enter the bathroom. I brushed my teeth and shaved and showered with extra hot water. I heard Jordan's voice and for a moment hoped Max had called again to cancel. I dried, splashed a little cologne, and wrapped a towel around my waist.

I left the bathroom to discover they were already in our bed, kissing. Max was nude, big dick flopped across a thigh, legs tangled in our sheets. Jordan's fingers were sliding south, seeking his fleshy trunk. What I thought was a phone call was them talking in our bedroom. I moved to the bed and dropped my towel. Jordan noticed, reaching for my penis. Her hands closed around us at the same time.

"Mmm," she purred. "Two nice fat cocks for Jordan."

I glanced at my dick then at Max's. There was a big difference but it was nice of Jordan to lump me in with him. She stopped kissing him long enough to flick my dick with her tongue then moved to give me room. I joined them on the bed.

Such a strange sensation to feel unsure with one's own wife. After so many years of marriage, I suddenly found myself deferring to Max. In my own bed. They were kissing again and their passion made me feel like I was the one joining *their* twosome. Jordan jerked us and we grew but I couldn't look away from his cock and my wife's fingers wrapped around it. He looked even bigger in her hand. I wondered why his size mattered so much to me but it did.

He rolled her onto her back and maneuvered between her legs. He was only partially erect but filled with lust. In his haste the sheets had coiled around his balls. The tip brushed her labia and Jordan gasped, tilting her hips, trying to capture him. The mutual level of desire made my eyes ache. They were so hot for each other. He leaned forward and his cock head parted her pussy lips, but he stopped.

"Untangle me, Alex," he said.

The sheet had drawn tight around his large scrotum. Surrounded by white fabric, his sperm-filled balls looked huge. How much potent ejaculate did they carry? I hesitated and he spread his knees to make it easier for me.

"Hurry," he said. "I want to be inside her."

Jordan moaned.

"Sounds like she wants the same thing," he added.

I lifted the sheet to free the loop. With my other hand, I palmed his testicles, amazed by the heat and the weight. I uncoiled the fabric. Max left his balls in my hand, glancing at me with the same knowing look from the parking lot earlier.

"Make it easy for me, Alex," he said. "Push me in."

Jordan held her breath, murmuring something too low to hear. I circled his firm shaft with my free hand and aimed him at her slit. I pushed him in like a knife.

"Oh, God," Jordan whined.

I pushed deeper, filling my wife's cavity with his cock. He grinned like a fool. Soon I had to move my hand so I placed it on his ass and shoved, burying him in my wife. His smug expression pissed me off but Jordan's heartfelt moan of satisfaction distracted me. I dropped the sheet and watched as he withdrew and slid home again.

"Fuck me, Max," my wife begged. "Give me that big cock. Cum in me."

I took a step back. Max fucked her through a slit in her lacy panties. Hard nipples poked through eyelets in the lace bra. She boggled my mind. She looked fucking insanely sexy and a thousand times more so because I was watching her get fucked. I stood, stunned, speechless.

His hips began a smooth rise and fall. They'd had sex so many times now he knew how to hold her, how to plumb the depths of her. She wrapped arms and legs around his body and gave herself up to penetration. His fat balls thumped her asshole on every thrust. I remembered her words about taking a man inside one's body and by the expression of pure joy and pleasure on her face, understood at last. Thud, Thud, Thud went his hips, driving him closer to orgasm. He was here to deposit his seed and be on his way, the draw of my wife too powerful to resist.

I started jerking off.

Her orgasm started as a high-pitch whine but descended into a growl as the first wave slammed her. She bucked under him, crashing her hips to meet his. He sucked air in a sign he was close and then barked orders for me to hold his balls in my hand as he came. I'm ashamed to admit I did not hesitate. The spectacle was too great. I hefted those scorching orbs and held that pulsing bag on my palm. I felt his nuts tighten and rise and twitch. I

watched her sweet face over his shoulder and he grunted once and I felt the first surge against my skin. I lifted, causing him to groan victoriously, and he thrust faster, urging his seed up and out. My dick was hard like diamond. Not because I was touching his balls but because I was holding them while he inseminated my wife. I was helping him get all that spunk into her. I was assisting in her fertilization and my god did it ever turn me on.

His testicles spasmed and then I felt them explode, massive gobs of liquid gushing forth, boiling up the long shaft to spew deep inside her. Jordan clung to him, coaxing, begging he give her everything, dimly aware what her husband did, how I helped in her possible impregnation, and thrilled by my actions. He came a long time.

At last I eased him from my hand and rested his hanging nuts on the bed. Max and Jordan were kissing again, softly, tenderly, and I stood gazing at their tangled bodies. I took my penis in hand and began to stroke. I knew I would not last long. Jordan became aware and asked me to lick her clit.

"I'm not ready to leave," Max said.

"Alex can work around you."

I barely hesitated. I was in too far now. I leaned between their bodies, continuing to jerk my erection, and found her clit with my tongue. I avoided his shaft as best I could, focusing my labors on bringing my wife to climax around his cock in her pussy. The combined sensations were too much and she forced my head down as an orgasm ripped through her, their bodies pinning me in a sandwich. I licked fast, waiting for her climax to subside, then sat back to look at them entwined. I spurt my load at that glorious sight within a minute.

Fifteen minutes later, Max was dressed and on his way home.

Chapter 10

Friday night Jordan told me she was going to the lake with Danny on Saturday.

"Tomorrow? All day?" I asked.

"Yes. I'll be home around nine or ten tomorrow night."

"Did Max order this?"

"No."

"Just you and Danny?"

"No, some of his buddies from work too."

I knew what she was saying. My wife would be shared, passed around all day to whichever man wanted her at that moment. Her eyes were bright with excitement and anticipation. She showed no nervousness or worry. That's when I realized this was something she'd done, possibly more than once, with Danny when they were a couple in college.

"Will they all fuck you?" I asked.

"Yes." Her voice was breathless.

"Have you done this before?"

"Yes."

Wow. WOW. I knew she was a little wild in college but I never suspected it ran this deep. Her and Kilani and Tressa turned that campus upside down. Clearly I'd never gotten the full and complete story from Jordan about this guy or what happened in school. I studied her face. We'd been sitting in the loft, watching Netflix and relaxing when she'd informed me of her plans. Her arousal heated the air around us.

"You can't wait," I said. "You're already wet."

She leaned across the couch and kissed me deeply.

"It will be so amazing to relive those years. I'm not young and skinny anymore but I'm still hot enough for a trip to the lake with all of them. Being the only woman for five guys is an unbelievable experience."

"No."

"No?"

"Yes, no. It's too much, Baby. You can't just spring it on me like that. The night before? No. I rarely get you to myself any more. Can you just wait a month or something? I hate that Danny has entered picture and before you say anything about my dick getting hard, yes, I admit that happens. I can't help it. But that doesn't mean I want it every second all the time. Let's do something as a couple tomorrow. Let's have fun together."

She was watching me closely, reading my face.

"All right," she said. "I know this lifestyle is sometimes hard on you. I know it turns you on even as it tortures you. I can't live inside your head so if you are telling me no, if you are drawing a line, I'll respect that. It's the first time you've denied me anything so I'm not going to bitch about it. I know how lucky I've been."

She leaned over and kissed me again.

So, we did something as a couple. Saturday was spent at the park, eating and wandering among the buskers. We had lunch, ice cream, caught

an outdoor concert, and walked around holding hands and talking. It was a wonderful reconnection. Of course, every time I looked at her I saw her buried beneath a pile of sweaty male bodies. I wondered if she was thinking about what she'd missed. I loved that she so easily gave in to my wishes but I couldn't help but wonder what the day would have been like.

"How did Danny take your rejection?" I asked.

"Fine. I asked for a rain check and said I wanted to spend more time with you."

"That's sweet."

"I love you, Honey. All this extra stuff is fun but I don't want to hurt you with it. Not real pain anyway. I know you love the little stabs and I admit it is fun to torment you, but I don't want you truly hurt."

I enjoyed men noticing her everywhere we went. I pointed it out and she said she'd noticed too.

"Not just today, Baby," she said. "But all the time. I must exude a new confidence now. I'm turning more heads than ever. At my age."

"You are more confident," I agreed. "But there's something else, too. Your eyes move from one man to the next and each can see that there is a chance they can score with you. You appraise every man you see. They see you doing it and they also see most of them make the cut."

"It's a rare man that has nothing attractive about him."

"I get that," I said. "I feel the same way about women. "But most women automatically reject every man. When one looks us up and down, we notice."

She gave me a bite of her corndog, pondering what I'd said. She smiled.

"Men are so easy."

"You have your choice of us."

That made her happy. She swung her legs and turned her face to the sun. God, she was lovely.

"I visited Danny's Facebook page the other day," I said. "I saw a picture of you. Did you go see him after work?"

She nodded. "Yes. I said I would."

"Maybe let me know beforehand next time?"

"You checking up on me?"

"No, but if you went missing I'd have no idea where to start looking. We shouldn't keep things from each other. Especially when it comes to

Danny. Nothing done behind the back."

I felt a ton of guilt as soon as the words left my mouth. Hypocrite. I felt guilty, but I let my statement stand.

"Danny gets to you?"

"Your feelings for Danny get to me."

"You're right, Alex. I'm sorry."

Now I felt worse, but no way would I share the truth; *Max is fucking our daughter despite your efforts to keep him satisfied, oh, and by the way, our daughter may have sucked me off. Oops.*

Nope. Taking those things to the grave. I could eliminate Max's control over us by confessing to Jordan Max is fucking Erin anyway, but I'd have hell to pay for keeping the secret so long. Worse, I was sure Max knew what had happened with me and Erin. I dare not risk him revealing that little gem.

The last half of our day together was as sweet as the first. By dinner we felt more like boyfriend and girlfriend than husband and wife. We stopped into a small bar called The Pinecrest Lodge for a beer before heading home. Two sips in she got a massage from Kilani.

"Tressa and her new husband are in town," Jordan said. "They want to go out tonight."

"Sounds good to me. I still can't believe Tressa got married."

"It happens to the best of us."

I chuckled. "Is her husband like Kiki's husband?"

"What do you mean?"

"Does he like T to flirt and show skin?"

Jordan laughed. "It's almost a requirement to date girls like us. You should be flattered. I was willing to give all that up when I met you, and for years I did."

"Indeed. Did she say what he likes?"

"Same as you when we first began. Intrigued but easily spooked."

I laughed. "Those days are gone."

"Unless the man's name is Danny," she teased.

I rolled my eyes. "Where does T want to go?"

"A sexy new club on the Strip called *Lace*. Inside Aria. I'll ask T if she wants us to help her guy along. Maybe he can talk to you about watching your wife play."

"Maybe," I said. "Let's take it slow. No need to 'spook' him."

We never made it to *Lace*. Once we were all in the car that night Jordan mentioned *Hide and Seek*, the swinger club Kilani had told us about and where we'd met Chunta, Jordan's hot Native American lover. Tressa wanted all the details and was more than a little annoyed Kiki had never told her that story. Martin, Tressa's new husband, seemed intrigued but cautious.

"We can save that place for your next visit," I'd suggested.

"No," he'd replied. "I'm curious. If everyone else is comfortable, I'd like to check it out. We can leave if someone doesn't like it."

"Fair enough," I'd said.

So now we headed down the freeway to the industrial side of town. Martin had no idea what he'd gotten himself into.

"It can be intense," I said, trying to prepare him.

"I work in the medical field," he said. "I can handle pressure."

I buttoned my lip. Live and learn, I thought.

I parked under a streetlight near the place and we all walked to the club. Inside, I order a round of whiskeys. I wanted to make a toast but I also wanted Martin to have some alcohol in him. After that we left the bar area and began to wander. The place is a dark maze of twisting corridors which randomly open into larger rooms, usually with people having some kind of sex. Martin seemed okay.

When we passed the vaulted area where Jordan first met Chunta, she turned to me and smiled. We said nothing but kept moving. Martin's eyes darted all around, trying to absorb it all. We stopped for another drink but that turned into three.

We left that area, feeling the alcohol, and wandered deeper, arriving at an open area. A padded platform near the wall held one woman and four black men, all nude. The men were hard and ready, one of them pulling her legs open.

"Jesus," Martin murmured. "Is he going to fuck her right here?"

"Yes," Jordan said. "Would you like to move closer?"

I cringed. I thought Martin was balking but Jordan had read him right.

"Yeah," he said. "Just for a second."

He took Jordan's hand and crept across the room. I hung back with Tressa.

"I know what you guys are trying to do," T whispered. "Let's see how Marty handles it."

T and I stood back and watched Martin and Jordan approach the group. The woman was too involved to notice but three of the black guys turned to face them. The men had obviously been chosen for musculature and penis size and Martin found himself staring down the barrel of three stiff black cocks. He slowed but Jordan confidently pulled him along.

"We just want to watch," she told them cheerfully. "Please continue."

"Maybe we should leave them alone," Martin suggested.

"Nonsense," Jordan said. "They're out in the open for a reason. They want to be seen. Let's accommodate them."

Jordan can be persuasive. Martin turned to check on Tressa and we waved. He motioned us forward. A moment later we all watched the black men descend on the woman. She had one man in her mouth, straddled another while guiding his cock into her pussy, and arched her back so the third could position himself to penetrate her ass.

"That's a lot of cock," Tressa muttered, approving.

Martin studied her face, trying to read his new wife in this bizarre situation. I saw questions form behind his eyes and decided to head them off.

"Martin, why don't we go back to that bar and get more drinks? Will you ladies be okay for a minute or two?"

"We'll be fine," Jordan answered.

T nodded agreement. Martin looked relieved. This night was a lot to take in a very short time. I wanted to give him a chance to talk to another male before he started peppering Tressa with questions. I bumped his shoulder and we left the area, rounding the corner and heading for the bar.

"That's intense," he said right away. "You and Jordan have been here before? What happened? What are the rules in a place like this? I expected our women to be disgusted but they were fine."

I laughed and put an arm around his shoulder.

"Yes, we came here once. We were curious about sharing Jordan. She met a guy and I watched. We were high as fuck that first time."

"Weed sounds good right now. I'm a little shaken. I feel like the nerdy kid hanging out with the cool kids. I suppose I knew such places existed but to actually be here is mind-blowing."

I pulled his sleeve and we ducked down a side corridor. We entered another open area and I pointed to the hookahs scattered around on the tables.

"You wanted weed? Here's weed. Buy it at that bar and fire it up in one of these pipes. I'll wait. The girls won't notice if we take an extra minute."

He made his mind up quickly.

"Do a hit with me," he said. "I'll feel strange smoking alone."

"Okay."

Minutes later we knelt before a hookah and I held the flame. He pulled hard, filling his lungs and holding it a long time. I took a small hit and exhaled quickly. He stuffed the extra into a pocket and blew a giant cloud of smoke towards the ceiling.

"Yeah," he rasped, already feeling the effects. "That takes the edge off."

He hit it again, making sure the bowl was empty, and we made our way to the bar. I ordered four shots of whiskey and we headed to our wives.

The woman was still there but with one black man only.

Our wives were gone.

There were multiple exits from the room so I asked the couple fucking where the others had gone. They had no idea and I believed them. The weed was plowing through Martin full force and I knew he'd be useless. I'd taken a baby hit and could barely focus. When would I learn not to get high in this place? I eliminated the door we'd used to go get more liquor but that left three.

"Where's...?" Martin mumbled. "Where's...?"

Terrific.

"Where did Tressa go?" he finally managed to say.

"I don't know."

"Do you think those black guys went with them?"

"All but one."

"Shit."

He stared at the floor like he was trying to remember where he'd left his car keys.

"They'll be okay, right?"

"Depends what you mean by that," I answered.

I chose the closest door and pulled Martin after me. I had little hope of finding them. Each doorway and branching corridor cut our odds. I felt terrible that the first time Martin ventures out of his comfort zone and tries something risqué, the night swallows his wife. I did not worry much for their safety. So far everyone we'd ever met in this place seemed kind and respectful. More than the outside world for sure. But Martin didn't know that. I expected we'd turn a corner any minute and find Jordan and Tressa knee-deep in black cock and having a great time. What would Martin do?

We wandered for an hour, I guessed, and while we saw many incredible sights, we did not find our wives. Martin's high had continued to grow until now he was spacey as fuck. We downed the drinks we carried long ago.

"I hope Tressa is fucking one of those black guys," he confessed out of nowhere. "She's so sexy. I love watching other men want her. Do you like watching Jordan?"

"Yes, Marty, I do."

"That's wild. I never knew other men felt the same about their women. I've always felt so weird and outcast. I was sure there was something wrong with me."

"There's something wrong with all of us, Martin. The trick is to find someone that enjoy the same weirdness as you."

Somehow we ended up back in the hookah lounge and I sat Martin on a couch while I questioned the bartender and a couple waitresses. They'd seen nothing. When I turned to Martin, he was just exhaling a massive cloud of smoke. Goddamnit. I pulled him away from the pipe. His eyes rolled around, trying to focus. I lifted him to his feet and tried the next hallway.

We found them, eventually.

They were in the Medieval Room, in stocks, facing each other, bent at the waist, faces close enough to kiss. They'd been stripped. While the stocks held their wrists and heads, ankle manacles held their legs. I'd have freaked out if they weren't kissing wildly, tongues rolling for all to see. Behind each stood several men including the three missing black guys, long fat erections aimed at slits. It looked like a wall of tusks behind each woman, a cock-covered porcupine.

Martin froze. I instantly wondered if we'd walked in at the beginning of something or in the middle of something. Had our wives

already been fucked? The dicks were all still hard so I suspected we'd arrived in time to stop everything. Unable to see anyone but each other, our wives had no idea we'd arrived. Of course, the men standing around had no idea those were our wives. They thought we were there to join in.

"Are they going to fuck my wife?" Martin murmured.

"That's up to you," I said.

Poor Martin. A deeply buried curiosity had brought him to this place, a hint of a hidden desire. Did he masturbate to Hotwife porn? Did he fantasize about watching Tressa with another man? I felt sure he did but that was a long way from what he now faced. Tressa had four hard cocks lined up behind her.

His face was twisted with agony and indecision. I knew the feelings well. Tressa and Jordan made out, imprisoned and obscenely exposed, and Martin wrestled with titanic uncertainty. Those cocks were big, with heavy balls hanging beneath. Fantasy and reality collided and Martin was left paralyzed.

A black man placed his hands on Tressa's hips and we both saw her lift her ass an inch, welcoming, encouraging, rolling her butt to signal her availability. Martin groaned weakly.

"What do I do?" he muttered, half to me and half rhetorically. "What do I do?"

No way was I stepping in front of this one. Events had escalated far beyond anything I'd imagined for a first night out with a guy I'd just met. Too much could go wrong. Far better he lives with his own decisions than hates me forever for the choices I made, or even suggested. I stood by, ready to act on whatever he said.

"That black cock is huge," he groaned.

"It is," I agreed. "I think those men were chosen for that reason."

"It looks like Tressa wants it. Doesn't it look like Tressa wants it?"

"Well," I began, treading carefully. "It looked like she moved her ass invitingly but maybe not."

A white guy, fairly average in every way, moved behind Jordan. He lifted his dick with one hand and steadied her hips with the other. Jordan felt him back there and closed her eyes, wiggling her butt and French kissing Tressa.

"That man's about to fuck Jordan," Martin warned through his foggy high.

"I see that," I said. "Let's move closer."

Martin's eyes grew big, like the idea that our feet were not welded to the floor never occurred to him.

"Okay," he said, a little too loud.

We approached the girls. Jordan looked hot as fuck trapped like that. I was sure she'd placed herself in those stocks. A neat pile of her clothing nearby confirmed my guess. She and Tressa had carefully stripped and willingly allowed themselves to become prisoners. There were empty whiskey tumblers and a bong against the wall.

Up close those black dicks looked even more menacing. A man behind Tressa had to be almost as thick as a can of soda. Maybe only seven inches long but his thickness was epic. T was going to feel that one. The man behind Jordan shifted both hands to her hips. He'd aligned his cock with her slit and was ready. Jordan moaned and broke off her kiss with Tressa.

"Get it in me," my wife growled. "Go balls deep."

She was high too, but really high, more like Martin than me. The man rammed his bare cock into her guts and Jordan whimpered with delight. Martin's jaw dropped. His eyes swung first to me to gauge my reaction then to Tressa. The muscular black man behind her rubbed his cock around her hole, teasing, then began to ease it home. Martin looked like he might cry but he never looked away.

"You're big," Tressa groaned. "I like that."

Martin was rocked to his core. T returned to kissing Jordan but began a gentle back and forth of her hips, fucking herself on the big cock inside her. Martin looked at me for guidance.

"T is fucking someone else," he said, pointing. "That man is fucking my wife."

He gazed at the big black man holding Tressa's ass in his hands, smiling, watching his huge black sausage pump in and out.

"It's rude to point," I said and Martin dropped his hand.

"I should do something. I should stop this."

I looked him in the eyes. "Is that what you want?" I asked. "To stop this?"

I saw the pain and confusion. I saw the wild lust threatening to destroy his known world. I saw the torment, the conflict I knew so well.

"Or maybe you want a closer look?"

His eyes got big again. I wanted to say more but waited. This needed to be all him. I waited for reality to bubble up. Martin left my side and drifted towards Tressa's ass. He gave the black man a nod and pearly white teeth split the dark face.

"Take a look," the man said. "You know her?"

The moment of truth had arrived.

"She's my wife," Martin stuttered. "We got married just a few months ago."

"Congratulations," the big man said, laughing.

He lifted and spread T's butt cheeks, exposing for all to see the thick black shaft sawing in and out. Tressa was so wet we all heard it, including Martin, and the truth crushed him. He stared at that plunging black rod, unable to look away. Tressa's excitement coated the man.

"Get your dick out, friend," the man said. "You can fuck her after I finish."

Martin mouthed the word: *Finish*.

All at once he understood what the man meant. His forehead wrinkled. His mouth twisted. *Finish*. The man was going to blast T full of cum. Martin found himself unable to stop any of this. Martin found himself *wanting* the man to finish inside. He turned to me.

"Alex, God, what do I do?"

Before I could answer, Jordan moaned loud and long. She was cumming, trapped and stuffed with dick. She loved it. The black man fucking Tressa drove his hips faster, forcing T to take every inch, then suddenly snapped his head back.

"Oooooohhh, fuck YES!"

He pushed his cock deep and held it there, draining those hairy black balls into Tressa. Martin watched his wife work her ass in circles, moaning loud and breathing hard. The big man thrust a few more times, slamming his dick deep and injecting the last of his sperm. When he withdrew, he was covered with cream.

"Go ahead," he told Martin. "Get your stuff in there. She's your woman. You gotta plant your flag too."

Martin gawked at the semi-erect black cock waving in his face.

"Or maybe you wanna let these other guys go first?" the man asked. "I get that. You be the last man to shoot. Sure."

With that he gestured for another black guy, a friend by how they looked at each other, to step behind Tressa and slide his cock in. Martin raised no protest, took no action. The next man aimed his dark and incredibly thick cock at Tressa's hole. Using the semen as lube, he sank to his balls. Tressa's head jerked up as much as the stocks would allow.

"Ooooooh, wow, who the fuck is that? That's a big dick."

We all ignored her and Thick Dick started pumping.

"Oh damn," T gasped. "That dick's going to make me cum. Damn."

Martin watched his new bride amazed. I knew more of her history so I was less surprised but this was a side Martin had never seen. Thick Dick gripped her waist and began to slam hard, jolting the bound woman mercilessly. Tressa grunted with pleasure on every thrust. Soon her moans turned to whines and then cries.

"Here it comes," she whimpered. "Fuck! That's a nice cock. Fuck!"

Her body went rigid and her toes curled. Martin watched, stunned, as T orgasmed around another man's cock. She looked beautiful. Thick Dick kept pounding, driving T through her climax until she finally came down. After that he rushed his pummeling and released his flood, adding his load to his friend's.

Another man took his place. Another man moved behind Jordan.

Our women saw none of this, locked in place and facing each other. All they knew was when a new hard cock penetrated and began to hammer. They watched each other orgasm and laughed with joy, kissing wildly at their predicament, utterly unaware their husbands watched. Bent at the waist and locked into place, their tits swung freely.

"Alex," Martin mumbled, "They're all cumming inside Tressa."

"You like that?"

"She's dripping."

He couldn't pull his eyes away. Each man exploded, filling Tressa with hot sperm, while Martin stared bug-eyed and disbelieving. Jordan got her share too but my eyes were glued to my new friend. His torture was exquisite. His new bride, loving and happy, penetrated over and over, inseminated over and over, and all Martin did was watch. The tent in the front of his pants told me what was happening for him, despite all the other emotions I knew he faced.

Finally, the last man stepped up and entered our wives. Sloshing sounds filled our small area. The girls were playfully making out, tired from

many orgasms.

"Will you add yours?" I asked.

"Should I?"

"I would. I will with Jordan."

He turned to look at Tressa. An older white man fucked her now, just hammering away, trying to get off.

"There's something hot about not adding yours too," I suggested. "The choice is up to you."

He was torn. His jaw worked but no words came out.

"I think," he began. "I think I like it better without mine in there."

He scanned my face, searching for judgement. He found none.

"She has all those men inside and not one drop is mine. All those men fucked her, they fucked my wife. It hurts like the devil but makes me so hot. How can it do that? Her womb carries them all. It's agonizing to think about but I can't stop turning it over in my head. The more I think about it the hotter I get."

"I bet you're dying to cum."

"Yes!" he admitted. "I've never been so turned on. My hands are shaking; my body is on fire. My balls feel ready to explode."

"Mine too."

"I see why you love this so much, Alex. God, this is intense."

"Addicting."

"Yes."

"If you don't want to fuck her you can still make her cum."

"What are you saying?" he asked.

I nodded towards Tressa. "When that guy finishes, sneak around behind her and use your tongue to get her off."

His face twisted in disgust.

"After all those men?"

"Yes," I explained. "She'll love that you still want her that much. I eat Jordan every time. It reconnects and binds us."

He looked again at Tressa getting fucked. The white guy arched his back, clearly releasing his load inside. Tressa rolled her ass at the man trying to milk every drop. Jordan laughed with joy.

Martin left my side. The older man withdrew his cock and began buckling up. Martin took his place, gazing at the mess that was his wife's cunt. He sank a finger in, playing with the slippery liquid, amazed.

"What if she gets pregnant?" he asked, staring me in the eye.

"Baby?" Tressa said. "Is that you? Come up where I can see you. Let me out of this thing."

Martin ignored her for now, maintaining eye contact with me.

"Quite the rush, isn't it?" I asked. "The risk is so exciting."

Martin looked on the verge of collapse. What a night.

"Baby?" Tressa said again.

Martin turned to look at her shackled body. She couldn't see us as he ran his gaze over every inch. She looked like a breeding beast. He moved behind her and dipped his head, a hand on each butt cheek.

"Oh!" Tressa exclaimed. "Fucking hell, is that you, Marty?"

I stepped to the stocks, smiling down at them.

"Bad girls."

"Let me out of this thing," Jordan said. "I'll show you bad girl."

"Is Marty eating my pussy?" Tressa softly moaned.

"Yes."

Her eyes narrowed to slits. "Holy Christ that's hot."

"I suggested you might like it. Orgasm for him. He's had a rough night. We watched the whole thing."

"You were here for it all?" Jordan asked.

"Yes. Spectacular."

I pulled the pin holding her neck and wrists and lifted the bar. She straightened, big tits swaying. I flipped the clasp on both ankles. She came into my arms and we kissed.

"Take me home and fuck me," she commanded.

"Not yet," I said. "I want to see this."

Tressa had closed her eyes and all I saw of Martin was the top of his head. Fish to water. That boy ate his wife like she was candy, all the pent-up sexual tension and frustration from the last few hours, fueled doubly by his marijuana high, had him lapping her cunt like a puppy. Tressa came screaming in minutes, clawing empty air and rocking her hips. Martin let her hang in the stocks for a minute while he burned the sight into his brain, then freed her.

We were home and all sharing a bed in less than an hour.

Chapter 11

Danny. Mother Fucking Danny.

I was on his Facebook page and there was another picture of him and Jordan, this time a double-selfie over dessert. I knew it was from yesterday by the outfit she wore. Why would she do this after I'd asked her not to?

Max.

I sighed. I'd made a bargain with the Devil on that one. He said he'd keep us dancing until he got bored and I believed him, but come on already, get bored.

I studied the picture. Jordan's top four buttons were undone and her bra missing. So, not exactly the same outfit she'd worn to work that morning. Her hand was under the table and probably in his lap. Thank God Danny hadn't tagged her. I'd hate for our boring straight friends to see this. How would I explain? She looked exceptionally happy and he did too. Did they fuck after this picture was taken? Had they fucked before? She was presently at work so I sent a text: *There you are on Danny's page again.*

Max made me, she fired back.

Did you fuck Dan?

I never got an answer. The kitchen door opened downstairs and Erin breezed in, shouting if anyone was home. I closed my tab and dimmed my phone, heading down to give her a hug and say hello. She'd been at school for almost two months but would be spending a four-day weekend with us.

She wore flip-flops and a too short floral-print dress, Versace, which showed way too much cleavage, but I'd learned she was a young independent woman so I kept my comments to myself. All her friends showed skin too, saying they felt empowered. These were different times.

We chatted about school and work and boyfriends and the whole time I kept glancing at that damned birthmark. She never caught me looking. I could see it in my mind's eye; perfect ruby lipstick wrapped in a tight circle. I'd never know with absolute certainty, and there was always the possibility I was wrong, but in my gut I felt I knew the truth.

She was in a great mood. Grades were high, friends loyal and smart and fun, work at the coffee shop interesting. When she leaned over to throw her gum in the trash under the counter, her dress fell away from her chest and I saw both full round tits held back by only a lacy demicup bra. The darker, rounded edges of twin areola peeked above the frilly lace. Christ. I turned to the fridge for a beer.

"When's Mom get home?" she asked.

"Around seven tonight, I think. Working late."

"Hm."

"Hm? What's that mean?"

"Good thing you're not a jealous husband," she teased. "Mom works late a lot."

"She's kind of a big-shot."

She aimed her big blue eyes at me.

"I saw her at *Flannigan's* last week," she said. "Having dinner with some guy. Handsome. They looked friendly. Familiar, you know?"

I nipped this in the bud. "Yeah, that was Danny, an ex-boyfriend. She ran into him a few weeks ago and they've hung out a few times, catching up."

"Like I said: Good thing you're not a jealous husband. He's cute."

"Whatever."

She let it go and so did I.

Erin took a shower and put on an old fuzzy robe and we heated an oven pizza and settled in to watch a movie. Erin fell asleep right away, her head on my lap. When my phone buzzed, I checked the message without disturbing her.

Bad news, Jordan had written. Another party at Max's place. This Saturday. Ten. More bad news. I must take Danny; you must go stag.

Well...fuck.

There was no point arguing.

Max said he wants to twist the knife one last time.

What the hell did that mean?

I reread the message and set my phone aside. Erin stirred in her sleep.

Eventually Jordan came home and we had a delightful family ice cream fest. Once we all went to bed I asked Jordan what Max meant by knife twist but as expected, he'd told her nothing more. A sense of dread began to build.

Chapter 12

Jordan looked stunning. She wore a long green dress that plunged in front and hugged her curves. Danny wore a suit with a pocket square

matching my wife's dress. For this party Max insisted all his guests wear black lace masks, but I'd recognize the two of them anywhere.

I couldn't imagine why Max gave Jordan to Danny until he entered the room with his date: a vision of youthful beauty. The girl wore a flowing, see-through black lace gown with matching mask around big, blue eyes. Her lips were ruby and set in a pout. The bodice was cut-away, revealing large gravity-defying breasts. The gown had a slit in front which rose almost to the height of the girl's pussy but stopped tantalizingly close. The lace was transparent, displaying ripe, juicy curves and succulent skin. They turned every head as they strolled through the room. Max was proud of his companion.

As she passed, I noticed a small birthmark at the corner of her mouth, partially obscured by the lace mask.

Now I understood why Max told Jordan to bring Dan.

Now I understood the reason this gorgeous girl wore a mask.

Just like Max loved pushing the envelope in front of his unsuspecting wife, he liked pushing it in front of an unsuspecting Jordan. I resolved in that moment to spend the night keeping this girl away from Jordan. I succeeded in that, mostly, although twice I saw my wife scrutinizing the girl from across the room. Both times I successfully distracted her.

Jordan acted like she was Danny's date. He had no idea who I was and Jordan was determined to keep it that way. She clung to him, fawned over him, kissed him frequently and held his attention. Hours later I saw her sneak away with him, heading down a hallway to the bedrooms. I was torn between keeping an eye on Max and his date and stalking my wife and hers.

I found Jordan and Danny on a balcony under the moonlight, drinking in the crisp night air. They stood close along the railing, Dan's arm around her waist. If he'd been a stranger, I'd have found the scene exciting but that was way too much intimacy for an ex-boyfriend. I knew Jordan still had feelings for the guy. His arm around her set my stomach burning.

She had no idea I was watching when she faced him. She took his head in her hands and kissed his lips, deep and with meaning. My gasp almost gave me away. They held the kiss a long time. His hands linked behind her as he pulled her close. The attraction was mutual, real, and powerful. I'd say they were starting to fall in love but I know Jordan is in love with me. Her hands left his head to slither around his neck and now

they were *really* kissing like blissful lovers. My penis stirred to life and I shook my head. Danny was stealing my girl right in front of me and my dick grew excited. What's wrong with me?

Jordan broke first, slipping from his arms to sink to her knees.

"Is it that kind of party?" Danny asked.

"And then some," Jordan teased.

"Your husband works for this guy?"

"Yes. Alex owes him a ton of money."

That wasn't true but was a great cover story. Her hands worked his zipper and soon his cock emerged into the night air. I hate how big he is. I hate how much Jordan loves how big he is. She licked her lips but just admired the thing.

"I missed him all those years," she admitted.

"He missed you."

"I'm sure you fucked a lot of women after I left."

"Tons. But none of them came close to the hot passion we shared. Maybe you should leave your husband? Maybe we should try again?"

Jordan partially lifted her mask and kissed the head of his cock. I held my breath.

"Never," she breathed and relief flooded my body. "But we can keep fucking."

She pulled his ball sack through the zipper opening and slathered the thing with a wide tongue, painting a shiny strip of saliva across his hairy nuts. His cock rested on her face as she ducked under to lick again. She took his scrotum into her mouth and his cock began a slow rise.

"I'm going to fuck you right here," he said.

"Only for a minute," she said. "I want an audience. I want people watching us."

I took that to mean she was trying to find a way to include me, which I appreciated, despite her comment about them continuing to fuck. If we ever got out from under Max I was thinking we'd take a break from the wife-sharing life.

Jordan stood and braced her hands against the railing. Danny lifted her dress from behind, piling the material on her fine ass until he revealed her bald pussy. His cock pointed at it like a spear.

"Hurry," Jordan whined. "I want to feel it."

Danny pulled a cheek aside and searched for her hole, rubbing the head around until he felt the dip. He pushed, his ass flexing as his cock slid deep.

"Ghuuunh," Jordan groaned. "I never get used to that."

"I hope you never will."

Danny fucked her until her excitement had him drenched to the balls. Jordan may have orgasmed. She sounded like she was strangling, clenching her jaw and trying to stay quiet.

"That's enough for now," Danny said, pulling out. "Let's go make a round."

Jordan was visibly frustrated. She would have had him continue despite her earlier request. Danny played it perfectly, silently reminding her that no matter what she said, he knew what she really wanted. I stepped into shadow as they passed, noticing what an attractive couple they made. When it was safe, I took a long route to the living room, entering through an archway.

When I arrived, I discovered things had gone from bad to worse.

The young girl behind the mask now sat in a chair in the middle of the room. I studied the birthmark and tried to see beyond the mask and while it certainly could be Erin sitting there, again, I wasn't one-hundred percent.

A crowd had gathered. I believed I saw Samantha and Mark and Brian and Brenda along with plenty of strangers, but the damn masks made identification difficult.

Max addressed the group.

"This beautiful young thing is my treasure and I worship the ground she walks over, but I know it's only for a short time. She has big plans. I intend to help her accomplish those plans, whatever the cost."

Mild applause.

"Tonight, however, she serves a special purpose. Tonight, she is the Virgin Bride, willingly offered in sacrifice."

He moved to stand before her.

"Darling," he said, lifting her hands. "If you would."

The girl rose from her chair and untied the straps at her shoulders. Her black lace gown swished to a ring around her feet and her glorious body, bursting with luscious fullness and youthful heat, took the breath of everyone in the room. My eyes ate her alive, stunned by the perfect curves.

Primordial gears turned in my head and my dick began to rise, much like every dick in the room. I was slammed by guilt when I again noticed the small birthmark.

Max leered at the crowd. He knew what he had. There's a beauty to youth, an irresistible and unavoidable sexiness. Her big, perfect, tear-drop tits sat high on her chest, nipples half an inch above the horizon and pointing at the ceiling. They showed no sag whatsoever, smooth skin following the arch of her tits to glide over her ribs. Her flat abs led to her bald pussy and here again all the signs of youth were evident. Her tight labia formed a virginal seal, a single unwavering line disappearing between her silky thighs. I groaned with conflict, unable to look away. If this wasn't Erin it was possibly the most perfect female form I'd ever seen. Hell, that was true even if it was my daughter, only my shame changed.

Danny and Jordan moved along a wall trying to get a better look. I watched Jordan's face, hoping and praying she saw nothing to make her suspect. Danny got a good look and his eyes went wide. He whispered to my wife and Jordan moved to see around the bodies in front of her. At last her eyes landed on the girl and her face first softened, then turned to unchecked lust. She saw the same things I did and nobody could resist the urge to have this girl.

Max turned to the crowd.

"Who desires this girl?"

Several dumb-shit guys actually raised their hands. Everyone else murmured appreciation, acknowledging Maxwell's impressive find.

"I can see the truth on your faces," Max continued. "I've been training her for months. She is as skilled as any mythological harem girl. I intend to make a gift of her to a select few who have served me well the last year and to whom I feel indebted. Jordan, will you come forward please?"

NO! Fuck! Danny kissed my wife's cheek like he was proud of her. Jordan strode forward, eager.

"Alex?" Maxwell called. "Are you in the crowd somewhere?"

My mind was a swirling hurricane. What protest could I make? How could I warn Jordan without exposing every lie I'd told? But I couldn't just go along with Maxwell's plan. The fucker is diabolical! He'd stand there rock-hard watching the absurd and obscene drama he'd written play out.

I took the first step, my mind racing. Jordan left the crowd and crossed the gap, naked lust on her face despite the mask covering it. I saw

rampant desire in her eyes.

She planned on eating this sweet young thing alive.

We approached the girl together, her body divine. Her nipples had hardened in anticipation and a million goose bumps covered her twin milky orbs. My mind wailed at the internal conflict. The male side howled at the moon for the scrumptious beauty before me, ready to bury my dick and conquer her immaculate pussy. My fatherly side wanted to vomit for the thoughts bouncing around inside my head. I had to know: was this Erin? The lace mask combined with the low light were too effective at hiding her identity so I concentrated on her blue eyes. She was high as fuck, pupils the size of dimes. I tried to see through the fog but could not, with certainty, determine if this was our daughter or not. I was dying to know. The question would remain unanswered.

"Jordan and Alex are husband and wife," Max broadcast.

I watched the girl closely, searching for any reaction.

"I've been toying with them for almost a year," he continued.

"Jordan especially is eager to please. She needed very little convincing even for those tasks that upset her husband."

The girl was in her own world, barely listening to Max. Her gaze wandered over her own astonishing body and then around at the gathered faces. She was happy and horny and loved being admired.

"Alex was not so understanding," Max continued. "But I asked far more of him."

Maxwell moved to stand before me, eye to eye.

"I'll give you a choice," he said. "But you *must* choose one: Fuck my lovely little flower or force her to suck your cock. Which will it be?"

Mother-fucking-bastard.

"If I refuse?"

"Why you would insult me in front of my guests? Refuse, and Jordan will be spending a lot of time with Danny. She won't call. She won't text. You won't see or hear from her at all. A month should be long enough for Danny to put a baby in her belly."

The blood drained from my face. Max leaned closer, whispering.

"Should I tell Jordan *all* your secrets, Alex?"

The young woman spread her arms, inviting me to enjoy myself.

"Go ahead, Honey," Jordan said. "You deserve it."

My wife had no idea what she was saying.

"Look at her, Baby," my wife continued. "If you won't fuck her I will. She's incredible. How can you turn that down?"

Jordan, my love, shut the hell up.

Maxwell was grinning triumphantly. I wanted to punch his face.

"Fuck or suck?" he rasped. "Decide now."

Lesser of two evils, right?

"Suck."

"I thought so," Max gloated.

The young Goddess dropped to her knees and got to work on my zipper. I sent my eyes everywhere but down. Jordan was wild-eyed, watching, Max looked maniacal. Danny looked like he was trying to figure out how to get Jordan for a month. Delicate warm fingers lifted my dick from my pants and I looked down to see ruby lips part and a pink tongue extend. I closed my eyes. Her hot, wet mouth enveloped me and I groaned for many reasons. My nuts lifted.

The sensation was fantastic. I opened my eyes, silently begging this angel to stop, but she only sucked harder. Soon her ruby lips were nestled at the base of my penis and her tongue whipped my shaft, gliding along the ridge and teasing the pee hole at the tip. I whimpered. Blood flowed. I couldn't stop it. I began to grow in her mouth, creeping towards the back of her throat.

She toyed with my balls and then, for the briefest moment, I saw beyond the lace mask. The girl and I connected, eye-to-eye, all subterfuge gone.

She didn't care.

No, worse than that: she *welcomed* my penis. She *wanted* my dick.

I groaned again.

There will be a special level of Hell waiting just for me.

Jordan clapped her hands, believing my sounds sprouted from arousal.

Maybe they did. I was staring down into the prettiest blue eyes ever and just like last time, this girl sucked cock better than anything I'd ever felt. She'd trained on a cock or cocks much bigger than mine and handled my length and girth without pause. She toyed with my dick, teasing the underneath while almost vacuuming the skin off. There are five-thousand dollars a night hookers less talented than this girl.

I started to enjoy it.

I chastised myself but these waves of intense pleasure could not be ignored, regardless of their source. I focused on that small birthmark and tried to convince myself it was not the same. She opened her throat and my dick slipped deeper and I gasped, my cum suddenly boiling in my balls. Her tongue slipped out below and swabbed my sensitive scrotum and I made my hands into fists. This was all happening way too fast. My arousal exceeded the physical pleasure I received. I was fueled by the forbidden, excited by the taboo. I was a slave to depravity.

Boom.

I exhaled hard and doubled at the waist. She was gobbling my load as fast as I could shoot, spurting and spraying and groaning as I emptied my nuts. Her talented tongue flicked my ball sack, coaxing every drop down her throat.

Like I said; a special place in hell.

Jordan slowly knelt at Max's feet, aroused by my climax. She withdrew his hefty penis and began working his inches with both hands and her mouth. His cock rose and my sweet young tart crawled away to help, leaving me standing with a wilted dick and a heavy guilty burden. Max grinned like Genghis Khan conquering a city, captured wives deposited at his feet. The crowd was becoming antsy.

"Samantha," he called. "Brenda. Take care of our guests."

Mark and Brian looked appalled that their wives were so casually handed over to others but said nothing. Sam and Brenda quickly slipped out of their evening gowns and turned to the first men that wanted them. Mark and Brian hesitated a moment, unsure what to do or where to go, then spotted me and came to my side.

"You're so lucky," Brian said. "I'd pay a thousand dollars to have that delightful girl suck my dick. I can't believe you didn't fuck her when you had the chance."

"Put your dick away," Mark said. "You won't need it anymore tonight."

He was right. The crowd swirled around us, each man positioning himself by the woman he desired. What a sight. Samantha was bent at the waist and fed a dick while fucked from behind. Brenda was forced to her knees and five dicks stuck in her face.

"We should kill him," Brian whispered, sounding serious. "I wish Max was dead."

Jordan and the girl concentrated on Max. My wife deep throated his schlong and the girl opened wide and sucked his balls. Max met my eyes and smiled wickedly. He raised an eyebrow, daring me to protest.

"I'm headed for the bar," I said, pointing across the room. "Join me?"

Mark and Brian shook their heads. Brian aimed a chin at the girl.

"If she's sucking cocks tonight I want one of them to be mine."

Mark nodded agreement.

"Max looks like he has no plans on sharing," I said.

"We're going to try."

I waved them away. Max helped Jordan stand and then spoke to the girl. The sweet young thing gripped my boss's dick and aimed the head at my wife's cunt. My mind lurched. Only Max and I knew what was really happening. He spoke again and the youthful beauty popped the head in her mouth, wetting him for penetration. With her free hand, she spread my wife's pussy and pulled that fat cock closer, easing the two of them together, joining their bodies right before me. Max tilted his head back and laughed hard. The girl pushed him deeper.

The whole sight was a staggering nightmare. She cupped his balls as his cock slowly disappeared until his hips met my wife's ass. Jordan arched her back in pleasure, pussy stuffed with dick.

Max fucked my wife until she orgasmed then whipped his cock free.

"Your turn," he told the girl.

Her eyes lit up and she quickly changed places with Jordan. I groaned from my soul as my weak and trembling wife held the girl steady and grabbed Max, aiming that fat throbbing cock at her young, bald slit. Jordan couldn't wait to see this fresh angel penetrated, violated by a cock still dripping with her own juices. Max slid home, pushing balls-deep and leering at me. Jordan opened her mouth and I realized with horror, too late, her salacious intent. With awful dismay, I saw my wife plant her mouth over the girl's clit and suck as Max and his thick inches began to churn. The girl lost her mind in pleasure, her youthful, high-pitched voice shrill with delight. I couldn't look away. Max and Jordan combined to drive the girl insane. Jordan was tongue-whipping that little clit when Max looked me in the eye and roared his powerful climax. A firehose cock spewing globs of hot cum into a pristine pussy.

I could barely breathe.

Chapter 13

After that night, Max was done with us. Apparently, he'd had his fun and tormenting me had lost its luster. He occasionally summoned my wife to his penthouse, an invite she always accepted a little too quickly, but otherwise he left us alone.

Danny would not give up Jordan. She explained to him their reconnection was all a diabolical plan by Max but he didn't care. He wanted more. I asked her what she wanted. She took a long time to answer.

"If you said I could continue to fuck Danny, I would," she admitted. "If you demanded I never see him again, I'd do that too."

I studied her face. "If I left it up to you?"

She turned coy and guilty. "I'd keep fucking him. Not all the time," she quickly added. "But sometimes I'm just in the mood for the way he does things, the way he handles me."

I told her I'd think about it.

The Sunday after the party Erin came by to retrieve her old cleats. She was meeting friends for a game of soccer. We talked in the kitchen and I studied her face in the sunlight, especially her blue eyes. I searched for any sign, any hint of the night before. She was composed and friendly, happy to see her mother and me.

By the time she left I'd convinced myself the girl last night was not the girl before me now. From what I could tell their bodies might match but no way could Erin so effectively hide such a wild night from her father. I breathed a sigh of relief. She collected her things to leave and gave me a hug, then dropped her Dior purse on the counter to use the restroom before leaving. Jordan wandered off to the back of the house and I was suddenly alone in the kitchen. Erin's purse sat open. I peeked inside as I heard the toilet flush. There, resting comfortably in a side pouch, was a tube of lipstick staring back at me. *Ruby Red*, said the label, and my heart sank.

I moved to the sink just before Erin returned. We hugged again, my lovely daughter cheerful and full of life. Her large, firm, tear-drop breasts mashed my chest as I stared over her shoulder at the purse on the counter.

End.
